## '91 AUTOMOTIVE ELECTRONICS

**Get to know** the Delco Electronics' exciting stereo system in your 1991 Geos. Like all Delco Electronics' factory systems, the Geo stereo system contains a Delco Electronics' ETR® receiver and speakers mounted in optimum locations for optimum sound performance.

### ETR® Stereo System

#### Option Code UM7

- **Electronic tuning**  
Provides drift-free, automatic fine-tuning
- **Electronic seek up-seek down**  
Conveniently locates and retains listenable stations on the band
- **Separate bass and treble controls**  
Provides adjustment for both low and high frequency tuning
- **Ten station presets**  
Allow set-up of five favorite stations on both the AM & FM bands

Available on: Geo Metro, Geo Storm and Geo Tracker

UM7 is also available on Geo Prizm (shown below) (same features as described above except with Electronic seek/scan instead of seek up-seek down)

ETR® is a registered trademark of Delco Electronics Corporation.

Dolby® noise reduction manufactured under license from Dolby® Laboratories Licensing Corporation. "Dolby" and the Double-D symbol are trademarks of Dolby Laboratories Licensing Corporation.

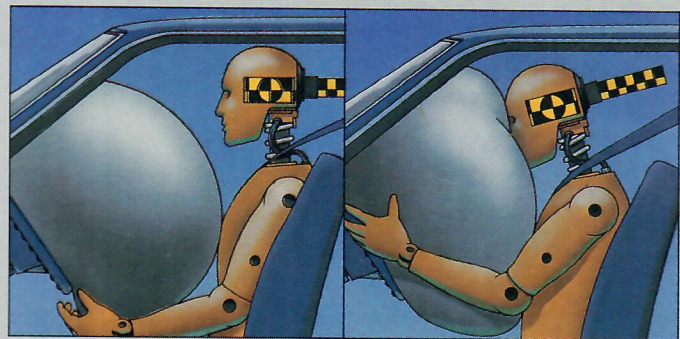

### ETR® Cassette Music System Upgrade

Try the versatility of cassette with all the features of the UM7 plus....

- **Music search**  
Locates the next music selection or repeats the previous one
- **Dolby® noise reduction** (on Geo Prizm only)  
Reduces noise on Dolby® encoded tapes

Available on: Geo Prizm (shown above), Geo Metro, Geo Storm, and Geo Tracker (shown below)

### Supplemental Inflatable Restraint System

Delco Electronics supplies the diagnostic and energy reserve module and sensors for the SIR system. When these sensors detect a frontal impact of approximately 14 mph, the SIR system inflates an air bag located in the hub of the steering wheel. This system can supplement the protection offered to the driver by safety belts.

Leading auto insurers offer insurance discounts for drivers of air-bag equipped vehicles.
