Ladillac. Changing the way you think about American automobiles.

#### PERFORMANCE AND TECHNOLOGY

Cadillac introduces change-the exclusive Northstar System, with the 32valve Northstar V8, Road-Sensing Suspension and Speed-Sensitive Steering

in the 1993 Allanté, Seville STS, Eldorado Touring Coupe and Eldorado Sport Coupe. Further, all other front-drive Cadillacs employ both Speed-Sensitive Suspension and Speed-Sensitive

Steering. Together, they balance the seeming paradox of performance, comfort and tenacious traction.

#### SAFETY

Cadillac is the leading manufacturer of automobiles with V8 power, antilock braking (ABS), and a driver-side air bag, all standard. And now Cadillac offers front passenger-side air bags on many models. Integrated active and defensive safety systems are designed into every Cadillac.

#### OWNERSHIP

Cadillac Owner Privileges. Our unmatched pledge to respond to your needs. With 24-hour on-call assistance from the finest roadside service program of its kind, enhanced by a no-charge loaner car for warranted repair, plus a portfolio of other services. And backed by outstanding warranties, which make a Cadillac as pleasant to own as it is to drive.

either.

- · Nuance leather
- Zebrano wood
- American walnut wood
- Chrome over squeezecast aluminum wheels

#### FINE WOODS, SUPPLE LEATHERS, INSTINCTIVE COMFORT

American walnut. Exotic Zebrano wood. Glove-soft, aromatic Nuance leathers. Lustrous clearcoat finishes. Chromed aluminum wheels. Elegance that rewards the senses when you drive. Beneath this elegance, protection befitting a Cadillac.

#### PAINT OUER PAINT ON TOP OF PAINT

Layer after layer of paint, each with a specific function, covers galvanized steel with an unsurpassed zinc coating thickness that protects both sides of every steel body panel needing protection from corrosion. This multi-step finishing begins with cleaning, phosphate coating, electrodeposition and primer-surfacers. Rich color coats and a final clearcoat top coat create Cadillac elegance. It is backed by a rust-through corrosion warranty that's 6 years/100,000 miles long. Allanté: 7 years/100,000 miles.

Solar control glass screens out 57% of the sun's rays to keep you cooler, reduce glare and prolong interior beauty. The quality paint system.

including a clearcoat top

coat, produces a rich luster.

#### INVITING COMFORT

Settle into sumptuous, handfitted leather seating areas
(standard or available in
every Cadillac). Power
six-way front seat
adjusters are

standard on every 1993

power recliners are standard or available.

#### THE PARTICULARS OF COMFORT

Cadillac offers front seats that
permit independent back and
seat cushion power adjustment. Cadillac also offers
available heated front seating. Further, the Sixty Special
Ultra seating package looks
after your comfort with 22way power adjustment.

Patented seat design (inset)
cradles you securely while
moving in unison with ride
motions. Supple Nuance
leather seating areas (above)
are garment-soft yet instilled
with longevity against abrasion and ultraviolet exposure.

Cadillac is the first manufacturer to offer these optional new, quality chrome-plated (over squeeze-cast aluminum) wheels. They meet all GM criteria for appearance and durability. (Sixty Special and De Ville wheel shown.)

Refer to individual car line sections for feature availability.

nstinctive active safety combines highperformance V8s, antilock braking systems (ABS), Traction Control and suspensions that adapt to the road to help keep you in control.

- · All V8-powered
- Traction Control
  - ABS
- Lap/shoulder belts at all outboard seats
- Dual-mode front child safety belt
- · Brake/transmission shift interlock

#### A TOTAL SAFETY SYSTEMS APPROACH

Instinctive performance qualities contribute to your safety. Every Cadillac is V8-equipped for power to pass and merge. Every Cadillac

has a standard anti-lock braking system (ABS) that enhances braking capability. Suspensions that offer superb control. Designs that help you avoid a collision in the first place.

#### THE POWER MANAGEMENT OF TRACTION CONTROL

Traction Control, now standard on most Cadillacs, uses anti-lock braking technology to monitor traction and help prevent wheel spin. Traction Control manages power (under 30 mph on De Ville and Sixty Special) and helps keep you in control.

#### *UISIBILITY ENHANCEMENT*

Large, easy-to-read instrumentation, Electrochromic automatic dimming rearview mirrors, electrically heated rear window and outside rearview mirrors, a superb heating and defrosting system, plus an available heated windshield help you see your environment more clearly.

The refined 200-hp, 4.91. V8 offers abundant power reserves to help

he Seville STS interior is the definitive application of Cadillac's ergonomic principles: to integrate the driver with the driving experience. It begins with

the feel of a leatherwrapped steering wheel rim outfitted with pur-

poseful side grips to

afford the driver greater ease in maneuvering. It continues with premium materials throughout to reward the most discriminating driver, while providing the passengers with a remarkable amount of leg room, along with ventilation and fan controls that are adjust-

The power seats are biomedically engineered to allow you to make precise adjustments of their power lumbar supports to lend back support exactly where you need it.

A dual cupholder offers may be concealed in the center armrest.

The Nuance leather seating areas, shown here in Saddle, combine with linear-grain Zebrano wood to imbue the standard interior of the STS with a natural richness.

### PRIMARY FEATURES

Northstar System:

• 32-valve DOHC 295-hp V8

• Electronic 4T80-E Automatic Transmission

• Real-time Road-Sensing Suspension

> · Secondgeneration Traction Control

· Speed-Sensitive Steering

• Four-channel ABS

· SLA: Short/ Long Arm Rear Suspension

and

• Dual Air Bags

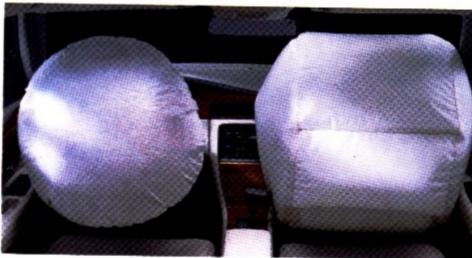

he Seville STS is changing the way you think about American automobiles. The most persuasive evidence is called the Northstar System. The powerful 295-horsepower, 32-valve, dual overhead cam V8 provides the

### REFINEMENT THAT WILL CARRY YOU

thrust-and doesn't require a scheduled

tune-up until you've driven your first

100,000 miles.

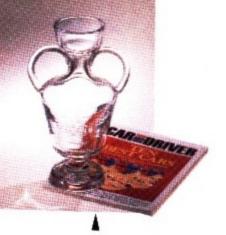

Designed to be used with the safety belt system. the driver- and passenger-side air bags increase your level of safety in less time than it takes to blink an eye.

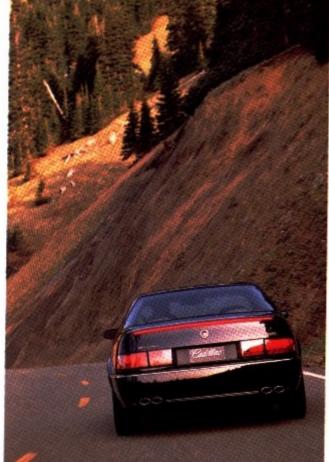

Traction Control simultaneously

applies anti-lock brake pressure and modulates engine power in real time on unstable surfaces for impressive performance.

And at 60 mph, the Road-Sensing Suspension reads and reacts to the road one inch at a time to allow for optimal

Car and Driver's 10 Best of 1992. control over the circumstances at hand.

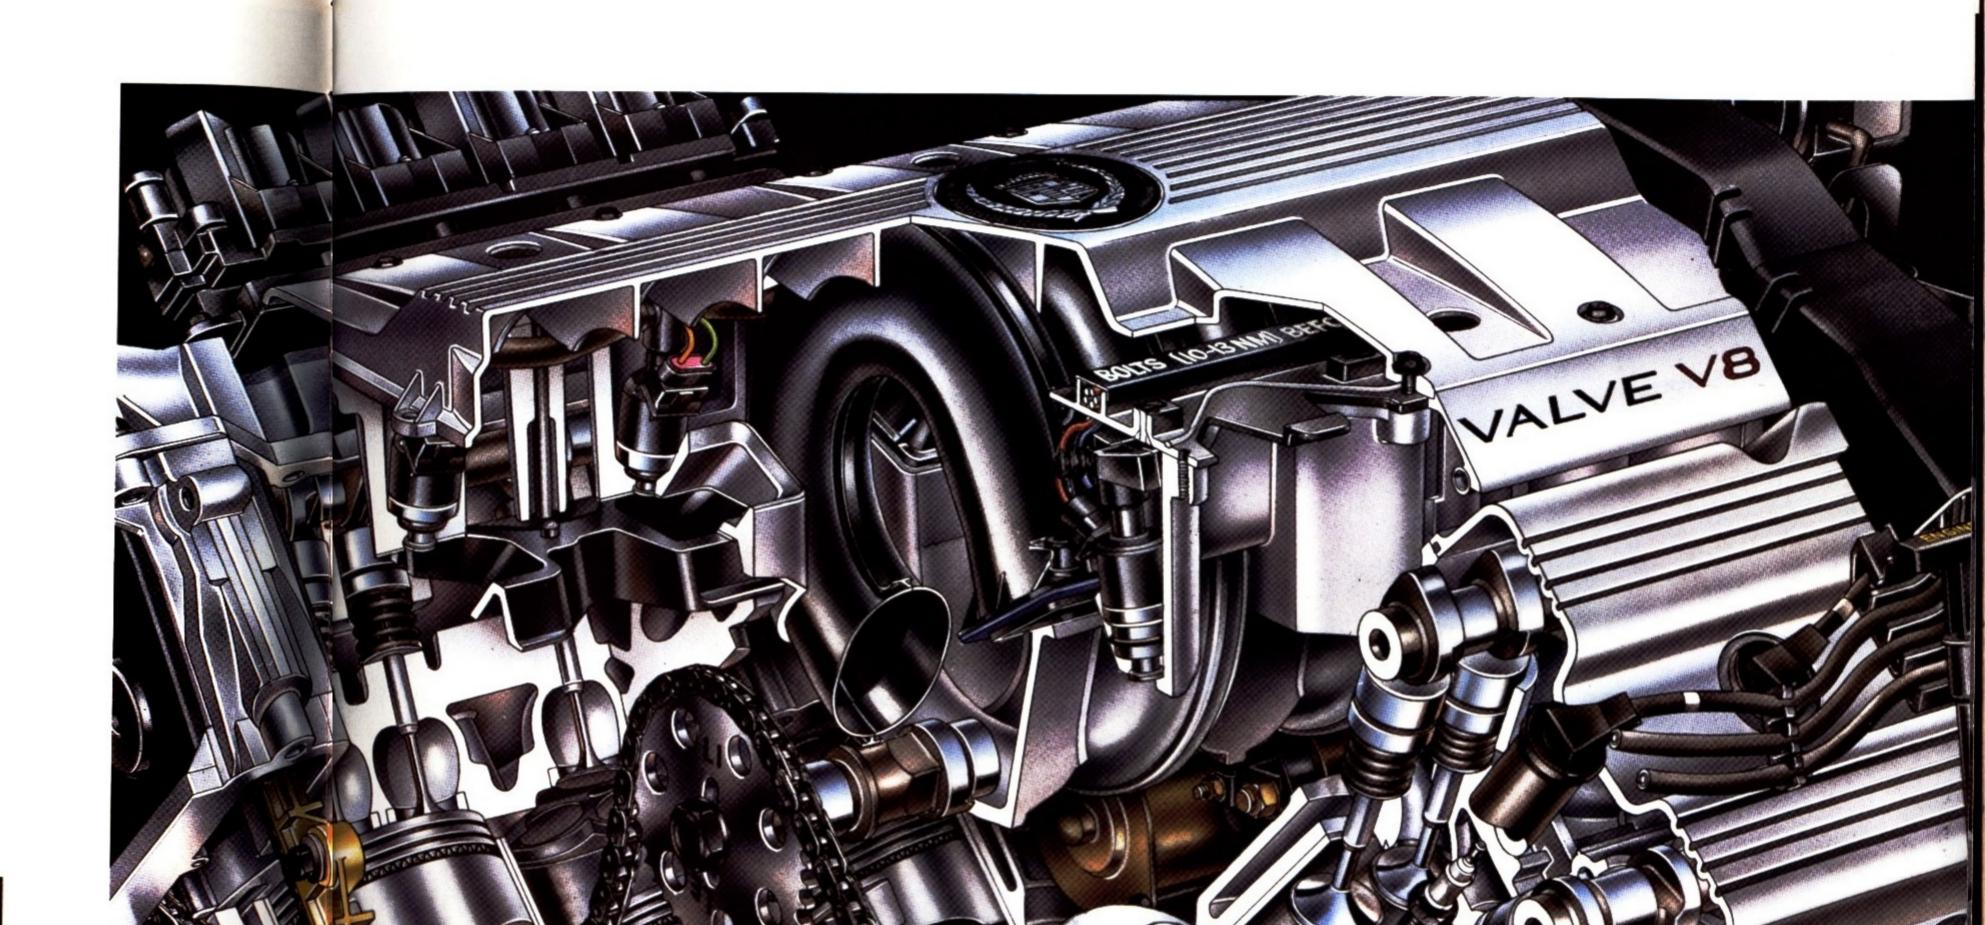

The center high-mounted stop lamp illuminates before the other brake lights, giving the driver behind you the chance to react as much as 20 feet sooner at 60 mph.

The dual overhead cam 32-valve Northstar V8 sets off a chain reaction of refinement that extends to every driving system of the car.

■ Backlit analog gauges clearly display the data from the speedometer and tachometer while soft-touch controls provide reassuring tactile feedback whenever you engage them.

E U I L E

Proven technology, purposefully put to use. That's what distinguishes

the Seville for 1993. Performance is further refined with Speed-Sensitive Steering. A new independent rear suspension, SLA (Short/Long Arm), provides control for high-speed touring, while allowing a smooth, quiet ride during normal driving. Plus, driver and front-passenger safety is enhanced with the inclusion of dual air bags. Seville is shown in Dark Cherry.

Premium materials throughout, and room for everything...except compromise. It's in the way the teardrop-shaped instrument panel flows with the horizon to orient you to the road. It's in

the way the ergonomically clustered gauges inform at a glance. It's in the way extraneous noise

is minimized via double-sealed doors,

<sup>&</sup>quot;.b-Please see p. 59 for AM AMAX, C-Quam information.

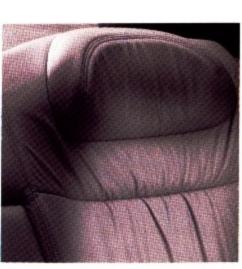

Once inside, you are treated to a sculpted interior that is driver-focused in both the visual and tactile sense. The aesthetics of a personal performance car are most pronounced, from the

backlit analog gauges
and hand-finished
Zebrano wood, to the
safety of dual air bags.

And your seating comfort is enhanced by dual-constant springs, one set that supports you, and another that constantly moves in unison with the highway's surface.

Eldorado Sport Coupe shown in Carmine Red with available chrome over squeeze-cast aluminum wheels. Interior shown with available Nuance leather seating areas.

### PRIMARY FEATURES

Northstar System:

- 32-valve DOHC V8
- Electronic 4T80-E Automatic
- Real-time Road-Sensing Suspension
- · Secondgeneration Traction Control
- Four-channel ABS
- · SLA: Short/ Long Arm Rear Suspension
- · Speed-Steering

and

• Dual Air Bags

he heart of the Northstar System is the dual overhead cam V8 engine. It is joined in purpose with Cadillac's exclusive Road-Sensing Suspension, which reads and reacts to the contours of the road one inch at a time...at 60 mph.

### THE JOY OF DRIVING RETUR

This, along with a second-generation

and Bosch II anti-lock brakes, is dedicated to helping the driver maintain optimal control in

Traction Control system

→ The Northstar V8 powerplant is so consistent and durable, its first scheduled tune-up is at 100,000 miles. Normal fluid and filter replacements are required.

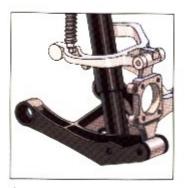

critical driving situations. And safety

refinements include a driver- and front

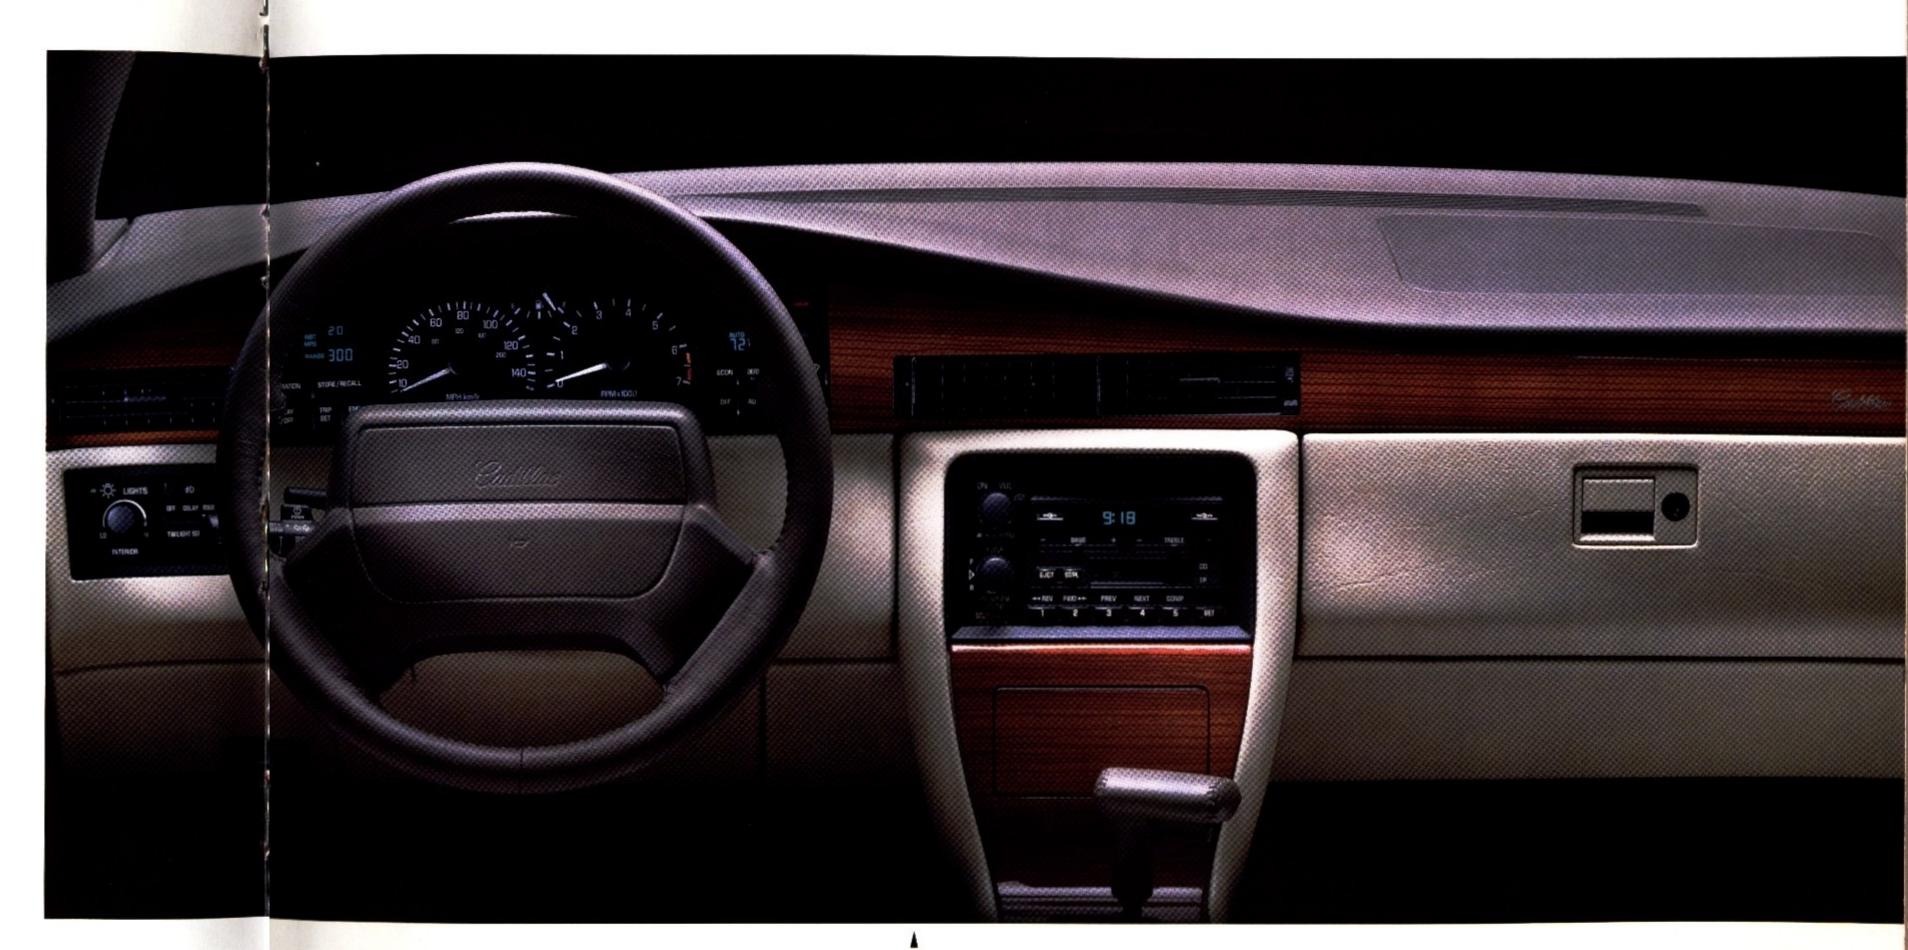

passenger-side air bag.

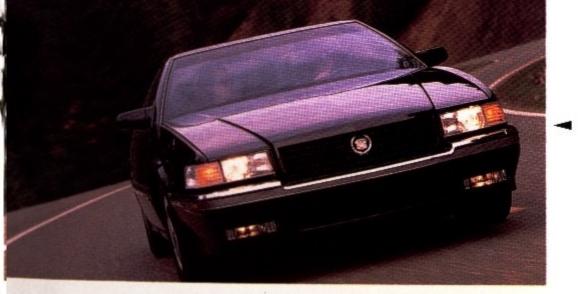

works with the ABS system to monitor wheel speed every ten to fifteen milliseconds. It modulates the brake and engine torque to help control wheel slippage during acceleration.

The geometry of Short/Long Arm rear suspension allows for better contact between your tires and the road.

The thoughtful placement of the Eldorado Touring Coupe's instrument readouts is just one example of our philosophy of promoting an ergonomic union of the driver and driving.

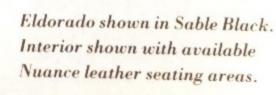

■ The predictability of Cadillac's exclusive Road-Sensing Suspension gives the driver a feeling of dynamic control.

ELDORADO

yours. Its 4.9 liter sequential port fuel injected V8 lets you own the road while both the Speed-Sensitive Suspension and Steering systems allow for enhanced agility when cornering and improved driver control. Your comfort is generously catered to as well with the roominess of a five-passenger interior more spacious than many luxury sedans.

Jome information just for safekeeping: From now on, every journey you take will not just be more comfortable, but will provide more peace of mind as well. That's because the Fleetwood offers

new state-of-the-art safety features like standard driver- and front

> passenger-side air bags. When used properly with the safety

belt system, the Fleetwood driver and

Available Remote Keyless Entry system enables you to light the inside of the car, lock and unlock the doors, and open the trunk with the push of a button from 30 feet

passenger air bags provide some additional protection for up to three frontseat occupants. Once more, there is the

added protection of side-guard door beams, part of a vaultlike door assembly, reinforc-

ing the safety cage that surrounds the entire passenger compartment. Plus, energy-

absorbing "crush zones" reduce front and rear collision energy before it even reaches the passenger compartment. Other standard features include a powerful 5.7 liter 185 horsepower V8 engine

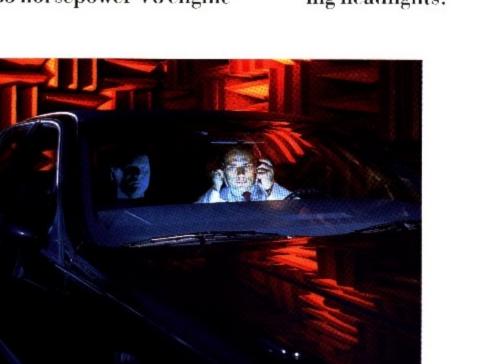

Advanced acoustic research, including onboard binaural digital recording, helps isolate and minimize unwanted noise.

to allow for greater ease in merging and passing maneuvers. Traction Control and anti-lock brakes that help you

> maintain control when accelerating or stopping on slippery surfaces.

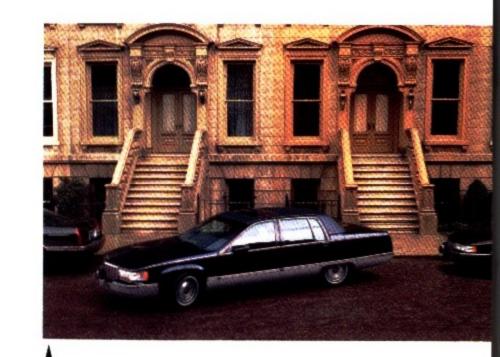

> Electronic Variable-Assist Steering to provide steering assistance

proportionate to speed to further aid the driver. And the optional Electrochromic inside rearview mirror to automatically reduce glare from following headlights.

Standard Traction Control helps provide maximum traction on virtually any road surface.

Variable-Assist Steering helps make parallel parking easy, while highway driving is firm and confident.

America's premier full-size luxury automobile. Its six-passenger roominess is virtually unparalleled in service of your comfort. Its standard amenities are amply matched by a concentration of advanced technologies like Speed-Sensitive Steering and Suspension systems, along with the smooth power of a computer-controlled V8 to add panache to the pampering.

The Sixty Special is pictured in Slate Green with available chrome over squeeze-cast aluminum wheels.

detail. Beginning with a new interior seat trim, and made even more sumptuous by available leather seating areas. American walnut accents fur-

■ The Sixty Special's digital instrument panel provides unmistakable clarity.

ther enhance and highlight the instrument panel; and, for safety's sake,
there's a driver-side air bag in the
leather-wrapped steering wheel. Sixty
Special brings these elements together

to provide you with the highest standards of comfort.

Esteem cloth interior 
is standard on the
Sixty Special.

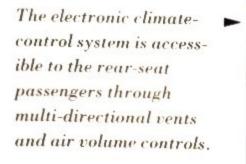

Sixty Special interior with available leather seating areas shown in Light Gray.

It is called the Sixty Special Ultra interior, and it means the ultimate in both sophistication and style. The comfort and spaciousness of this special interior is unsurpassed in size among all front-drive sedans.

Acclaimed Italian designer Giorgio Giugiaro created the look of the hand-

finished leather seating areas, which
are trimmed with elegant French
seams, and accented with genuine walnut on the doors and instrument panel.

The 22-way power front seats optimize your comfort by their split-frame design, triple-element lumbar control, and internal heat source.

The Sixty Special Ultra interior is shown with standard leather seating areas in Dark Blue.

### PRIMARY FEATURES

• Speed-Sensitive Steering

• Speed-Sensitive Suspension

• 4.9L V8

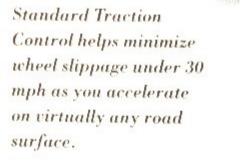

• Anti-Lock Brakes

• Traction Control Ihe sophisticated technology integral to the Sixty Special is made abundantly clear from the very first drive. The 4.9L V8 engine commands 200 horse-power working in tandem with an electronically controlled automatic

### A HERITAGE OF L U X U R Y

need when you need it. A comprehensive array of active safety
features consisting of Anti-Lock
Brakes and Traction Control helps you
drive with confidence, while features
like the driver-side air bag give you
added peace of mind. An advanced
electronic climate-control system monitors the environment using a solar
sensor that detects sunlight and adjusts

accordingly.

■ Electrochromic driver-side rearview mirror darkens automatically to reduce glare.

Speed-Sensitive Suspension adapts the vehicle's handling characteristics for responsiveness at higher speeds; then adjusts accordingly to cushion your ride, compensating for bumps and rough spots on roads traveled at slower speeds.

■ The Sixty Special's immense trunk capacity is complemented by a handy new convenience net for smaller parcels.

bReceives C-Quam® stereo broadcasts. Most AM stereo stations across the country broadcast in C-Quam, but some do not. Check with your local stations for

De Ville's expansive interior addresses the issue of comfort from two perspectives: mind and body. While the six-way power adjustable front seats and a large, easy-to-read instrument

panel can help you stay
refreshed, the available
leather seating areas and
generous amounts of

sound baffling afford you and your passengers peace and quiet.

Standards for interior elegance and comfort are set by De Ville's Esteem cloth.

De Ville's advanced electronic climate control system automatically reads weather conditions, and compensates for changes to maintain your ideal comfort zone.

PRIMARY FEATURES

• Speed-Sensitive Steering

• Speed-Sensitive Suspension

• 4.9L V8

· Anti-Lock Brakes

• Driver-Side Air Bag

Hmerica's best-selling luxury automobile does not come from Europe or Japan. It's the Cadillac De Ville. The reason is simple: De Ville embodies the aesthetics of everything Cadillac. Proven performance technology

### Continuous

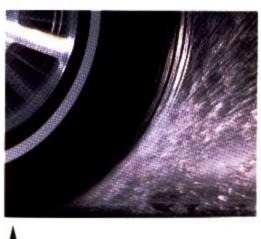

abounds while the amenities germane

to full-size luxury are in evidence everywhere. Additional considerations include a fuel data center that can calculate your

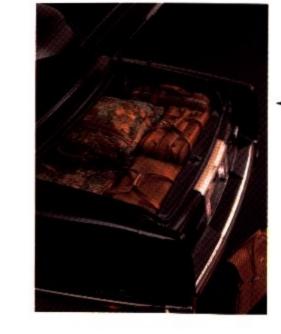

New on this year's De Ville is Speed-Sensitive Steering. It allows the driver to steer with twofinger ease in tight parking situations, while providing a firmer feel at highway speeds.

range. Plus, De Ville's PASS Key II theft-deterrent system may entitle you to comprehensive insurance premium discounts.

average mileage and then estimate your

Standard anti-lock brakes automatically sense wheel slip during braking on virtually any road surface and respond by modulating the brakes to allow you to maintain steering control.

→ De Ville's cavernous trunk lets you stow over 18 cubic feet of luggage, golf clubs and more.

De Ville further distinguishes itself with a full-size six-passenger coupe. It is shown here in Cotillion White with available full cabriolet roof.

→ A powerful 200-horsepower 4.9 liter V8 engine with sequential port fuel injection allows for greater ease in merging and passing maneuvers.

Its sophisticated application of power is
dramatically illustrated by such standard features as an electronically controlled V8 powertrain, Traction
Control, Speed-Sensitive Steering, and
a Speed-Sensitive Suspension that is
specially tuned for touring performance. The Touring Sedan is equally
well spoken when it comes to sixpassenger spaciousness and comfort.

### PRIMARY FEATURES

- Speed-Sensitive Steering
- Speed-Sensitive Suspension
- V8 With Performance Final Drive Ratio
- · Anti-Lock Brakes
- Traction Control

Perhaps the best way to describe the Touring Sedan's interior is to call it goal-oriented. That goal being to surround you in the luxury, total comfort, and safety you would expect in a Cadillac. However, the Touring

### ACQUIRE SEATS OF POWER

Sedan's authority goes beyond the fit

and finish of the interior.

The power really begins

under the hood with a

responsive 4.9 liter V8

and four-speed electron-

ically controlled transmission. Its final drive ratio is performance-tuned to convert the smooth torque into instantaneous acceleration.

Speed-Sensitive Steering gives the driver more resistance at highway speeds for surefooted maneuverability, while offering minimal resistance for parking ease.

The elegant cloisonné deck lid emblem is handcasted and crafted one at a time.

The split-frame front seats are adjustable six ways for full-body comfort and include powerrecliners. The leather-wrapped steering wheel has hand grips, and the leather seating areas are designed and crafted for more than just a touch of sophistication. Interior shown in standard Beechwood.

 Standard Traction Control automatically minimizes wheel slip during  $acceleration\ under\ 30\ mph\ for\ extraordinary\ all-weather\ performance.$

Ladillac owners are the most cared-for in the world. Introducing Cadillac Owner Privileges, exclusively for Cadillac owners.

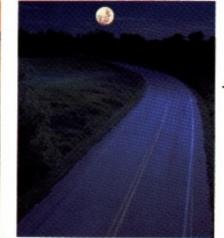

- Cadillac Roadside Service
- Trip-interruption protection
- Free emergency road service
- Trip routing service
- Cadillac Consumer Relations Hotline
- Gold Key Delivery System
- No-deductible Bumper to Bumper Warranty
- Corrosion warranty
- Gold Key
  Courtesy Transportation

#### CADILLAC OWNER PRIVILEGES

It is a portfolio of owner services as exclusive as the automobile it comes with. For example, Cadillac, among U.S. automakers, pioneered Roadside Service. It's on call 24 hours a day, 365 days a year. A factory-trained service advisor answers your toll-

free call, and, if necessary, a Cadillac technician comes to your aid when you need it the most: nights, week-ends and holidays. Cadillac also offers 12-month/12,000-

 ■ Cadillac Roadside Service: Round-the-clock peace of mind.

mile emergency road service and trip-interruption protection that pays for lodging, meals, and alternate transportation. In addition, complimentary trip routing is available for 4 years/50,000 miles.

Cadillac no-deductible warranties are among the industry's finest. During warranty, if your Cadillac requires same-day repair, your dealer will furnish shuttle service. Should your Cadillac require overnight warranted repair, your dealer will provide you with a loaner car if one is available, or reimburse you for rental or transportation expense.

On-the-spot assistance from more participating dealers than any other roadside assistance program.

■ This grille medallion, in honor of Cadillac's preeminent position in owner loyalty, signifies the number of Cadillacs purchased by an owner compliments of your participating Cadillac dealer.

#### IMPORTANT WORDS ABOUT THIS CATALOG...

We have tried to make this catalog as comprehensive and factual as possible. We reserve the right, however, to make changes at any time, without notice, in prices, colors, materials, equipment specifications, models and availability. Since some information may have been updated since the time of printing, please check with your Cadillac dealer for complete details.

... ENGINES Cadillacs are equipped with engines produced by different operating units of GM, its subsidiaries or suppliers to GM worldwide.

. ASSEMBLY Cadillacs are assembled by different operating units of General Motors, its subsidiaries or suppliers to GM worldwide. Cadillacs incorporate thousands of components produced by different operating units of GM. its subsidiaries or suppliers to GM worldwide. We sometimes find it necessary to produce Cadillacs with different or differently sourced components than originally scheduled. All such components have been approved for use in Cadillacs and will provide the quality performance associated with the Cadillac name. Since some options may be unavailable when your vehicle is assembled, we suggest that you verify that your vehicle includes the equipment you ordered, or if there are changes, that they are acceptable to you.

ularly sends its dealers useful service bulletins about Cadillac products. Cadillac monitors product performance in the field. We then prepare bulletins for servicing our products better. Now you can get these bulletins, too. Ask your dealer. To get ordering information, call toll-free 1-800-551-4123.

... FINANCING OR LEASING, IT'S AS EASY AS

Terms are tailored to suit your personal needs.
You can choose your monthly payment date.
... CORROSION PROTECTION Cadillacs are
designed and built to resist corrosion. All body

sheet-metal components are warranted against rust-through corrosion for 6 years/100,000 miles. Allanté is covered for 7 years/100,000 miles. There is no deductible for rust-through repairs. Application of additional rustinhibiting materials is not required under the corrosion coverage and none is recommended. . WARRANIY The GM 4-year/50,000-mile Gold Key Bumper to Bumper limited warranty covers repairs for any new Cadillac, including labor and parts, to correct any defects in material or workmanship occurring during the warranty period. The complete vehicle will be covered for 4 years or 50,000 miles, whichever comes first (except tires, which are covered by their manufacturer, adjustments, normal maintenance items and battery, which is covered by its own 4-year/50,000-mile prorated warranty). Plus free towing and a portfolio of other services. The Cadillac Allanté is backed by the Allanté Assurance Plan-4-year/50,000-mile bumper-to-bumper limited warranty, including free towing and a portfolio of other services, and 7 years/100,000 miles on powertrain, major assembly components and rust-through protection. There is no deductible on any Cadillac warranty. See your Cadillac dealer for terms of these limited warranties. CADILLAC, the CADILLAC emblem, ALLANTÉ, FLEETWOOD.
