CITIGO – TAKE ON THE CITY IN STYLE

Born for the city, the CITIGO is big on agility, practicality and functionality. This is a car that can manoeuvre into tight spaces with ease and puts the fun back into exploring concrete jungles. It's spacious too, with ample room for four adults, whilst thoughtful technology ensures every urban adventure is enjoyable. The result is a car that's ingeniously compact, yet anything but small.

Models shown are not UK specification. Some of the equipment shown is optional.

STREET SMART

With its bright dynamic design, chrome embellishments and finned front grille, the CITIGO's bold exterior cuts through the noise as it zips through the streets.

WHEELS

Add further distinction to the CITIGO's exterior with the 16" Serpens alloy wheels in silver.

PANORAMIC SUNROOF

This optional electrically adjustable panoramic sunroof provides extra sunlight and fresh air at the simple touch of a button.

FRONT VIEW

The newly designed bonnet now features the ŠKODA power dome, two distinctive lines drawing the eye back from the badge. This is complemented by the finned grille set in chrome.

REAR VIEW

The distinctive C-shape rear lights make this city dweller as compelling from the rear as it is from the front. From SE upwards, the rear lights have a darkened glass finish.

STRIKINGLY SIMPLE

THREE-SPOKE STEERING WHEEL

CITIGO S, SE and Colour Edition models feature a standard three-spoke steering wheel, while SE L models include a luxurious leather multifunction alternative. In-keeping with its motorsports roots, the Monte Carlo has a leather sport steering wheel with red stitching.

CENTRAL SPEEDOMETER

The central feature on any instrument cluster, the large speedometer catches the eye while keeping you up to speed on your driving statistics. From SE upwards, dials also feature a rev counter and fuel gauge.

The CITIGO's cleverly understated interior offers a relaxing retreat from the outside world. Everything is practically arranged to be clearly visible in a single glance.

Models shown are not UK specification. Some of the equipment shown is optional.

SMARTER CONNECTIVITY

While the on-board infotainment system packs an immediate punch, it truly comes alive when you connect it to your smartphone via the Move&Fun app.

MOVE&FUN SMARTPHONE APP

Listen to your favourite tunes, monitor your drive and let your sat nav point you in the right direction with our handy Move&Fun app. It instantly pairs your smartphone to the car's infotainment system via Bluetooth®, keeping you fully connected on the go.

PERFORMANCE DRIVEN BY YOU

A car that's exciting to drive in and out of the city, that's also easier on the environment. That's the beauty of ŠKODA's GreenTech engine, which helps reduce fuel consumption thanks to its stop/start system, energy recuperation and low rolling resistance tyres.

1.0 LITRE THREE-CYLINDER ENGINE

The flexible 1.0 litre three-cylinder engine enables agile driving in or out of the city. Available in either 60PS or 75PS.

AUTOMATIC SHIFT GEARBOX (ASG)

ASG automatically selects the appropriate gear, whilst also adapting to your driving style. Not only does this reduce engine strain, it leaves you completely free to concentrate on the journey.

STOP/START

The engine automatically switches off when stationary, restarting as soon as the driver presses the clutch or steps off the brake.

BRAKE ENGINE RECUPERATION

This intelligent technology transfers some of the energy used during braking to get the car moving again once you step off the brake pedal.

WATCH THIS SPACE

The CITIGO's generous interior offers ample space for shopping, luggage and the odd picnic hamper. Quickly fold down the rear seats and there's even more room for all sorts of cargo.

HOOKS

Stop your shopping going on a trip of its own with the four convenient hooks on the sides of the luggage compartment.

DRINK HOLDER

Thanks to its convenient position in the centre console, every passenger can stay refreshed on the go.

TICKET HOLDER

When you need to display a parking ticket in a visible place, the solution is simple. The car is equipped with a parking ticket holder under the windscreen.

STORAGE COMPARTMENTS

In the three-door CITIGO, rear passengers can take full advantage of the handy storage compartments at the sides of the seats.

UMBRELLA

A spot of rain will never dampen your spirits again thanks to the umbrella located under the passenger seat.

POCKETS

Storage pockets on the insides of the front seat backrests are ideal for carrying your mobile phone, diary or other small items.

SAFETY IN NUMBERS

Our city car is packed full of innovative active and passive safety features, achieving a five star rating from Euro NCAP (European New Car Assessment Programme). From airbags to ABS (Anti-lock Braking System) to parking sensors and city safe braking system, the CITIGO has it going on.

FOG LIGHTS

Increase your safety when visibility is reduced. Fog lights are standard on the Colour Edition, SE L and Monte Carlo models.

BRAKE ASSIST SYSTEM

This optional 'city safe' system monitors the area in front of the vehicle, actively braking at speeds below 19 mph.

REAR PARKING SENSORS

With its excellent agility and three rear sensors, parking the CITIGO is a breeze. Standard on SE L and optional from SE upwards with the Convenience pack.

AIRBAGS

A perfect example of ŠKODA's passive safety innovation, the CITIGO features four airbags as standard.

Side and curtain airbags not shown.

CITIGO S

Packed with thoughtful touches and clever technology, this entry-level trim offers impressive value for money.
