

The all-new 2007
BMW X5

X5 3.0si
X5 4.8i

The Ultimate
Driving Machine®

The all-new BMW X5 for 2007:
a perfect balance of everything that matters.

X5: A look so exhilarating,
the scenery becomes a blur.

Designing the X5, BMW pulled out the stops – so you wouldn't have to.

The newest performance technologies —
so you can tackle the oldest of roads.

The cockpit: created to deliver a commanding perspective on the X5's commanding performance.

Great ideas – even in the smallest details.

Xenon Adaptive Headlights light up the road with brilliant clarity. **Adaptive Headlights** illuminate the road around curves based on steering wheel input, as do **Cornering Lights**, a new feature that uses a reflector in the foglight housing to provide more lateral illumination. **Corona light rings** function as daytime driving lights and parking lights.

The optional **Panoramic moonroof** features two-piece glass panels. The larger section slides open at the touch of a button; each panel can be tilted up at the rear for draft-free ventilation. Or close the power-operated sun protection blind for cool shade.

Large, tinted **side-view mirrors** offer excellent all-around visibility. The right-side mirror tilts down automatically when in reverse, making parallel parking a breeze; a memory setting is also standard. When equipped with the Premium Package, the side-view mirrors are automatic-dimming, with a power fold-in function.

The **dual exhaust tailpipes** of the X5 4.8i add the sparkle of oval chrome-plated tips; on the X5 3.0si, they feature handsome, round stainless steel tailpipe tips.

The optional **Head-up Display** projects important travel data, such as current speed, navigation system directions, cruise control, etc., on the windshield in your line of vision. In addition to selecting data and screen brightness, the X5 lets you adjust the height of the display, to concentrate fully on the road. (Not available with green band windshield.)

The optional **rear-seat entertainment system** lets you watch DVDs on an 8-inch color LCD screen, or listen to CDs through headphone jacks. The system includes a wireless remote control, two headphone jacks and an external video source connection; supports wireless headsets.

Programmable memory keys allow the driver to store six favorite settings for radio stations, navigation system directions,¹ telephone numbers¹ and more, on easily accessible buttons.

Optional **third row seats**² offer two forward-facing, individually folding seats that give the X5 the ability to transport up to seven occupants. They can also be folded down for a flexible mix of passengers and cargo space.

¹If so equipped.

²Optional third row seats upholstered in Nevada Leather.

Introducing two new engines that rocket to 60 in short order.

There are many reasons why the all-new X5 4.8i and X5 3.0si SAVs drive more like sports cars than SUVs. Chief among these are two new engines for the X5s that will make paved highways beckon like back roads: a 350-horsepower V-8 and a 260-horsepower inline six.

Compared to their predecessors, both the V-8 and the inline six deliver 35 more horses. But the real miracle is that with all this added power, they deliver greater fuel efficiency, too. BMW's revolutionary Valvetronic electronic valve control system uses variable valve lift to let the engines "breathe" more easily, enabling both engines to squeeze more miles from each drop of gas. Whether you're hauling a trailer up a steep hill or cruising through town, BMW's Double-VANOS technology "steplessly" selects the best intake and exhaust valve timings to keep the engines running smooth and clean, with quick and potent acceleration on command.

Driving the new X5 4.8i is an exercise in absolute power – with plenty in reserve. Its 4.8-liter V-8 wields the irresistible force of 350 lb-ft of torque, and 350 horses that sprint from 0-60 in 6.4 seconds.¹

The new X5 3.0si's inline six-cylinder makes good use of BMW's lightweight magnesium/aluminum composite crankcase. Calling on 260 horses and 225 lb-ft of torque, this ultra-smooth engine launches the X5 3.0si to 60 mph in 7.8 seconds.¹

Helping both models attain dramatic acceleration with greater fuel efficiency is a 6-speed STEPTRONIC automatic transmission with new E-Shift technology. Gear changes are smoother and quicker, and the new automatic transmission lever cleverly frees up more storage space – adding to the pleasure of your X5 driving experience.

¹ BMW AG test results. Obey local speed laws and always wear safety belts.

The pages in this section of the brochure show available colors and materials for the BMW X5. Use these samples to compare paint, upholstery and trim colors and combinations. Please note that these samples are representations; they are not exact reproductions. To see the actual colors, visit your local BMW center. They will be happy to show you original samples and assist you with special requests.
