

SIMPLY CLEVER

ŠKODA

The ŠKODA Superb

Effective: April 2012

Welcome to the Superb Hatch and Estate

The Superb is a car with history dating from the 1930s. The original Superb's design was luxurious and elegant both inside and out, built to appeal to the world's leaders and royalty. Superb takes its sumptuous design cues from its earliest predecessor and builds on these strengths.

The ŠKODA design philosophy is to produce cars offering the best of both worlds - world class engines, smooth transmissions and high specifications, wrapped in distinctive, elegant and practical bodies.

The Superb takes this philosophy and develops it. It's the first car ever to have a boot which can be opened as a hatch or a saloon. It has more rear legroom than many prestige chauffeur cars, and some nifty technological advances such as AFS (adaptive front light system), touch screen technology and park assist.

Now, building on the considerable strengths of the award winning hatchback the Superb Estate is the largest and most luxurious car to ever wear the ŠKODA badge.

So now the introductions over, why not have a look at the Superb in a little more detail?

ŠKODA Superb Estate key features

Luggage compartment lighting. The boot of the Superb Estate contains some thoughtful features to make life a little easier. Two fixed lights on the inside of the tailgate illuminate the inside of the boot when open, whilst the parcel shelf retracts when touched, so you can load bags without having to put them down.

Electrically controlled fifth door. The Superb Estate is available with an optional electrically operated boot. At the touch of a button - either beside the gearstick, on the key fob (press and hold for 2 seconds) or on the boot itself, the boot will open automatically.

When you have finished loading, press the button on the inside of the tailgate and the boot will close. This system has a clever feature for when you may park somewhere with a low ceiling - the height of the boot opening can be pre-set so you don't have to worry about any unwanted scrapes and dents.

Partition system.

The Superb Estate features a very functional partition and tether system (standard on SE and Elegance). Two aluminium plates run the length of the boot and have an extendable bar to keep large items in place with a tether system to keep smaller items stowed to one side. Both the bar and tether system are removable.

Handy light. A handy LED light positioned on the inside of the boot, illuminates the large luggage area when the tailgate is opened. The light can also be removed and used as a torch. It has a magnetic back so that it can be attached in any position on the car in case you ever need to light a specific area in the dark.

ŠKODA Superb Hatch key features

Incredible space.

The Superb has an enormous 595 litres of usable space in the boot. With the seats down, the Superb offers an astonishing 1,700 litres of space. Passengers benefit from enormous amounts of legroom, more than even an S Class Mercedes.

Park assist. Optional on Superb SE, SE Plus and Elegance. Park assist is an innovative system that uses a set of ultrasonic sensors placed at various points around the car to judge the suitability of parking space before assisting in the parking manoeuvre itself.

Twindoor (Hatch only). Twindoor is ŠKODA's revolutionary boot opening mechanism which allows the boot to be opened in two different ways; as a hatch or as a saloon at the simplest touch of a button. This gives you great versatility and more practicality compared to a standard hatchback or saloon car.

Touchscreen Technology.

There are three touchscreen systems available on Superb; the 'Bolero' with integrated 6 CD changer and SD card reader (standard on SE) and the 'Columbus' or 'Amundsen' satellite navigation units with a 30Gb hard drive and SD card reader ('Amundsen' is standard on SE Plus whilst 'Columbus' is standard on Elegance and optional on SE). Each of these systems reduce the physical number of buttons on the dashboard, using an innovative and easy to follow interface. They allow the driver to control features within the car, as well as displaying information regarding the vehicle such as parking sensors, heated seats and external temperature etc.

GreenLine II

ŠKODA GreenLine II Technology

As the world becomes more environmentally sensitive, ŠKODA has responded by developing GreenLine II technology. The following information will explain the key technological features of GreenLine II and how they contribute to making a cleaner, greener customer experience, as well as reducing fuel costs for the driver and our impact on the environment. GreenLine II is available on Superb S, SE and Elegance.

1.6 TDI CR 105PS DPF. The economical four cylinder 1.6 TDI diesel engine in the GreenLine II produces just 114g/km CO₂ which means a VED band of C, which is £0 road tax for the first 12 months.

The Superb GreenLine II has an excellent combined fuel economy of 64.2 mpg.

Energy Recovery. Energy recovery is the process of converting kinetic energy (energy created through movement) back into usable electricity, which is either stored in the battery, or immediately used again by electrical components on the vehicle.

Depending on driving style, electrical energy is supplied to the vehicle by the alternator or directly by the battery. The principle of energy recovery is to reduce the load on the engine and therefore contribute to lower emissions and reduced fuel consumption.

Aerodynamics. One of the simplest ways to improve fuel efficiency and reduce emissions, is to create a more aerodynamic vehicle.

The Superb GreenLine II has a small rear boot spoiler (Hatch only) and slightly lowered suspension to facilitate better airflow.

To keep the weight and drag of the GreenLine II models down to a minimum and thus ensure the model is as efficient as possible, there is a reduced list of options available.

However, the comfort and safety of all occupants has not been compromised and so important features like airbags and air conditioning have been retained.

Low profile tyres. The Superb GreenLine II has 16" Spectrum Alloys (205/55 R16 91H) these lighter alloy wheels with low rolling resistance tyres have a higher prescribed air pressure to reduce friction.

Stop/start System. This innovative system turns off the engine when it is not needed, for example when the driver is stopped at traffic lights or in heavy traffic.

When a normal car is stationary, the engine will idle, which in turn consumes fuel and generates emissions. The Stop/start system cleverly cuts out this unnecessary work by stopping the engine automatically when the car is stationary, in neutral and the clutch pedal is released.

The Stop/start system does not inhibit a quick getaway either. As soon as the driver presses the clutch to put the vehicle in gear, the engine immediately starts up so acceleration is as instant as if the car had been idling.

Gear recommendations.

The recommended gear feature on the trip computer or Maxi-dot display shows the driver whether the gear they are in is appropriate or whether they need to change up or down.

The aim is to help the driver achieve optimum engine speed and reduce fuel consumption.

The optional equipment list on Superb GreenLine II is the same as the corresponding trim level, with some exceptions. Due to weight and power restrictions some options are unavailable on GreenLine II. Please see page 22-23 for availability information.

OTR (Recommended On The Road)

* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.

¹First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2012. First year rate or 'showroom tax' applies to new car purchases only.

²Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your ŠKODA retailer. Edition: UK 1st April 2012. VAT is calculated at 20%. For fuel consumption data, please refer to page 28.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 34.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2012/2013.

GreenLine II specification is as Superb Elegance, but with the following differences

- 16" 'Spectrum' alloys
- Optimised rolling resistance tyres (205/55 R16 91H)
- Stop/start system
- Ride height is 15mm lower to improve aerodynamics
- Energy recovery
- Small rear boot spoiler (Hatch only)
- GreenLine logo on the boot

Laurin & Klement luxury pack

We have put together a package of some premium optional extras to be included as the Laurin & Klement luxury pack for Elegance.

See pages 18-19 for details on this exclusive offer and available engines

For offers visit www.skoda.co.uk/offers

† Please see your local retailer for details of compatible mobile phones.

Only a temporary 'Space saver' spare wheel can be ordered as an option with these alloy wheels. If spare wheel is added, the tyre repair kit will be removed. Temporary 'Space saver' spare wheels are restricted to 50mph. For further details please check page 22.

Band	CO ₂ (g/km)	First 12 Months ¹	Standard VED ²
A	Up to 100	£0	£0
B	101 - 110	£0	£20
C	111 - 120	£0	£30
D	121 - 130	£0	£100

F	141 - 150	£135	£135
G	151 - 165	£170	£170
H	166 - 175	£275	£195
I	176 - 185	£325	£215
J	186 - 200	£460	£250
K	201 - 225	£600	£270
L	226 - 255	£815	£460
M	Over 255	£1,030	£475

OTR (Recommended On The Road)

* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current ŠKODA UK stock. The VED bands are shown in the table opposite.

¹First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2012. First year rate or 'showroom tax' applies to new car purchases only.

²Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your ŠKODA retailer. Edition: UK 1st April 2012. VAT is calculated at 20%. For fuel consumption data, please refer to page 28.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 34.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2012/2013.

The ŠKODA Superb Elegance Laurin & Klement Luxury pack

Brown leather upholstery with Piano black decorative inserts

The Superb Elegance is luxurious and elegant both inside and out. With our new L&K luxury pack we are able to offer much greater levels of specification whilst maintaining outstanding value for money.

Laurin & Klement pack includes:

- 18" 'Sirius' bi-colour alloys (7.5J x 18" 225/40 R18 92Y)
- 10 speaker sound system
- Boot net
- Brown leather upholstery with Piano black decorative inserts
- Floor mats
- Heated rear seats
- Panoramic sunroof (Estate only)
- Park assist (includes front and rear parking sensors)
- Sunset glass
- TV tuner (showing digital and analogue TV on the Columbus satellite navigation display when the car is stationary. When the car is moving (over 6km/h), the TV audio is played without visual.)
- Ventilated front seats
- L&K plaque on wheel arch & scuff plates
- LED rear brake lights (Hatch only)

♦ Not available on GreenLine II

♦♦ Not available in conjunction with L&K package

◊ For terms and conditions please see page 35

* TMC (Traffic Message Channel) - alerts the driver to traffic problems on major roads and enables optional re-routing.

** Provides a single electrics solution - unsuitable for split charging.

*** Temporary steel wheels and 'Space saver' spare wheels are restricted to 50mph

† Please see your local retailer for a list of up-to date compatible phones.

†† Bolero radio includes 6CD changer as standard. This option is only available with Columbus.

††† On Estate, must be ordered with variable boot floor or aluminium floor plates.

□ Where law permits.

Power transmission

Clutch Hydraulically-activated single-plate dry clutch with diaphragm spring, asbestos-free coating.

Manual transmission Five-speed manual transmission, fully synchronised with direct gearshift, six speed manual transmission.

6 spd DSG transmission - two coaxial wet multiple-disc clutch, electro-hydraulically operated.

7 spd DSG transmission - two coaxial dry multiple-disc clutch, electro-hydraulically operated.

Please note: With all manual gear boxes the clutch needs to be depressed to start the engine.

Number of gears

5 Speed Manual 1.6 TDI, 1.6 TDI GreenLine II

6 Speed Manual 1.4 TSI, 1.8 TSI, 1.8 TSI 4x4, 2.0 TDI 140PS, 2.0 TDI 170PS, 2.0 TDI 170PS 4x4

6 Speed DSG 2.0 TFSI 200PS DSG, 3.6 V6 4x4 DSG, 2.0 TDI 140PS DSG, 2.0 TDI 140PS 4x4 DSG, 2.0 TDI 170PS DSG

7 Speed DSG 1.8 TSI DSG

Chassis

Front axle/rear axle - McPherson suspension with lower triangular links and torsion stabiliser/multi-element axle, with one longitudinal and three transverse links, with torsion stabiliser.

Braking system - hydraulic dual diagonal circuit braking system vacuum assisted with Dual Rate system.

Front brakes - Disc brakes with inner cooling, with single/piston floating caliper.

Rear brakes Disc brakes.

Handbrake Mechanical handbrake operating on rear wheels.

Steering - Direct rack and pinion steering with electromechanical power steering.

Turning circle (m) 10.8m.

Tank

Fuel tank content - 60 litres

Fuel - Lead-free petrol with RON 95 or Lead-free petrol with RON 91†

Body type - 5door, two compartment, 5 seater

Drag coefficient Hatch

Cw 0.30 (0.29 GreenLine II)

Drag coefficient Estate

Cw 0.31 (0.29 GreenLine II)

CR - Common Rail

Official fuel consumption for the Superb range in mpg (litres/100km):

urban 19.2 (14.7) - 52.3 (5.4);

extra urban 36.2 (7.8) - 74.3 (3.8);

combined 27.7 (10.2) - 64.2 (4.4).

CO₂ range 237 - 114 g/km

† Lower efficiency when using lower RON petrol.

* Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated in this standard.

ŠKODA Customer Promise

Where actions speak louder than words

Care and consideration for you and your car

We will...

- > Work competently and in your best interests
- > Treat you as a valued individual and respect and care for your property

A flexible and convenient service

We will...

- > Provide flexibility and choice of dates and times for booking and collection
- > Ensure our price will be all-inclusive for the work we agree to undertake
- > Endeavour to diagnose a vehicle defect within 24 hours of the vehicle being presented to us
- > Offer free collection and delivery within a 10 mile radius (up to 20 minutes drive time) for pre-bookings
- > Provide a courtesy car or arrange onward mobility if your vehicle is to be kept overnight

Expertise and attention to detail

We will...

- > Complete the work as agreed with you
- > Always gain your authority if any additional work is required
- > Keep you informed of progress and advise you when your car is ready
- > Complete a complimentary visual health check if your vehicle is left with us and include a professional recommendation of:
 - Any components that require replacing immediately
 - The point at which any part of your car should be re-checked in the near future
- > Check for any warrantable product enhancements recommended by ŠKODA and perform these free of charge
- > Always use genuine ŠKODA parts and accessories
- > Wash your car following a Service

A clear explanation of our work

We will...

- > Ensure our invoice matches the booking price
- > Provide a full explanation of work completed and any additional charges made
- > Communicate clearly in an open and honest way avoiding jargon
- > Review the vehicle condition report and explain all work completed
- > Where possible, perform a walkaround of the vehicle with you
- > Value your feedback and will encourage you to complete our Your Opinion Counts survey so you can tell us what you liked and how we can improve further

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

Elements of the ABS System :-

- **Dual Rate Vacuum Brake Boosters:** increases brake effort under emergency braking conditions.
- **EBC:** Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.
- **EBD** (aka EBV): Electronic Brake Distribution automatically distributes different pressures to the front and rear brakes to stop the rear wheels from locking up under heavy braking. It also compensates for loaded and unloaded vehicles therefore doing away with the need for a Load Sensing Valve on the rear axle.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

DPF: diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

CR: the completely new range of diesel engines are built on a system of Common-Rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines and significantly reduce emissions.

ESP: electronic stability programme is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESP constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESP reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

Elements of ESP system:-

- **ASR:** anti-slip regulation traction control ensures the Superb's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

- **MSR:** the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.

- **EDL:** the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

- **HBA:** Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.

- **HHC:** Hill hold control allows for a safe hill start by holding the brake for a small amount of time, reducing the risk of unintentional reversing or roll back.

- **TPM:** Draws the driver's attention to any pressure loss in any of the tyres. Early warning can prevent damage from occurring as a result of an under inflated tyre or a defect that radically changes the cars behaviour and driveability.

- **DSR:** Driver Steering Recommendation - in a crisis situation it helps the driver stabilize a skid by making a slight intervention in the steering.

- **ESBS:** Electronic Stability Brake System - targeted interventions in the braking process improve the handling of a car as it brakes when passing round a bend and keeps it from veering.

- **AFM:** records and assesses all available data about the journey to optimize the ESP system's reactions, which can thus be adapted to any driving style and the current vehicle payload.

- **Xenon lights:** the Xenon lights produce about 2.5 times the light of standard Halogen lights with 35% less energy consumption.

Calculating your tax liability

To find out how much tax you will pay, simply take the P11D value, then multiply this figure by the BiK percentage. Then simply multiply this figure by 20% or 40% depending on the level of income tax that you pay.

Please note if your employer provides you with free fuel, this is treated as an additional taxable benefit.

For more information on company car taxation please visit the HM revenue and customs website www.hmrc.gov.uk

BiK calculation example- Superb S GreenLine II Hatch 1.6 TDI CR 105PS 5spd DPF

P11D value	£18,980.00
Company Car BiK tax based on CO ₂ emission level	16%
Taxable BiK (for 2012/13 tax year): 16% of £18,980.00	£3,036.80

Annual company car tax (2012/13)

20% Income Tax: 20% of £3,036.80	£607.36
40% income Tax: 40% of £3,036.80	£1,214.72

Monthly company car tax (2012/13)

20% Income Tax: £607.36 divide by 12 months	£50.61
40% income Tax: £1,214.72 divide by 12 months	£101.23

Customer services

Talk to us on 08457 745 745

No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open from 8.30am-5.30pm. If you're calling out of hours, then a message can be left and you'll be contacted back.

Peace of mind with a ŠKODA warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed dealer network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner.

Your Superb also benefits from a 3 year paint warranty and 12 year body protection warranty.

A network that's here to help

With 17 years in the top 10 of JD Power's customer satisfaction survey, our network of approximately 125 retailers knows how to treat a customer. You can be sure that as a ŠKODA customer, your retailer will look after you from the moment you walk through the door, throughout the life of your ŠKODA. Your new Superb will be serviced and maintained to the highest standards by specially trained ŠKODA technicians. And when you need a spare part you'll be happy to know that most are held in stock, or can be ordered within 24 hours. So if top class customer satisfaction is what you're after, the ŠKODA network will be there for you.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from ŠKODA. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

If your ŠKODA's in trouble, rely on ŠKODA Assistance

Completely free of charge, every new ŠKODA is covered by ŠKODA Assistance, provided by the RAC through a dedicated team. This cover lasts for 3 years, with no mileage limit. So if you ever break down, you can use the freephone number to call out someone who really knows about ŠKODA cars to help. This service is even available in Europe, so you don't need additional breakdown cover when you're driving on the continent.

Financing your ŠKODA

We all know that times are hard, so ŠKODA Finance specialises in providing funding solutions for ŠKODA drivers. Regardless of whether you're a private or business user, you can choose from a range of funding options.

Finance products available are:

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all ŠKODA Finance products you can choose a fixed-cost maintenance plan designed to help you budget accurately. No matter what finance product you choose, your local ŠKODA retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs. ŠKODA Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of retailer fitted accessories? A separate accessories brochure can be found at your local retailer, or can be ordered by phoning our call centre, or by going on-line at www.skoda.co.uk

ŠKODA Insurance

We want you to start enjoying your new car from day one and thanks to ŠKODA Insurance complimentary seven day cover you can. Call free on 0800 316 7895, provide us with a few details, and we'll send a cover note to your retailer. They will then tax your car and you can drive it away. Telephone lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm.

For details of our full range of insurance products visit insurewithskoda.co.uk. You can get an annual car insurance quote for your ŠKODA and buy it online too.

ŠKODA Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, registered in England number: 2835230 (registered office: Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR). ŠKODA Insurance motor insurance is sold, underwritten and administered by Allianz Insurance plc, registered in England number: 84638 (registered office: 57 Ladymead, Guildford, Surrey GU1 1DB). Both organisations are authorised and regulated by the Financial Services Authority (FSA), whose registration numbers are 311988 and 121849 respectively. Authorisation details can be checked on the FSA's register at fsa.gov.uk or call 0845 606 1234. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.

Extended warranty

Exclusions and limitations

Wear and tear components will only be considered under the terms of the warranty for the first of six months or 6,500 miles, whichever is soonest. These include, but are not limited to brake linings and disc pads, clutch release bearings, clutch pressure plates and centre plates, tyres, wiper blades, seat and backrest covers, floor coverings, spark plugs, batteries for key fobs and alarms, light bulbs and shock absorbers.

Mechanical adjustments including but not limited to adjustments to doors, flaps, boot lids, bonnets and sunroof, brake adjustment, clutch adjustment, v belt adjustment, ignition adjustment, headlight adjustment, steering geometry adjustments and wheel balancing are excluded.

Damage (including but not limited to the following) is excluded:

- Damage caused by your failure to take all reasonable steps to prevent mechanical damage from occurring.
- Damage or defects caused by not having the vehicle serviced in accordance with the manufacturer's guidelines.
- Damage or defects caused by improper use of the vehicle, neglect or use of the vehicle for motor sports activities.
- Damage caused by an accident.
- Damage to paintwork or chrome caused by external influences, such as climatic, chemical or industrial pollution.
- Damage resulting from the use of non-original replacement parts.

Routine maintenance and servicing is not covered by the warranty. Incidental or consequential costs such as hotel charges, car hire, loss of personal effects or income are not recoverable under the terms of the warranty.

The information in this brochure referring to specification, design, equipment, material and external appearance relates to the time at which this brochure was printed. Whilst every effort is made to ensure its accuracy, the information in this brochure is not binding and is subject to alteration. Some illustrations in this brochure depict left hand drive models, with both standard and optional equipment shown. Please confirm exact specifications, prices and colour availability with your SKODA retailer who will be notified of any specification changes as they occur.
