

The new Telluride.
For roads yet
imagined.

Movement that inspires

Inspiration doesn't strike at rest. It's born in motion, waking us up to new possibilities, ideas, and paths to explore. At Kia, this is what drives our relentless mission to keep pushing, innovating, and perfecting our vehicles to be more than a means of transportation, but a catalyst for inspiration to those who, like us, will never be satisfied standing still. In this spirit, we created the new 2023 Telluride. Designed with guts and grace, assembled in America,[†] and equipped to let you chase inspiration down any road you choose.

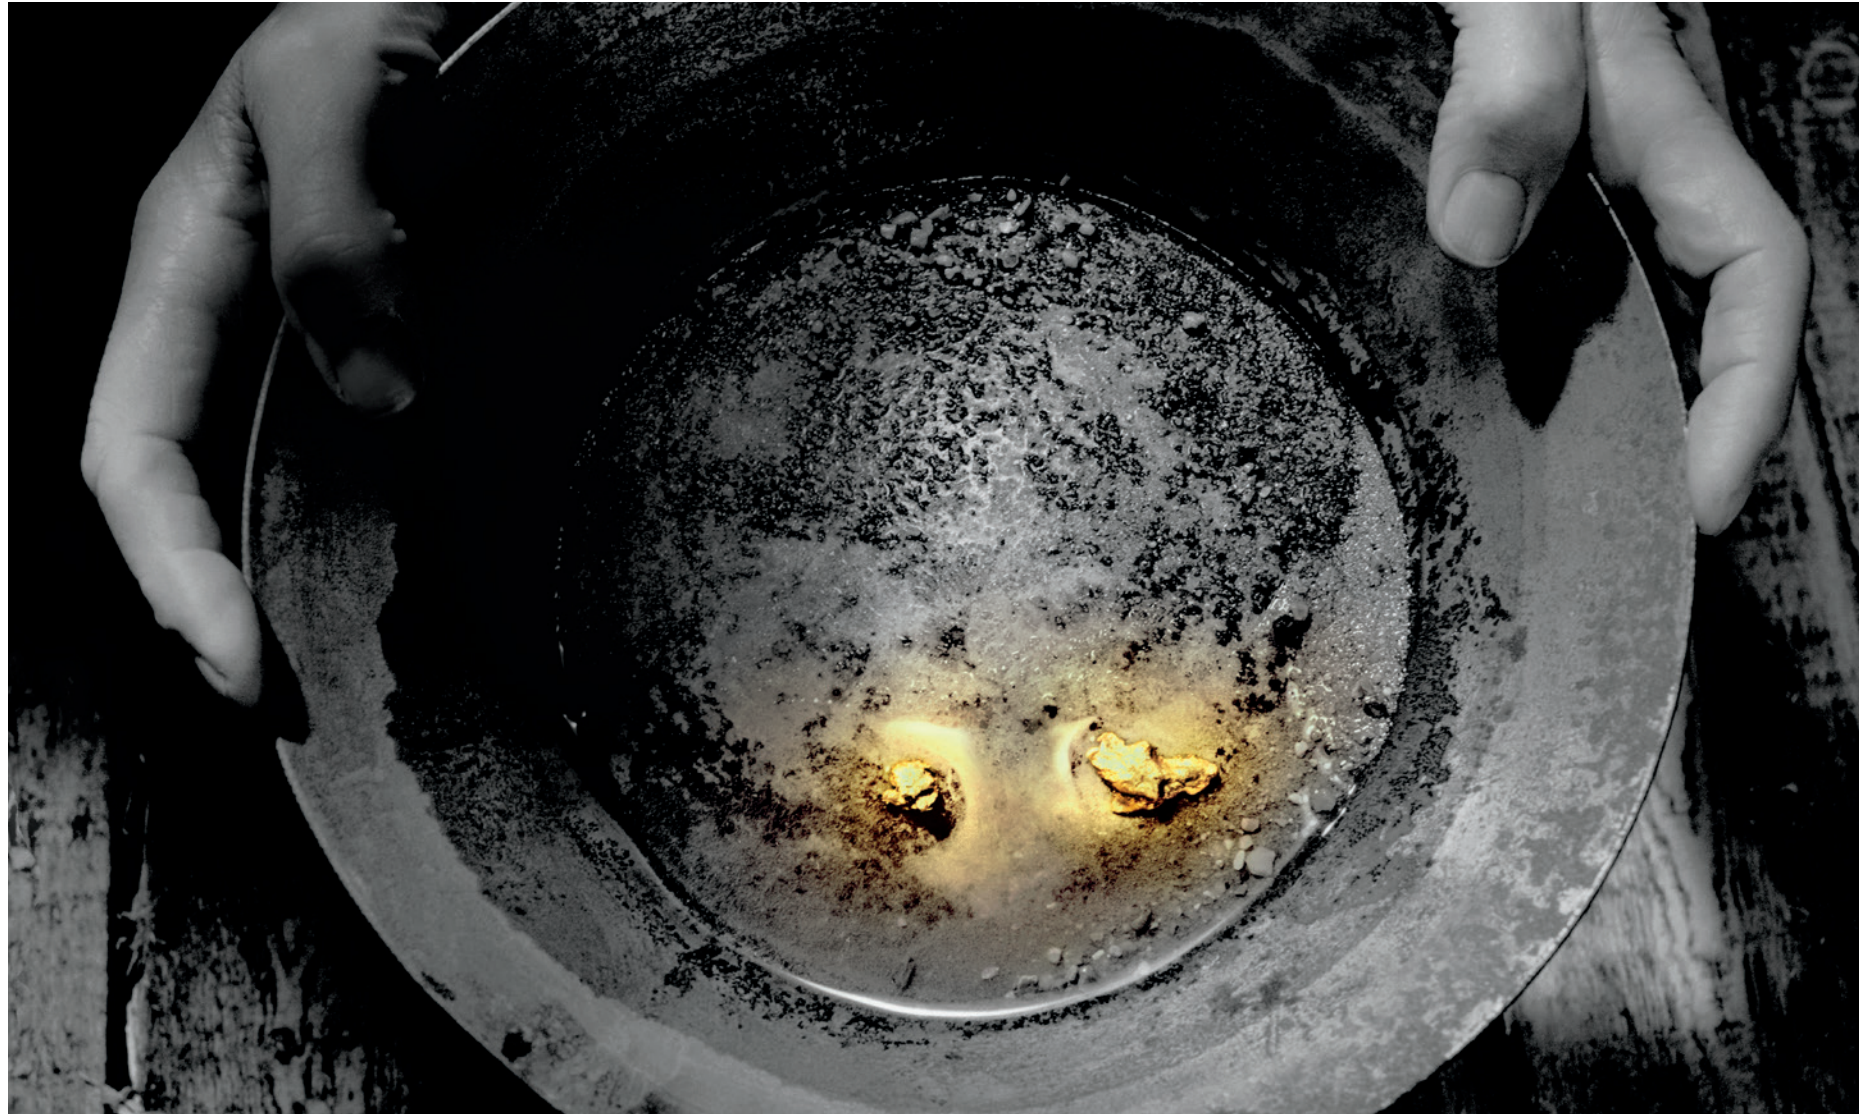

Kia's industry-leading warranty program¹

- 10-Year/100,000-Mile Limited Powertrain Warranty
- 5-Year/60,000-Mile Limited Basic Warranty
- 5-Year/100,000-Mile Limited Anti-Perforation Warranty
- 5-Year/60,000-Mile 24-Hour Roadside Assistance

¹ See inside back cover for endnote. [†]Telluride is assembled in the United States from U.S. and foreign parts. Image retouched for dramatic effect. Cover, back page, and right page: X-Pro SX Prestige AWD shown.

The original dream chasers: Telluride's first miners.

In 1875, prospector John Fallon staked the first claim in Telluride's remote gold- and silver-filled mountains. As word spread, adventurous spirits flocked to the area from every direction — braving an arduous journey over rough terrain, bushwhacked trails, and the sky-high Colorado Rockies — to reach the “City of Gold” and stake claims of their own. Telluride was soon a mining boomtown, bringing thrilling possibilities to this new, rugged community. As the town rode many waves of booms and busts over the next century, it occurred to some savvy residents that they were sitting on another sort of gold mine — “white gold,” in the form of incredible snow. So when mining ceased for good in the 1970s, the community rallied their ingenuity to transform Telluride into a world-class skiing destination — inspiring a new legacy of adventure.

Telluride, CO

Lore has it that Telluride got its name from the mineral tellurium, a non-metallic element associated with mineral deposits of gold that were found in Colorado's precious metal-filled mountains. Today, Telluride is best known for its “white gold” — snow — making it perfect for those who love adventure, and to enjoy in the new Kia Telluride.

Where will you take it?

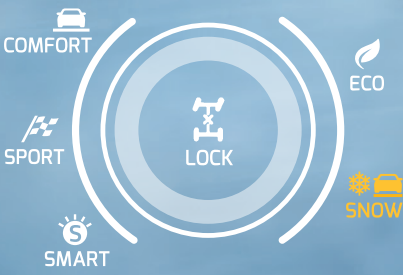

Whether it's mountains covered in fresh snow, a remote desert escape, or wherever the road leads — Telluride is equipped to take you there. With a name inspired by the town known for bold adventure, the Kia Telluride is built for thrilling endeavors, rugged conditions, and an innate pull toward the exciting — with available AWD capability,^{*1} impressive V6 power, enhanced towing,^{2*} and a modern cabin outfitted with cutting-edge technology and unassuming luxury throughout.

*Optional feature available only on certain trims. See Features page for availability. ¹No system, no matter how advanced, can compensate for all driver errors, driving conditions, accidents, and/or injury. Always drive safely and obey all traffic laws. Aftermarket snow tires (sold separately) are recommended for snowy or icy conditions. Always drive safely and use caution. ²See inside back cover for endnote. X-Pro SX Prestige AWD shown.

All-terrain, for all possibilities.

With an available **Active On-Demand AWD[†]** system, **increased ground clearance**, and **elevated approach and departure angles**, Telluride's X-Line and X-Pro trims are born for challenging conditions. The AWD[†] system is designed to actively distribute torque between the front and rear wheels to help improve performance depending on the driving situation, and features two custom modes: **Snow Mode^{**}** is engineered to help reduce wheelspin and give you enhanced control in snow. And **AWD Lock Mode[†]** gives you full-time all-wheel drive at the touch of a button to help conquer sand, mud, and other difficult terrain. To complete Telluride's anything-goes capability, the X-Pro features standard, exclusive 18-inch black finish alloy wheels with all-terrain tires, for enhanced traction in deep snow and slush.

*Optional feature available only on certain trims. See Features page for availability. †No system, no matter how advanced, can compensate for all driver errors, driving conditions, accidents, and/or injury. Always drive safely and obey all traffic laws. Snow powder added for effect. Aftermarket snow tires (sold separately) are recommended for snowy or icy conditions. Always drive safely and use caution. X-Pro SX Prestige AWD shown.

The world is your playground.

Telluride is made for exhilarating encounters, wherever your travels take you. So, while you may not happen upon a racetrack, at some point you'll likely meet up with a nice, curvy road, mountain pass, or wide-open stretch of highway — and this is your chance to experience its powerful, smooth, **291-horsepower, 3.8L Gasoline Direct Injection V6 engine** and sporty, ultra-responsive performance. Want even more excitement? The all-new X-Pro trim* features exclusive, thrill-ready upgrades including a bold, gloss black grille, body-color door handles, raised roof rails, and more.

Raised, bridge-style roof rails*

provide a higher mounting position for rooftop accessories, allowing you to carry a wide variety of recreational gear.

18-inch alloy wheels*

in black finish are designed exclusively for the X-Pro, adding to its undeniably bold, assertive style.

3.8L naturally aspirated, GDI V6 engine

unleashes 291 horsepower, 262 lb.-ft. of torque, and features a Double Overhead Camshaft design and Dual Continuous Variable Valve Timing for outstanding power and efficiency, whether driving at low or high speeds.

8-speed Automatic Transmission

gives you a greater range of gears for seamless acceleration — along with Sportmatic® shifting for a sportier, more engaged driving experience.

Multiple drive modes

include a Sport Mode that adjusts the settings for powertrain, drivetrain, and steering effort to provide an optimal driving experience.

Increased approach and departure angles*

enhance X-Pro's off-road capability, with a distinct front and rear bumper design made for taking on rocks, hills, and other steep terrain.

Torque Vectoring Cornering Control

is designed to increase cornering stability by applying braking force to the rear inside-corner wheel, for more precise turning in a variety of situations!

All-terrain tires*

are exclusive to the X-Pro, providing outstanding grip and enhanced traction in wet, muddy, or slushy conditions.

Increased ground clearance*

comes standard with the X-Pro and X-Line, opening up more roads to adventure with a total of 8.4 inches of ride height for clearing obstacles.

Made for "Whoa, let's check it out over there."

Wet roads, choppy roads, or no road at all — you can follow your urge to explore in confidence with the X-Pro's upgraded **Traction Control System**.¹ This new 2023 enhancement to Telluride's available AWD¹ system* features advanced technology designed to continuously monitor and adjust wheelspin to match the specific road conditions, for improved off-road performance.

*Optional feature available only on certain trims. See Features page for availability. ¹No system, no matter how advanced, can compensate for all driver errors, driving conditions, accidents, and/or injury. Always drive safely and obey all traffic laws. X-Pro SX Prestige AWD shown.

Fidalgo Island, WA

With its pristine lakes and lush forests, it's no wonder Fidalgo Island is home to artisans who appreciate both beautiful surroundings and well-crafted ways in which to explore them — from Dan's custom canoes, to the new Telluride.

Dan Bitterman

Dan lives on Fidalgo Island in the lake-filled Pacific Northwest islands region — the perfect location to pursue his passion of handcrafting custom cedar-strip performance canoes for his company, Cascadian Canoe Works. With names like “The Shaman” and “The Nomad,” each of Dan's creations is designed to be as much a travel inspiration as a travel mode. Dan is obsessive about his process, his materials, and even the tools he works with. You could say he's the epitome of someone who lives and breathes his craft, because when he's not in his workshop, he's out on a lake, bay, or the Pacific Ocean in one of his canoes, paddling toward adventure.

“My goal is to create a beautiful piece of art that is meant to be used.”

— Dan Bitterman, Cascadian Canoe Works

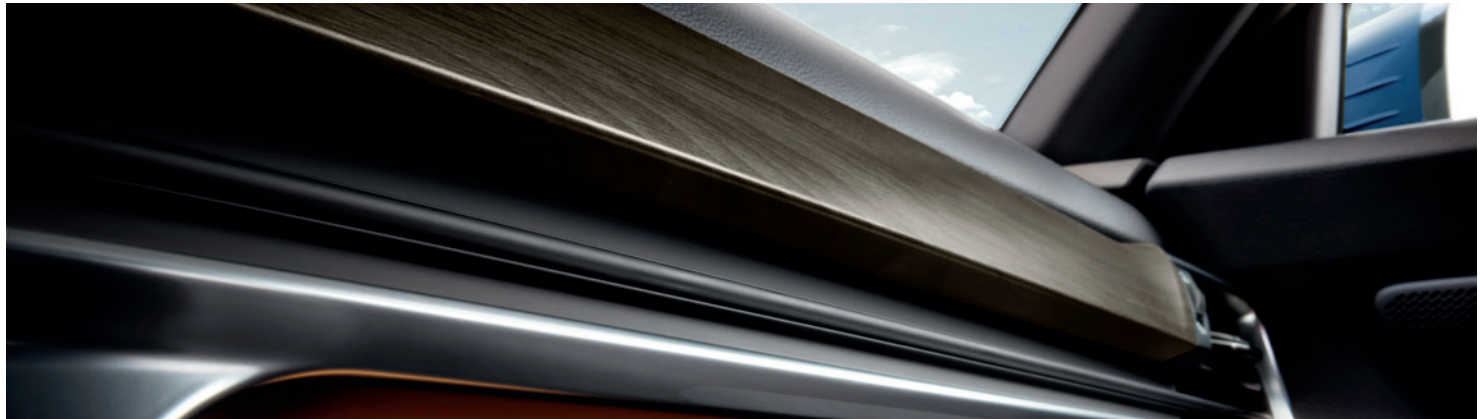

Though craftsmanship takes many forms, it combines a few common traits: a beautiful, intelligent design, quality materials, and meticulous attention to detail. This was the high bar we set in designing Telluride's cabin. We chose premium seating materials like available **Nappa leather trim***, then detailed it with padded, double-stitched quilting. Simulated **brushed metal** accents and **matte-finished wood trim** add modern elegance. We covered the surrounding surfaces with soft-touch materials, and put it all together in a thoughtfully **ergonomic design**. The level of craftsmanship is similar to one of Dan's canoes: You can sense it when you see it. You can feel it when you sit inside. And you know it for sure when you experience how it performs.

*Optional feature available only on certain trims. See Features page for availability. X-Pro SX Prestige AWD shown.

24.6 inches of Panoramic Display³

Two 12.3-inch screens are seamlessly integrated into one curved expanse of glass to create the ultimate driver-focused cockpit, displaying key info such as turn-by-turn Navigation,^{3*} infotainment, and more.

Full-display digital mirror
incorporates an integrated camera and video display to provide a wide, unobstructed rearward view — with features like pinch-to-zoom and brightness adjustability.

Tri Zone — Full Automatic Temperature Control
gives driver, front, and rear passengers separate controls to maintain their own personal climate zone.

USB charge ports in every row
provide easy access for all passengers to charge their devices.

Apple CarPlay^{®4}
integrates with your compatible iPhone to let you make calls, send texts, or play voicemails via voice command, and even control certain apps through the touch screen.³

Wireless smartphone charging tray^{5*}
for conveniently charging your compatible smartphone.

LED mood lighting^{*}
lets you set the ambience for your drive with a choice of 64 colors, to illuminate key areas throughout the cabin.

*Optional feature available only on certain trims. See Features page for availability. 3-5 See inside back cover for endnotes. Simulated screen shown. X-Pro SX Prestige AWD shown.

When you're traveling hundreds of miles, every inch matters.

More space to stretch out can transform your entire travel experience, so Telluride's ultra-comfortable cabin features **class-leading interior space**,⁶ including **best-in-class second-row legroom**.⁶ The cabin is designed with standard **8-passenger seating**, or if you prefer, available 7-passenger seating with reclining second-row captain's chairs.* Plus **reclining seatbacks** in the third row for added relaxation on long rides.

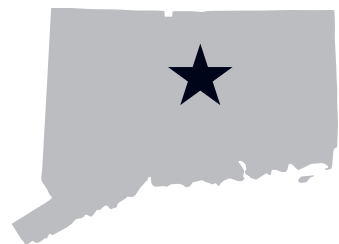

Heated and ventilated front- and second-row seats^{7*} provide that perfect boost of warmth or cooling. A heated steering wheel⁷ is also available.

Nappa leather seat trim* and a 14-way power memory driver's seat* with 4-way lumbar support add premium luxury and comfort for drivers. For the front passenger, a 10-way power-adjustable seat with 2-way lumbar support is also available.*

Acoustic glass on the windshield and front doors* reduces road noise for a quiet, premium-level ride experience — allowing you to more easily converse with passengers in the second and third rows.

Open Skies Dual Sunroof* with front power tilt-and-slide function and power sunshade provides plenty of fresh air and light, while enhancing the cabin's expansive feeling.

*Optional feature available only on certain trims. See Features page for availability. 6, 7 See inside back cover for endnotes. X-Pro SX Prestige AWD shown.

Hartford, CT

For over 200 years, Smith-Worthington Saddlery has made custom products as varied as the places their clients take them — from New England to the California desert.

Smith-Worthington Saddlery

Smith-Worthington Saddlery of Hartford, Connecticut, has been designing and producing custom saddles, bridles, and other leather tack since George Washington was president. Renowned for their attention to saddle fit for both horse and rider, and use of traditional materials such as open-grained leather and virgin wool flock stuffing, the company has thrived for over 200 years as much for their quality as for their inspired approach to meeting new challenges. In their long and colorful history, they've been tasked with making saddles for cavalries in the Civil War, bridles for Barnum & Bailey's horse-drawn wagons, and even dog harnesses for rugged expeditions to Antarctica.

“You could say our versatility is what’s kept us going all these years.”

— Curtis Hanks, Smith-Worthington Saddlery

Giving you the space and ease to follow your inspiration is the mission of Telluride’s versatile cargo design. The available **Smart Power Liftgate*** opens automatically when you stand behind it, closes automatically when the user walks away from the vehicle, and can even be customized to your preferred height and speed (normal or fast) — perfect for when your arms are full. The liftgate’s wide opening makes it easy to load and unload your gear, while **multiple cargo configurations** accommodate large, bulky items, from riding gear to camping gear. Like Smith-Worthington Saddlery, it’s all about being open to anything.

*Optional feature available only on certain trims. See Features page for availability. **All cargo should be evenly distributed, properly secured, and never piled higher than the seatback. X-Pro SX Prestige AWD shown.

Vastness: a concept as appealing inside as it is outside.

2-way luggage board

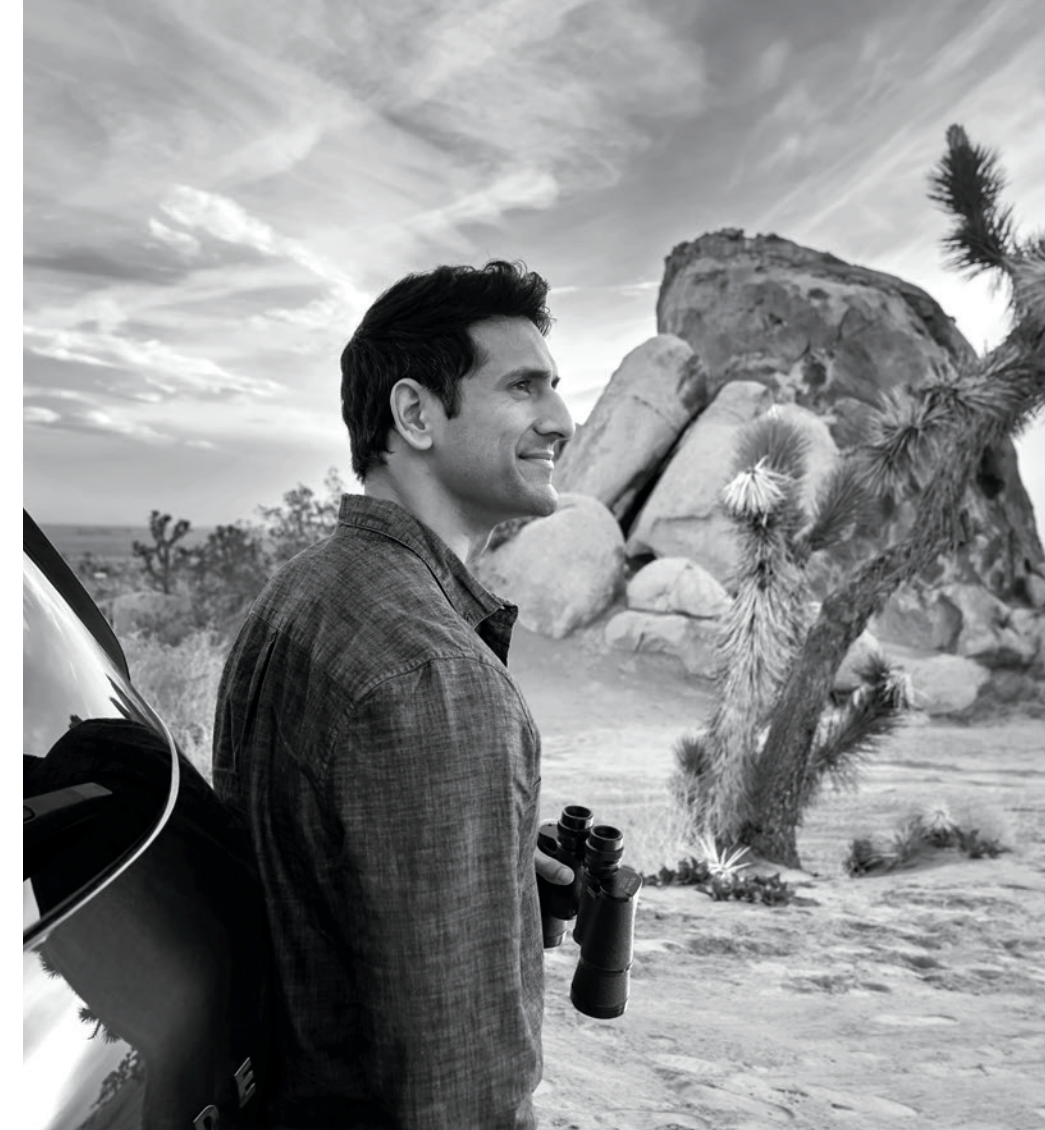

can be opened to increase the storage-area depth for stowing taller items like luggage or sports gear,⁷ or closed to create a flat storage area that aligns with the rear seats in their folded-down position.

Concealed under-floor storage

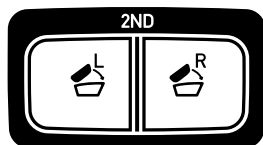

beneath the closed luggage board provides a hidden, sunken storage compartment to organize smaller, lesser-used items.

110V power inverter*

provides an additional level of capability to power your devices, camping equipment, and more.

When you're ready to pack up and go, Telluride's second-row seats **fold flat at the touch of a button** to provide an abundant 87 cubic feet of cargo space⁷ — more than the 2023 Range Rover LWB.⁸ With the seats in their upright position, rear passengers can easily get in and out of the vehicle thanks to a wide step, enlarged walk-in space, and the **one-touch Slide-and-Fold** feature, which slides and folds the second-row seat forward to give third-row passengers easy access.

*Optional feature available only on certain trims. See Features page for availability. ⁷All cargo should be evenly distributed, properly secured, and never piled higher than the seatback. ⁸See inside back cover for endnote. X-Pro SX Prestige AWD shown.

Bring what you need, do what you love.

Horses, boat, travel trailer — of course you want to bring them, so Telluride gives you up to **5,500 lbs. of towing capacity**,^{2*} along with the available features to help maximize your towing capability and ride quality: A dedicated **Tow Mode**^{2*} enhances shifting points to deliver optimal towing performance. High-capacity cooling and a **self-leveling rear suspension**^{*} provide a confident towing experience. And a **Class-3 tow hitch**^{*} and **7-pin connector**^{*} add versatility.

*Optional feature available only on certain trims. See Features page for availability. 2 See inside back cover for endnote. X-Pro SX Prestige AWD shown.

On turning a rough patch into recreation.

Should the road become rocky, Telluride is ready. Its enhanced, strengthened body frame is constructed with **ring-shaped reinforcements** around the B and D pillars, for outstanding torsional stiffness and **structural stability** — which translates to greater control and confidence tackling rugged terrain. Telluride also features standard **Downhill Brake Control**,† which automatically controls the speed when descending steep hills, and **Hill-start Assist Control**,† designed to automatically hold the brake pressure for two seconds after you take your foot off the brake pedal when starting on a steep hill.

†No system, no matter how advanced, can compensate for all driver errors, driving conditions, accidents, and/or injury. Always drive safely and obey all traffic laws. X-Pro SX Prestige AWD shown.

Shani Gandhi

Shani Gandhi is an award-winning music producer and engineer in Nashville, best known for her work with top artists in the Americana and folk genres. Originally from Singapore and raised in Australia, Shani had an academic, science-focused upbringing, and assumed she would continue down a conventional career path — though she always had a strong passion for music, she considered it a “hobby.” It wasn’t until she learned about the engineering side of music that inspiration struck. As Shani describes it, “As soon as I found out that there was a technical side to music, I realized I could take my hobby and my scientific background and build a career in music.”

Nashville, TN

The music industry is the beating heart of Nashville, attracting top talent in audio and technology, like Shani. Telluride shares this passion of blending a high level of technology into its audio, as well as its communications and driver-assistance features.

“Hold me to a higher standard.
I’ll meet you there.”

— Shani Gandhi, music producer and engineer

Technology is the soul of Telluride, enhancing everything from the music that provides the soundtrack to your travels, to embedded modem features and state-of-the-art driver-assistance functions. We’re proud to offer an available 10-speaker **Harman Kardon^{®9} 630-watt premium audio system*** with both QuantumLogic™ surround sound and Clari-Fi™⁹ — an intelligent, real-time, music-restoration technology. Together with the advanced technologies you’ll find on the following pages, we’re confident they’ll meet your own high standards of approval.

*Optional feature available only on certain trims. See Features page for availability. ⁹ See inside back cover for endnote. X-Pro SX Prestige AWD shown.

Let Kia Connect do that.

Kia Agent¹⁰ and Kia Skill¹⁰ allow you to pair a nearby Google Assistant¹¹- or Amazon Alexa¹²-enabled device to remotely control some functions (such as Remote Start¹³) using just your voice.

Go to owners.kia.com or download the Kia Access app to activate

Kia Connect^{10*}

is Kia's available smart connectivity system that integrates with your compatible smartphone, smart speaker, and compatible AndroidTM^{11*} and iOS smartwatches via an embedded modem and the Kia Access app¹⁰ to perform convenient, helpful tasks.

Remote Start with Climate Control^{13*}

lets you remotely start the engine and turn on the AC/heat from outside the vehicle to give you a head start on the day.

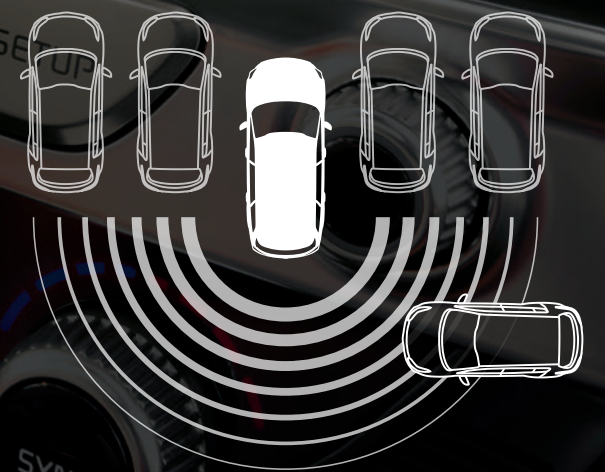

Digital Key 2 Touch^{13*}

allows you to lock/unlock your Telluride, start the engine, and remotely share access with up to three people.

Kia Drive Wise^{14*}: Designed to look out, speak up, and even step in.

Kia Drive Wise^{*} is a suite of standard and available advanced driver-assistance technologies. These include a **Surround View Monitor**,^{14*} which uses four cameras to provide an aerial view around the vehicle to help when parking in tight spots; **Rear Cross-Traffic Collision-Avoidance Assist**,¹⁴ which helps alert you to traffic approaching from either direction when you're in reverse, and can even automatically apply the brakes in some cases; **Parking Distance Warning — Reverse and available Forward**,^{14*} which are designed to alert you of certain objects close to your vehicle when parking; and available **Parking Collision-Avoidance Assist — Reverse**,^{14*} which adds the ability to apply the brakes when the system detects a potential collision with a pedestrian or object while in reverse.

*Optional feature available only on certain trims. See Features page for availability. 10-14 See inside back cover for endnotes. Simulated screens shown. Left page: X-Line SX Prestige AWD shown. Right page: X-Pro SX Prestige AWD shown.

Safe Exit Assist¹⁵ is designed to help alert and prevent rear passengers from exiting the vehicle when the system detects potential hazards approaching. To further enhance safety, Telluride also features a comprehensive airbag system, including new second-row side air bags.¹⁶

Senses, alerts, and helps stop.

Telluride's standard Kia Drive Wise¹⁴ technologies include **Forward Collision-Avoidance Assist¹⁴**, which is engineered to alert you, and automatically brake if needed, when the system detects a potential forward collision with a vehicle, pedestrian, or cyclist, and can even detect oncoming vehicles when making a left turn at an intersection.

*Optional feature available only on certain trims. See Features page for availability. 14-16 See inside back cover for endnotes. Simulated screens shown. Lighting adjusted for dramatic effect. Left page: X-Line SX Prestige AWD shown.

Master the lane game.

Semi-autonomous speed-adjusting technologies^{14*} include Highway Driving Assist 2¹⁷ and Navigation-based Smart Cruise Control with Machine Learning,^{14*} which are designed to assist in maintaining a set distance from the vehicle in front, and even help adjust to upcoming curves detected on select federal highways.

Lane Assist features^{14*} include Lane Following Assist,¹⁴ Lane Keeping Assist,¹⁴ Lane Change Oncoming,^{14*} which are designed to provide automatic steering assistance to help keep you centered in your lane, help prevent drifting, and help avoid collisions with oncoming vehicles when changing lanes.

Extra help where you need it.

10-inch color Head-Up Display^{3*}

projects a color readout of important driving information directly onto the windshield in your line of sight, to help you stay informed and focused while enjoying the drive.

Blind-Spot Collision Warning¹⁴

is designed to alert you to vehicles in your blind spot, helping you avoid some hazardous lane-change decisions.

Blind-Spot View Monitor^{14*}

activates within the instrument panel when you turn on the blinker to change lanes, displaying the blind spot in the direction your turn signal is indicating.

*Optional feature available only on certain trims. See Features page for availability. 3, 14, 17 See inside back cover for endnotes. X-Pro SX Prestige AWD shown.

West Point, Georgia: A small town with big vision.

Chances are, you've never heard of **West Point**. To be honest, we hadn't either, until we began searching for a location for our first U.S. manufacturing facility. And we found that there was something very special about the people there. For around 150 years, West Point had been the hub of a thriving textile industry. But after the decline of textile manufacturing in the late 1990s, this **community of highly skilled craftspeople**, factory workers, and technicians was ready to channel their talent and vision into a bold new transformation. It was as if Kia and the people of West Point were destined to join forces to create something amazing together. By 2006, our plan was formed; a 2,200-acre, state-of-the-art manufacturing and training facility followed, and along the way, **a new Kia family was born** — now around 14,000 members strong, including plant team members and suppliers. Our first vehicle came off the line here in 2009, and since then, more than 3.7 million Kias have been assembled, including, of course, the new Telluride!

West Point, GA

population 3,800, is home to Kia's state-of-the-art facility, where Kia assembles Sorento, Sportage, K5, and of course, Telluride!

Exterior colors

Endnotes

1. Warranties include 10-year/100,000-mile powertrain and 5-year/60,000-mile basic. All warranties and roadside assistance are limited. See retailer for warranty details. **2.** Towing requires additional equipment. See Owner's Manual for towing capacity, additional instructions, and warnings. Always use caution while towing. **3.** Distracted driving can result in a loss of vehicle control. When operating a vehicle, never use a handheld device or vehicle system that takes your focus away from safe vehicle operation. Navigation is for information purposes only, and Kia does not make any warranties about the accuracy of the information. **4.** Apple, the Apple logo, App Store, Apple CarPlay, and iPhone are trademarks of Apple Inc., registered in the U.S. and other countries. **5.** Charging system only works with select devices. Refer to the vehicle's Owner's Manual for warnings and instructions. **6.** Comparison claims based on mid-size SUV-class segmentation using manufacturer-supplied data as of July 2022. **7.** Use extreme caution when using seat warmers or heated steering wheel to avoid burns. Refer to the Owner's Manual for more safety information. **8.** Cargo comparison based on 2023 Telluride versus 2023 Range Rover SE LWB, cargo capacity (cu. ft.) behind second- and third-row seats. **9.** Harman Kardon is a registered trademark of Harman International Industries, Inc. **10.** Purchase/lease of certain 2023 and newer Kia vehicles with Kia Connect includes a complimentary 1-year subscription to the Kia Connect Ultimate package, starting from new vehicle retail sale/lease date as recorded by the dealer. After your complimentary 1-year Kia Connect subscription expires, continued access to the full suite of Kia Connect services available on your Kia will require a paid subscription at the then-current subscription rate or your use of certain Kia Connect features may immediately terminate. Use of Kia Connect is subject to agreement to the Kia Connect Privacy Policy (available at owners.kia.com/us/en/privacy-policy.html) and Terms of Service (available at owners.kia.com/us/en/terms-of-service.html). Kia Connect is transferable to subsequent owner during the original Kia Connect service term. Only use Kia Connect when safe to do so. Kia Access app is available from the Apple App Store or Google Play. Kia America, Inc. reserves the right to change or discontinue Kia Connect at any time without prior notification or incurring any future obligation. Message and data rates may apply. Cellular and GPS coverage are required to use most features. Kia Connect features may vary by model, model year, and trim level. Features, specifications, and fees are subject to change. Kia Connect may be currently unavailable for model year 2023 and newer vehicles sold in Massachusetts; please see www.owners.kia.com for updates on availability. For more on details and limitations, visit kia.com or your authorized Kia dealer. Apple and App Store are trademarks of Apple Inc. Google, Google Play, and logos are trademarks of Google LLC. **11.** Google devices are sold separately and require a Wi-Fi internet connection. Google, Android, Google Play, Android Auto, and other marks are trademarks of Google LLC. To use Android Auto on your car display, you'll need an Android phone running Android 6 or higher, an active data plan, and the Android Auto app. **12.** Amazon, Alexa, and all related marks are trademarks of Amazon.com, Inc. or its affiliates. Certain Alexa Skills require account linking to use. To learn more, go to <https://www.amazon.com/Kia-America/dp/B09NLZDW7S>. **13.** Remote features require a Kia Connect subscription, a compatible smartphone, and a wireless signal with good coverage to function. Normal cellular service rates may apply. Do not use remote climate control if vehicle is in an enclosed area (e.g., closed garage) or a partially enclosed area without ventilation. Close all doors leading from adjacent living areas to the vehicle area before executing a remote climate control command. If any door or hatch is not closed properly, the remote lock and unlock functions will not work. **14.** These features are not substitutes for safe driving and may not detect all objects surrounding vehicle. Always drive safely and use caution. **15.** Safe Exit Assist is not a substitute for one's attention and may not detect all objects surrounding the vehicle. Always pay attention to traffic and to the area around your vehicle when exiting the vehicle. **16.** For maximum protection, always wear your seat belt. No system, no matter how advanced, can compensate for all driver errors, driving conditions, and/or injury. **17.** Highway Driving Assist 2 only functions on certain federal highways. **18.** High Beam Assist does not operate below certain speeds, or in some lighting and driving conditions. Please be aware of your surroundings and exercise proper road etiquette when operating a vehicle using the high beams. **19.** The *Bluetooth*® word mark and logos are registered trademarks owned by Bluetooth SIG Inc., and any use of such marks by Kia is under license. A compatible *Bluetooth*®-enabled cell phone is required to use *Bluetooth*® wireless technology. **20.** HomeLink® is a registered trademark of Genflex Corporation. **21.** Based on EPA estimates. Actual mileage will vary with options, driving conditions, driving habits, and your vehicle's condition.
