The **Exige** is a race-derived car designed to satisfy real driving fanatics.

The front splitter and fixed rear wing profiles on the Exige have been optimised in the wind tunnel to generate 19 kg of down-force at the front of the car and 22 kg at the rear when travelling at 100 mph (161 km/h). The **Exige S** is a real sportscar that redefines the term, "extreme performance".

For its engine size, the Exige S is one of the most powerful production cars in the world. The Exige S is not just a track day enthusiasts' car, but a sublime sportscar that's equally at home on the backroads, motorways and autobahns as it is on city streets and race tracks. What does the acceleration feel like in a Lotus Exige S? Truly addictive, giving a safe, but exhilarating experience that you can only get from such a finely-honed sportscar.
