

xB, xD, tC MODEL YEAR 2008 / WINTER/SPRING 2008 / SCION.COM

SCION

A NATURAL SELECTION

Your car should be more than just a method of transportation – it should be a vehicle for expression. Every Scion starts out fully loaded with superior standard features. With our numerous accessories, you choose where to take it from there. At Scion we are passionate about giving drivers the flexibility to customize and build a ride that is distinctly their own. With all this covered under our factory warranty, you'll be free to focus on something more important – choosing the path to reach your next destination.

Standard Steering Wheel Audio Controls

Pioneer

PREMIUM AUDIO

Pioneer Premium Audio System takes the base unit and packs in additional features. Beginning with an Organic Electroluminescent (OEL) screen, the Pioneer Premium upgrade system is for the driver looking to enhance their audio experience with a splash of visual stimulation. You can download "skins" to play on the OEL screen from Pioneer's website.

http://pioneer.jp/car/oel_screensaver_studio/

Dual illumination allows you to change the faceplate lighting from a deep orange to blue. The RCA outputs (front, rear and subwoofer) ensure that you can expand with ease when you're ready to build a custom system with external amps.

The Premium Audio upgrade includes the same features as the Standard Pioneer Audio, plus:

FEATURES	DESCRIPTION
Downloadable "Skins"	"skins" for the OEL display including background pictures and more
Personalized "Skins"	create and upload your own personal "skins" using Pioneer software
Dual Illumination	dual illumination allows you to change the faceplate lighting from a deep orange to blue
RCA Outputs	front, rear, and subwoofer RCA outputs for building custom systems with external amps

SCION NAVIGATION SYSTEM

The available Scion Navigation System (SNS) ⁽⁴⁾ offers a wide range of features to help keep you on track when you're out and about. Locate specific destinations using a point of interest, address information, intersection, coordinate, or freeway search.

The SNS doesn't just help you find where you're going, it also doubles as an audio system. Plus, when you're not moving, you can take advantage of the SNS DVD capabilities to watch your favorite videos on the LCD screen. With Alpine Digital Sound Processing (DSP), you choose from five different preset equalizer curves or create your own - making sure that wherever you're headed, you control the soundscape.

visit <http://scion.com/sns> for more information

FEATURES	DESCRIPTION
iPod Compatibility ⁽¹⁾⁽²⁾	direct control from the head unit or steering wheel audio control buttons
Alpine Equalizer	nine frequency equalizer allows you to adjust and tune sound reproduction
Alpine Focus	allows you to create audio effects by moving the center of the sound field
Clear Sound Effector (CSE)	enhances compressed digital music data
Alpine Digital Sound Processing (DSP)	sound processing which emulates performances in a stadium, cathedral, an intimate club, a concert hall or live venue
Scion Sound Processing (SSP)	digital signal processing system that provides customized sound curves tuned specifically for your xB, xD or tC
Automatic Volume Adjust	will increase volume automatically to match road noise as it varies based on driving speeds and road conditions
Auxiliary Port	allows you to connect external audio sources from mp3 players to laptops
Satellite Radio Capability ⁽³⁾ 	national coverage with the satellite radio accessory and a subscription to XM or Sirius

THE PERFECT GETAWAY

WHERE SUBSTANCE MEETS STYLE

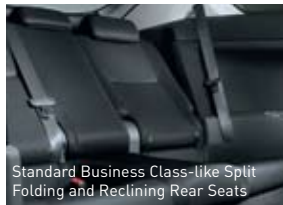

tC Interior Shown with Standard Manual Transmission

MERGING INTELLIGENT DESIGN WITH FLUID MOVEMENT, THE tC REDEFINES THE SPORTS COUPE.

Standard Power Windows /
Power Doorlocks

Standard Business Class-like Split
Folding and Reclining Rear Seats

Flush Closing Vents

Sitting low and riding wide on 17" wheels, the tC adeptly maneuvers powered by a 161 horsepower 2.4L engine. Seven airbags, including standard front and rear side curtain airbags ⁽⁵⁾, help provide peace-of-mind, while the four-wheel disc brakes with ABS and EBD offer stopping power with added control. A refreshed exterior features an aggressive front-end grille, halogen projector low beam headlights, and restyled tail lamps. On the inside you'll have an expanded worldview thanks to the first-in-class standard panoramic moonroof. The spacious interior offers room for five, including standard split folding and reclining rear seats, which allow backseat passengers to recline up to 45 degrees. With audio controls integrated into the steering wheel, the soundtrack to your drive is at your fingertips, while standard features like iPod compatibility ⁽¹⁾⁽²⁾ and a maximum 160-watt Pioneer Audio System enhance your listening experience. With all this and numerous options to customize your vehicle, the tC is the ideal convergence of substance and style.

SCION'S "PURE PRICE" EXPERIENCE MEANS NO HAGGLE, NO HASSLE

This means the price you pay for all products and services offered equals the dealership's posted and advertised price. Price menus are clearly posted in the dealership showroom for all products and services.

BUILD YOUR SCION

Log onto scion.com and go to Build Your Scion. Choose your model, transmission and color. Check out the extensive list of standard features. Pick your favorites from the accessories.

SAVE YOUR MASTERPIECE

Save your configuration on scion.com, print out a personalized e-brochure, e-mail it to the dealer of choice, or fill out an online credit application.

WHAT TO EXPECT FROM YOUR SCION DEALER

Scion delivers a "pure price" purchase experience whereby all products and services offered by dealers are menu priced.

From your vehicle to accessories to the finance rate, it's a "what you see is what you get" sales approach. It's simple, straightforward and, most important, respectful of your time.

Experience it for yourself and, if you have any questions or comments, visit us at scion.com for a live chat with one of our Scion Customer Experience representatives.

[For more information on Scion's "Pure Price" Experience contact your local Scion dealer.]

ACCESSORIES & APPAREL

When it comes to customizing your vehicle, the more options the better. With Optomize (15), Scion's accessories and apparel program, you get a wide and diverse selection of over 150 name brand auto accessories and apparel items. Optomize brings you a huge selection of components that you might typically find in a compact performance shop - from shift knobs, to under-hood accessories, to racing pedals and body kits. Whatever you're looking for, Optomize offers more avenues to explore when creating your perfect ride.

To view the full range of Optomize products, visit a Scion dealer or optomizescion.com

[Disclaimer information available on last page]

[1] iPod is a registered trademark of Apple Inc. [2] iPod not included. [3] Satellite radio requires XM or Sirius compatible receiver and monthly service fee. See your Scion dealer for further details. Reception of the satellite signal may vary depending on location. All fees and programming subject to change. Subscriptions subject to the terms and conditions available at www.xmradio.com or www.sirius.com. Available only in the 48 contiguous United States. [4] The navigation system is designed to assist in locating an address or point of interest. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available in every city or roadway. Periodic updates available at an additional cost. See your Navigation System Owner's Manual for further details. [5] All the airbag (AB) systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts, sit upright in the middle of the seat as far back as possible and do not lean against the door. Do not put objects in front of an AB or around the seatback. Do not use a rearward-facing child seat in any front passenger seat. The force of an inflating AB may cause serious injury or death. See your Owner's Manual for further information/warnings. [6] Scion Vehicle Stability Control (VSC) is an electronic system designed to help the driver maintain vehicle control under adverse conditions. It is not a substitute for safe driving practices. Factors including speed, road conditions, and driver steering input can affect whether VSC will be effective in preventing a loss of control. Please see your Owner's Manual for further instructions. [7] The Direct Tire Pressure Monitor System alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the Monitor. See your Owner's Manual for details. [8] Active headrests can help prevent or limit the extent of whiplash in certain types of rear-end collisions. [9] Many types of performance tires are expected to experience greater wear than conventional tires. Tire life may be substantially less than 20,000 miles, depending on driving conditions. Consult with your dealer when choosing tires for optional performance wheels. [10] Note that certain aftermarket equipment may not be street legal in all states and may impact your vehicle's performance or safety. [11] This part is intended for off-highway use only. [12] The tC Supercharger System is to be sold only as a dealer installed or over-the-counter option after retail sale of the vehicle. The supercharger may not be sold to the customer at the same time as the new vehicle and may not be financed together with the new vehicle. [13] The supercharger, when installed by an authorized Scion dealer, falls under the standard Scion powertrain warranty of five years or 60,000 miles, or the balance of the new car warranty, whichever is greater. When not installed by a dealer, the supercharger is covered by a 12-month, 12,000-mile parts-only warranty. The system is also emissions legal in all 50 states. [14] Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. [15] All accessories offered by Optimize will be covered by the individual manufacturer's warranty, and not the Scion factory warranty. [16] 2008 EPA estimates. For model year 2008 the EPA has revised the way the estimated fuel economy rating is determined. Actual mileage will vary. [17] Displays range, fuel consumption, and average speed. xB also includes trip timer.

Standard equipment, options, accessories, and other information is subject to change.
