The 2008 BMW X5.
A perfect balance of everything that matters.

The 2008 BMW X5.
The second generation of the first in its class.

The newest performance technologies –
so you can tackle the oldest of roads.

More room for everything – including fun.

The cockpit: created to deliver a commanding perspective on the X5's enthralling performance.

All paint colors are standard on the X5 4.8i and X5 3.0si.

¹ Standard in X5 3.0si; not available in X5 4.8i.

² Standard in X5 4.8i; optional in X5 3.0si and included in X5 3.0si Premium Package.

³ Perforated Leather must be ordered with optional Active Ventilated Seat Package.

No-cost option in X5 4.8i; optional in X5 3.0si and no-cost option if Premium Package is ordered.

⁴ Optional in X5 4.8i and X5 3.0si. Requires optional Sport Package or optional multi-contour seats.

⁵ Standard in X5 3.0 and X5 4.8i.

⁶ No-cost option.

■ Standard

□ Optional

■ **Xenon Adaptive Headlights** optimize road illumination when the X5 enters a curve or bend, helping to enhance visibility when driving at night. Sensors continuously monitor the angle of the steering wheel to determine the direction in which the X5 is heading. The outer headlights swivel accordingly, up to 15 degrees left or right.

Xenon low- and high-beam headlights illuminate the road ahead and to the side with brilliant clarity. An auto-leveling feature adjusts for varying passenger and cargo loads. The **Corona headlight-rings** that circle both headlights and high beams also act separately as Daytime Running Lights and parking lights.

■ Standard

□ Optional

□ **Running boards**, designed to add to the X5's overall visual appeal, make it easy for passengers to enter and exit the X5 with comfort.

■ **Halogen free-form foglights** are cleanly integrated into the front air dam, illuminating the road ahead in bad weather and poor visibility. They also provide another practical feature, **Cornering Lighting**. When the system senses you are making a turn – based on your steering angle and speed – a reflector mechanism in the foglight housing casts additional lighting up to 90 degrees in the direction of the turn. This enhances visibility and recognition of people and objects.

■ **Roof rails**, cleanly integrated with the X5's design, provide the foundation for BMW's (accessory) modular roof rack system.

■ **Dual polished chrome exhaust tips** add a gleaming touch to the rear of the X5, enhancing its sporty appearance. On the X5 4.8i (shown), the exhaust tips are oval; on the X5 3.0si, round.

■ Standard

□ Optional

■ **18 x 8.5 Star Spoke (Style 210)** light alloy wheels and **255/55 run-flat all-season tires** are standard on the X5 3.0si.

■ **18 x 8.5 Star Spoke (Style 209)** light alloy wheels and **255/55 run-flat all-season tires** are standard on the X5 4.8i.

□ **19 x 9.0 Star Spoke (Style 212)** light alloy wheels and **255/50 run-flat all-season tires** (included in optional X5 3.0si Sport Package)

□ **19 x 9.0 Y Spoke (Style 211)** light alloy wheels and **255/50 run-flat all-season tires** (included in optional X5 4.8i Sport Package)

□ **20 x 10.0 front/20 x 11.0 rear Y Spoke (Style 214)** light alloy wheels and **275/40 front and 315/35 rear run-flat performance tires**¹ are available as an option when ordering the optional X5 4.8i Sport Package. (not available on X5 3.0si)

¹ Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow conditions.

Please note: In the X5, a space-saver spare is standard with run-flat tires. However, the space-saver spare is not available with optional third-row seats.

■ Standard

□ Optional

■ A three-spoke power tilt/telescopic **leather-wrapped multi-function steering wheel** lets you keep both hands on the wheel while adjusting audio settings, cruise control and the **Bluetooth**-compatible phone.

■ **Dynamic Cruise Control** lets you store and keep to a chosen speed above 20 mph, and automatically applies the brakes downhill. It is activated via the left-hand steering column switch, and deactivated by applying the brakes or via the switch.¹

¹Cruise control is not a substitute for the driver's own responsibility in adjusting speed and otherwise controlling the vehicle. Due to road, traffic and visibility conditions, the driver decides whether and how the system is used.

■ Extra-large dual-glass-panel **Panoramic moonroof** lets the sun and stars shine in, whether it is open or closed. Easy-use features include a power slide and lift control, a comfort opening/closing function, a wind deflector to help keep the wind out, and a power sunshade to shield passengers from excessive glare and heat.

■ Standard

□ Optional

□ **Park Distance Control** uses eight sensors – four in the front, four in the rear – to help you judge how close you are to other cars and unseen objects when parking. The warning beeps come faster as the bumper approaches the object, turning into a constant tone when the distance is less than 12 inches. (optional and included in the Technology Package)

■ **Auxiliary input port** lets you connect an external audio source, such as an iPod® or MP3 player.

□ **iPod and USB adaptor** let you scroll through and select the music you want by using the car's radio controls, the multi-function steering wheel buttons or iDrive Controller. Music titles are displayed on the radio or Navigation screen.

□ **Rear-seat entertainment** system lets passengers in the rear cabin watch DVDs or listen to their choice of CDs through headphone jacks. The system features a fold-down 8" color screen and headphone jacks; it can be controlled via a wireless remote control or manually by the rear-seat passengers.

□ **Heated rear seats** are a welcome feature for left and right rear-seat occupants in cooler weather. With the touch of a button, passengers can individually select their preferred level of warmth. (Must be ordered with Cold Weather Package or optional heated front seats; not available with Leatherette upholstery.)

■ Standard

□ Optional

□ **Navigation system 8.8" monitor** uses transreflective technology to greatly reduce sun glare. As a result, you enjoy vivid colors and easy-to-read type, whether in bright daylight or poor light conditions. The monitor is ergonomically positioned for minimum visual distraction while driving. In many large cities, the Navigation system can display and describe the Real Time Traffic Information around your BMW. If congestion is on your planned route, the system can often plan a detour around it. (Optional Navigation system is also included in Technology Package.)

Screen shown above is European version. U.S. screens may appear different.

Active Ventilated Seat Package¹

For the ultimate in driver and front-passenger comfort, BMW offers the Active Ventilated Seat Package. Highly supportive 20-way power multi-contour front seats are upholstered in perforated leather upholstery. The internal sections of the seats contain multiple fans that provide forced ventilation through a permeable, “sandwich” seat layer. In cooler weather, temperature-adjustable air flows through the seat and seatback, providing welcome warmth. In warmer weather, air circulates through the seat, dissipating perspiration. Combining multi-contour support, ventilation, and, in the driver’s seat, the Active function, BMW’s Active Ventilated Seat Package adds to the pleasure of travel in the X5.

¹ Requires Nevada Leather/Perforated, and must be ordered with Cold Weather Package or optional heated front seats.

Active driver's seat helps decrease stiffness or fatigue on long trips. When activated, the driver's seat surface is continuously and imperceptibly raised and lowered from side to side, keeping your spine in motion and exercising various support muscles.

20-way power multi-contour front seats² conform to your body to provide optimum support and exceptional comfort over long distances. In addition to horizontal, vertical and angled adjustments, multi-contour seats include an articulated upper backrest, backrest width, Comfort headrest (two-way power, two-way manual “relax headrest”), and four-way power-adjustable lumbar support. Both driver's and front-passenger's seats include memory function. (Optional and included in Active Ventilated Seat Package.)

² Not available with Leatherette upholstery.

Shown with Nevada Leather/Perforated upholstery.

Cold Weather Package

Whether it's driving to the slopes, or just driving errands around town, there's nothing like the feeling of heated front seats on a cold morning. Add the pleasure of a heated steering wheel on those blustery days, and you are truly ready for whatever nature has in store. High-intensity, retractable headlight washers help maintain optimal visibility in all weather and driving conditions, and the ski bag is a must for protecting skis, poles and other long objects.

High-intensity retractable headlight washers help keep lights clean of ice, mud, road salt and other coatings, for maximum road lighting and enhanced driving visibility.

Heated steering wheel is a feature that, like heated seats, becomes a “must-have” once it's experienced. The heating switch is conveniently located on the multi-function steering wheel.

Heated front seats are a welcome feature in cooler weather. With the touch of a button, driver and front passenger can individually select from three heat settings.

Ski bag allows for clean transport of up to four pairs of skis with up to four occupants in the vehicle. Whenever the ski bag is not in use, it remains stored conveniently and discreetly behind the rear center armrest.

Technology Package

Enjoy the full benefits of today's automotive technology. Use Voice Activation to command the Navigation system to direct you anywhere in the U.S., then view the directions on the 8.8" color display – or listen as it directs you verbally. The system also provides Real Time Traffic Information to warn you of possible traffic congestion ahead, and can even offer optional routes to avoid the back-ups. Backing up is equally easy, thanks to Park Distance Control. And maneuvering into tight parking spaces is now a breeze, thanks to the rear-view camera that not only provides a wide-angle color image of what's behind your rear bumper, but also offers tracking guidance when backing up.

Rear-view camera is activated automatically by shifting into reverse gear, or manually by pressing the parking-assist button. The color display shows a real camera image that may include “static” and “track” lines to help you when backing up or parallel parking. The camera also has zoom functions, and a “docking line” that helps guide your approach to the towing hitch of a trailer.

Large navigation screen linked with the Navigation system renders clear images and text. The surface of this new-generation display is equipped with transreflective technology – ensuring legibility by automatically making adjustments to the brightness or background lighting in bright- or poor-light conditions.

Screen shown above is European version. U.S. screens may appear different.

Park Distance Control, front and rear, makes parking and maneuvering in tight spaces easy. The sensors emit a beeping sound as they approach another vehicle or object. The signal increases in intensity the closer your bumper gets to the object.

Voice Activation lets you verbally control numerous Navigation system functions, and dial phone numbers hands-free. The Voice Activation button must be pressed before each use, so conversations won't accidentally activate the phone or other systems.

Premium Sound Package

Whatever your preference in music, you can enjoy the extraordinary listening experience of the Premium high-fidelity audio system and six-disc DVD changer. An equalizing method used in professional studio applications has been fitted into the X5, and the integration of 16 speakers with elaborate signal processing leads to optimal sound reproduction at all seating locations.

Premium high-fidelity system is a multi-channel system that outputs reproduction of the surround information contained in the stereo signal in a nine-channel format (seven medium-high range channels and two central bass channels). The 16-speaker system is comprised of one center bass speaker sub-woofer below each front seat; one mid-range and one high-range speaker each in the door trim panels; one mid-range and one high-range speaker each in the D-pillar; one mid-range and one high-range speaker in the instrument panel (center channel); and a digital amplifier with nine channels and 600-watt output (7 x 50 watts + 2 x 125 watts). All speakers are fitted with very strong, yet compact Neodymium drives. The system also compensates for driving noise in smooth steps by speed-dependent equalizing in the low range.

DVD changer, located in the glovebox, accommodates six discs, as well as single-feed. The easily accessible six-disc changer supports multi-channel sources, and plays compressed audio formats (MP3, WMA, etc.) When equipped with the optional Navigation system, the DVD changer can also play video on the iDrive screen when the vehicle is stationary.

Premium Package

The X5 Premium Package is filled with comfort and convenience features that will enhance your driving experience every day, such as a storage package that includes floor tracks; a digital compass that helps keep you on track to your driving destination; and automatic-dimming rear- and side-view mirrors that cut headlight glare. Enjoy the added seating comfort of lumbar support; the convenience of a Universal garage-door opener; and the peace of mind of BMW Assist™ with **Bluetooth**® wireless communication system. And in the X5 3.0si, you'll appreciate the luxury of Nevada Leather¹ or no-cost optional Nevada Leather/Perforated upholstery.²

¹ Standard in the X5 4.8i.

² Requires optional Active Ventilated Seat Package.

Nevada Leather upholstery, available in a choice of four colors, cradles driver and passengers in soft gathered comfort. Durable and easy to maintain, Nevada Leather adds elegance and refinement.

Lumbar support for front seats adds four-way power-adjustable comfort for the lower back. Lumbar support can be adjusted up/down and in/out.

BMW Assist™³ and **Bluetooth**® system offers hands-free calling through your BMW-approved **Bluetooth** phone. The BMW Assist Safety Plan includes Automatic Collision Notification, Emergency Request, Enhanced Roadside Assistance, Remote Door Unlock, TeleService and more. Also available is an optional Convenience Plan with Directions, Weather, Critical Calling and Concierge service.

³See page 74 for details of standard and optional services available with BMW Assist.

The **automatic-dimming inside rear-view mirror** darkens in response to the bright headlights of vehicles behind you. An easy-to-read **digital compass**, integrated into the mirror, is a convenient way to constantly keep your bearings while driving. A **three-button Universal garage-door opener** can be programmed to open garage doors and activate various remote convenience functions.

Rear Climate Package

Let your rear-seat passengers create their own oasis of comfort. The Rear Climate Package offers four-zone climate control, with individual settings for the driver and front passenger, as well as left and right rear-seat passengers. Each can customize the temperature and airflow rate to their own preferences. Privacy glass and manual rear side sunshades reduce the heat and glare of the sun, helping to keep the cabin cool and glare-free while increasing passenger privacy.

Privacy glass in the rear and rear side windows enhances passenger privacy, while it reduces sun glare and interior heat.

Four-zone climate control lets front- and rear-seat occupants select their own temperature and fan settings.

Rear side sunshades keep the sun's heat and glare away from the rear cabin while maintaining your privacy. When not in use, these manually adjustable sunshades conveniently disappear into the side doors.

Sport Package

The X5 SAV[®] was made for sporty driving. Make the most of its fun-loving capabilities by adding the optional Sport Package. The 19" light alloy wheels with run-flat all-season tires are an impressive sight. To enhance driving performance, Adaptive Drive with Active Roll Stabilization and Electronic Damping Control augments the already stiff suspension to provide more precise and agile handling. Front sport seats hold you tight as you navigate turns, gripping the three-spoke, leather-wrapped sport steering wheel. An Anthracite headliner completes the interior sport décor. And optional Y Spoke (Style 214) 20 x 10.0 front and 20 x 11.0 rear light alloy wheels with 275/40 front and 315/35 rear run-flat performance tires¹ are available on the X5 4.8i.

¹ Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow conditions.

Three-spoke leather-wrapped multi-function sport steering wheel, featuring power tilt/telescoping adjustments, lets you keep both hands on the wheel while adjusting controls for cruise, audio and **Bluetooth**[®]-enabled mobile phones.²

² **Bluetooth** wireless technology available as a stand-alone option; included in optional Premium Package.

10-way power front sport seats with two-way manual thigh support adjustment and driver's seat memory system make the X5 driving experience more enjoyable. Side bolsters on the seats cradle you comfortably over long distances, while holding you firmly in place during sporty driving maneuvers.

Shown with Tobacco Nevada Leather upholstery.

Anthracite headliner adds a more distinctive and sporty look to the X5 interior.

19 x 9.0 Star Spoke (Style 212) light alloy wheels and 255/50 **run-flat all-season tires** are included in the X5 3.0si Sport Package.

19 x 9.0 Y Spoke (Style 211) light alloy wheels and 255/50 **run-flat all-season tires** are included in the X5 4.8i Sport Package.

20 x 10.0 front/20 x 11.0 rear Y Spoke (Style 214) light alloy wheels and 275/40 front and 315/35 rear **run-flat performance tires**³ are available as an option when ordering the X5 4.8i Sport Package. (Not available on X5 3.0si.)

³ Due to low-profile tires, please note: wheels, tires and suspension parts are more susceptible to road hazard and consequential damages. Performance tires not recommended for driving in ice and snow conditions.

Shadowline trim replaces the front and rear side-window chrome frames and door-sill trim strips with the more rugged, sporting look of a black high-gloss finish.

Please note: In the X5, a space-saver spare is standard with run-flat tires. However, the space-saver spare is not available with optional third-row seats.

⁴ No-cost option if Premium Package is ordered.
⁵ No-cost option.
⁶ Please contact your authorized BMW SAV® center for a list of BMW-approved **Bluetooth**® technology enabled mobile phones.

⁷ Run-flat tires come with space-saver spare. No spare tire provided with optional 3rd-row seat.
⁸ Due to low profile tires, please note: wheels, tires, and suspension parts are more susceptible to road hazard and consequential damage. Performance tires not recommended for driving in snow and ice conditions.
⁹ Requires Sport Package.
¹⁰ Please note: In Nappa Leather interiors, optional 3rd-row seats are upholstered in Nappa Leather. In all other interiors, optional 3rd-row seats are upholstered in Nevada Leather.
¹¹ Not available with Leatherette; must be ordered with optional leather upholstery or Premium Package.
¹² Requires optional Navigation system or Technology Package; gray band windshield not available with Head-up Display.
¹³ For additional information, please visit your authorized BMW SAV center.

Figures in [] apply to vehicles with Sport Package and optional 20" wheels.

¹ Top speed limited electronically.

² BMW AG test results. Actual acceleration results may vary, depending on specification of vehicle; road and environmental conditions; testing procedures and driving style.

These results should be used for comparison only and verification should not be attempted on public roads. BMW urges you to obey all posted speed laws and always wear safety belts.

³ EPA-estimated figures are for comparison purposes only. Your actual mileage will vary, depending on speed, driving habits, trip length and driving conditions; actual mileage may be lower.

Illustrations above: all dimensions in inches.

BMW and the environment.

BMW is a strong proponent of the environment and social responsibility. It is important to manage the earth's resources responsibly, and not jeopardize the needs of future generations. That is why BMW makes vehicles that minimize adverse environmental impact, from production (pollution prevention and waste minimization at the plant) through owner use (low emissions) to eventual disposal (easy drainability of all fluid-related components and easy neutralization of all pyrotechnic devices).

This effort has been recognized worldwide and, as a result, we are pleased to have received numerous environmental honors. In the U.S., for example, the Environmental Protection Agency accepted BMW's Spartanburg, SC production and manufacturing facility as a charter member of the agency's National Environmental Performance Track. Internationally, BMW AG – the parent company of both BMW of North America and BMW Manufacturing Co., Spartanburg, SC – was the first automotive company to be represented on the Dow Jones Sustainability Group Index, and has remained on the Index ever since. At BMW, we strive for high performance in everything we do.
