

828 HORSE POWER

2016 N KOVŠORVETTE

THE DRIVEN EXPERIENCE!

In 1969 the muscle car wars were in full swing, with GM, Ford and Chrysler each developing their own big-block powered performance cars. Not to be outdone, Chevrolet's Central Office Production Order (COPO) system produced a limited run of Camaros with the now infamous ZL-1 all-aluminum big-block engine, and just two very rare ZL-1 factory-built Corvettes.

Now in the spirit of those awesome ZL-1 Corvettes, Specialty Vehicle Engineering introduces the 2018 Yenko/SC™ Corvette. For over 25 years, we've been a Second Stage manufacturer for GM cars and trucks, and have built over 55,000+ specialty vehicles. Only 25 of these Limited Edition 2018 Yenko Corvette Specialty Vehicles will be built and with an 825 horsepower supercharged 416 C.I.D. LT-1 powerplant, they'll go fast...literally!

LOOKS AW D I N G N I L L

The Heart and Soul of the 2018 Yenko/SC™ Corvette is Specialty Vehicle Engineering's Supercharged, custom-built 416 C.I.D. (6.8L) LT-1 Engine*. This powerhouse motor delivers 825 horsepower with 760 lb-ft of torque and features a blueprinted LT-1 Aluminum Block, computer-balanced rotating assembly including race-quality forged 4340 steel crankshaft and H-beam rods, forged aluminum pistons, CNC ported LT-1 cylinder heads, and a custom supercharger, utilizing an LT-4 fuel system and injectors.

*The Yenko/SC 825HP vehicle package is not emission legal in California, and can only be legally used while participating in sanctioned motorsports racing events.

DESTINE THE MARRU CLASSIC!

The Limited Edition 2018 Yenko/SC™ Corvette is available in coupe or convertible models with either manual or automatic transmissions in any factory Corvette color.

We based it off the Grand Sport model that includes all of the great handling, appearance, and body components featured on the Z06, to properly balance the awesome power of the 825

horsepower supercharged engine – features that include Brembo brakes with 14” rotors and 6-piston calipers in front, and 13.4” rotors with 4-piston calipers in the rear; magnetic ride control; performance calibrated stabilizer bars; limited-slip differential; dry sump oil system, 7-speed manual transmission with active rev match; available 8-speed paddle-shift automatic with specific performance calibration, wider rear fenders, plus many more Z06 performance components.

WITHER!

To extract maximum engine performance, there is no substitute for displacement and supercharging. That's why Specialty Vehicle Engineering has developed a supercharged 6.8 Liter high-output engine, based on the production 6.2 Liter LT-1 engine. This Limited Edition Yenko/SC is available exclusively through GM dealers throughout the US and Canada.
