WHEN IT'S TIME TO DO SOMETHING ABOUT THE WEATHER
Control the seasons with FORD AIR CONDITIONING

B

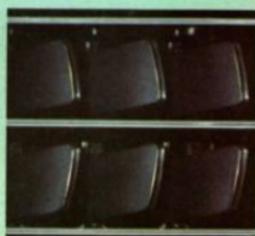

FAN CONTROL

Provides choice of three distinct blower speeds. Blowers are statically and dynamically balanced to rigid Ford specifications for quiet operation.

TEMPERATURE CONTROL

Enables you to quickly dial the cool air level you desire. (Works fast to cool down the ENTIRE car.)

LOUVERED REGISTERS

Easy to adjust outlets offer quick cooling where you want it. (Noise, vibration and harshness is "tuned out" for total comfort.)

OUT THE WEATHER! CONDITIONERS

AIR CONDITIONERS BY FORD ARE:

- Precision engineered to provide faster cool-down and unexcelled cooling capacity, efficiently serving a full six-passenger area.
- Tailored specifically to each Ford model—built of high-quality components.
- "Tuned" to the car to minimize noise and vibration.
- Efficient—they take it easy on engine, and electrical and cooling systems.
- Installed by men who know Fords—and they know what to do should you ever need service.
- A good investment, reflected in higher resale value of your Ford car.
- Full 12,800 BTU capacity offers cool driving comfort.
- Warranted for 24 months or 24,000 miles.

**A FORD-BUILT VEHICLE NEEDS SO
LITTLE CARE...It pays to give it the best**

AUTOLITE CARBURETOR AIR FILTER ELEMENT

Long life filter offers extended protection for vital engine components plus low restriction for better gas mileage. Filters 100 percent of the air . . . maintains high efficiency at all engine speeds, including idle. Refer to your Owner's Manual for replacement interval.

AUTOLITE FUEL FILTER

Features full-flow in-line design for maximum filtration . . . plus high capacity for extended life. Special element filters out dirt and moisture to keep carburetor and engine working at top efficiency. Refer to your Owner's Manual for replacement interval.

ROTUNDA PERMANENT ANTI-FREEZE

Get full season protection plus guarantee against anti-freeze loss. Mixes with water to provide any degree of protection desired . . . as low as 65 degrees below zero. Will not boil out or evaporate in hot weather . . . guards year-round against rust and corrosion.

THE RIGHT COMBINATION FOR FAR SIGHTED MOTORISTS

ROTUNDA 6000 MILE MOTOR OIL

Offers unequalled, long-lasting protection against engine wear. Special additives prevent rust and corrosion . . . inhibit varnish and sludge deposits. Ideal companion to the Autolite oil filter to provide maximum service life for your car's engine.

AUTOLITE 6000 MILE OIL FILTER

Exclusive two-stage design provides superior filtering action and complete engine protection at all operating temperatures. Designed by Ford engineers for Ford products . . . gives 6000 mile or six-months protection.

- Molded fiber first stage (1) has lower porosity to allow full-flow lubrication of cold oil . . . plus immediate removal of wear-producing particles.
- Deeper second state (2) efficiently cleans thinner, warmed-up oil—permanently traps grit, dirt and sludge.
- Anti-drainback valve (3) keeps oil in filter when engine is stopped . . . allows instant lubrication of vital parts when engine is first started.
