

The new Forte

Movement that inspires

The fun starts here.

We created the new 2022 Forte for those who believe a car should be as fun as it is functional. We're talking about a compact sedan with a distinctly sporty attitude - in the way it looks and the way it drives. Step into the new Forte and step up to an inspiring ride.

Dual-zone automatic climate control¹ lets you set your ideal cabin temperature.

Wireless charging^{1,3} keeps your smartphone fully charged while you're on the road.

Stay engaged and focused.

The Forte's modern cockpit has a clean, sleek design, intuitively placed controls, and the features you want to keep you comfortably in control.

10.25" multimedia interface^{1,4} with integrated touch-screen navigation.

¹ Available feature. See features page or visit kia.ca for full details. International model shown.

Feels as good as it looks.

Settle into the standard heated front seats and enjoy the pleasing feel of the surfaces and controls. For a sportier feel, step up to the GT trims, with air-cooled, sport front seats, a leather-wrapped sport steering wheel, and paddle-shifters. Get comfortable in the new 2022 Forte.

Power sunroof¹
for that wide-open, blue sky feeling.

Rear ventilation
provides comfort to rear seat passengers.

¹ Available feature. See features page or visit kia.ca for full details. International model shown.

The oh so versatile Forte5.

The Forte5 combines a compact sedan profile with the versatility and storage potential of a utility vehicle. Whether you're packing sports gear, or luggage for a long road trip, the Forte5 gives you more choices without sacrificing on style.

GT styling revs up the excitement.

If you want even more from your Forte, step up to the race-inspired GT trims. With available features that include a powerful 201-hp turbocharged engine with dual-clutch transmission.

Exterior highlights

include a red point front grille with high-gloss black air intakes and a sport-tuned dual exhaust.

GT interior trim

includes sport bucket seats with red stitching, and a D-cut sport steering wheel with steering wheel-mounted paddle shifters.

See features page or visit kia.ca for full details. International model shown.

Safety covered from every angle.

Using the latest sensing and processing technology, the Forte helps you stay aware of your position on the road, and can even step in and prevent collisions.

Advanced forward collision avoidance assist^{1,2}

is designed to detect and alert you if a potential front collision is imminent, and can also automatically apply the brakes, if necessary.

Blind-spot collision-avoidance assist^{1,2}

uses radar to detect vehicles in your blind spot and may apply braking power when an approaching vehicle is detected within a certain distance, next to or behind your vehicle.

Lane keeping assist^{1,2}

detects your vehicle getting close to lane markers, and can apply corrective adjustments to help prevent you from drifting into another lane.

¹ Available feature. See features page or visit kia.ca for full details. International model shown.
