CERTIFIED

Pre-Owned Vehicles

Without
Compromise

Knowledge is Power

NOW INCLUDED AS STANDARD EQUIPMENT: A CARFAX REPORT

While the Acura brand is one of the world's leading lines of automobiles, we are constantly searching for new ways to deliver ever higher levels of comfort, convenience, performance and luxury.

Case in point: For 2005, every Acura Certified Pre-Owned Vehicle now comes with a free CARFAX Vehicle History Report. Since its inception in 1986, the industry-leading CARFAX has built a database of more than 3 billion records that document whether a vehicle is a lemon buyback, has been salvaged in an accident, damaged by a flood, used as a taxi or rental car, tampered with by an odometer rollback, as well as other

pertinent facts that may affect the vehicle's safety and value. How reliable is this information? CARFAX will buy back any vehicle that turns out to have a severe problem reported by a state Department of Motor Vehicles that is not included on its Vehicle History Report. It's a guarantee that makes buying a pre-owned car virtually as risk-free as buying a new car.

This added value only further strengthens a program that has long been at the forefront of its class. It serves as tangible evidence of our commitment to make available to you the best certified pre-owned vehicles, backed with the best support.

The bottom line? An ownership experience without compromise.

Only the Best

ACURAS ARE NOT CERTIFIED UNLESS IT PASSES INSPECTION

This commitment starts with one of the best-designed, most-reliable vehicles on the road today: an Acura. Our dealers only consider the best, well-maintained pre-owned models available for certification. Vehicle History Reports and service records are carefully screened, and then each candidate vehicle is put through a comprehensive 150-point inspection. Trained Acura dealership

service technicians leave no system unchecked, closely examining all key components, including:

- Brakes
- Engine and Drivetrain
- Steering and Suspension
- Tires and Wheels
- Exhaust System
- Vehicle Exterior
- Vehicle Interior

Vehicle History Reports and service records are carefully screened, and then each candidate vehicle is put through a comprehensive 150-point inspection.

As Good As New Condition

NEXT STEP: OUR DEALERS WILL REPAIR, REPLACE AND RENEW

If this rigorous inspection discovers items that do not measure up to Acura's stringent specifications, they are repaired or replaced by an Acura service technician. The objective is

to restore the vehicle to as close to as-new condition as possible—including its appearance inside and out and its functionality under the hood.
