Smart looks, smart features

INTERIOR

Drive computer

Everything you want to know about your trip is on the computer: Driving time, average speed, fuel consumption and range is all at your fingertips.

Versatile seating configurations

The Almera Tino's 5 seats can be arranged into 24 different configurations. All three rear seats can slide, fold, recline or be removed independently. The rear centre seat can fold down to make an instant picnic table. Or take it out altogether; then you can move the outer seats sideways, backwards or forwards for optimum personal space or luggage room.

Convenient storage

The Almera Tino is filled with clever storage spaces. There are two rear storage compartments in the floor; storage under the seats; seat back tables with cupholder and convenience hook, as well as a storage drawer under the front passenger seat (SE & SVE grades). For more bulky items, the three back seats can each be folded down or removed entirely.

Full climate control

Full climate control is available on all models. Superior to ordinary air-conditioning, it automatically maintains your preferred ambient temperature with highly efficient airflow control.

EXTERIOR

Styling

The Almera Tino hides its practical side under a sporty exterior. Smooth wind sculpted styling gives the car sleek good looks, yet it's spacious enough inside to accommodate a family of five, with luggage.

Projector headlamp

Not only do the high efficiency projector headlamps pierce the darkness with a sharp, focused beam, but they also look great.

NISSAN ALMERA TINO Performance

Engineered to entertain you

ENGINE LINE UP

2.2 dCi engine

The high power 2.2 litre dCi engine produces 100kW (136 PS) of power and 304 Nm of torque. It's perfectly matched to the six-speed gearbox, giving you smooth acceleration, quiet motorway cruising and excellent driving enjoyment. There's also a 2.2 litre dCi 112 PS version that features a drive-by-wire electronic throttle for extra efficiency.

1.8 litre petrol engine

An eager yet refined performer, the Almera Tino's 16 valve 1.8 litre engine is designed to produce most of its torque at low revs. So it always feels lively, whether you opt for the four speed automatic or five speed manual transmission.

HANDLING & BRAKING

Three braking systems

Three braking systems work together to help you stop safely. Electronic Brake force Distribution (EBD) ensures optimum braking on all wheels, depending on car load and road surface. Brake Assist measures the force a driver applies to the brake pedal. When the force exceeds a preset amount, Brake Assist applies the brakes fully. And ABS prevents the wheels from locking so you stay in control of the car.

ESP

Available on SVE grade, the electronic stability program gives you more control on slippery road surfaces and in emergency manoeuvres. When the car starts to over- or under-steer, ESP automatically controls brake pressure and engine output. This is called dynamic-engine torque demand (D-ETD). When accelerating away from junctions and out of corners, ESP uses an advanced Traction Control System (TCS) to moderate engine speed and eliminate wheel spin, so you can pull away cleanly.

NISSAN **ALMERA TINO**
Performance

	Fuel consumption (l/100 km)			CO2 Emission Combined (g/km)
	Urban cycle	Extra cycle	Combined cycle	
1.8 16v 4 speed automatic (5 door hatchback)	11.0	6.6	8.2	199
1.8 16v 5 speed manual (5 door hatchback)	10.0	6.3	7.7	183
2.2 dCi 112 5 speed manual (5 door hatchback)	8.1	5.2	6.2	170
2.2 dCi 136 6 speed manual (5 door hatchback)	8.6	5.5	6.6	181

Safety and Security

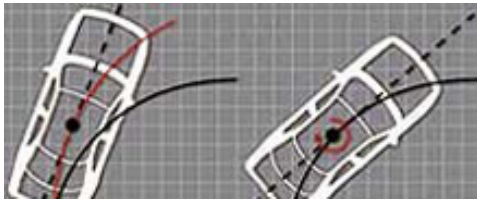

Engineered to avoid trouble

ACTIVE SAFETY

Three braking systems

Three braking systems work together to help you stop safely. Electronic Brake Force Distribution (EBD) ensures optimum braking on all wheels, depending on car load and road surface. Brake Assist measures the force a driver applies to the brake pedal. When the force exceeds a pre set amount, Brake Assist applies the brakes fully. And ABS prevents the wheels from locking so you stay in control of the car.

ESP

The electronic stability program (ESP) (standard on SVE grade) gives you more control on slippery road surfaces and in emergency manoeuvres. Sensors detect when the car begins to under- or over-steer. Dynamic-engine torque demand (D-ETD) automatically controls brake pressure and engine output to correct over- or under-steer. When accelerating away from junctions and out of corners, ESP uses an advanced Traction Control System (TCS) to moderate engine speed and eliminate wheel spin, so you can pull away cleanly.

Anti theft system

Unless you give the signal, your Almera Tino isn't going anywhere. Inside the key is a tiny microchip that sends a signal telling the engine to start. Without the chip and the key, the car can't be started.

PASSIVE SAFETY

Airbags & active headrest

Every Almera Tino has driver and passenger airbags as standard, with side airbags as standard on the SE and SVE grades. During rear impact accidents, active headrests limit head movement, so there's less risk of whiplash.

Seat belts with pretensioners and load limiters

The front seatbelts include pretensioners and load limiters, which allow the belts to hold you tightly to your seat in an accident whilst reducing the risk of bruising. All three rear seats have three-point inertia reel seatbelts and headrests.

Grades & equipment

AVAILABLE GRADES

Grade : S

The Almera Tino range begins with the S grade and comes with silver headlamps, wheel covers and a stylish interior as standard. Its smart features will quickly become indispensable: climate control air conditioning; drive computer; 5.8" colour centre colour display monitor and CD radio with steering wheel mounted audio controls.

From £13,500

Grade : SE

The SE grade is even more generously equipped, with features like a rear view camera, an electric sunroof, 15" alloy wheels and rear power windows. There's even more safety features too, with front seat mounted side airbags and active front headrests.

From £14,500

Grade : SVE

The top of the range SVE makes life even easier. In addition to the SE, the SVE comes with a 7" colour centre display monitor; DVD satellite navigation; Electronic Stability Program (ESP); a 4 spoke leather steering wheel; leather and alcantara seat fabric; front fog lamps and 16" alloy wheels.

From £16,500

Grade : FLARE

With our latest special version having all the impressive features of the S grade plus an ultrasonic rear parking system all at a great price, there's never been a better time to add a touch of 'Flare'.

From £10,995
