LEXUS
THE PURSUIT OF PERFECTION.

GS 2010 LEXUS

Vehicle shown with available equipment.

THE PURSUIT OF PERFECTION.

It is a philosophy that extends well beyond the confines of meticulously assembled sheet metal. An approach to the automobile not as a machine, but rather, an art form. Every curve, deliberate. Every detail, inspired. And where every aspect of the ownership experience is intended to be as rewarding and accommodating as the vehicles themselves. Because while there are certainly easier ways to build an automobile, pursuing perfection is the only way to create a Lexus.

With advanced technology in every 2010 GS you can experience the comfort of owning a true luxury vehicle, and enjoy all of life's perfect moments.

THE 2010 GS.

While available in a range of models, every GS shares one common trait: advanced technology. Each engine for instance, has its valve timing continually adjusted for greater torque on demand. And in the GS460, an eight speed sequential-shift automatic transmission provides smoother shifting and more responsive acceleration. The GS450h is a hybrid vehicle like no other, boasting fewer smog-forming emissions¹⁹ and outstanding fuel economy while providing the advanced power and performance of the 339 hp Lexus Hybrid Drive system. The GS350's V6 provides impressive power and the availability of All-Wheel Drive.

THE BENEFITS OF HYBRID TECHNOLOGY CAN BE FELT IN MANY AREAS. STARTING WITH YOUR RIGHT FOOT.

Of all the benefits of the hybrid system on the GS 450h, the most noticeable is likely the one you've heard the least about: seamless, instantaneous acceleration. The instant you press the accelerator, the high-power electric motor propels you forward. As you gain speed, the combustion engine seamlessly engages, propelling you even faster than any Lexus outside of the IS F. It's faster than most conventional V8-powered cars in its class.

The hybrid drive on the GS 450h is a self-charging system. By harnessing the power of your momentum when braking and coasting, the system is able to direct the kinetic energy back into the battery, eliminating the need to plug it in.

THE 2010
GS 450h

LEXUS
HYBRID
DRIVE

Vehicle shown with available equipment.

THERE ARE MANY WAYS TO HANDLE CURVES.
ALL-WHEEL DRIVE
IS MERELY FOUR OF THEM.

In low-traction conditions where other high-performance sedans might just turn around and give up, the GS 350 with available all-wheel drive doesn't hesitate for a moment. Under most types of driving conditions, engine power is automatically routed to the wheels that have the most grip, helping to provide greater adherence to the road while cornering.

For even more assurance through turns, every GS comes with the Dynamics Integrated Management (VDIM)⁷ system. A series of sensors constantly monitors things like vehicle speed and steering angle to recognize when the GS is about to skid. The system takes precautions to help correct the vehicle's situation—before any skidding actually occurs.

THE FINEST SEATS YOU'LL EVER FIND YOURSELF ON THE EDGE OF.

No matter how intense your drive gets, you'll always feel at ease. This is not just a testament to your steadfast nerves, but also the luxurious details you'll find in the GS cabin. Consider the genuine wood trim. Each piece of panelling is carefully hand-selected, helping to ensure consistency in both grain and colour. And then, of course, there are those incredible front seats designed to cradle, not coddle, you. For the GS 460 and GS 450h, they're trimmed in semi-aniline leather—smooth to the touch but not so overly polished as to cause unwanted sliding during hard cornering. And for the GS 350, a perforated leather trim sets the stage. It's details like this that set the GS apart from other high-performance sedans. Along with its pure unadulterated power, of course.

Vehicle shown with available equipment.

THE DIFFERENCE BETWEEN LISTENING TO YOUR MUSIC AND LISTENING TO YOUR SPEAKERS.

Metal is stronger than paper. While this point of difference may be obvious to most, its benefit is most likely not. Conventional speaker cones are typically made of paper. When music is played through them, high-frequency vibrations can cause them to become temporarily distorted, resulting in sound that is not as pure and crisp as it should be. For that purpose, the available 14-speaker Mark Levinson® Premium Surround Sound Audio System² features metal midrange speaker cones and titanium tweeter transducers. Because they are more rigid, and therefore less likely to change shape, their sound has a higher resolution and more harmonic richness than conventional paper cones.

MARK LEVINSON®

The engine isn't the only thing that's precision-tuned. The available Mark Levinson® Premium Surround Sound Audio System² was designed specifically to complement the acoustics of the GS interior. With 14 speakers, a 7.1-channel architecture and 330 watts of maximum power at less than 0.1% THD, 20-20,000 Hz,¹³ it delivers an unparalleled listening experience.

XM NAVTRAFFIC®¹

The technology to help guide you through the open roads. The available XM NavTraffic®¹ service provides real-time traffic information on specific highways or routes.

AHEAD OF THE PACK,
AS WELL AS ITS TIME.

ADAPTIVE FRONT HEADLAMPS

Even the headlamps are built for cornering. For enhanced nighttime visibility, especially on winding roads, the available Adaptive Front Lighting System (AFS) can pivot the left headlamp up to 15 degrees and the right headlamp up to 5 degrees, helping to illuminate more of the road through turns.

LIGHT-SENSITIVE INSTRUMENTATION

To help you watch your speed and reduce glare, the GS features Electronic Chromatic Device (ECD) instrumentation. For optimum visibility, a sensor located in the rear window helps detect the amount of light shining into the vehicle and adjusts the transparency level of the instrument faces accordingly.

ACTIVE POWER STABILIZER SUSPENSION SYSTEM

For improved performance, the Active Power Stabilizer Suspension System, standard on the GS 460 and GS 450h, uses a series of sensors and actuators to help reduce body sway while cornering.

SMARTACCESS¹⁶

A vehicle that looks forward to the drive as much as you do. This advanced wireless system uses sensors in and around the vehicle and a pocket-sized keyless transmitter to sense when you're approaching the vehicle. To unlock the door, simply touch the handle. The system also features another driver's convenience: push-button engine starting.

THE DEALERSHIP EXPERIENCE

When you visit one of our dealerships, make yourself at home by helping yourself to a beverage and internet access.[†] When picking up your new Lexus, our associates will make the transition seamless. We can help you with everything from setting your favourite radio stations to connecting and transferring your compatible cell phone's contacts to the available *Bluetooth*® system on your vehicle. Rest assured your car will experience the finest treatment as well, with a complimentary car wash with every service.

CLUB LEXUS

A complimentary Club Lexus membership is offered to all new, pre-owned or leased Lexus owners. Club Lexus provides an exceptional compilation of services, offers, special events, and pertinent information that's of interest to Lexus drivers. You can also view your service history, the status of your factory warranty or Extra Care Protection (ECP) coverage, and the current status of your Lexus Financial Services (LFS) loan or lease. Sign up today and start taking advantage of all of the features at www.clublexus.ca.

LEXUS LIFESTYLE COLLECTION

Enhance your ownership experience even further with the "The Lexus Lifestyle Collection" Catalogue. Every year, Lexus assembles a wide range of brand name products that exemplify the finest design and craftsmanship in the world, which include designer luggage, Lexus apparel, stunning watches, Titanium golf clubs and much more. An exceptional item can be found for every driver.

To learn more about the various exclusive services that Lexus offers, please visit www.lexus.ca.

SERVICE COMMITMENT

On top of enjoying the highest quality product, Lexus also delivers through a professional Dealer network, a unique and uncompromising level of after-sales service: First Class Service Concept. The highest level of professionalism and vehicle support ensure that the Lexus ownership experience is as luxurious as the vehicles.

MAINTENANCE

We offer the first two scheduled maintenance services at no charge to you. The first service at 1,600 km will include a thorough vehicle inspection and a road test. The second inspection at 8,000 km will include a change of engine oil and oil filter.

EXTRA CARE PROTECTION

Extend beyond the new vehicle warranty and enhance your peace of mind with Lexus Extra Care Protection.

WARRANTY

Our Lexus Warranty Comprehensive Coverage includes:

- 48 months/80,000 km (includes tires).
- Hybrid-Related Components: 96 months/160,000 km (applies to battery control module, hybrid vehicle control module, hybrid battery and the inverter/converter).
- Powertrain: 72 months/110,000 km.
- Corrosion Perforation: 72 months/unlimited kilometres.
- Major Emission Control Components: 96 months/130,000 km.

Please see your Lexus Dealer for details.

Lexus will even provide five days of alternate transportation if your vehicle is required to stay at the dealership for an extended period of time due to a warrantable condition.

ROADSIDE ASSISTANCE

As a proud owner of a Lexus vehicle, you won't have to worry about obtaining assistance when mishaps requiring Emergency Roadside Service or Mechanical Breakdown Towing are needed. Throughout Canada and the continental U.S., our Central Emergency Roadside Services Operator will always be there to ensure you receive prompt, efficient services from one of the many facilities qualified under our approved Roadside Assistance Program. Twenty-four hours a day, 365 days a year, we will be there to help.

[†]Internet is available in most Lexus locations.

STANDARD LUXURY FEATURES

LUXURY AND CONVENIENCE

- SmartAccess¹⁶ with push-button Start/Stop
- Dual-zone automatic climate control with interior air filter, smog sensor and automatic recirculation mode
- Lexus Memory System to control power driver's seat (except lumbar), outside mirrors and steering wheel
- Power tilt-and-telescopic steering column with automatic tilt-away
- Power tilt-and-slide moonroof with one-touch open/close and sliding sunshade
- Power windows with one-touch auto open/close
- Retained accessory power for windows and moonroof
- Electrochromic (auto-dimming) inside rearview mirror with compass
- Adaptive Variable Suspension (AVS) (GS 460, GS 450h)
- Power door locks
- Cruise control
- Premium illuminated entry system
- HomeLink^{®17} universal transceiver to operate compatible garage, gate, home lighting and home security systems
- Lexus Personalized Settings (LPS) to customize select electronic functions
- Rear spoiler (GS 460, GS 450h)
- Privacy glass
- Exterior glass with UV reduction
- Power rear window sunshade (GS 450h)
- Intuitive Parking Assist (GS 450h)
- One wallet size smart card key (GS 460, GS 450h)

SEATING AND TRIM

- Golden bird's-eye maple, dark grey bird's-eye maple or red walnut interior trim
- Perforated semi-aniline leather-trimmed interior (GS 460, GS 450h)
- Perforated leather-trimmed interior (GS 350)
- Leather-trimmed steering wheel and shift knob (GS 350)
- Wood- and leather-trimmed steering wheel and shift knob (GS 460, GS 450h)
- 10-way driver's and front passenger's (including lumbar) power seats
- Heated front seats (GS 350)
- Heated and ventilated front seats (GS 460, GS 450h)
- Height-adjustable headrests for all seats
- Carpeted floor mats

COMMUNICATION, AUDIO AND NAVIGATION

- HDD Navigation System¹ including voice command, colour LCD display with integrated backup camera¹⁰ and enhanced Bluetooth[®] capability¹² (GS 460, GS 450h)
- Mark Levinson[®] 14-speaker, 330-watt @ less than 0.1% THD, 20-20,000 Hz¹³
- Premium Surround Sound Audio System² with 7.1-channel architecture and in-dash, single-feed, six-disc DVD/CD auto-changer (GS 450h)
- Satellite roof-mounted fin antenna
- XM[®] Satellite Radio¹¹
- Lexus 10-speaker Premium Sound System with digital sound processor, Automatic Sound Levelizer (ASL) and in-dash, single-feed, six-disc CD auto-changer
- In-glass antenna with FM-diversity system
- USB and auxiliary iPod^{™9}/MP3/Windows Media[®] Audio (WMA) port

INSTRUMENTATION AND CONTROLS

- Steering-wheel-mounted audio and display controls
- Liquid-crystal multi-information console display
- Electroluminescent instrumentation

STANDARD SAFETY AND SECURITY FEATURES

SAFETY

- Four-wheel ventilated power-assisted disc brakes
- Electronic Controlled Braking (ECB) (GS 460, GS 450h)
- Four-sensor, four-channel Antilock Braking System (ABS)
- Vehicle Dynamics Integrated Management (VDIM)⁷ with cutoff switch
- Vehicle Stability Control (VSC)⁷
- Traction Control (TRAC)
- Brake Assist (BA)⁶
- Electronic Brake-force Distribution (EBD)
- Direct Tire Pressure Monitor System¹⁴
- Adaptive Front Lighting System (AFS) (GS 350 AWD, GS 460, GS 450h)
- Driver's and front passenger's dual-stage airbag system (SRS)¹⁵
- Front seat-mounted side airbags (SRS)¹⁵
- Front and rear side curtain airbags (SRS)¹⁵
- Driver's and front passenger's knee airbags (SRS)¹⁵
- Rear-seat side airbags (SRS)¹⁵ (GS 450h)
- Active front headrests⁴
- Three-point seatbelts for all-seating positions, pre-tensioners with force limiters for front and outboard rear seats
- Automatic Locking Retractor/Emergency Locking Retractor (ALR/ELR) seatbelts for front and outboard mounted rear passenger seating positions. Emergency Locking Retractor (ELR) only for driver's seat and centre rear passenger seating position
- Height-adjustable front shoulder belt anchors
- Child Restraint Seat (CRS) tether anchor brackets for rear outboard seating positions
- Rigid body structure with front and rear crumple zones
- Side-impact door beams
- Reinforcements in pillars and door sills
- Impact-dissipating upper interior trim
- High-Intensity Discharge (HID) headlamps with dynamic auto-levelling
- Headlamp washers (GS 350 AWD, GS 460, GS 450h)
- Integrated foglamps
- Water-repellent front-door glass
- Variable intermittent windshield wipers with mist cycle (GS 350 RWD)
- Rain-sensing intermittent windshield wipers with mist cycle (GS 350 AWD, GS 460, GS 450h)
- Power-adjustable, auto-folding outside mirrors with defoggers, puddle lamps, integrated turn indicators and auto tilt-down in reverse

SECURITY

- Vehicle theft-deterrent and engine-immobilizer system, with in-key transponder
- Emergency interior trunk release
- Tool kit
- First aid kit

OPTION PACKAGES

PREMIUM PACKAGE GS 350 AWD/RWD

HDD Navigation System¹ with backup camera¹⁰
Rear-seat side airbags (SRS)¹⁵
Heated and ventilated front seats
Power rear window sunshade
One wallet size smart card key
Intuitive Parking Assist
Rear spoiler
Rain-sensing intermittent windshield wipers with mist cycle, headlamp washers and Adaptive Front Lighting System (AFS) (GS 350 RWD)

THE BEST WAY TO FINANCE YOUR NEW GS – EASILY, QUICKLY, AFFORDABLY.

LEXUS Financial Services • Lexus Financial Services does nothing but finance or lease Lexus vehicles; thus, we know financing and we know Lexus. • Our interest rates are fully competitive and our terms flexible (up to 72 months). • Since we offer Web services, you can: A: check out our rate; B: save time by getting credit approved on-line – before checking out the vehicle(s) of your interest. • Finally, one-stop shopping (at all Lexus Dealerships) saves you time. We invite you to visit us at lexus.ca or call us at 1-800-26-LEXUS.

LEXUS CANADA. Every effort has been made to ensure the specifications and equipment shown are accurate based on information available at time of printing. In some cases, certain changes in standard equipment, options or product delays may occur, which would not be reflected in this brochure. Lexus Canada reserves the right to make these changes without notice or obligation. Your Lexus Dealer is the best source for up-to-date information.

CLUB LEXUS Lexus invites you to join us in Club Lexus, a very exceptional compilation of services, offers, special events and pertinent information available only to Lexus owners. To register for Club Lexus, please visit lexus.ca or call 1-800-26-LEXUS.

1. The Navigation System is designed to assist in locating an address or point of interest. XMNavTraffic[®] requires a monthly service fee and is designed to provide real-time traffic or alternative routes of travel. Discrepancies may be encountered between the system and your actual location. Road system changes may affect the accuracy of the information provided. Rely on your common sense to decide whether to follow a specified route. Detailed coverage not available for every city or roadway. Periodic updates available at an additional cost. See your Navigation System *Owner's Manual* for further details. NavTraffic will only be available in Montreal, Vancouver and Toronto. Both Montreal and Vancouver will only have incident data and Toronto will have both incident and flow data. **2.** Mark Levinson is a registered trademark of Madrigal Audio Labs, Inc. a division of Harman International. **3.** Ratings achieved using the required premium unleaded gasoline with an octane rating of 91 or higher. **4.** Active headrests can help reduce the extent of whiplash in certain types of rear-end collisions. **5.** FUEL CONSUMPTION RATING. These estimates are based on the Government of Canada's approved criteria and testing methods. The actual fuel consumption of the vehicle may vary. Refer to the Government of Canada publication *EnerGuide Fuel Consumption Guide*. **6.** Brake Assist is designed to help the driver take full advantage of the benefits of ABS. It is not a substitute for safe driving practices. Braking effectiveness also depends on proper brake-system maintenance and tire and road conditions. **7.** Vehicle Stability Control (VSC) and if applicable Vehicle Dynamics Integrated Management (VDIM) are electronic systems designed to help the driver maintain vehicle control under adverse conditions. They are not substitutes for safe driving practices. Factors including speed, road conditions and driver steering input can all affect whether VSC and VDIM will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **8.** HAC is designed to help minimize backward rolling on steep ascents. This system is not a substitute for safe driving judgment and practices. Factors including speed, grade, surface conditions and driver input can all affect whether HAC will be effective in preventing a loss of control. Please see your *Owner's Manual* for further details. **9.** iPod is a registered trademark of Apple Inc. **10.** The backup camera, available only with the Navigation System, does not provide a comprehensive view of the rear area of the vehicle. You should also look around outside your vehicle and use your mirrors to confirm rearward clearance. **11.** Functioning Satellite Radio requires a compatible receiver and monthly service fee. Please see your Lexus Dealer for further details. Reception of satellite signal may vary depending on location. **12.** Lexus tests certain Bluetooth[®] capable phones for compatibility with Lexus vehicles. Please see your Lexus Dealer for details. Note that the recommendation of Lexus is not a warranty of the performance for any phone and that some problems may occur with any type of handset based on the phone software version or the service coverage available in your area. **13.** Continuous average power, all channels driven, at less than 0.1% THD; 20-20,000 Hz. **14.** The Lexus Tire Pressure Monitor alerts the driver when tire pressure is critically low. For optimal tire wear and performance, tire pressure should be checked regularly with a gauge; do not rely solely on the monitor system. Please see your *Owner's Manual* for details. **15.** All the airbag ("AB") systems are Supplemental Restraint Systems. All ABs (if installed) are designed to inflate only under certain conditions and in certain types of severe collisions: frontal and knee ABs typically inflate in frontal collisions; side and side curtain ABs in side collisions; Roll-Sensing Curtain ABs at a severe tilt degree, roll or lateral G-force. In all other accidents, the ABs will not inflate. To decrease the risk of injury from an inflating AB, always wear seatbelts. Do not use a rearward-facing child seat in any front passenger seat. Please see your *Owner's Manual* for further information/warnings. **16.** The SmartAccess system may interfere with some pacemakers or cardiac defibrillators. If you have one of these medical devices, please talk to your doctor to see if you should deactivate this system. **17.** HomeLink is a registered trademark of Johnson Controls. **18.** Maximum output indicates engine plus HV battery output. **19.** The Lexus Hybrids have nearly 70% fewer smog-forming emissions compared against similarly equipped conventional gasoline power vehicles. Based on North American sales data and Federal Tier 2 engine emission requirements.

Vehicles in this brochure shown with optional equipment. Some features mentioned and/or shown in this brochure may only be available as part of an optional package.

Under very cold conditions, the operation of some vehicle electronic systems using liquid crystal technology (such as CD, DVD, NAV and Audio displays) may be adversely affected until a warmer interior vehicle temperature is reached.

Lexus reminds you to place small children in CSA-approved car seats - in the rear seats, to always wear your seatbelts, and to drive safely.
