When Volkswagen brought back open-air touring, they did it with great style. Our German engineers just didn't put the wind in your hair; they also put performance in your grasp. They've equipped the Cabriolet with a spirited fuel-injected engine, as well as with the latest in German automotive technology.

For 1988, they've added body-colored integrated bumpers, aprons, wheelhouse flares and rocker moldings. Plus a redesigned front grille with dual halogen headlamps. So when you put the top down, you'll be able to enjoy many miles of stylish performance and fun in the sun.

A true convertible from top to bottom.

The Cabriolet is crafted by the master builders at Karmann Coachworks as a true convertible from the ground up.

Their attention to detail is particularly reassuring.

Consider the fact that they utilize special structural reinforcements in the body to help maximize its strength. Examine the hand-fitted, three-layer top and you'll see that it's insulated, padded and has a heated glass rear window. They also cleverly designed the roof to fold easily and fit neatly in its own storage boot.

**German Engineering,
The Volkswagen Way.**

Our engineers build the Cabriolet only one way,

the Volkswagen Way. They use contemporary automotive technology to create a natural relationship between car and driver. This harmony and balance can also be seen and felt in its ergonomically sensitive

the only way. The right way. They strive to give a driver what he needs as well as what he wants. In the end, you are rewarded with a more gratifying ownership experience.

The Volkswagen Way. A heritage and a philosophy that explains why our cars look, feel and drive like no other cars on the road.

We back the Cabriolet.

The craftsmanship of the Cabriolet has led us to provide a Protection Plan that should inspire confidence in your car. Rather than just a "drive-train" warranty, your new Cabriolet is protected by a 3-year/24,000-mile limited warranty against defects in materials and workmanship. And a 6-year limited warranty is provided against corrosion perforation.

A nationwide network of authorized Volkswagen dealers stands ready to provide you with parts and service to help make your Volkswagen as pleasurable in the future as it was the first day you owned it.

Electronic sensors accurately measure physical quantities such as pressure, temperature or rate of flow in the engine.

CABRIOLET:
The finest performance under the sun.

**CABRIOLET
BEST SELLER:**
When it comes
to fun
in a Cabriolet,
the city's
the best.

The interior of the Cabriolet is designed to brighten every driving moment. The sporty cockpit will quickly put you in a performance frame of mind. All instrumentation can be read at a glance. And the fully reclining bucket seats, upholstered in a handsome woven cloth, are ready to offer solid support when the performance gets lively.

To add to the pleasure of your open-air tour, our engineers have also included a wide range of standard comfort features. Like an AM/FM stereo cassette with 4 speakers, cassette storage box, and an anti-theft feature. Dual remote controlled mirrors. Tinted glass. Plus a rear seat that folds for easy trunk access.

If you choose the Cabriolet "Best Seller," you'll be treated to specially upholstered sport seats and a leather-wrapped steering wheel and shift knob. Outside, you'll be distinguished by sporty alloy wheels and unique exterior paint and roof color combinations.

Open it up and take off.

Few driving experiences are as thrilling as racing the wind in a convertible. And few cars do it with as much exhilaration as the Cabriolet.

The power behind the performance is a spirited 1.8 liter fuel-injected engine teamed with a 5 speed close-ratio transmission. The Cabriolet's fun-loving handling and stable maneuverability is the direct result of contemporary automotive technology. It is equipped with an independent sport suspension with front and rear stabilizer bars. Rack and pinion steering. Front vented power disc brakes. And front-wheel drive.

With this kind of performance at your fingertips, you'll find yourself heading for the hills and looking for the most tortuous roads you can find.

**Cabriolet's
5-speed close-
ratio manual
transmission
helps optimize
power output,
smooth shifting
and faster
acceleration.**

The distinctive styling of the Cabriolet "Boutique" sets it apart from every other convertible on the road.

The Cabriolet "Boutique" is available in only one color: gleaming Alpine White. The color is tastefully coordinated through the entire car.

On the outside, the sporty 14" alloy wheels, integrated bumpers, aprons, rocker moldings, fender flares, mirror housings and convertible top all reflect the color

inside, you're

greeted by a leather sport steering wheel and shift knob. You're then invited to relax in fully reclining bucket seats covered in supple white leather. The seats are made even more comfortable with height adjustment for both driver and passenger. White leatherette door trim panels add the finishing touch.

Handle the road with care.

The Cabriolet "Boutique" is just as exciting to drive as it is to look at. Equipped with power rack and pinion steering, it shares the same sporty 1.8 liter fuel injected engine as the other Cabriolets, as well as the same long list of standard comforts to help make your performance as pleasurable as possible.

Fully reclining, height adjustable white leather sport seats are standard on the Cabriolet Boutique.

CABRIOLET BOUTIQUE: White is always cool in the sun.
