BMW  
Great Britain

## Introduction

### BMW 3 Series Saloon

The 3 Series Saloon range offers a vast amount of choices:

- Four-cylinder Valvetronic engines
- Six-cylinder engines
- Striking exterior and interior design

The 3 Series Saloon is the definitive sports saloon benchmark.

## Design

### Introduction

From the outside, the smooth contours of the 3 Series Saloon reflect the car's dynamic performance. On the inside, it's designed to ensure you enjoy that performance to the full.

### Interior

The 3 Series Saloon's interior design features include:

- Ergonomic design
- Highly supportive seats
- High quality of materials used throughout

### Exterior

The 3 Series Saloon is a truly stunning vehicle. Exterior design cues include:

- Classic BMW kidney grille
- Dynamic headlight, tail light and indicator design and side repeater integrated into swage line
- 16" star-spoke alloy wheels on all four-cylinder SE models

All adding up to a 3 Series Saloon that has never looked better.

### Sport Models

The exceptional Sport models create an even sportier look inside and out which includes:

- 18 inch M alloy wheels
- Sports seats and suspension settings
- M aerodynamic body styling
- Exclusive interior trim
- Available on 320i, 320d, 325i, 330i and 330d models

### Chassis

The 3 Series Saloon's lightweight chassis provides both strength and driving agility, resulting in even greater dynamic performance and more direct handling without reducing driving comfort.

BMW  
Great Britain

## Safety

### Introduction

To BMW, exceptional driving safety is a fundamental component of every car. That's why the 3 Series Saloon incorporates safety systems that react quickly enough to prevent dangerous situations arising.

### Airbag system

Up to eight airbags in the 3 Series Saloon ensure optimum safety by minimising the risk of injury:

- Driver and front passenger airbags
- Inflatable Tubular Structure (ITS) head airbags
- Side airbags at the front and optional side airbags at the rear

### Safety battery terminal (SBT)

In the event of a collision, the Safety Battery Terminal (SBT) disconnects the starter and alternator cables from the battery, thus reducing the risk of a fire.

## Technology

### Introduction

In the 3 Series Saloon, we have taken suspension technology to new levels of sophistication with an array of unique, interlinked systems that are designed to provide optimum directional control and ride comfort - even under the most adverse driving conditions.

### Valvetronic

This revolutionary technology, developed by BMW and found in the 318i and 316i saloons. Valvetronic engines provide increased torque and reduced emissions by allowing the engine to 'breathe' more freely.

### Cornering Brake Control

CBC works in conjunction with ABS and ASC+T to carefully regulate braking pressure on the rear wheels, thereby maintaining maximum traction and stability through corners.

### Dynamic Stability Control

DSC utilises both ASC+T and CBC whilst also monitoring steering wheel movements, road speed and even lateral acceleration. It then modifies braking pressure and engine power to optimise road holding, particularly when accelerating through bends.

## Engines

### Introduction

Nothing demonstrates BMW's commitment to technological excellence more than its new generation four-cylinder VALVETRONIC engines, powerful six-cylinder units and the quite stunning performance of the new common rail diesel engine.

### Six-cylinder in-line engines

BMW are renowned for their six-cylinder in-line engines. Thanks to detailed design changes that have increased power output and improved fuel efficiency, the latest versions are now recognised as the best ever. These engines feature in the 320i, 325i and 330i models.

### Four Cylinder VALVETRONIC engines

The new generation four-cylinder Valvetronic units powering the 318i and the 316i boast an impressive advancement on the previous engines:

- 21% increase in power
- 16% reduction in fuel consumption
- Increased torque and reduced emissions

### Diesel engines

BMW's 3 Series diesels have stunned the motoring world:

- The 320d offers a new common rail 4-cylinder unit with a power output of 150bhp and 330Nm of torque. The 320d is available with the automatic/steptronic transmission and comes as standard with a 6-speed manual gearbox
- The high performance of the six-cylinder 330d unit is reflected in the acceleration from 0-62 mph in 7.2 seconds and a combined fuel consumption of 42.8 mpg. Power is increased to 204bhp and torque to 410Nm

## Latest news:

## Best compact executive

WhatCar? says

"What we were looking for:

A car that's as comfortable in the sharp-suited company car park as it is on a family day out. A fine drive is essential for long-distance comfort and the occasional thrill when the briefcase has been left behind. Running costs are also crucial for company and private buyers.

The best things in life are free. That's what we want – and in the BMW 320d ES's five-year or 60,000-mile servicing package, that's what we get.

This is an impressive offer, but it is not the sole reason we've chosen the 320d ES as our small exec winner, although we cannot deny it appeals to our canny side.

The other key factor in tipping the nod to BMW was the reduction in the 320d's carbon-dioxide emissions to the level that it now complies with the latest Euro IV regulations. This means the 2.0-litre turbodiesel skips the 3% company car tax penalty incurred by dirtier diesels. That's great news for company drivers, while the 320d's 51.4mpg economy will please business and private users alike.

We needed no convincing of how well the 320d drives. It has a fluency through corners that marks it out as the driving benchmark of the class, and the steering is a lesson in uncluttered response and feel.

Even though the 320d ES has sports suspension as standard, the ride is never harsh or unforgiving. The opposite is true, and refinement is excellent.

The 150bhp 2.0 turbodiesel engine has a hefty 243lb/ft of punch at just 2000rpm for relaxed cruising and easy overtaking. Always hushed, it delivers performance to give its petrol-powered competition serious pause for thought.

As with other 3 Series models, all of the 320d's controls fall readily to hand and work with well weighted precision. The driving position provides comfort for all shapes and sizes, while twin front, side and curtain airbags protect should the worst happen. It's a little tight on legroom in the back and the boot is not as commodious as some rivals', but the 320d is more than up to carrying a family of four on holiday in relaxed style.

Rivals to the 320d ES, even from within the 3 Series range, face a hard time matching this model's price and equipment. Undercutting the standard 320d's price by £1175, the ES gains sports suspension, CD player, alloy wheels and leather steering wheel. That's a similar level of kit to the £2205-pricier SE model, although the ES does without SE's climate and cruise controls."

## Latest news:

## 320d Saloon now falls into the lowest company car tax category

BMW is able to confirm welcome news for company car drivers. The 320 diesel Saloon models are now 'Euro IV compliant'. This applies to all 320 diesel Saloon models fitted with the standard six-speed manual gearbox and will mean these powerful diesel models attract only a 15% tax levy.

Applying to 320d SE, 320d ES and 320d Sport models, this makes the 3 Series diesel Saloon range even more attractive to company car drivers, as they will not be liable for the Government's three per cent surcharge for non-Euro IV diesel company cars.

EU4 – The definition

Since the 1990s the EC emission standards have been becoming increasingly rigorous.

These emissions standards are recognized as Euro I, Euro II, Euro III, and Euro IV. At present all cars produced after 2001 have to meet the Euro III standard.

Detailed in the Directive 98/69/EC the Euro IV standard will be introduced in January 2005 and become fully enforced in January 2007, however BMW is meeting the Euro IV standard in advance.

## Accessories - Introduction

Freedom of expression. For people who love driving, a BMW 3 Series Saloon is more than a car; it's a means of self-expression. And with the vast range of BMW accessories contained in these pages - all designed and manufactured to the same exacting standards as your car - you're free to make whatever statement you choose. In short, an even more individual BMW begins here.

## Accessories - Exterior styling

### Aerodynamic package

Front apron, rear apron and side skirts

### M V spoke 72

Complete wheel set with Michelin tyres 8 x 18 225/40 ZR18 front, 8.5 x 18 255/35 ZR18 rear

### M double spoke 68

Complete wheel set with Michelin tyres 7.5 x 17 225/45 ZR17 front, 8.5 x 17 245/40 ZR17 rear

### Radial styling 32

Complete wheel set with Michelin tyres 8 x 16 225/50 ZR16 front and rear

### White direction indicators

Available for front, rear and side indicators

### Anti-theft wheel locking bolts

The studs have a special inner tooth system and can only be undone with the special tool supplied.

### Parallel spoke 85

Complete wheel set with Michelin tyres 7.5 x 17 225/45 ZR17 front, 8.5 x 17 245/40 ZR17 rear

### Mudflaps

Protect the car against dirt and road chippings around the wheel arches.

## Accessories - Interior styling

### Steering wheels

Available in Burr Walnut wood, Light Maple wood, Myrtle wood, Eucalyptus Malt wood, Chrome, Aluminium, Brushed Aluminium, Titanium, Titanium II and M Aluminium Black cube - please speak to your dealer

### Coat hanger

Universal coat hanger which attaches to the rear of the front head restraints

### Sport seats

The seat height, angle and thigh support can be adjusted to suit drivers and front passengers of any height while distinctive side sections keep you in your seat when cornering. The contents of the package depend on the choice of BMW special equipment.

## Accessories - Mobile communications

### BMW 6 CD changer

For up to 6 CD's. Only suitable for radio appliances with an integrated CD control system. Your BMW Dealer will gladly advise you.

## Accessories - Versatility

### Bicycle lift

For all BMW roof rack systems. A bicycle can be lifted on the roof rack and taken down again effortlessly. Suitable for different sized bikes.

### Ski holder

Easy-use ski holder and standard ski holder for up to four or six pairs of skis.

### Profil 2000 base support system, lockable

The support bars are made of high-strength aluminium tubing and are therefore particularly strong and resistant to corrosion. The supports are designed to be a perfect fit for your BMW, making them easy to fit.

### Touring cycle holder, lockable

Sturdy attachment for transporting a bicycle with frame tube diameter of up to 80mm. Also suitable for mountain bikes. Single locking set for fitting up to four touring cycle holders on the base support system.

### Trailer towing hitch

Suitable for higher trailer loads of up to 2275kg (with a nose weight of up to 75kg). The trailer tow hitch is invisible when the towball is removed. Also available in a fixed version.

### Skibag

Easy stowage through the opening in the rear bench seat (accessed via the boot). The ski bag folds up and is stored behind the centre armrest when not in use.

### Luggage rack

High load capacity. Corrosion-resistant tubular steel construction. A small luggage rack allows you to combine other attachments from the multifunctional roof rack system.

### Racing cycle holder

Suitable for racing cycles with quick-release skewers on the front wheel. A holder to secure the front wheel to the base support is also available.

### Luggage compartment floor net

Secures to existing eyelets using S-hooks.

### Ski and luggage boxes

For up to six pairs of skis including accessories or luggage. Has a capacity of approximately 450 litres and can be locked. Available in body colours or white.

### Snowboard holder

To be used in conjunction with Profil 2000 base support system. For up to two snowboards.

## Accessories - Safety and security

### BMW Junior Seat I-II

Available in a choice of colours. ISOFIX from 9 months - 3.5 years (up to 18kg - after this weight the seat must be connected with the seat belt, not with ISOFIX). Non-ISOFIX from 9 months to 7 years

### Park distance control, rear

Makes parking and manoeuvring the car easier. Obstacles at a distance of approximately 1.5m are detected and signalled by an acoustic warning.

### Tracker

Tracker Retrieve, Monitor and Horizon all of which locate your BMW once theft is reported and are available for all models.

### BMW Junior Seat II

Available in a choice of colours. 3.5 - 7 years
