

# Q7

Power and sophistication in equal measure.

European models shown.

## Audi Q7

With the ability to accommodate up to seven passengers, the performance of the Q7 is no less expansive. Size aside, an 8-speed Tiptronic® transmission and a rear-biased quattro® permanent all-wheel-drive system make for handling like a larger-than-life sports car. Off-road, it's in its element with Electronic Stabilization Program (ESP®), available Audi Adaptive Air Suspension, and off-road detection. But with the choice between two 3.0-litre TFSI® engines featuring 280 hp and 333 hp respectively, or a TDI Clean Diesel® variant that produces 407 lb-ft of torque and remarkably low emission figures, the Audi Q7 easily takes command of any environment.

E-PROCESS

On the exterior, the distinctive appearance of the Q7 is enhanced with striking Bi-xenon headlights with LED daytime running lights, that are as energy efficient as they are bright. Its interior takes rugged splendour to the maximum with Audi Music Interface (AMI), SIRIUS® satellite radio, heated front and rear seats,

and automatic climate control. Meanwhile, the enhanced driver information system display analyzes energy consumption and gives the driver tips on how to optimize fuel efficiency. Built with equal parts grace and strength, the Q7 is without parallel in its category.

# Audi Q7

1. Your Audi vehicle may be equipped with a phone preparation utilizing Bluetooth® interface to enable hands-free functionality (compatible mobile phones sold separately). You will need a Bluetooth®-enabled mobile phone in order to utilize this function. Not all Bluetooth®-enabled mobile phone models are compatible with Audi's phone preparation. Contact your local Audi dealer for the latest listing of compatible phones.
2. Please drive safely and obey all traffic laws, including speed limits.
3. Fuel consumption estimates and figures are based on the Government of Canada's approved criteria and testing methods. Refer to the Government of Canada publication Fuel Consumption Guide (EnerGuide) or Natural Resources Canada's Fuel Consumption Figures website. Actual fuel consumption may vary based on driving conditions, driver habits, and vehicle's additional equipment.
4. The Audi Navigation System depends upon signals from the worldwide Global Positioning Satellite network. The vehicle's electrical system, and existing wireless and satellite technologies, must be available and operating properly for the system to function. The system is designed to provide you with suggested routes in locating addresses, destinations, and other points of interest. Changes in street names, construction zones, traffic flow, points of interest, or other road system changes are beyond the control of Audi Canada. Complete, detailed mapping of lanes, roads, streets, toll roads, highways, etc., is not possible, therefore you may encounter discrepancies between the mapping and your actual location. Please rely on your individual judgment in determining whether or not to follow a suggested Audi Navigation System route. Periodically new mapping data is available. HDD update is required in order to maintain the latest navigation information. Updates are available for purchase from time to time at additional cost. Consult your dealer or call 1-800-FOR-AUDI for details.
5. Audi Side Assist and all other safety and convenience features are means of assisting the driver only. Drivers must continue to devote their full attention to safe driving. Some features are available as options and may not be available on all models. Airbags are supplemental restraints only and will not deploy under all accident circumstances. Always use safety belts and seat children only in the rear seats, using restraint systems appropriate for their size and age.

Audi Canada believes the specifications in this brochure to be correct at the time of printing. However, specifications, standard equipment, options, fabrics, and colours are subject to change without notice. Audi Canada is not responsible for errors in typography or photography. Some equipment may be unavailable when your vehicle is built. Some vehicles are pictured with options that may be available at extra cost or may not be available on some models. Please ask your dealer for advice concerning current availability of standard and optional equipment and verify that your vehicle will include the equipment you ordered. Vehicles in this brochure are European models shown with optional equipment or accessories that may not be available in Canada. Tires are supplied and warranted by their manufacturer. Your vehicle is sold equipped with all-season tires. However, please remember the use of winter tires may be mandatory in your province or territory. Make sure your vehicle is equipped with the proper tires at all times. Tires supplied by various manufacturers. See your dealer for complete details on the limited warranty, the Audi 24-hour Roadside Assistance, or the 12-year limited warranty against corrosion perforation. Certain conditions apply, please see your dealer for details.
