versatility.

MODEL

220

The Model 220 is the perfect match for beverage distribution applications. Designed for driver productivity, the 220 features a spacious cabin with an ergonomic interior and outstanding visibility. The cabover design and tight turning radius deliver superior maneuverability, a key advantage in congested urban environments. All routine maintenance checkpoints are easy to access and the standard powertrain, including the versatile PACCAR PX-7 engine and Allison automatic transmission delivers seamless performance. The 220 comes standard with air disc brakes for maximum safety and is available with a GVWR of 26,000 to 33,000 lbs.

MODEL 220 SPECS

- PACCAR PX-7
 - Power: 220 – 260 HP
 - Torque: up to 660 lbs.-ft.
- Low Chassis Weight for Increased Payload
- Collision Mitigation System Available

For more information on the Model 220, contact your local Peterbilt dealer or visit peterbilt.com.

VISIBILITY

Exceptional visibility results from the combination of an expansive windshield and large side windows.

INTERIOR

The spacious interior features a wrap-around dash with a driver information display, a multifunction steering wheel, and ample storage including overhead and rear-wall compartments.

SERVICEABILITY

Service checks are easy. The front panel opens for quick access to the air filter, coolant, refrigerant, washer fluid, power-steering fluid, engine oil and 12-volt electrical outlet.
