## The **Škoda**Roomster

**Recommended Retail Price List  
and Technical Specification**

Effective 1st March 2011

# Welcome to the Škoda Roomster

Ground breaking practicality and comfort form the basis of this forward-thinking MPV which really did break the mould. Why not take a minute to understand exactly how the Roomster can make you a happy driver?

## Space

The Roomster's boot can hold 480 litres with the rear seats up. That's an impressive amount of space for a small MPV, but not as impressive as the 1,810 litres of space you get when you remove the 'Varioflex' seats altogether. And with other intelligent storage solutions such as the double glovebox and the 1.5 litre bottle holder, in Roomster, all the space is maximised.

## Varioflex seating

Offering over 20 different seat configurations, the 'Varioflex' system ensures you can arrange the 'Living Room' to suit your needs. Taking the kids on a day trip? Leave the seats in. Only got two kids? Take the centre seat out. Need to take the rubbish to the dump? Take all the seats out so you can do it in one go. Going cycling? Take one seat out to make some room... we could go on and on!

## Modular Design: The Driving Room

The design of the Roomster provides two distinct areas; the 'Driving Room' and the 'Living Room'. Each area has been designed to make sure you are comfortable and enjoy the ride. Unlike other MPVs, the position of the seats and the steering wheel has been designed to make you feel like you are driving a conventional hatchback, so you won't have to compromise on your driving fun!

## Škoda Assistance

Every Škoda is covered by Škoda Roadside Assistance. So if you break down, even if you're on holiday or on business in Europe, you can use the freephone number to call someone to come and help you. Best of all it's completely free for 3 years.

## Modular Design: The Living Room

The 'Living Room' offers its passengers a large, comfortable, airy, light and flexible space. The rear seats are slightly higher than the front and together with the deeper rear windows offer a great view. And of course, there's also the huge flexibility given by the 'Varioflex' seating.

## Roomster Scout

Fancy something a little different? The Scout offers the Roomster in a more rugged, adventurous skin. With Scout floor mats, Scout upholstery and Scout body mouldings, all the practicality of the Roomster has been packaged into a more robust, stylised look. And with great specification, the Scout gives both comfort and style to go with its practicality.

The Roomster has been refreshed, giving the car a more dynamic appearance. The main changes are at the front. A redesigned, wider front grille and newly designed headlights optically widen the Roomster, strengthening the horizontal lines increasing its road presence. The sculpted bonnet and wraparound windscreen with black A pillars and 'floating' roof remain, making for a car that retains an air of style, elegance and contemporary design.

The modern exterior is matched by the updated interior. Newly designed stereos, steering wheels and upholsteries improve the feeling of style and quality of Roomster - soft touch surfaces and ergonomically laid out controls make the car a joy to drive. With outstanding boot space, headroom and legroom, not to mention lots of room for luggage, driver and passengers can travel in comfort.

The biggest change for Roomster was under the bonnet. Cleaner and more efficient petrol and diesel engines offer the driver a suitable engine for every situation. TSI petrol engines offer a great blend of power and torque combined with low CO<sub>2</sub> and improved fuel economy, whilst the range of 'Common Rail' diesel engines emit just 124g/km of CO<sub>2</sub>, helping to reduce the impact on the environment.

The new Roomster GreenLine II is fitted with technological advancements such as a Stop/start system, gear change recommendation, and energy recuperation, improving economy and lowering CO<sub>2</sub> emissions even further. These advancements mean the Roomster GreenLine II emits just 109 g/km CO<sub>2</sub>, with a combined fuel economy of 67.3 mpg making it the most economical Roomster ever!

So now the introduction to the refreshed Roomster is over, why not take a look at the Roomster in a little more detail?

OTR (Recommended On The Road)

\* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

\*\* All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO<sub>2</sub>) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO<sub>2</sub> figures may differ on these vehicles if taken from current Skoda UK stock. The VED bands are shown in the table opposite.

<sup>1</sup> First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2010. First year rate or 'showroom tax' applies to new car purchases only.

<sup>2</sup> Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 22.

P11D (Expenses and Benefits)  
The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)

The BiK percentage value is based on the CO<sub>2</sub> emissions of the vehicle for the current tax year 2010/11.

Please confirm figures with your Škoda retailer. Edition: UK 4th January 2011. VAT is calculated at 20%. For fuel consumption data, please refer to page 16.

Model shown is not UK specification.

# Škoda GreenLine II Technology

A combination of innovative technology and practical design features ensure that the Roomster GreenLine II is highly efficient and environmentally friendly. Below is an explanation of the technology present in the Roomster GreenLine II and how it works to keep fuel costs down and environmental impact low.

## 1.2 TDI CR 75PS DPF

The economical three cylinder 1.2 TDI diesel engine in the GreenLine II produces just 109 g/km CO<sub>2</sub> which means the first 12 months road tax is totally free!

The Roomster GreenLine II has a combined fuel economy of 67.3 mpg, making the Roomster GreenLine II the most frugal Roomster ever made!

## Energy Recuperation

Energy recuperation is the process of converting kinetic energy (energy created through movement) back into usable electricity, which is either stored in the battery, or immediately used again by electrical components on the vehicle.

Depending on driving style, electrical energy is supplied to the vehicle by the alternator or directly by the battery. The principle of energy recovery is to reduce the load on the engine and therefore contribute to lower emissions and reduced fuel consumption.

## Aerodynamics

One of the simplest ways to improve fuel efficiency and reduce emissions, is to create a more aero-dynamic vehicle.

The Roomster has slightly lowered suspension to facilitate better airflow.

To keep the weight and drag of the GreenLine II models down to a minimum and thus ensure the model is as efficient as possible, there is a reduced list of options available.

However, the comfort and safety of all occupants has not been compromised and so important features like airbags and air conditioning have been retained.

## Low profile tyres

The Roomster GreenLine II has 15" Antares alloys (6Jx15" 185/60 R15 84T) these lighter alloy wheels with low rolling resistance tyres have a higher prescribed air pressure to reduce friction.

## Stop/start System

This innovative system turns off the engine when it is not needed, for example when the driver is stopped at traffic lights or in heavy traffic.

When a normal car is stationary, the engine will idle, which in turn consumes fuel and generates emissions. The Stop/start system cleverly cuts out this unnecessary work by stopping the engine automatically when the car is stationary, in neutral and the clutch pedal is released.

The Stop/start system does not inhibit a quick getaway either. As soon as the driver presses the clutch to put the vehicle in gear, the engine immediately starts up so acceleration is as instant as if the car had been idling.

## Gear change recommendations

The recommended gear feature on the trip computer or Maxi-dot display shows the driver whether the gear they are in is appropriate or whether they need to change up or down.

The aim is to help the driver achieve optimum engine speed and reduce fuel consumption.

OTR (Recommended On The Road)

\* Recommended 'On the Road' prices include delivery, 12 months Road Fund Licence, DVLA First registration Fee (at £55), and apply to the United Kingdom only.

VED (Vehicle Excise Duty)

\*\* All vehicles will be subject to Vehicle Excise Duty based on the fuel type of the vehicle and its carbon dioxide (CO<sub>2</sub>) emissions level, measured in grams per kilometre (g/km). Due to changes in vehicle emissions data, CO<sub>2</sub> figures may differ on these vehicles if taken from current Skoda UK stock. The VED bands are shown in the table opposite.

<sup>1</sup> First year vehicle licence rates for petrol and diesel cars purchased on or after 1st April 2010. First year rate or 'showroom tax' applies to new car purchases only.

<sup>2</sup> Rate reverts to the Government's applicable Standard VED rate in subsequent years.

Company car tax is based on your cars carbon dioxide emissions. The higher the car's emissions, the higher its tax liability. When a company car is made available for private use a 'Benefit in Kind' value is calculated for tax purposes.

To help you work out your tax liability please refer to page 22.

P11D (Expenses and Benefits)  
The P11D value is calculated by taking the On The Road (OTR) price for the vehicle, less the Road Fund Licence (RFL) and First Registration Fee (FRF).

BiK (Benefit in Kind)  
The BiK percentage value is based on the CO<sub>2</sub> emissions of the vehicle for the current tax year 2010/11.

Please confirm figures with your Škoda retailer. Edition: UK 4th January 2011. VAT is calculated at 20%. For fuel consumption data, please refer to page 16.

## Škoda Roomster 'Varioflex' seating

The Roomster has been designed with both the driver and passengers in mind. The interior is split between the 'Driving Room' and the 'Living Room'. The 'Living Room' is characterised by the revolutionary 'Varioflex' seating system.

The 'Varioflex' seating provides a flexible and functional array of seat positions. The outer seats are able to slide backwards and forwards and recline, whilst the middle seat folds down to create an additional armrest and convenient table and drinks holders (table and drinks holders standard on SE & Scout).

The 'Varioflex' seating has over 20 different seat combinations. All seats can individually be folded down, lifted up and secured behind the front seats or removed completely. The centre seat can be removed and the two outer seats pushed inwards to create a more spacious two seat 'Living Room'. All 3 seats can be removed quickly and easily to create an enormous flat loadspace with a volume of 1,810 litres\*

\* 1,810 litres represents a space large enough to hold a small flock of sheep, goats or one concrete block from the Hoover dam! (Source - AQA)

□ Where law permits.

## Power transmission

**Clutch** Hydraulic single dry clutch disc with membrane spring, asbestos free.

**Manual transmission** Five-speed manual transmission, fully synchronised with direct gearshift.

**Automatic transmission** 7 speed DSG

Two coaxial dry multiple disc clutch, electro - hydraulically operated.

## Chassis

**Front axle/rear axle** McPherson suspension with lower triangular links and torsion stabiliser, compound link crank-axle.

**Suspension** Telescopic shock absorbers with coil springs, in the rear outside the springs.

**Braking system** Hydraulic dual-diagonal circuit braking system vacuum assisted.

**Front brakes** Disc brakes with inner cooling, with single/piston floating caliper.

**Rear brakes** Drum brakes with two self-adjusting brake shoes, or disc brakes (depending on engine type).

**Handbrake** Mechanical manual operating on rear wheels.

**Steering** Direct rack and pinion steering with electrohydraulic power steering.

**Turning circle (m)** 10.5

# Engine Specifications

<b>Diesel Engines</b>	<b>1.2 TDI CR 75PS DPF</b>	<b>1.6 TDI CR 90PS DPF</b>	<b>1.6 TDI CR 105PS DPF</b>

Combined*	67.3 (4.2)	60.1 (4.7)	60.1 (4.7)
CO <sub>2</sub> emissions g/km*	109	124	124

<sup>□</sup> Where law permits.

## Tank

**Fuel tank content** 55 litres

**Fuel** Unleaded petrol min. RON 95 (91)<sup>†</sup>

**Fuel** Diesel

**Body type** Five-door, two compartments, five seater.

We measure the maximum power output figures of our engines in PS or Pferdestärke (horse strength in German), which is the metric equivalent of bhp. To convert from metric to imperial horsepower, divide the PS figure by 1.0139.

## Official fuel consumption for the Roomster range in mpg (litres/100km)

**Urban** 34.5 (8.2) - 56.5 (5.0)

**Extra Urban** 56.5 (5.0) - 76.4 (3.7)

**Combined** 45.6 (6.2) - 67.3 (4.2)

**CO<sub>2</sub> Range** 143 - 109 g/km

<sup>†</sup> Lower efficiency when using lower RON petrol.

\* Official fuel consumption according to EU Directive 99/94. The consumption calculation according to 1999/100/EC is based on the actual unladen weight of the vehicle. Additional specifications can lead to a higher weight class and hence to consumption figures of this higher weight class. The driving style, road and traffic conditions, environmental influences and vehicle condition can in practice lead to consumption figures which may differ from those calculated in this standard

# Measurements and Weights

## Škoda Roomster

### Interior dimensions (mm)

Legroom – front max./min.	1,063/843
Legroom – rear max./min.	945/700

### Luggage storage space (litres)

with rear seats up	450
with rear seats backrests down	1,555
with rear seats removed	1,780
With rear seats up (no spare wheel)	480
With rear seats backrest down (no spare wheel)	1,585
with rear seats removed (no spare wheel)	1,810

Ground clearance (mm)	140
-----------------------	-----

Measurements in diagram are in (mm)

Petrol	1.2 12V 69PS	1.2 TSI 86PS	1.2 TSI 105PS	1.2 TSI 105PS DSG
<b>Weight</b>				
Kerb weight* kg	1,125	1,146	1,162	1,196
Total weight kg	1,655	1,676	1,692	1,726

Towing unbraked max kg	450	450	450
Towing braked max kg	1,200	1,200	1,200
Nose weight max kg	50	50	50

\* Kerb Weight is the mass of the vehicle with body work in running order. \*\* Payload includes Driver at 75kg & Equipment.

All measurements and weights correct at time of going to print but may be subject to change and may vary according to passengers and load in vehicle.

# Technical glossary

**ABS:** the anti-lock braking system prevents the wheels from locking during heavy or emergency braking, enabling the vehicle to remain steerable. When braking, wheel speed sensors measure the road wheel speed and should one or more wheels start to lock the system reduces brake pressure to that wheel.

## Elements of the ABS System :-

- **Dual Rate Vacuum Brake Boosters:** increases brake effort under emergency braking conditions.
- **EBC:** Electronic brake control. The engine brake torque control regulates the power supply by intervening with the engine management system.

**CAN Bus:** the CAN Bus is an electronic data bus which links the various different electronic control systems in the car. It ensures ideal co-ordination between systems and reduces the amount of wiring needed in the car.

**Fuel cut-out:** should one or more of the airbags inflate after an accident, this system automatically cuts out the fuel supply, thus preventing subsequent leakage of the diesel or petrol.

**Trip Computer:** the trip computer not only features an impressive range of data displays, operating it is simplicity itself. A multifunction touch key enables you to call up all relevant data on the easy-to-read display. Features include external temperature, time, current fuel consumption, average fuel consumption, miles driven and average speed.

**DPF:** diesel particulate filter is part of the exhaust system responsible for cleaning the engine exhaust gases before they enter the atmosphere. The DPF catches soot particles emitted in the exhaust gas and it works in conjunction with the catalytic converter, which reduces the amount of harmful gases entering the atmosphere. The DPF must periodically be emptied of the soot particles, a process known as regeneration. This involves elevated exhaust system temperatures. A driving style is required during regeneration, where a constant vehicle speed above 37 mph must be maintained. This does not always suit customers who make frequent short journeys or experience stop/start driving or drive within inner-city or urban areas.

**CR:** the completely new range of diesel engines are built on a system of common-rail fuel injection. The diesel engines have a high-pressure common rail direct injection fuel system and four-valve technology. As a result, the new engines are much quieter, more refined in their operation and consume less fuel, compared to the Pump Duse engines and significantly reduce emissions.

**ESP:** electronic stability programme is designed to stabilise the dynamic handling response of the vehicle by counteracting any tendency towards oversteer or understeer. The ESP constantly compares the actual movement of the vehicle with predetermined values and according to the situation ESP reacts by braking each wheel individually (according to direction of slip) and automatically adjusting the engine's output.

## Elements of ESP system:-

- **ASR:** anti-slip regulation traction control ensures the Roomster's stability when pulling away or accelerating. If the engine power or torque being transmitted to the drive wheels is too great, for example on a slippery road surface, engine torque is automatically reduced until optimum road holding returns, thus preventing wheelspin. A light indicates whether the ASR system is on. It can be manually switched off.
- **EDL:** the electronic differential lock continually compares the rpm of the drive wheels, and if it identifies a difference between them which could lead to an individual wheel spinning, for example if the two wheels are on different types of surface or accelerating on wet leaves, the system brakes the wheel affected until uniform rpm of all drive wheels is restored.
- **HBA:** Hydraulic brake assistant increases the optimal build-up of brake power. It ensures complete use of the brake system potential, thus shortening the braking distance.
- **HHC:** Hill hold control allows for a safe hill start by holding the brake for a small amount of time, reducing the risk of unintentional reversing or roll back.
- **TPM:** Draws the drivers attention to any pressure loss in any of the tyres. Early warning can prevent damage from occurring as a result of an under inflated tyre or a defect that radically changes the cars behaviour and driveability.

# Calculating your tax liability

To find out how much tax you will pay, simply take the P11D value, then multiply this figure by the BiK percentage. Then simply multiply this figure by 20% or 40% depending on the level of income tax that you pay.

## BiK calculation example- Roomster S 1.2 12v 69PS 5spd

P11D value	£11,460.00
Company Car BiK tax based on CO <sub>2</sub> emission level	17%
Taxable BiK (for 2010/11 tax year): 17% of £11,460.00	£1,948.20

### Annual company car tax (2010/11)

20% Income Tax: 20% of £1,948.20	£389.64
40% income Tax: 40% of £1,948.20	£779.28

### Monthly company car tax (2010/11)

20% Income Tax: £389.64 divide by 12 months	£32.47
40% income Tax: £779.28 divide by 12 months	£64.94

Please note if your employer provides you with free fuel, this is treated as an additional taxable benefit. For more information on company car taxation please visit the HM revenue and customs website [www.hmrc.gov.uk](http://www.hmrc.gov.uk)

## Customer services

### Talk to us on 08457 745 745

No matter what the query, our dedicated call centre is always ready to listen. No matter how big or small the request, speak to one of our customer care advisors to see if they can help. The call centre is open from 8.30am-5.30pm. If you're calling out of hours, then a message can be left and you'll be contacted back.

### Peace of mind with a Škoda warranty

In the first two years of owning your car, you'll get the peace of mind of a two year unlimited mileage warranty. In addition, you'll also get a further warranty on new vehicles supplied through the appointed dealer network until the vehicle has completed 60,000 miles or the end of the third year, whichever is sooner.

Your Roomster also benefits from a 3 year paint warranty and 12 year body protection warranty.

### A network that's here to help

With 17 years in the top 10 of JD Power's customer satisfaction survey, our network of approximately 125 sales retailers know how to treat a customer. You can be sure that as a Škoda customer, your retailer will look after you from the moment you walk through the door, throughout the life of your Škoda. Your Roomster will be serviced and maintained to the highest standards by specially trained Škoda technicians. And when you need a spare part you'll be happy to know that most are held in stock, or can be ordered within 24 hours. So if top class customer satisfaction is what you're after, the Škoda network will be there for you.

### Motability

People in receipt of the Higher Mobility Component of the Disability Living Allowance receive special help from Škoda. Preferential prices on low cost Contract Hire are available through your local approved Motability retailer. For full details, contact your retailer.

### If your Škoda's in trouble, rely on Škoda Assistance

Completely free of charge, every new Škoda is covered by Škoda Assistance, provided by the RAC through a dedicated team. This cover lasts for 3 years, with no mileage limit. So if you ever break down, you can use the freephone number to call out someone who really knows about Škoda cars to help. This service is even available in Europe, so you don't need additional breakdown cover when you're driving on the continent.

### Financing your Škoda

We all know that times are hard, so Škoda Finance specialises in providing funding solutions for Škoda drivers. Regardless of whether you're a private or business user, you can choose from a range of funding options

#### Finance products available are:

- Solutions – a personal contract plan
- Hire purchase
- Lease purchase
- Finance lease
- Contract hire

With all Škoda Finance products you can choose a fixed-cost maintenance plan designed to help you budget accurately. No matter what finance product you choose, your local Škoda retailer will be able to provide you with a personalised quote that could meet your budget and vehicle needs. Škoda Finance is a trading name of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230.

### Adding that little extra to your car

If the standard specification and factory fitted options aren't enough for you, then why not take a look at our range of retailer fitted accessories? A separate accessories brochure can be found at your local retailer, or can be ordered by phoning our call centre, or by going on-line at [www.skoda.co.uk](http://www.skoda.co.uk).

### Škoda Insurance

We want you to start enjoying your new car from day one and thanks to Škoda Insurance complimentary seven day cover, you can. Call free on 0800 316 7895 (lines are open Monday to Friday 8am – 9pm and Saturday 9am – 5pm), provide a few details and a cover note will be sent to your retailer. They will then tax your car and you can drive it away.

Visit [www.insurewithskoda.co.uk](http://www.insurewithskoda.co.uk) for details of the full range of insurance products available. Here you can also get a quote for your annual car insurance and buy it online too. All of our insurance products are designed to make your experience of owning your Škoda as happy as possible.

Škoda Insurance is a trading name of Volkswagen Insurance Service (Great Britain) Limited, an appointed representative of Volkswagen Financial Services (UK) Limited, Brunswick Court, Yeomans Drive, Blakelands, Milton Keynes MK14 5LR. Registered in England number 2835230. Škoda Insurance is sold, underwritten and administered by Allianz Insurance plc registered in England number 84638. Registered office 57 Ladymead, Guildford, Surrey GU1 1DB. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are authorised and regulated by the Financial Services Authority. Volkswagen Financial Services (UK) Limited and Allianz Insurance plc are not part of the same corporate group.
