Firehawk

ACCELERATION (sec/mph) 0-60

SLP FIREHAWK	4.9
DODGE STEALTH R/T TURBO	5.7
CHEVROLET CORVETTE LT1	5.7
NISSAN 300ZX TURBO	5.7
FORD MUSTANG COBRA	6.2

"...with the best performance-to-cost ratio of any car in its class, think of [Firehawk] as Corvette Lite - a third less costly, and it's more thrilling."

Car Craft Magazine

BRAKING (60 - 0 mph/ft)

SLP FIREHAWK	110
CHEVROLET CORVETTE LT1	115
DODGE STEALTH R/T TURBO	120
NISSAN 300ZX TURBO	125
FORD MUSTANG COBRA	144

"Firehawk is an outrageous combination of muscled form, function and modern technology.

Twin hood scoops convey a take-no-prisoners attitude and, to show that SLP is deadly serious, the functional scoops help add 25 horsepower to an already potent V8!"

TNN's Road Test Magazine

Zero-60 mph in 4.9 seconds*, 60-zero mph in 110 feet*, know any other \$24,244 sports car that can match that? We don't...

Shown here in bright red, Firehawk is available in seven other hot colors. Hot colors, hot performance, everything about this car is hot. Red hot!

Listen closely, we'll reveal our secret: SLP tweaked an already great car, gave it 300 horsepower, a 17" wheel/tire combination, creating the best value in the high performance sports car segment at a very affordable \$24,244 M.S.R.P.

[Small, illegible text block]

Order your Firehawk just the way you like it, six-speed manual transmission or automatic, t-top or hard top.

That's because Firehawk is based on a Pontiac Formula, ask your dealer for details.

Know anything else this sexy, this fast and so affordable? But don't believe us, take one for a test drive. Compared to the pack, Firehawk is the new performance/value standard.

Twin hood scoops, SLP engineers call it "functional cold air induction."

Our designers call it "the most aggressive profile this side of Madonna."

The competition calls it "unfair."
