VANAGON GL
GL CABRIOLET

olkswagen is famous for getting a lot into a little. By applying this principle to the Vanagon GL and Camper GL, Volkswagen has created vehicles which are paragons of versatility and practicality.

In a world that is full of too-mini-vans and maxi-vans, both the Vanagon GL and Camper GL stand out for their unmistakable originality.

**The pleasure isn't
left on.**

Since our German engineers were responsible for pioneering the development of the passenger van, they have also accepted the responsibility to improve both the Vanagon GL and Camper GL by driving them along the leading edge of advanced technology and practical innovation.

The Vanagon GL does more than offer an immense amount of carrying capacity. It also transports both people and cargo in absolute comfort. The Camper GL is so thoughtfully furnished with domestic amenities, that even those who want to get away from it all may not miss the comforts of home.

**German Engineering.
The Volkswagen Way.**

Our engineers built the Vanagon GL and Camper GL only one way, the Volkswagen Way. They make sure that

every element, from their contemporary performance features to their graciously appointed interiors, all work together to achieve a natural harmony between driver and van. They also engineer into each Vanagon

Electronic sensors accurately measure physical quantities such as pressure, temperature or rate of flow in the engine.

the kind of affordability that has always been a part of the Volkswagen tradition.

Building cars the Volkswagen Way sets us apart from every other car maker in the world. For our engineers, it is the only way. The right way. They strive to give a driver

Vanagon GL's manufacturing and assembly takes place at Volkswagen's facilities in Hannover, West Germany.

what he needs as well as what he wants. In the end, you are rewarded with a more gratifying ownership experience.

The Volkswagen Way. A heritage and a philosophy that explains why our cars look, feel and drive like no other cars on the road.

We back the Vanagon.

The craftsmanship of the Vanagon has led us to provide a Protection Plan that should inspire confidence in your vehicle. Rather than just a "drive-train" warranty, your new Vanagon is protected by a 3-year/24,000 mile limited warranty against defects in materials and workmanship. And a 6-year limited warranty is provided against corrosion perforation.

A nationwide network of authorized Volkswagen dealers stands ready to provide you with parts and service to help make your Volkswagen as pleasurable in the future as it was the first day you owned it.

VANAGON GL:
A large
living room
on wheels.

WAGON GL:
Plenty of space,
but hardly
any room for
improvement.

As you begin to drive the Wagon GL, you'll soon notice its power and remarkable performance.

The source for this feeling of exhilaration is twofold. One is the engine, a dynamic 2.1 liter Digifant fuel-injected powerplant that's linked to a 4-speed transmission. The other is the technology which utilizes this power. These contemporary engineering features include 4-wheel independent suspension, power rack and pinion steering and front disc brakes.

The handling is so responsive that it confidently encourages driving.

A haven of luxury.

The Wagon GL offers a spaciousness that makes the mini-vans look truly mini. There's more than enough room for seven passengers, plus an immense 48.7 cubic feet of cargo space. To create even more room, the rear seat folds down to provide extra storage.

This giant carry-all carries its theme of luxury throughout the richly appointed interior. All seating is covered in plush velour, with the driver and front passenger enjoying deep-contoured bucket seats with fold-down, adjustable armrests. Standard amenities extend to a padded dash with an illuminated, lockable glovebox, and continue with a rear window defogger, intermittent wipers, tinted glass and see-through headrests.

Sliding side windows let the summer air in, while a front and rear heater with a flow-through ventilation system will keep the winter chill out. A wide sliding side door makes entering and exiting easy, while wall-to-wall windows let you enjoy a panoramic view

Wagon GL provides 48.7 cu. ft. of cargo space, and an impressive 201 cu. ft. with the rear seat down and center seat removed.

RAMBLER DL:
A unique blend
of practicality and
performance.

The Camper GL is as practical around the house as it is in the wild. During the week you can drive it around town or even commute to work in it. On weekends, you can head for the camp grounds and get away from it all.

But you don't have to wait until

you're in the country to enjoy yourself in the Camper GL. The fun starts as soon as you hit the road.

A mobile home

that really moves.

The Camper GL provides the kind of power and

performance you don't expect to find residing in a big, roomy home on wheels.

The powerplant that generates all this energy is a 2.1 liter Digifant fuel-injected engine coupled to a 4-speed transmission. Power becomes performance through a series of contemporary German engineering features.

Vauxhall GL's 2.1 liter Digifant engine creates a maximum horsepower of 88 @ 4,800 RPM's and maximum torque of 117.3 ft. lbs. @ 2,200 RPM's.

This technology includes 4-wheel independent suspension. Power rack and pinion steering. Power front disc brakes. And rear-wheel drive.

Vauxhall GL CAMPER.
Move your
house to a new
neighborhood
whenever you
want.

**WAGON GL
CAMPER.**
You'll never
leave
home again.

No matter how far from civilization you roam, you're never far from home with the Camper GL. Practically everything you need for complete domestic bliss is within reach.

If you need more space, you can expand your living room with the unique pop-top roof complete with a cheerful skylight. Dining can be as simple or as elaborate as you wish. You can prepare gourmet meals in a kitchenette complete with sink, stove and refrigerator. Then dine in the gracious comfort of front bucket seats which swivel to face swing-out tables. And when you're ready to retire, you'll enjoy the luxury of two double-bedded sleeping areas.

If you never leave the comfort of the Camper GL, you'll feel like you never left home.

Domestication in the wild.

The Camper GL is so thoughtfully and cleverly furnished that you sometimes wonder if you're really roughing it.

There's outside water and electric hook-ups. And storage space galore. Inside, you'll find a 2-door clothes locker. Overhead cabinet. Pantry with storage drawers. Plus, several other storage cabinets. Outside, a roof-top storage rack adds to your carrying capacity.

As you look around, you'll see that our German engineers thought of just about everything. They made the carpeting conveniently removable. Added curtains for privacy. And installed a fire extinguisher for extra security.

Whoever said there's no place like home obviously never spent much time in a Camper GL.
