PERFORMANCE WITH CARE FOR THE ENVIRONMENT

With its sophisticated and technologically advanced range of engines, Citroën is well placed to reconcile performance with low taxation levels and reduced environmental impact.

Today more than ever, this means that when choosing a Citroën vehicle you are guaranteed access to superb value for money motoring.

For example, the Citroën C3 VT, when specified with the HDi 70 manual engine produces only 99g/km of CO₂ and therefore qualifies for the A band of Vehicle Excise Duty.

► COMPANY CAR BENEFIT-IN-KIND TAXATION CHARGES

The Company Car Benefit-In-Kind Taxation charge is based upon the type of fuel used, and the level of CO₂ emissions, measured in grams per kilometre (g/km). The table opposite shows the percentage of the car's list price to be taxed (P11D value[†]).

For example a New Citroën C4 eHDi 115 6-speed manual VTR+ has a CO₂ emissions figure of 97g/km and the P11D figure of £18,670

The BIK value would therefore be 14% x £18,670 = £2,613.80 (equivalent to £43.56 pcm for a 20% rate tax payer)

► FUEL SCALE BENEFIT CHARGE

The taxable value of free fuel provided for private usage is linked to CO₂ emissions.

The taxable benefit will be assessed using the same scale as for BIK, and the percentage applied against a set figure. For the tax year 2013/14 onwards this figure is set at £21,100.

For example:

The Free Fuel benefit for new Citroën C4 eHDi 115 6-speed manual Exclusive would be 15% x £21,100 = £3,165.00.

An individual driver would pay tax on these figures at their marginal tax rate.

More information about the Company Car Benefit-In-Kind Taxation Charges can be found on www.citroen.co.uk/fleet or by contacting Citroën Fleet Connect on 08457 940 940.

Cars with zero CO₂ emissions will be exempt from company car tax for a 5 year period starting in 2010-11.

Special rules apply to cars with ultra-low emissions, a reduced appropriate percentage of 5% applies, from 6 April 2010 for five years, for company cars with an approved CO₂ figure not exceeding 75g/km.

Band K includes cars that have a CO₂ emissions figure of over 225g/km but were registered before 23 March 2006.

[†] The new Car's price to be taxed includes:

- Manufacturer's Recommended Retail Price (inc V.A.T.)
- Delivery to Dealer and Number Plates (inc V.A.T.)

► GRADUATED VEHICLE EXCISE DUTY (ROAD FUND LICENCE)

The Graduated V.E.D. bands classify all new cars first registered from 1 March 2001 into one of thirteen Vehicle Excise Duty bands, depending on their type of fuel and carbon dioxide (CO₂) emissions level, measured in grams per kilometre (g/km). There are two V.E.D. rates, a rate for the first year and a rate for subsequent years.

► AIRDREAM – A BENCHMARK

Citroën's environmental commitment and advanced efficiency are perfectly illustrated by Airdream. It's a benchmarking scheme that has three demanding criteria which a vehicle must achieve before it can wear the name. Firstly it must emit no more than 140g/km CO₂. Secondly it must be produced at a plant that meets the rigorous ISO 14001 certification and also it must be 95% recoverable. Only eHDi, electric or Hybrid4 engined Citroëns currently qualify. It's no surprise that Citroën is one of the leaders in Europe for low CO₂ emissions.

● The list price of an option or an accessory (inc V.A.T. plus delivery and fitting charges if relevant). Some exceptions apply

but excludes:

- Graduated Vehicle Excise Duty
- Government First Registration Fee

CITROËN CARE FOR CAR AND DRIVER

A network of Citroën New Car Dealers, Authorised Repairers and Parts Distributors are equipped and trained to meet the needs of today's Citroën customer.

Dealers can offer advice on vehicle funding; via Citroën Contract Motoring with packages such as Contract Hire, Finance Lease or Lease Purchase for Business Users, or via Citroën Financial Services with Hire Purchase or Elect 3 Personal Contract Purchase for Retail buyers.

In addition Authorised Repairers have a team of technicians skilled in the care and maintenance of Citroën products.

> CITROËN ELECT 3

With the Elect 3 Personal Contract Purchase Scheme, you decide on the model which best suits your motoring needs, then set your preferred contract period and anticipated annual mileage. At the end of the contract period you have the added flexibility of part exchanging the car for another new Citroën, purchasing the vehicle or simply returning it.

> CITROËN ELECT 4

Elect 4 is an alternative way to enjoy a new Citroën without the cost of ownership. Instead of owning the car, you rent it for a fixed period and then return it to your local dealer where you can exchange it for a brand new one. You set your preferred contract terms and anticipated annual mileage. With leasing which can be arranged for a period up to 4 years, Elect 4 offers you an alternative method of funding your new Citroën.

> CITROËN FLEET AND BUSINESS SALES

All Citroën New Car Dealers are dedicated to meeting the specialist needs of both the fleet and business buyer. Their comprehensive service can include advice on important business vehicle decisions, such as alternative acquisition methods, disposal of existing cars and vans, priority servicing and much more. In short, their expertise aim to provide a 'total transport solution' for all your fleet or business vehicle needs. If you would like to contact Citroën direct for further information, please call Citroën Fleet Connect on 08457 940 940. Or look us up at: www.citroen.co.uk/fleet
