

SIMPLY CLEVER

ŠKODA

The ŠKODA Octavia

Effective: 1st June 2011

Welcome to the Octavia

Built upon the core values of practicality, reliability and great value for money, the Octavia range has been delivering driving satisfaction for over 50 years.

The latest Octavia continues where its predecessors left off. With a great level of equipment across all trim levels, there is bound to be an Octavia to suit you.

Versatility across the range.

From the entry level S, to the sporty vRS, to the top of the range Laurin & Klement, there is an Octavia to fit everyone.

In need of a four wheel drive? Then there's the 4x4, or the even more adventurous Scout.

Škoda Assistance. Every Škoda is covered by Škoda Roadside Assistance. So if you break down, even if you're on holiday or on business in Europe, you can use the freephone number to call someone to come and help you. Best of all it's completely free for 3 years.

Safety. With driver and passenger front and side airbags as standard on all models, the Octavia has safety at its core. The newly designed front headrests, which are standard across the range, have been developed with a new shape which help to protect your spine by minimising the effects of whiplash in an accident.

Multimedia. Standard on Elegance trim and above is a 3.5mm aux in socket. This allows MP3 players to be played through the radio, but with control remaining on the MP3 player. The optional MDI unit (standard in SE Plus) is a step forward in-car multimedia. This allows you to play and control your MP3 music files through the radio.

DSG gearbox. Get great acceleration, performance and fuel economy with the Octavia's DSG gearbox. Previously available only on diesel engines, the DSG (Direct Shift Gearbox) is now available on both diesel and petrol engines. Operating in fully automated or manual tiptronic, the DSG uses the very latest technology to ensure that comfortable gear shifting is achieved with excellent performance, fuel economy and of course acceleration.

Air conditioning. Stay cool in the Octavia with standard air conditioning. Available as manual and dual zone, air conditioning offers great advantages over standard ventilation, keeping your car cool during the summer months. Surprisingly, it also becomes an effective tool in winter, demisting the windows faster than standard ventilation. Not to mention the positive effect that air conditioning has on the value of your car when you come to change it.

The latest Octavia is Škoda's next step forward in the history of this award winning model. With some design and functional improvements, the Octavia improves on what was already a class leading and award-winning predecessor.

With its elegant exterior, the Octavia marries classical good looks with a sense of dynamism and sophistication. Inside, the Octavia benefits from durable upholstery, an outstanding sound system and range of multi-function steering wheels ensuring that the feel of the interior is as exciting as the outside.

Opening the bonnet unveils powerful, fuel efficient direct injection petrol and TDI engines. The list of comfort, functional and safety features is vast and the new contemporary interiors ensure a pleasurable driving experience.

The Octavia has always been based on the timeless appeal of value for money, and the latest incarnation is no exception.

So now the introduction's over, why not have a look at the Octavia in a little more detail?

The Škoda Octavia S

Standard Equipment

15" 'Avantgarda' steel wheels (6.0J x 15" 195/65 R15 91H) (6.0J x 15" 195/65 R15 T on 1.4 16V)
 4 loudspeakers
 4 spoke steering wheel
 ABS + MBA + MSR + ASR (without EDL)
 Aero windscreen wipers with intermittent function
 Air re-circulation with pollen filter
 Black door mirrors and door handles
 Body coloured bumpers and protective side mouldings
 Central locking (SAFE system)
 Driver and passenger front and side airbags
 Driver's seatbelt warning light
 Electric front windows
 Electrically adjustable and heated door mirrors with integrated indicators
 Electro-mechanical power steering

Electronic engine immobiliser
 Folding rear seats
 Fuel supply cut off switch
 Gear change recommendation (Manual only, not 1.4 16V or 1.6 TDI)
 Halogen projector headlights with DE-module
 Height adjustable driver seat
 Height adjustable front and rear head restraints (three)
 Height and reach adjustable steering wheel
 High level third rear brakelight
 Illuminated luggage compartment
 Interior light with door pillar switches
 Internally adjustable headlight beam level
 Lashing eyelets in the luggage compartment
 Manual air conditioning
 Outdoor temperature gauge

Passenger airbag de-activation switch
 Passenger vanity mirror
 Radio 'SWING' - 2 DIN with CD player (can play MP3 recordings)
 Rear mudflaps
 Rear window wiper
 Two ISOFIX child seat fittings in rear
 Tyre repair kit (no spare wheel) †

DSG only
 Chrome inner door handles
 ESP incl ABS, EBV, MSR, ASR, EDS, HBA, DSR
 Leather gearknob

Estate only
 Roof rails
 Folding rear seats (60%/40% split)
 Storage box behind rear seats

For offers visit www.skoda.co.uk/offers

† With the standard 'Avantgarda' steel wheels it is possible to order a full size steel wheel as an option. When ordering the optional 15" 'Pyxis' alloy wheels, only a temporary 'Space saver' option is available. For further information please see your retailer.

L	226 - 255	£790	£445
M	Over 255	£1,000	£460

OTR (Recommended On The Road)
* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)
** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current Škoda UK stock. The VED bands are shown in the table opposite.

¹ First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2011. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your Škoda retailer. Edition: UK 30th May 2011. VAT is calculated at 20%. For fuel consumption data, please refer to page 20.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 27.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BIK (Benefit in Kind)
The BIK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2011/2012.

Škoda GreenLine II Technology

A combination of innovative technology and practical design features ensure that the Octavia GreenLine II is highly efficient and environmentally friendly. Below is an explanation of the technology present in the Octavia GreenLine II and how it works to keep fuel costs down and environmental impact low.

1.6 TDI CR 105PS DPF. The economical four cylinder 1.6 TDI diesel engine in the GreenLine II produces just 99 g/km CO₂ for hatch and 109g/km CO₂ for estate, which means road tax for both models, is free for the first 12 months.

The Octavia GreenLine II has an outstanding combined fuel economy of 74.3 mpg, the Estate 67.3 mpg. Reducing fuel costs for the driver and our impact on the environment.

Energy Recovery. Energy recovery is the process of converting kinetic energy (energy created through movement) back into usable electricity, which is either stored in the battery, or immediately used again by electrical components on the vehicle.

Depending on driving style, electrical energy is supplied to the vehicle by the alternator or directly by the battery. The principle of energy recovery is to reduce the load on the engine and therefore contribute to lower emissions and reduced fuel consumption.

Aerodynamics. One of the simplest ways to improve fuel efficiency and reduce emissions, is to create a more aero-dynamic vehicle.

The Octavia GreenLine II has slightly lowered suspension to facilitate better airflow.

To keep the weight and drag of the GreenLine II models down to a minimum and thus ensure the model is as efficient as possible, there is a reduced list of options available.

However, the comfort and safety of all occupants has not been compromised and so important features like airbags and air conditioning have been retained.

Low profile tyres. The Octavia GreenLine II has 15" Pyxis alloys (6J x 15" 195/65 R15 91H) these lighter alloy wheels with low rolling resistance tyres have a higher prescribed air pressure to reduce friction.

Stop/start System. This innovative system turns off the engine when it is not needed, for example when the driver is stopped at traffic lights or in heavy traffic.

When a normal car is stationary, the engine will idle, which in turn consumes fuel and generates emissions. The Stop/start system cleverly cuts out this unnecessary work by stopping the engine automatically when the car is stationary, in neutral and the clutch pedal is released.

The Stop/start system does not inhibit a quick getaway either. As soon as the driver presses the clutch to put the vehicle in gear, the engine immediately starts up so acceleration is as instant as if the car had been idling.

Gear recommendations.

The recommended gear feature on the trip computer or Maxi-dot display shows the driver whether the gear they are in is appropriate or whether they need to change up or down.

The aim is to help the driver achieve optimum engine speed and reduce fuel consumption.

K	201 - 225	£580	£260
L	226 - 255	£790	£445
M	Over 255	£1,000	£460

OTR (Recommended On The Road)

* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

** All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO₂ figures may differ on these vehicles if taken from current Škoda UK stock. The VED bands are shown in the table opposite.

¹ First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2011. First year rate or 'showroom tax' applies to new car purchases only.

² Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Please confirm figures with your Škoda retailer. Edition: UK 30th May 2011. VAT is calculated at 20%. For fuel consumption data, please refer to page 20.

Company car tax is based on your car's carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 27.

P11D (Expenses and Benefits)

The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)
The BiK percentage value is based on the CO₂ emissions of the vehicle for the current tax year 2011/2012.

□ Where law permits.

Power transmission

Clutch Hydraulically-activated single-plate dry clutch with diaphragm spring, asbestos-free coating.

Manual transmission Five-speed manual transmission, fully synchronised with direct gearshift, six speed manual transmission.

6 spd DSG transmission - two coaxial wet multiple-disc clutch, electro-hydraulically operated.

7 spd DSG transmission - two coaxial dry multiple-disc clutch, electro-hydraulically operated.

Please note: With all manual gear boxes the clutch needs to be depressed to start the engine.

Number of gears

5 Speed Manual 1.4 16V, 1.6 MPI, 1.6 TDI CR

6 Speed Manual 1.2 TSI, 1.4 TSI, 1.8 TSI, 2.0 T FSI, 2.0 TDI CR, 1.6 TDI CR 4x4

6 Speed DSG 2.0 T FSI, 2.0 TDI CR, 2.0 TDI CR 4x4

7 Speed DSG 1.2 TSI, 1.4 TSI, 1.6 TDI CR, 1.8 TSI

Chassis

Front axle/rear axle McPherson axle with the bottom triangular control arms and Independent multi-link suspension with one longitudinal and two cross arms and torsion stabiliser.

Suspension Coil springs, telescopic shock absorbers, rear springs located outside the shock absorbers (gas shock absorbers in rear).

Braking system Hydraulic dual circuit brake system with diagonal interconnection, vacuum assisted dual rate brake booster.

Front brakes Disc brakes, with hollow discs, internal cooling and single-piston floating calliper.

Rear brakes Disc brakes with full discs and single-piston floating callipers.

Handbrake Mechanical handbrake operating on rear wheels.

Steering Direct rack and pinion steering with electromechanical power steering.

Tank

Fuel tank content (litres) 55 (60 for 4x4)

Fuel Lead-free petrol with RON 95 or Lead-free petrol with RON 91†.

Diesel (2.0 TDI CR 140PS) CZ 49.

Body type Five-door, five-seat, double-space steel bodywork, fully galvanized body.

Drag coefficient

Hatch: 0.3 (0.296 GreenLine II) Estate: 0.3 (0.34 Scout, 0.299 GreenLine II)

Official fuel consumption for the Octavia range in mpg (litres/100km):

urban 27.2 (10.4) - 60.1 (4.7);
extra urban 44.1 (6.4) - 83.1 (3.4);
combined 36.2 (7.8) - 74.3 (3.8).

CO₂ Range 182 - 99 g/km

†Using low-octane fuel may affect engine performance.

We measure the maximum power output figures of our engines in PS or Pferdestärke (horse strength in German), which is the metric equivalent of bhp. To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

* Official fuel consumption according to EU Directive 99/94.

The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated in this standard.

□ Where law permits.

Power transmission

Clutch Hydraulically-activated single-plate dry clutch with diaphragm spring, asbestos-free coating.

Manual transmission Five-speed manual transmission, fully synchronised with direct gearshift, six speed manual transmission.

6 spd DSG transmission - two coaxial wet multiple-disc clutch, electro-hydraulically operated.

7 spd DSG transmission - two coaxial dry multiple-disc clutch, electro-hydraulically operated.

Please note: With all manual gear boxes the clutch needs to be depressed to start the engine.

Number of gears

5 Speed Manual 1.4 16V, 1.6 MPI, 1.6 TDI CR

6 Speed Manual 1.2 TSI, 1.4 TSI, 1.8 TSI, 2.0 T FSI, 2.0 TDI CR, 1.6 TDI CR 4x4

6 Speed DSG 2.0 T FSI, 2.0TDI CR, 2.0 TDI CR 4x4

7 Speed DSG 1.2 TSI, 1.4 TSI, 1.6 TDI CR, 1.8 TSI

Chassis

Front axle/rear axle McPherson axle with the bottom triangular control arms and Independent multi-link suspension with one longitudinal and two cross arms and torsion stabiliser.

Suspension Coil springs, telescopic shock absorbers, rear springs located outside the shock absorbers (gas shock absorbers in rear).

Braking system Hydraulic dual circuit brake system with diagonal interconnection, vacuum assisted dual rate brake booster.

Front brakes Disc brakes, with hollow discs, internal cooling and single-piston floating calliper.

Rear brakes Disc brakes with full discs and single-piston floating callipers.

Handbrake Mechanical handbrake operating on rear wheels.

Steering Direct rack and pinion steering with electromechanical power steering.

Turning circle (m) 10.2

Tank

Fuel tank content (litres) 55 (60 for 4x4)

Fuel Lead-free petrol with RON 95 or Lead-free petrol with RON 91†.

Diesel (2.0 TDI CR 140PS) CZ 49.

Body type Five-door, five-seat, double-space steel bodywork, fully galvanized body.

Drag coefficient

Hatch: 0.3 (0.296 GreenLine II) Estate: 0.3 (0.34 Scout, 0.299 GreenLine II)

Official fuel consumption for the

Octavia range in mpg (litres/100km):

urban 27.2 (10.4) - 60.1 (4.7);
extra urban 44.1 (6.4) - 83.1 (3.4);
combined 36.2 (7.8) - 74.3 (3.8).

CO₂ Range 182 - 99 g/km

†Using low-octane fuel may affect engine performance.

We measure the maximum power output figures of our engines in PS or Pferdestärke (horse strength in German), which is the metric equivalent of bhp.

To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

* Official fuel consumption according to EU Directive 99/94.

The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated in this standard.

*Kerb weight is the mass of the vehicle with body work in running order.

**Payload includes driver (at 75kg) & equipment

Technical glossary

ABS: the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

Elements of the ABS System :-

- **Dual Rate Vacuum Brake Boosters:** increases brake effort under emergency braking conditions.
- **EBC:** Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.
- **EBD** (aka EBV): Electronic Brake Distribution automatically distributes different pressures to the front and rear brakes to stop the rear wheels from locking up under heavy braking. It also compensates for loaded and unloaded vehicles therefore doing away with the need for a Load Sensing Valve on the rear axle.

CAN Bus: the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

Fuel cut-out: should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

Trip Computer: the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

DPF: diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

CR: the completely new range of diesel engines are built on a system of Common-Rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines and significantly reduce emissions.

ESP: electronic stability programme is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESP constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESP reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

Elements of ESP system:-

- **ASR:** anti-slip regulation traction control ensures the Octavia's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.

- **MSR:** the engine torque control system recognises when the wheels are subject to too much slippage and regulates the power supply by intervening in the engine management system. This prevents wheelspin when, for example, changing down on a smooth or wet road surface. MSR is a constituent part of the ASR system.

- **EDL:** the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.

- **HBA:** Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.

- **HHC:** Hill hold control allows for a safe hill start by holding the brake for a small amount of time, reducing the risk of unintentional reversing or roll back.

- **TPM:** Draws the driver's attention to any pressure loss in any of the tyres. Early warning can prevent damage from occurring as a result of an under inflated tyre or a defect that radically changes the cars behaviour and driveability.

- **DSR:** Driver Steering Recommendation – in a crisis situation it helps the driver stabilize a skid by making a slight intervention in the steering.

- **ESBS:** Electronic Stability Brake System – targeted interventions in the braking process improve the handling of a car as it brakes when passing round a bend and keeps it from veering.

- **AFM:** records and assesses all available data about the journey to optimize the ESP system's reactions, which can thus be adapted to any driving style and the current vehicle payload.

- **Xenon lights:** the Xenon lights produce about 2.5 times the light of standard Halogen lights with 35% less energy consumption.

- **XDS:** XDS is an advanced electronic differential lock linked to a sophisticated Electronic Stabilisation Programme (ESP) system, designed to maximise traction and improve responses. In moments of fast cornering it provides pressure on the inside wheel to prevent wheel spinning. The result is better traction and a reduction of any tendency to under steer. The driver will experience a more agile, precise and calming driving performance with better traction out of bends.

Calculating your tax liability

To find out how much tax you will pay, simply take the P11D value, then multiply this figure by the BiK percentage. Then simply multiply this figure by 20% or 40% depending on the level of income tax that you pay.

Please note if your employer provides you with free fuel, this is treated as an additional taxable benefit.

For more information on company car taxation please visit the HM revenue and customs website www.hmrc.gov.uk

BiK calculation example- Octavia S Hatch 1.6 TDI CR 105PS DPF

P11D value	£16,345.00
Company Car BiK tax based on CO ₂ emission level	13%
Taxable BiK (for 2011/2012 tax year): 13% of £16,345.00	£2,124.85

Annual company car tax (2011/12)

20% Income Tax: 20% of £2,124.85	£424.97
40% income Tax: 40% of £2,124.85	£849.94

Monthly company car tax (2011/12)

20% Income Tax: £424.97 divide by 12 months	£35.41
40% income Tax: £849.94 divide by 12 months	£70.83

Customer services

Talk to us on 08457 745 745

No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open from 8.30am-5.30pm. If you're calling out of hours, then a message can be left and you'll be contacted back.

Peace of mind with a Škoda warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed dealer network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner.

Your Octavia also benefits from a 3 year paint warranty and 12 year body protection warranty.

A network that's here to help

With 17 years in the top 10 of JD Power's customer satisfaction survey, our network of approximately 125 retailers knows how to treat a customer. You can be sure that as a Škoda customer, your retailer will look after you from the moment you walk through the door, throughout the life of your Škoda. Your new Octavia will be serviced and maintained to the highest standards by specially trained Škoda technicians. And when you need a spare part you'll be happy to know that most are held in stock, or can be ordered within 24 hours. So if top class customer satisfaction is what you're after, the Škoda network will be there for you.

Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from Škoda. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

If your Škoda's in trouble, rely on Škoda Assistance

Completely free of charge, every new Škoda is covered by Škoda Assistance, provided by the RAC through a dedicated team. This cover lasts for 3 years, with no mileage limit. So if you ever break down, you can use the freephone number to call out someone who really knows about Škoda cars to help. This service is even available in Europe, so you don't need additional breakdown cover when you're driving on the continent.

Financing your Škoda

We all know that times are hard, so Škoda Finance specialises in providing funding solutions for Škoda drivers. Regardless of whether you're a private or business user, you can choose from a range of funding options.

Finance products available are:

- Solutions - a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Škoda Finance products you can choose a fixed-cost maintenance plan designed to help you budget accurately. No matter what finance product you choose, your local Škoda retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs. Škoda Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of retailer fitted accessories? A separate accessories brochure can be found at your local retailer, or can be ordered by phoning our call centre, or by going on-line at www.skoda.co.uk

Škoda Insurance

We want you to start enjoying your new car from day one and thanks to Škoda Insurance complimentary seven day cover you can.
