

TURNING UP THE HEAT

The lowered sports suspension, dramatic 18" alloys and imposing styling provide your first hint. Your pulse is already racing. The bonnet power bulge and immense sound take it a step further. Outstanding acceleration and an assertive and muscular stance make you the envy of all who see you. But nothing can adequately prepare you for the first time you dive into your favourite corner. Grip is phenomenal; steering accuracy captivating. And the sling-shot acceleration out the other side nothing short of a revelation. Introducing the Mazda3 MPS: putting the heat back into the hot hatch.

THE FIRE WITHIN

The deeply bolstered seats and vibrant interior offer a sign of things to come. This car is out of the ordinary. Extreme. Incredible. Let your eyes take it all in. Every dial and switch is precisely where it should be – an LED turbo boost gauge directly in your line of sight and an engine start button just waiting to be depressed. Finally, you can wait no more. The MZR 260ps 2.3-litre DISI Turbo engine fires up. You grip the wheel, depress the clutch and effortlessly shift the gear lever into first, second, third without thinking. You're tingling. You've never felt so alive. Three words sum it all up nicely. Mazda. Performance. Series.
