

2006 SUZUKI sea

*** Introducing Sea, one of four Suzuki LIVE Concept Vehicles

With a built-in NAV/DVD system, no hidden beach will go undiscovered.

Car keys? What car keys? With SmartPass Pro thumb recognition technology, who needs them? Your thumbprint opens the doors.

Keep track of the waves with real-time access to Surfline.com.

Windowless panes afford privacy when you're showering — and a funky, hot rod look.

An aerodynamic roof rack means stowing your board is like, mellow, dude.

Why should the driver have all the fun? Passengers get DVD monitors, too.

With a canvas-style sunroof, you can work on your tan while driving the interstate.

Shower in the privacy of your own tailgate. Loofa not included.

Suzuki LIVE

We're out to become the car company that makes vehicles for people who really go for it—you know, the kind of people who get into the wet suit before sunup, go bungee jumping on their lunch hour and board downhill by twilight. So before we designed the Sea, we picked the brains of life enthusiasts, adventurers and thrill seekers. Talking to people like you was the only way to figure out how to build the vehicles you want—cars and SUVs that aren't just a means of getting from point A to point B, but are as integral as the leash on your surfboard, the chain on your dirt bike or the boots in your skis. You had some pretty good ideas. They resulted in the Suzuki Blizzard, the Wave, the Dune and the Sea, the Suzuki LIVE VEHICLE Concept Series (LIVE). Looking to get more out of life? We're giving you the green light.
