

The all-new Sportage

Movement that inspires

Reimagined like you.

The all-new Sportage reimagines innovation in motion. It pushes the boundaries of urban SUV design and technology with refinement and purpose, while delivering all the comforts and connectivity modern adventures require.

For those who keep moving. For those who keep seeking. Inspiration is never out of reach.

Designed for the driver in you.

From the curved display to the intelligent, easy-to-use controls, everything in Sportage's modern cockpit is designed to enhance your driving experience.

Panoramic curved display¹

combines driving functions and the centre infotainment and navigation screens in one manageable frame. Simple graphics and touch commands give the driver top priority.

Blind-spot view monitor^{1,2}

keeps an eye on traffic approaching from behind. When you signal a lane change, a monitor in the instrument cluster shows a live image of the lane so you can manoeuvre safely.

Terrain mode¹

helps provide improved traction and greater control in mud, snow and sand.

Wireless charging^{1,3}

keeps your smartphone fully charged while you're on the road.

¹ Available feature. See features page or visit kia.ca for full details. International model shown.

Comfort all around.

The cabin of the all-new Sportage is designed to be relaxing and spacious. It's filled with an impressive range of standard and available technologies for your convenience, comfort, and confidence.

Infotainment/climate switchable controller¹ share the same LCD softkey keyboard. Press the fan icon to transform the controls on the right to climate, and press the arrow icon to switch them to infotainment.

USB charging ports¹ for rear passengers are conveniently located in the seatbacks ahead of them.

¹ Available feature. See features page or visit kia.ca for full details. International model shown.

Features and versatility for life on the move.

What's an adventure without your gear? Sportage gets you wherever you're going-with everything you want to bring along.

Expansive cargo space

allows for multiple configurations, easy access, and endless adventure.

Smart-power liftgate¹

opens automatically when you stand behind it for three seconds with your Smart Key — and closes with the push of a button.

Kia Connect¹

integrates with your compatible smartphone to let you start the engine and turn on the AC/heat from a distance.

¹ Available feature. See features page or visit kia.ca for full details. International model shown.

Advanced intelligence that protects.

Sportage employs a feature-rich array of next-level technologies to observe, sense, and even intervene when your driving safety is at risk.

Forward collision-avoidance assist²

is designed to alert you of a potential collision with a vehicle or pedestrian, and can apply the brakes to reduce or avoid impact. An available junction turning function¹ will warn you with an audible alert if it detects a vehicle approaching yours when you are making a left turn at an intersection.

Blind-spot collision-avoidance assist^{1,2}

uses radar to detect vehicles in your blind spot and may apply braking power when an approaching vehicle is detected within a certain distance, next to or behind your vehicle.

Lane follow assist²

uses a camera at the front windshield to detect lane markers on the road to help keep you in the centre of your lane.

Rear cross-traffic collision avoidance-assist^{1,2}

helps detect approaching cross traffic when in reverse. When approaching cross traffic is detected, the system alerts the driver and may apply brakes.

¹ Available feature. See features page or visit kia.ca for full details.
