

Mercedes-Benz

# E-Class Coupé

## Introduction

### **A coupé of distinction**

When a car looks as muscular and powerful as the stunning E-Class Coupé, low fuel consumption and emissions are probably the last things you expect. But they're exactly what you get, with a choice of BlueEFFICIENCY engines offering cleaner, greener performance.

Of these, the E 220 CDI BlueEFFICIENCY SE holds particular appeal for business users thanks to its exceptional fuel economy and low emissions. In addition, the E-Class Coupé features Agility Control Suspension with Adaptive Damping System to ensure exhilarating driving. For peace of mind, an array of innovative safety technology includes Attention Assist, Pre-Safe® and Active Bonnet.

Not surprisingly it has received glowing reviews, with Fleet News saying "The E-Class Coupé's size and scale makes it feel as though it exists in a sector above the competition, even if it is priced keenly against them, making it a superb addition to the corporate choice list."

## BlueEFFICIENCY

### High performance, lower costs

Our dedicated Design for Environment team is constantly developing ways to reduce the environmental impact of our vehicles from production through to recycling.

The E-Class Coupé is no exception, with a choice of BlueEFFICIENCY-optimised engines offering reduced fuel consumption and CO<sub>2</sub> emissions without compromising on power. For example, the E 220 CDI BlueEFFICIENCY SE uses 4-cylinder sequential turbo technology to maximize performance and efficiency. Ideal for fleet use, it offers combined fuel consumption of 53.3 mpg and CO<sub>2</sub> emissions of just 139 g/km. Benefit-in-Kind is 19% with a generous 20% write down allowance.

Alternatively, the 4-cylinder E 250 CDI is not far behind with combined fuel consumption of 52.3 mpg and CO<sub>2</sub> from 143 g/km.

Should greater power be required, 6-cylinder BlueEFFICIENCY models include the E 350 CDI, which produces just 179g/km CO<sub>2</sub> and achieves 41.5 mpg (combined).

## Innovations

### A helping hand

We've packed the E-Class Coupé with innovative technology to help ensure peace of mind for drivers and fleet managers alike. Sophisticated systems include Attention Assist, which recognises the signs of driver fatigue and alerts the driver accordingly. Other standard features include Advanced Parking Guidance, which helps prevent costly bumps and scrapes, and the Active Bonnet, which helps reduce the risk of seriously injuring pedestrians in a collision.

Options include Adaptive High Beam Assist (standard for the Sport model), which automatically dips your high beam to prevent dazzling other road users, then reactivates it when the road ahead is clear. DISTRONIC Plus is another invaluable option, using radar technology to help you maintain a safe distance to the vehicle in front.

## Safety

### Prevention and protection

Combining established Mercedes-Benz equipment such as ESP® with a raft of technologies, the E-Class Coupé offers exceptional safety for fleet drivers. Standard features range from Attention Assist to flashing Adaptive Brake Lights that help prevent rear-end collisions.

Pre-Safe® is another key feature, initiating pre-emptive safety measures such as seat-belt pre-tensioning in critical situations. Should an accident prove unavoidable, the E-Class Coupé's advanced bodyshell design absorbs and redistributes impact energy, minimising the danger to the vehicle's occupants. A range of airbags, including a driver knee airbag, further enhance the coupé's all-round safety credentials.

## Comfort & Driving Dynamics

### **Enjoy every moment**

When a car looks this good, you expect a driving experience to match – and the E-Class Coupé doesn't disappoint.

Fitted as standard, the Agility Control suspension with selective damping system delivers flawless handling and response, adjusting shock absorption to suit the driving situation. For added adrenalin, the Dynamic Handling Package – an option on the Sport model – features a manually selectable sport mode with 50% quicker shift times.

Inside the sporty coupé cabin, comfort levels are superb with convenient automatic seat-belt feeders and multi-function steering wheel fitted as standard. Stylish heated front seats with integral headrests offer electrical height/back adjustment and manual lumbar support while multi-contour seats are standard on the Sport model.

## Design

### **Breathtaking style, inside and out**

The E-Class Coupé creates a very special link between emotion and efficiency. The most aerodynamic coupé variant also sets a new record in terms of air resistance: With a Cd figure of just 0.24, this model is the world's most aerodynamically refined series-produced automobile.

The E-Class Coupé is a masterpiece of dynamic, dramatic design with eye-catching touches ranging from distinctive twin-headlamps to flared rear wheel arches. A perfect balance of classic and contemporary style, the E-Class blends timeless coupé elements such as fully retractable side windows and no B-pillars with modern details such as LED taillights (plus LED daytime running lights on the Sport model).

Inside, you'll discover all the style and luxury you expect from a premium coupé. The SE cabin features a striking two-tone colour scheme and uses sumptuous materials throughout, with trim elements in aluminium or wood. Heated leather front seats with integral headrests and individual rear seats ensure total comfort for drivers and passengers alike.

## Model lines

### **Two distinctive styles, one difficult decision**

The E-Class Coupé is available in two model lines, the SE and Sport, each offering distinctive styling and generous equipment.

Highlights of the SE include 17" multi-spoke alloy wheels, bold radiator grille design and diffuser-look rear bumper. A sophisticated two-tone interior includes heated leather seats and nappa leather multi-function steering wheel as standard. Bluetooth, Advanced Parking Guidance, which helps make light work of tight parking spaces are key benefits for executive drivers. Speedtronic cruise control is another key benefit for executive drivers.

The Sport model brings even greater dynamism to the E-Class Coupé with aggressive AMG bodystyling, 18" AMG alloy wheels, and sports suspension. Interior features include multi contour seats and a 3-spoke AMG sports steering wheel. The Dynamic Handling Package is available as an option, while the Intelligent Light System comes as standard.

Accordingly, you are hereby on notice that neither this Internet site, nor any material contained therein shall in any way grant or be taken to grant any person a license to Daimler AG's Intellectual Property.

### Cautions regarding forward-looking statements

Internet pages, investor relations releases, annual and interim reports, outlooks, presentations, audio and video files of events (live or recorded) and other documents on this website contain among other things forward-looking statements that reflect management's current views with respect to future events. The words 'anticipate,' 'assume,' 'believe,' 'estimate,' 'expect,' 'intend,' 'may,' 'plan,' 'project' and 'should' and similar expressions identify forward-looking statements. Such statements are subject to risks and uncertainties, including, but not limited to: an economic downturn in Europe or North America; changes in currency exchange rates, interest rates and in raw material prices; introduction of competing products; increased sales incentives; the successful implementation of the new business model for smart; and decline in resale prices of used vehicles. If any of these or other risks and uncertainties occur (some of which are described under the heading 'Risk Report' in Daimler AG's most recent Annual Report and under the heading 'Risk Factors' in Daimler AG's most recent Annual Report on Form 20-F filed with the Securities and Exchange Commission), or if the assumptions underlying any of these statements prove incorrect, then actual results may be materially different from those expressed or implied by such statements. We do not intend or assume any obligation to update any forward-looking statement, which speaks only as of the date on which it is made.
