¹ Infiniti VDC system is designed to help improve driving stability but does not prevent accidents due to abrupt steering or by careless or dangerous driving techniques. Always drive safely.

² Please keep in mind that air bags are a supplemental restraint system and must always be used in conjunction with the seat belt. Also, a rear-facing child restraint must never be placed in the front-passenger's seat. In fact, all children 12 and under should ride in the rear seat properly secured in child restraints, booster seats or seat belts, according to their size. Roof-mounted curtain side-impact supplemental air bags for front- and rear-seat occupant head protection are designed to inflate in higher severity side collisions and inflate only on the side of the vehicle impacted. Please see your owner's manual for more details.

³ All prices are Manufacturer's Suggested Retail Price (MSRP). Total MSRP excludes destination and handling, tax, title, license, and options. Dealer sets actual price.

⁴ Optional Intelligent Cruise Control is not a collision avoidance or warning device. For highway use only and not intended for congested areas or city driving. The system will not brake automatically to a stop. Failure to apply the brakes could result in an accident.

⁵ Factory-installed option. Never program while driving. Requires accurate GPS service to be available and operating for features to function properly. Mapping may not be detailed in all areas. Some Infiniti dealers may not appear on the current mapping areas. Periodic updates to the DVD will be available for an additional cost. See your Infiniti dealer for details.
