

The new GLC.

30! years 4MATIC

Mercedes-Benz
The best or nothing.

Introducing the 2016 GLC.

The new GLC is a mid-size luxury SUV that reflects the flair of a lively urban lifestyle – flexible and agile, it is the perfect companion to any city. Outside, sculpted body sides and an extended rear spoiler enable the GLC to glide through air. The interior, with its waterfall style dashboard, electrically adjustable seats and fine materials including genuine wood trim, make it a pleasure for both drivers and passengers alike to slip inside. It is aesthetically eye-catching, as it is both modern yet timeless all at once. Bigger and lighter than previous models, the GLC also provides ample space as well as exceptional fuel efficiency.

Advanced sensors and Mercedes-Benz Intelligent Drive technology offer the highest standard of comfort and safety. Active Lane Keeping Assist intervenes if the GLC deviates from a lane unintentionally, while CROSSWIND ASSIST keeps the car on track if there is a sudden gust of wind, by means of targeted one-side braking. All of this makes the outwardly sleek and elegant GLC, embody enough tenacity to master a variety of difficult terrains. In one word the GLC is multifaceted, a pure joy to drive inside and outside of the city limits. The GLC is a vehicle that, like its driver, truly knows no bounds.
