## The Wolfsburg Limited Edition Scirocco

The Wolfsburg crest has long been associated with Volkswagen engineering and craftsmanship.

Standard features include dual electric mirrors, a AM/FM stereo cassette radio and a leather boot for the five-speed shift.

### For people who are hungry for power.

In a sports car that, according to Car and Driver, "...exudes a special tingle that serious drivers will feel in their bones," Volkswagen engineers have added even greater performance.

This Wolfsburg Limited Edition Scirocco is a responsive car with quick off-the-line acceleration and highway passing power. This exhilaration is matched with first-rate drivability from its fuel-injected engine, a larger 1.8 litre overhead cam design producing 90 horsepower. The Scirocco even sounds aggressive, its free-breathing engine is coupled to a tuned exhaust system that lets you know there's power under the hood.

To get this increased power to the road we've equipped it with a special 5-speed transmission with close ratio gearing. This feature lets the driver select the gear that best optimizes the engine's power.

And this special Scirocco has all-black trim to go along with its sporty good looks. The extraordinary design incorporates a light weight unitized body with computer-aided styling. And the attention to aerodynamics contributes to excellent road holding and cornering.

The Scirocco has front wheel drive that's been further refined for this sleek sports car, along with a fully independent, road-gripping suspension incorporating front and rear stabilizer bars, front MacPherson struts with special valving and higher rate rear springs.

Equally impressive is the precise rack and pinion steering, a sophisticated system providing excellent "feel" through the leather-wrapped wheel as the road winds beneath low-profile steel belted radial tires mounted on alloy wheels. A power brake system features ventilated front discs for suver stopping with less fade.

It's a combination of engineering features that prompted Popular Mechanics to note Scirocco's "flawless handling... and super ride quality."

Now we come to the highly styled interior of this Wolfsburg Limited Edition Scirocco. Black leather seating surfaces enhance the bolstered sports seats supplying long-distance comfort. The proper and most comfortable driving positions are easily found - as the driver can angle both the seat cushion and backrest.

The 2 + 2 configuration includes a split-folding rear seat and an ample storage area hidden by a cover that lifts as the rear hatch is raised.

Ergonomics also play a part in making the Scirocco so desirable. Ventilation and temperature controls, the standard stereo cassette radio and

A superbly engineered and handsomely equipped  
German sports car at a remarkable price.

The Wolfsburg Limited Edition Scirocco features a leather-wrapped steering wheel flanked by fingertip-operated controls.

dual electric mirrors controls are marked for easy operation.

The best news is that all these features come in the lowest priced German sports car. The Wolfsburg Limited Edition Scirocco represents a unique combination of values that have long exemplified German engineering and craftsmanship.

But it's how it acts on the road that determines how good a sports car it really is — and how its attributes set it apart. Test drive a Scirocco to find out how its performance and good looks will make you want one of your own. It's available in Zermatt Silver, Black Metallic or Mars Red with a minimum of options: air conditioning, power windows and a rear window wiper/washer. Also optional is a new sunroof.

But neither the impressive standard features nor the optional equipment are the most compelling reason to select this special Scirocco. Rather, it's the value and excitement this fine road car represents. At a time when automakers are promoting cars of ordinary achievement, Volkswagen offers something far more dramatic: Performance without compromise.

#### DIMENSIONS AND CAPACITIES

Length	165.7"
Wheelbase	94.5"
Width	64.0"
Height, unloaded	51.4"
Track, front/rear	54.7"/53.5"
Luggage capacity, seat up/down (DIN cu. ft.)	14.6/23.7
Fuel tank	10.6 gal.

#### STEERING AND SUSPENSION

Steering	Rack and pinion with negative roll radius
Ratio	20.8:1
Turning circle (curb to curb)	31.2'
Turns lock to lock	3.9
Front suspension	MacPherson strut with coil springs and telescopic shock absorbers
Rear suspension	Independent stabilizer axle with trailing arms, coil springs and telescopic shock absorbers

#### BRAKE SYSTEM

Type	Ventilated front discs — 9.4" Rear drums — 7.1"
Power Assist Handbrake	Standard Mechanical on rear wheels

#### ENGINE SPECIFICATIONS

Type	SOHC 4-cylinder in-line
Induction	CIS fuel injection
Displacement, cu. in./cc.	109/1780
Compression ratio	8.5:1
BHP (SAE net) @ rpm	90 @ 5,500
Torque (SAE net) ft. lbs. @ rpm	100 @ 3,000
Fuel required	Unleaded

#### ELECTRICAL SYSTEM

Ignition	Breakerless transistorized
Battery	12V/45 amp/hr
Alternator	14V/65 amp max.

#### DRIVE TRAIN

Type	Front wheel drive
Transmission	5-speed manual
Ratios: 1st	3.45:1
2nd	2.12:1
3rd	1.44:1
4th	1.13:1
5th	0.91:1
Reverse	3.17:1
Final drive	3.89:1

#### WHEELS AND TIRES

Rim type/size	Light alloy 5½J x 13
Tire type	Steel-belted radial
Tire size	175/70R13

Nothing else is a Volkswagen.

Volkswagen of America, Inc., believes the specifications in this brochure to be correct at the time of printing. Specifications, standard equipment and options are subject to change without notice. Some options may be unavailable when your car is built. Please ask your dealer for advice concerning current availability of options and verify that your car includes the optional equipment you ordered. Some of the vehicles in this brochure are shown with items which are optional at extra cost. See your dealer for details.
