## Environmental Information

The guide on fuel economy and CO<sub>2</sub> emissions which contains data for all new passenger car models is available at any point of sale free of charge. In addition to the fuel efficiency of a car, driving behaviour as well as other non-technical factors play a role in determining a car's fuel consumption and CO<sub>2</sub> emissions. CO<sub>2</sub> is the main greenhouse gas responsible for global warming.

Fuel consumption figures are strictly generated in accordance with Testing Directive 93/116/EC. They are designed to maintain strict comparability and may not be fully representative of real life driving. For further information, please visit [www.vca.gov.uk](http://www.vca.gov.uk)

### Jeep® Wrangler

Cycle	EC Combined mpg (L/100km)	EC Urban mpg (L/100km)	EC Extra Urban mpg (L/100km)	CO <sub>2</sub> (g/km)
