The Wolfsburg Limited Edition Rabbit

The Wolfsburg Limited Edition Rabbit is associated with Volkswagen engineering excellence.

The Wolfsburg Limited Edition Rabbit can be ordered with a three-speed automatic transmission or a four-speed manual as standard equipment.

Standard equipment on the Wolfsburg Limited Edition Rabbit includes power windows, automatic air conditioning, steel wheel hubcaps and full wheel covers.

Extras are standard.

America's car buyers want more in their next car—more features, more value... and a lower price! That's what you'll find, you see, with quality in the Wolfsburg Limited Edition Rabbit.

All this on top of the front wheel drive and fully independent suspension that are the pride of our German engineers.

But what really increases the value of the Wolfsburg Limited Edition Rabbit is its extra standards without extra cost.

This special Rabbit begins as our most granular four-door model and adds our most luxurious velvet upholstery. We've included an automatic transmission — or our popular five-speed manual — and put variable ratio power assist on the rack and pinion steering. All standard.

Then we added water wheels and 70 series steel belted radial tires to further improve handling, and installed distinctive wheel covers for a sporty look. There's even a special Morris Berger exterior color and eight other colors, with new plastic body moldings.

So this isn't for our rugged diesel engine. Instead of the standard two-cylinder gasoline engine and, of course, with other extra cost options such as air conditioning or a sliding steel sunroof.

Before you decide on specific equipment be sure you first drive a Rabbit. That's the best way to determine how much performance and economy you want to add to its precise handling and reliability. And look closely at the fit and finish of a Rabbit. We pride ourselves on building a well-made car.

Our standards of quality may not be included in the standard features listing, perhaps they should be. They're what make Rabbits such great buys.

The Wolfsburg Limited Edition Rabbit

DIMENSIONS AND CAPACITIES

Length	155.3"
Wheelbase	94.5"
Width	63.4"
Height, unloaded	55.5"
Track, front/rear (sedans)	54.5/53.5"
Luggage capacity, seat up/down (SAE cu. ft.)	14.0/22.6

ELECTRICAL SYSTEM

Alternator, amp/hr.	65
Battery, amp/hr	45
Ignition	Electronic (breakerless)

STEERING SYSTEM

Type	Rack and Pinion
Ratio	20.8:1
Turns lock to lock	3.9
