*“A graceful little goddess, the Spirit of Ecstasy, who has selected road travel as her supreme delight and alighted on the prow of a Rolls-Royce motor car to revel in the freshness of the air and the musical sound of her fluttering draperies.”*

Charles Sykes, 1911

An enigmatic and iconic embodiment of luxury, beauty, grace and effortless speed, the Spirit of Ecstasy is a beacon of inspiration to all who craft and enjoy Rolls-Royce motor cars. ## An even more precious little goddess...

Each Spirit of Ecstasy is hand crafted by experts to the highest Rolls-Royce standards using a 5,000 year old method known as the 'lost wax process'.

An injection wax pattern is taken from the pattern mould, before being assembled onto a riser; dipped, and coated in shell. The wax is then melted out and the metal of choice is poured into the mould at 1,500 degrees Centigrade. Crafting the precise detailing in these fine quality castings takes time, with each Spirit of Ecstasy taking approximately one working week to complete.
