THE NEW SYMBOL FOR QUALITY IN AMERICA.

# 1992 Buick Premium American Motorcars. Quality. Reliability. Value. Safety.

Warwick Hills Golf and Country Club  
For more than twenty years, Warwick Hills Golf & Country Club has been home to the Buick Open. Warwick Hills has challenged many of the golfing greats dating back to 1958.

This rolling course, with its long fairways and elevated greens, is recognized as one of the best groomed courses on the Tour. The 7,014 yard par 72 course brings out the best and the worst in players, which guarantees an exciting tournament year after year.

The Warwick Hills course was reworked from the original course layout in 1967-68 by golf architect, Joe Lee. Bunkers were added, greens were resurfaced and softened and the distance was changed from 7,280 to 7,014 yards. These efforts were essential in making the course worthy of the championship level of play that takes place at the Buick Open every year. For additional tournament information, call 1-800-878-OPEN (6736).

Exceptional value is obvious in standard Ultra features, like contoured leather in the seating areas and dual automatic ComforTemp climate control that lets driver and front-seat passenger select individual temperatures.

205-horsepower, computer-controlled supercharged 3800 V-6 is torque axis mounted for a quiet ride. The broad torque band gives you great performance and effortless cruising.

## PARK AVENUE ULTRA

There is a true feeling of quality in every square inch of Park Avenue Ultra. No wonder it has been greeted with such enthusiasm by the automotive press.

Under the hood, the supercharged 3800 V-6 engine puts you in total command of the highway. As reliable as it is powerful, a comprehensive customer-based survey found it to be one of America's most trouble-free engines.\*

Inside, Ultra's elegant wraparound instrument panel continues into the door panels and complements other interior luxuries such as the leather-wrapped steering wheel and premium sound system. Controls are clearly marked and gauges provide an easy read of critical information.

Park Avenue Ultra's one-piece body sides and solid construction lend an overall feeling of solidity. As in all Buick motorcars, crush initiators are built in to help reduce the amount of occupant impact during a front or rear accident.

Adding to that feeling of security are anti-lock brakes, driver air bag, self-sealing tires and PASS-Key®, a theft-deterrent system; all standard equipment.

Park Avenue interior in the available Sierra grain Ultra Soft leather and doeskin vinyl.

Instrument panel offers optional backlit analog gages and well-placed switches. The driver air bag is standard.

## PARK AVENUE

It took the craftsmanship of engineers to improve on the level of quality already inherent in Park Avenue.

The design philosophy behind the 1992 edition called for a close look at 400 features of competitive luxury cars...foreign and domestic. The goal was to achieve "equal or better" engineering on all counts.

The result is a sleek body with a low 0.31 drag coefficient which improves wind noise reduction. Attention to details like the shape of the windshield, mirrors and windows made it possible.

Innovative technology blends 3.8-litres of V-6 power with an electronically-controlled 4-speed automatic transmission with overdrive, to transfer power to pavement smoothly and quietly.

Park Avenue's interior is thoroughly luxurious; from the plush, 6-way adjustable driver's seat to easy-to-read gages and convenient controls.

### Westchester Country Club

The historic Westchester Country Club, located in the quiet town of Rye, New York, is the site of the 1992 Buick Classic.

The hilly, heavily-wooded course is uniquely challenging. To watch the crowning of this year's Buick Classic champion in person, call 1-800-765-4PGA (4742).

# 1992 Buick Premium American Motorcars. Quality. Reliability. Value. Safety.

Delco Electronics - Optional CD player and electronic touch climate control air conditioning system; easy listening in cool comfort.

These Ultra Soft leather seats are available with your Roadmaster.

The analog instrument panel provides quick and complete information for oil, coolant temperature, volts and a trip odometer.

## ROADMASTER

The classic nameplate for premium quality Buicks has returned, and with it has come big car riding comfort you may have thought you would never experience again.

Roadmaster is an unmistakably full-frame, rear-wheel drive road sedan with a powerful 180-horsepower, 5.7-litre fuel-injected V-8 that puts a lot of power on the pavement. DynaRide suspension and the 4-speed automatic transmission with over-drive smooth out the ride.

The Roadmaster is available in two models: Roadmaster Sedan and Limited Sedan. Both models feature the safety of anti-lock brakes, driver air bag and rear-door security locks.

You'll find unmistakable quality in features such as the Limited's 6-way power seats for both driver and passenger, remote keyless entry, air conditioning with electronic touch climate control, and deluxe stereo with cassette player — all standard.

And all at a price that underscores true Buick value.

Delco Electronics - Optional dual ComforTemp climate control allows right front-seat passenger to select individual temperature.

Delco Electronics - Anti-lock brakes are standard on Gran Sport.

Regal Limited Sedan features the added safety of standard anti-lock brakes.

Available, easy-to-use, steering wheel radio controls on the Limited Sedan are just a fingertip away.

Regal Gran Sport with 16-inch aluminum wheels.

## REGAL SEDAN

The unmistakable quality you feel in the ride comes from Regal's standard 3.1-litre V-6, 4-wheel independent suspension, and 4-wheel disc brakes. Interior features like plush carpeting, air conditioning, deluxe stereo with seek and scan, TILT-WHEEL™ steering, and power door locks – all standard – emphasize Regal Limited's value.

Est. CITY HIGHWAY

## REGAL GRAN SPORT

April, 1991, *Car and Driver* magazine said, "The taut structure...and the chassis tuning make the Buick Regal Gran Sport one of the best behaved American cars ever."

To the already impressive Regal package, Gran Sport adds a 3800 V-6 engine with tuned-port injection. It also features a Gran Touring Package, which includes special suspension and large-surface touring tires. The safety of anti-lock braking is standard.

Inside, you'll find added touches like a leather-wrapped steering wheel, analog gage instrumentation, and reclining bucket seats with an operating console.

Test drive Regal Gran Sport and feel the quality and value for yourself.

Standard Gran Sport trim features cloth and leather in the seating areas.

The standard split, folding rear seat allows you to carry long, bulky items.

The expressively styled, all-new Skylark Sedan.

Skylark Gran Sport Coupe features 16-inch wheels and tires.

## SKYLARK SEDAN

When it comes to delivering quality and reliability synonymous with the Buick name...consider the 1992 Skylark.

A new, more powerful, fuel-injected 2.3-litre Quad OHC engine is the standard power source for the newly-styled Skylark Sedan.

But, this is a vehicle where performance and style must share the spotlight with safety and security. All Skylarks feature anti-lock brakes, power rack-and-pinion steering, energy-absorbing steering column, and power door locks with automatic locking features as standard equipment.

## SKYLARK GRAN SPORT

Skylark Gran Sport is completely redesigned this year, as much for function as for style.

The low-profile, wraparound halogen headlights, flush door handles and flush-mounted glass keep wind drag and noise to a minimum, and fuel efficiency at its maximum.\* Gran Sport is powered by the 3300 V-6 with multi-port fuel injection.

Standard in Gran Sport, and typical of the value it offers, is the push-button adjustable ride control that gives you a choice of Soft, Auto or Sport settings. Special front and rear shocks, stabilizer bars, fast-ratio power steering and large-surface, all season blackwalls add to Gran Sport's superb handling.

The Century Limited Sedan, available with remote keyless entry.

The sleekly-styled Riviera carries the authority of a 3800 V-6 tuned-port-injected engine.

Century Limited Sedan value is enhanced by rich cloth seating.

The Century offers available steering wheel radio controls.

**Callaway Gardens Golf Club**  
Callaway Gardens is 12,000 acres of floral wonderland tucked away in southern Georgia. It features three of the most beautiful golf courses in the country. Callaway Gardens' Mountain View is the scenic championship course where the Buick Southern Open will be played in September. For additional information, call 1-404-324-0411.

## CENTURY

With Buick Century, you get a feeling of quality behind the wheel, and in front of it.

Up-front there's Century's standard, proven powerplant: the transverse-mounted, electronically fuel-injected 2.5-litre engine. Behind the wheel, there's comfort for six passengers, standard air conditioning, power steering and brakes, Soft-Ray tinted glass, and much more.

One thing more, Century value means you can settle into Buick comfort and quality, at a price that's equally comfortable.

**EPA 22/31 MPG**  
Est. CITY HIGHWAY

## RIVIERA

By now you know the 1992 Buick Riviera is a head-turner. Its sleek exterior is complemented by a luxurious interior that features amenities like a 6-way power seat and automatic climate control as standard.

Beautiful! But, now meet the beauty underneath.

Anti-lock braking provides security. The 3800 V-6 with 4-speed electronically-controlled automatic transmission ensures a smooth, powerful ride. You are surrounded by 2-sided, rust-resistant steel panels, galvanized with zinc inside and out, that ensures lasting value.

**Torrey Pines Golf Course**  
Both Torrey Pines South and North Courses were chosen by Golf Digest Magazine as among the Top 50 Public Golf Courses in the United States. They are home to the Buick Invitational. For additional tournament information, call 1-619-281-GOLF (4653).

Inside the Buick LeSabre Limited:  
full-size comfort with  
sophistication and luxury.

This Limited features an optional  
backlit analog gage cluster. The safety  
of a driver air bag is standard.

Foreground, LeSabre Limited Sedan; background, LeSabre Custom Sedan.

## LESABRE

The all-new Buick LeSabre comes with plenty of reasons to see why it has been Buick's best seller.

This is the most advanced LeSabre yet, with a sophisticated 170-horsepower 3800 V-6 engine and electronically-controlled 4-speed automatic transmission adding to the smoothness of the ride.

Safety is another reason for LeSabre's popularity. Features like a brake/transmission interlock that prevents shifting out of park unless the brake is applied, anti-lock brakes (optional on Custom), standard driver air bag, and inside steel side-guard beams add to your peace of mind.

And, as with all Buicks, the LeSabre body itself is constructed with safety in mind. Body panels and frame are designed to collapse at a predetermined rate to dissipate energy in an accident, and keep occupants safe.

You'll find even more examples of Buick quality in the security features LeSabre offers: standard rear-door security locks and a standard PASS-Key® theft-deterrent system.

## Buick and Delco Electronics: Tuned In to Quality.

From its beginnings as Delco Radio Division in Kokomo, Indiana, Delco Electronics has grown to become a world leader in automotive electronics.

Slip behind the wheel of one of today's Buick motorcars, and you're literally surrounded by Delco Electronics; products from the premium audio system that gives your Buick concert sound, to the convenience of ComforTemp, a front-seat passenger's own climate control.

The fact is, Delco Electronics makes driving not only more enjoyable, but safer as well. Delco electronics computer technology is behind the controlled, sure-footed stops made possible by anti-lock brakes, and the added security of supplemental inflatable restraint systems; both standard in many 1992 Buicks.

Buick and Delco Electronics. A team that stands for automotive quality in the 1990s and beyond.
