

MINI COUNTRYMAN. MINI PACEMAN.

0 TO 100,000 IN UNDER 80 PAGES.

For over fifty years, MINI has been the quickest way of creating a car that's perfectly tailored to you. With some 100,000 configuration options available, almost no other car provides such variety. From roof colours to alloy wheels, and from seats to interior surfaces, the MINI Countryman and MINI Paceman offer countless opportunities to turn a MINI into your MINI. A MINI like no other. A MINI that's as unique as you are.

Details of fuel consumption and CO₂ emissions for all models, as required under EU law, can be found in the Technical Data section beginning on page 66.

MINI PACEMAN.

The MINI Paceman is designed for people outside the urban mainstream. Who like to stand out, without being flashy. Who want the performance of a go-kart, and the practicality of four individual seats. Who appreciate design in general, and a stylish coupé silhouette in particular. Who want not just to see their city, but to get under its skin.

MINI COUNTRYMAN.

The MINI Countryman is for people who want a 100% MINI, but with the option of MINI ALL4 all-wheel drive. Plus a little more space for their life and luggage. People who like the responsiveness of a go-kart, and are not averse to the occasional splash of mud. Who live life to the full, so those five seats come in very handy. Who are equally at home in the city or on a narrow country lane. Who want the real MINI experience, wherever they go.

STYLE ICON.

The unusual design of the MINI Paceman makes it a work of modern art, like a still life, except staying still goes against the grain. It's the perfect symbiosis of beautiful lines and the legendary MINI go-kart feel. That's why we say it has **DESIGN WITH BITE.**

BEAUTIFUL CURVES. BEAUTIFUL CORNERING.

As you might expect from a car with a 1.6-litre petrol engine, the MINI John Cooper Works Paceman comes with our ALL4 all-wheel drive as standard. Thanks to the overboost function, it develops a healthy 300 Nm of torque. With its twin-scroll turbocharger, direct fuel injection and variable valve timing, you'd expect it to look the part on the outside too. And so it does, no small thanks to the twin tailpipes of the sports exhaust system fitted as standard, and the John Cooper Works aerodynamics kit, which includes track-style front and rear aprons, side skirts and air intakes.

THE MINI PACEMAN.

DESIGNED FOR THE STREETS.

With lengthened doors, a long shoulder line, slanting roofline and striking horizontal rear lights, no MINI has ever offered this kind of racing-style elegance. Particularly if you stick with the standard Piano Black Exterior package, whose high-gloss Piano Black finish adds a real touch of class to the side scuttles and surrounds of the headlights and rear lights. Despite its unique coupé silhouette, the Paceman is immediately recognisable as a MINI, thanks to classic features such as the radiator grille, side scuttles and contrast roof.

SUPERIOR SPACIAL DESIGN.

With its sporty silhouette, you'd never guess from the outside how much the MINI Paceman can pack in, with its 330 to 1,080 litres of luggage space and wide-opening doors. There's also a surprising amount of room for four passengers beneath the elongated roof. What's more, the two individual seats in the rear create an exclusive lounge-style environment that's big on comfort.

FUN TO DRIVE ... AND SAFE AS HOUSES!

The dynamic lines of the MINI Paceman are combined with lowered sports suspension, direct steering, and high-revving engines that make it the ultimate go-kart for grown-ups. To let you concentrate on having fun, optional ALL4 all-wheel drive, Dynamic Traction Control (DTC), and Electronic Differential Lock Control (EDLC) provide perfect traction whatever the conditions – and the standard LED fog lights with integrated daytime running lights ensure optimum visibility.

WELCOME TO OUR MOTOR SHOW.

MINI COOPER PACEMAN.

For all its power, the MINI Paceman meets EU6 emissions standards. The MINI Cooper Paceman has a 122hp/90kW petrol engine, while the MINI Cooper D Paceman comes with a 112hp/82kW diesel engine. Both come standard with 16-inch 5-Star Air-Spoke alloy wheels and are available with roof and mirror caps in an optional contrast colour. On request, both engine types can be combined with ALL4 all-wheel drive.

» MINI JOHN COOPER WORKS PACEMAN.

The MINI John Cooper Works Paceman has a 1.6-litre, 218hp/160kW engine with a twin-scroll turbocharger, direct fuel injection, variable valve adjustment, and overboost providing up to 300Nm of torque. Not surprisingly for a car this powerful, it's fitted with ALL4 all-wheel drive as standard. But it may come as a surprise to know that the MINI John Cooper Works Paceman meets EU6 exhaust emissions standards. Visually, it makes a big impact with optional roof and exterior mirror caps in exclusive Chili Red, side scuttles in Brilliant Piano Black, and the John Cooper Works aerodynamics kit.

MINI COOPER S PACEMAN.

Whether you opt for the powerful 190hp/140kW, 1.6-litre, twin-scroll turbo petrol engine of the MINI Cooper S Paceman, or the 143hp/105kW, 2.0-litre common-rail diesel unit in the MINI Cooper SD Paceman, optional ALL4 all-wheel drive delivers all the traction you could ever need. Both models also offer reduced CO₂ emissions, and meet the EU6 exhaust emissions standard. You'll attract more than your fair share of envious glances with the 17-inch 5-Star Triangle Spoke light-alloy wheels in Silver, the red "S" logos on the radiator grille and side scuttles, and the optional roof and mirror caps in contrast colours.

GETS YOU FROM A TO B. AND TO Z IF YOU WANT.

Run out of tarmac? Heading off the beaten track? No problem. With ALL4 all-wheel drive, the MINI Countryman takes things like snow, unsurfaced roads and potholes in its stride. You could say its traction is one of its biggest attractions. You could buy your fish from the supermarket round the corner, or you could hook it yourself from a mountain stream. What's stopping you? We say **GO ALL THE WAY.**

FOUR GOOD REASONS NOT TO STOP: ALL4.

The MINI John Cooper Works Countryman comes with ALL4 all-wheel drive as standard. So you get to your destination fast, even on unsurfaced roads. The overboost function is particularly handy here, providing up to 300Nm of torque. So sit back comfortably in your optional sport seat, and bask in the admiration – which you'll get in spades, thanks to features like the new radiator grille fins in Chili Red, LED fog lights, John Cooper Works aerodynamics kit, and the twin tailpipes of the sports exhaust system fitted as standard.

THE MINI COUNTRYMAN.

HEAPS OF SPACE INSIDE.

There's never been another MINI with so much interior flexibility – or space. The longer body of the MINI Countryman means it has space for up to five people, plus luggage. The rear seats shift backwards or forwards by up to 13 centimetres, depending on whether you need more room for legs or luggage, and fold down with a 40:20:40 split, increasing the luggage capacity from 350 litres to a maximum of 1,170. Just because you're driving a MINI doesn't mean you have to leave the kitchen sink at home.

HEAPS OF CHARACTER OUTSIDE.

Despite its four doors and overall length of over four metres, the MINI Countryman is very much a MINI, thanks to its unique proportions and classic front-end styling. Two new highlights: a redesigned radiator grille, and optional LED fog lights. The new Piano Black Exterior package provides the perfect match, with surrounds for the headlights and rear lights, side scuttles, and roof rails in brilliant Black.

HEAPS OF FUN EVERYWHERE.

Go-kart feel, exceptional agility and outstanding traction on any surface with optional ALL4 all-wheel drive: it's a supremely fun ride, wherever you're headed. And it makes a big, bold and sporty statement: MINI ALL4 exterior styling features design elements on the front and rear aprons and side skirts that look like an underdrive guard.

GENTLEMEN, CHOOSE

YOUR ENGINE.

MINI ONE COUNTRYMAN.

With a punchy 98hp/72kW, the petrol-fuelled MINI One Countryman offers a pacy introduction to the world of MINI, as does the 90hp/66kW MINI One D Countryman high-torque diesel model. They're also kind to the environment – both have reduced CO₂ emissions that meet EU6 standards. The entry-level model is easy on the eyes, too. It has a body coloured roof, redesigned radiator grille fins, Piano Black exterior trim and 16-inch 5-Star Air Spoke alloy wheels and, optionally, roof and exterior mirror caps in a contrast colour.

MINI COOPER COUNTRYMAN.

The MINI Cooper Countryman is available either with a 122hp/90kW petrol engine or as a Cooper D version with a 112hp/82kW diesel engine. Both have reduced CO₂ emissions that meet EU6 standards, and both can be combined with ALL4 all-wheel drive as an additional option. Eye-catching design features include a redesigned radiator grille, Piano Black exterior trim, 16-inch 5-Star Air Spoke alloy wheels and, optionally, roof and exterior mirror caps in a contrast colour.

MINI COOPER S COUNTRYMAN.

The MINI Cooper S Countryman has a 1.6-litre twin-scroll turbo engine that now delivers an even more powerful 190hp/140kW, while the MINI Cooper SD Countryman features a 2-litre common-rail diesel engine offering 143hp/105kW. Both meet the EU6 emissions standard, and are available with optional ALL4 all-wheel drive. Standard features include, 17-inch 5-Star Triangle Spoke alloy wheels in Silver, a Chrome framed radiator grille with a red "S" badge, and honeycomb side scuttles with a red "S". Optionally, the roof and exterior mirror caps are available in a contrast colour.

» MINI JOHN COOPER WORKS COUNTRYMAN.

The MINI John Cooper Works Countryman has a 1.6-litre, 218hp/160kW engine with a twin-scroll turbocharger, direct fuel injection and variable valve adjustment. With the overboost function, it can deliver up to 300Nm of torque. ALL4 all-wheel drive comes as standard, as do 18-inch Twin Spoke alloy wheels in Black Burnished finish, roof rails and side scuttles in Brilliant Piano Black, and the John Cooper Works aerodynamics kit. As a separate option, the roof and exterior mirror caps are available in exclusive Chili Red. To cap it all, the car also meets the EU6 emissions standard.

Bonnet stripes, contrast roofs, exterior mirror caps, side scuttles. Few other models come close to the level of customisation MINI has offered for over fifty years. In fact, choosing a new model is no easy task. For the exterior alone, there are over 100,000 ways to ensure your MINI is a true one-off and a perfect match for your personality.

THE LEGEND IS IN THE DETAIL.

So take a deep breath and immerse yourself in the details. First, you may like to pick out stripes for the bonnet, or sports stripes for a more striking look. Then there's the exterior mirror caps and roof, available in body colour, contrast colours or finished in Chrome. Or if you are after something more unique, genuine MINI Accessories offer a host of designs, such as the Union Jack shown on the right. Once these details are combined, the end result is a MINI that's yours, and yours alone.

The customisation tradition began with John Cooper, whose Mini took the rally world by storm in the early 60s. He wanted to be sure spectators could see it fly through the thick woodland around Monte Carlo, on its way to victory. His simple, effective solution was to paint the roof bright white. The decision would have major ramifications, and was one of the reasons why the Mini went on to become the best-selling, most-loved British car in history. So take a look through the following options, and make your very own MINI Countryman or MINI Paceman.

CHROME LINE

When the first classic Mini rolled off the production line in 1959, the automotive world was figuratively and literally dazzled. This was in no small part down to the extensive use of chrome, an unprecedented amount for such a small car. Much has changed since then, though our love of chrome burns as bright as ever. The sparkle of 1959 lives on today in the form of the Chrome Line Exterior. With Chrome fins for the radiator grille, Chrome surrounds for the air intakes and registration plates, and Chrome side scuttles, the optional package guarantees your MINI Countryman or MINI Paceman will make a glittering impression.

MINI COOPER COUNTRYMAN.

Chrome-plated radiator grille slats and a Chrome surround for the lower air intake.

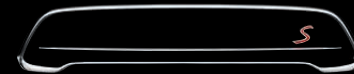

Chrome-plated side scuttle.

Chrome-plated registration plate surround in the rear bumper.

MINI COOPER S COUNTRYMAN.

Chrome-plated radiator grille as standard. Chrome-plated air ducts to cool the brakes.

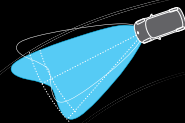

Chrome-plated side scuttle.

Chrome strip in rear bumper.

PUT OTHERS IN THE SPOTLIGHT NOW AND THEN.

The LED fog lights (with daytime running light) and headlights on the MINI Countryman and MINI Paceman make these models as eye-catching by day as they are by night. The optional bi-xenon headlights, made from aerodynamic glass will turn heads even when they're not switched on. And at night, the optional Adaptive Headlight feature helps you see round bends.

A FRESH LOOK AT FRESH AIR.

The sliding glass sunroof for the MINI Paceman.

Enjoy more fresh air at the push of a button. The front glass panel of the sunroof can be tilted or opened completely. The rear glass panel remains static at all times. For maximum convenience the sunroof can be opened using the key remotely.

The sliding glass sunroof for the MINI Countryman.

There are so many ways to get an extra breath of fresh air. The front and rear glass panels of the sunroof can be tilted, or the front panel can be opened completely. For maximum convenience the sunroof can be opened using the key remotely.

IF YOU'D RATHER LOOK AT GOLF CLUBS THAN GREY CLOUDS ...

Let's face it, the British sky isn't always a sight to gladden the heart. So you may prefer to feast your eyes on the sporty, elegant lines of the MINI roof box, with its Titanium Silver or Black upper shell, embossed MINI logo, and optional Black or White adhesive sports stripes. The innovative anti-theft opening system, with its six locking points, gives you (but no one else) easy access from both sides. The box provides an additional 320 litres of storage. That's plenty enough for a couple of MINI bags, with space left over for your new MINI wellington boots when you take your MINI bulldog for a walk.

You'll find the roof box under

INNER BEAUTY.

Because we know that individuality is the number one priority for MINI drivers, we've upped the ante with new, elegant features like Anthracite dials for the speedo and rev-counter, and Chrome-plated air-vent adjusters. You can also be your own interior designer; with a range of seat materials, surface finishes and Inlay Colours, not to mention the Chrome Line Interior, you can tailor practically every inch of the inside of your MINI to suit your needs and personality. The MINI Countryman and MINI Paceman are feel-good cars, because they're an expression of you.

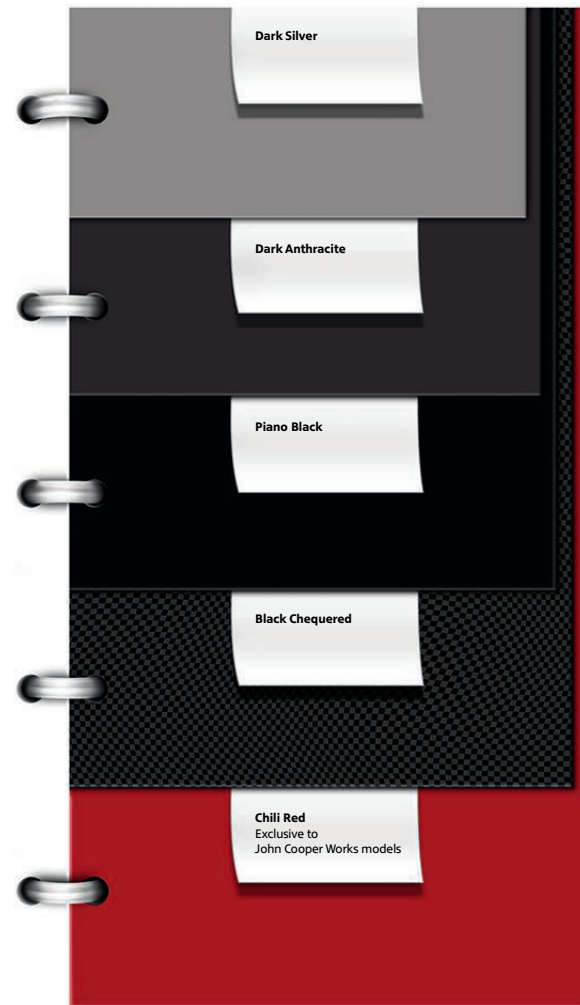

INTERIOR SURFACES.

Treat yourself and your interior to a little colour. The interior surfaces – the side surrounds on the centre console, decorative dashboard trims and door ellipses – come in five colours. These range from Piano Black to Chili Red.

Choose your interior surfaces:

Rail note holder.

Made up of two coin slots, a MINI pencil, and an attachment to hold notes and small documents, this solution is as compact as it is practical.

PLANET MINI.

You're sure to experience a wide range of emotions in your MINI, but loneliness is not one of them. On the contrary, the joy of driving a MINI is one you'll want to share with everyone. You can wave to other MINI drivers, or use MINI Connected to communicate with them via Facebook or Twitter. It may seem unusual to some, but communication is a big part of life with a MINI – where drivers are connected by much more than a shared brand.

MINI CONNECTED: LIKE!

Want to enjoy the perfect soundtrack as you push your MINI to its limits? Enjoy quick, easy navigation? Tweet and connect with friends on Facebook? You can do all this and more with MINI Connected, a complete in-car infotainment solution. With the MINI Connected App, you can link your iPhone to your MINI, and access state-of-the-art features on the display unit. In addition, you can receive the latest RSS feeds, and thousands of web radio stations from around the world, wherever you may be. Be MINI. Be Connected.^{1,2}

¹ Additional optional equipment required.

² Availability and range of features are dependent on the other equipment fitted, and may vary from country to country. Range and graphic design of MINI Connected functions subject to change without notice. Broadband mobile Internet access required. Costs (e.g. data roaming) will be payable as specified in the contract with your network provider. MINI Connected app available free of charge from the device manufacturer's app store (subject to national restrictions). Updates available free of charge, but version upgrades may be chargeable. If further MINI Connected-compatible apps become available, these will be identified/promoted accordingly. DRIVING EXCITEMENT.

Sports instruments, Driving Excitement Analyser, Force Meter and Condition Check: keep constant tabs on your driving style.

MINIMALISM ANALYSER.

The MINIMALISM Analyser puts the fun into changing gear, accelerating and braking more efficiently. It's good for the environment and great for your fuel economy, and the novelty never wears off.

DYNAMIC MUSIC.

Dynamic Music offers a selection of exclusively written tracks whose rhythm, style and instrumentation follow the dynamics of your personal driving style.

MINI CONNECTED READY APPS.

You can find out which apps are compatible with MINI Connected in the "More Apps" section of the MINI Connected app. Simply download from the App Store, and get started.

SOUNDS GOOD.

RADIO MINI BOOST CD.

Listen up: the MINI Boost CD radio head unit is fitted as standard. It offers an RDS tuner with scan function, a CD player with MP3 decoder, and permanent clock display. An aux-in port for MP3 players and other mobile devices also comes as standard. And if that's not enough, the MINI Boost CD also has a two-line display, antenna diversity for optimum reception, controls for an external audio player, Bluetooth function with USB audio connection and a DAB tuner. How does that all sound?

RADIO MINI VISUAL BOOST.

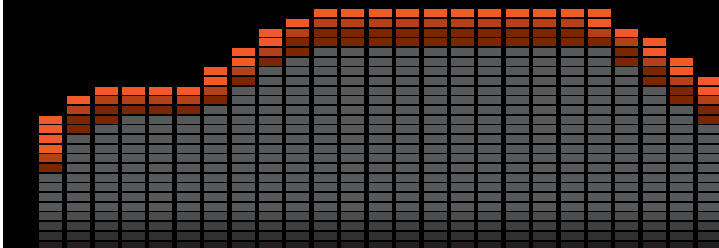

Turn your car into a mobile cinema with Radio MINI Visual Boost, a sophisticated on-board entertainment computer based on the Radio MINI Boost CD. A high-resolution 6.5-inch display offers intuitive controls, and acts as a screen for any compatible Apple iPod with video playback. And an audio/video cable for iPod or iPhone, making the Radio MINI Visual Boost the perfect digital companion. It's "MINI Connected ready", meaning MINI Connected can be retrofitted at any time.

For information on the compatibility of devices for audio, video and telephone functions, visit MINI.com/connectivity

BREAK THE SOUND BARRIER.

The optional harman/kardon hi-fi speaker system is music to any audiophile's ears. A digital multichannel amplifier and ten high-performance speakers deliver a unique sound experience, with a total output of up to 480 watts, powerful bass, and brilliant treble.

REVOLUTION COUNTER.

Everything you need to know, as standard: the revolution counter, fitted to the centre of the steering column, also displays the rain sensor status, current speed, trip and total mileage, and Shift Point Display, recommending the most efficient gear. Also available on request is the on-board computer. At the touch of a button, this lets you know your average speed, range and fuel consumption.

GET AROUND.

CLASSIC SPEEDOMETER.

The classic speedometer is positioned in the centre of your MINI, and may be combined with the optional Radio MINI Boost CD.

CIRCULAR SPEEDOMETER AND NAVIGATION SYSTEM.

The circular speedometer is fitted as standard in combination with the Radio MINI Visual Boost or the MINI navigation system, and offers a clear display with an easy-to-use menu. The optional MINI navigation system boasts an incredible range of functions, and makes the perfect partner for the Radio MINI Visual Boost.

AIR CONDITIONING.

The standard air conditioning system is positioned in the centre console within arm's reach. It offers individual, simple control of the quantity and distribution of air. Fitted with a microfilter, the system ensures a comfortable temperature inside the vehicle, both in winter and summer. And should you ever select manual air circulation mode, the system automatically switches back to fresh air after a while, depending on the outside temperature.

AUTOMATIC AIR CONDITIONING.

The automatic air conditioning system rapidly adjusts the interior temperature to the selected level, and keeps it there. This means your hands can stay on the wheel at all times. A built-in active carbon filter protects passengers against unpleasant odours from outside, and the system automatically deactivates air circulation mode when necessary.

KEYED UP.

With the Comfort Access system, you need never remove your key from your pocket. As long as you're carrying it on you, your MINI opens and closes automatically. The vehicle can also be locked and unlocked by pressing a button built into the door handle, and the luggage compartment is opened simply by pushing the logo on the tailgate. Once you're inside, the engine can also be started keylessly via the Start/Stop button.

MINI COLLECTION.

Keep one at home, and take one with you:
"I love MINI" cup and Britcar key ring, from the MINI Collection.
www.MINI-shop.com

USB ETC.

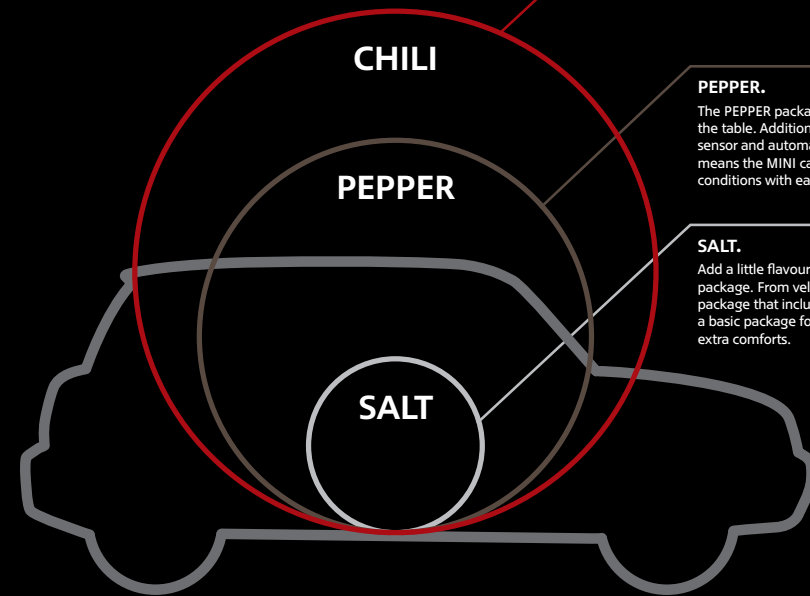

Whether you want to make a call on your mobile or listen to music, the enhanced Bluetooth mobile phone preparation with USB audio interface puts your phone in the driving seat. A hands-free kit and external aerial make calls easy, while interfaces for mobile phones, MP3 players, and USB sticks in the centre armrest and centre console ensure simple access to your favourite tracks. This option also includes the 3-spoke sports leather steering wheel (with multifunction) and a front armrest.

An adapter ensures practically every make and model of mobile phone sits comfortably in this armrest.

SPICE UP YOUR MINI.

Get more out of your MINI: the SALT, PEPPER and CHILI packages offer three stylish trim options, each with varying levels of comfort. And for added customisation, all can be combined easily with the Media Pack.

MORE PACKAGES FOR YOUR MINI.

From the Radio MINI Visual Boost to MINI Connected, this package brings driver and machine together in perfect harmony.

MINI SPORT PACK.

MINI SPORT PACK. EXTERIOR.

Comprises John Cooper Works 18-inch Twin Spoke alloy wheels in Black Burnished, John Cooper Works aerodynamic kit, Piano Black Exterior package, sports suspension, and John Cooper Works door sill finishers.

MINI SPORT PACK. INTERIOR.

John Cooper himself would have been proud of this. It includes a John Cooper Works sports leather steering wheel with multifunction option, Sport button, Black Chequered interior surfaces, John Cooper Works sport seats, headliner in Anthracite, and more, with everything tailored for pole position.

CHILI².

SPORT PACKAGE.

Available for both the MINI Countryman and MINI Paceman models (Cooper S and Cooper SD models only). There is far too much to list here, but for more details see page 75. And if you don't need any extra persuasion, why wait? Order the package today.

JOHN COOPER WORKS TUNING.

A dose of racetrack excitement: with John Cooper Works Tuning, you can give your MINI however much of a racing edge you like, both inside and out. For more information, visit www.MINI.co.uk/accessories

JOHN COOPER
WORKS

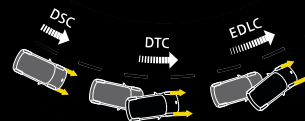

SAFETY.

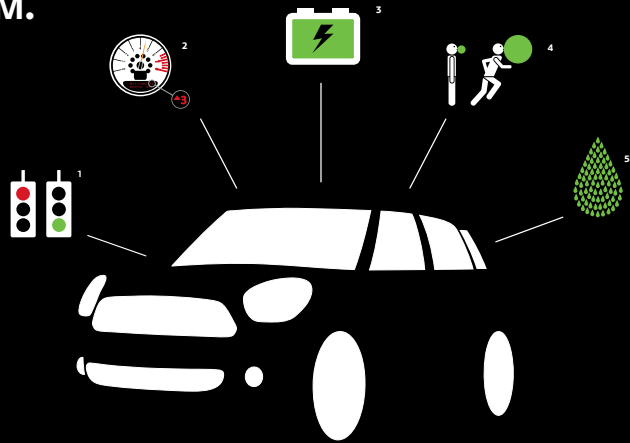

If – and perish the thought – things should come to the crunch, the MINI Countryman and MINI Paceman come with six airbags as standard. The driver and passenger airbags protect the head and upper body, while side and head airbags are primarily designed to reduce the risk of injuries to the head, chest and abdominal areas from side impacts.

A combination of three-point belts, belt tensioners and belt force limiters means the driver and front-seat passenger enjoy the best possible protection. The restraint systems in the MINI Countryman won the maximum five stars in the Euro NCAP crash test, meaning a very low risk to passengers in a frontal, lateral or pole impact. They were also rated above average for child safety, which is not surprising, since there's provision for up to two ISOFIX child seats in the rear as standard.

Fitted as standard, Dynamic Stability Control (DSC) counteracts incipient loss of grip by intervening in the engine management and applying braking force to individual wheels at the front and rear as necessary. It also incorporates a Hill Start Assist feature. Optional Dynamic Traction Control (DTC), which includes Electronic Differential Lock Control (EDLC), lets you make optimal use of natural over and understeer. EDLC applies braking to the inner wheel if it loses too much grip around a corner, ensuring the car maintains forward momentum through bends and on surfaces with variable levels of grip. At the same time, it enables more torque to be applied to the outer wheel, and applies additional corrective braking to the rear axle on bends.

MINIMALISM.

MINIMALISM. LESS IS MORE. This is all about increased driving enjoyment and reduced fuel consumption. We do this by intelligently combining a range of innovative solutions in each model:

1. THE AUTO START/STOP FUNCTION means that when the engine is idling – for example, at a red light or in a traffic jam – it is automatically switched off. As soon as the clutch pedal is depressed, the engine is switched back on.

2. SHIFT POINT DISPLAY. This gives instructions in the rev counter showing which gear you should be in to maximise fuel economy, reducing your emissions and your expenditure on fuel.

3. BRAKE ENERGY REGENERATION uses Intelligent Alternator Control to convert unneeded kinetic energy into electricity. When the driver's foot is not on the gas, more energy is diverted to charging the battery. When it is, the battery charges at a slower rate.

4. FULLY VARIABLE VALVE TIMING. The fully variable timing of intake valve lift increases power output for all petrol engines, while simultaneously improving combustion efficiency.

5. COMMON RAIL TECHNOLOGY. High-pressure injection at a consistent 1,600 bar and multiple pre-injections ensure the diesel enters the cylinder as a fine mist, which makes the engine run more quietly and improves both output and fuel economy.

TYRES OPTIMISED TO REDUCE ROLL RESISTANCE, and therefore CO₂ emissions, are available as an option.

THE MINIMALISM ANALYSER. Part of the optional MINI Connected infotainment system, the MINIMALISM Analyser monitors a number of variables to determine how economically you're driving, and gives you advice on how you could use less fuel. After each journey, you can review and compare your driving data with the user-friendly MINI Connected app, and refine your driving style for even greater fuel efficiency.

MINI SERVICE.

EVERYTHING YOU NEED.

Not many people will know your MINI as well as you do. MINI Service Technicians however, share your passion entirely. There's nobody better when it comes to electrics, mechanics, bodywork, paintwork or cosmetic repairs – or when you need to pick up a replacement part. Because you'll soon realise that a MINI like yours deserves nothing less than Genuine MINI Parts.

MINI KNOWS BEST.

Since you can't always think of everything when on the road, your MINI uses its head, too. With the Condition Based Service feature, it automatically reminds you when certain services are due, via the control display.

MINI TLC.

Why risk any unwelcome surprises down the line? With MINI tlc you can relax in the knowledge that your comprehensive servicing needs are covered for 5 years or 50,000 miles, whichever milestone is reached first. That means that parts, lubricants, labour, a brake fluid change and peace of mind are covered up front.

WE'LL ALWAYS BE THERE FOR YOUR MINI.

Sometimes the unexpected happens and at MINI we believe it's good to be prepared. If you find yourself with a motoring emergency, whether in the UK or in Continental Europe, fear not. MINI Emergency Service is on hand 24/7 for roadside assistance. If one of our specialist roadside technicians can't fix your MINI we will whisk it away to your local MINI Dealer, MINI Approved Workshop or MINI Approved Bodyshop. This ensures only Genuine MINI Parts (installed by trained technicians) find their way onto your MINI. The service doesn't end there. We'll also take care of any replacement vehicle needs, vehicle recovery and re-delivery so it's as hassle free for you as possible.

MINI FINANCIAL SERVICES.

FINANCE DESIGNED TO PUT A MINI IN YOUR LIFE AND A SMILE ON YOUR FACE.

Eating even the tastiest Victoria sponge all in one go is a bit of a chore – it's much more enjoyable if you tackle it in slices. Same goes for your fab new MINI. With MINI finance you can pay in tasty little bite-size chunks. We know our cars (and our customers) inside out and our three most popular finance deals have been painstakingly devised by the MINIstry of finance to make sure you get the most out of your new or Cherished MINI and your budget.

MINI SELECT.

MINI's most popular finance product combines attractive regular repayments with flexibility at the end of your agreement.

MINI HIRE PURCHASE.

This one's super-simple – you pay a deposit followed by fixed monthly repayments and at the end of your agreement you become the owner.

MINI CONTRACT HIRE.

We will lend you a MINI, so you get all the fun of hitting the road then at the end of the agreement you hand the MINI back to us.

There's a nifty finance solution for everybody, we also offer a range of MINI Insurance Products which will keep you and your MINI well covered.

Speak to the super friendly and brainy finance expert at your local MINI dealership.

* Finance is subject to status and available to over 18's in the UK only (not the Channel Islands or Isle of Man). Advertised finance is provided by MINI Financial Services, Bartley Way, Hook, Hampshire RG27 9JF. Ministry of Finance is not connected to or endorsed by any government department.

WARRANTY.

Every MINI is supplied with a two-year unlimited mileage dealer warranty (excluding wear-and-tear parts such as brake pads), and a 12-year extended anti-corrosion warranty. This is conditional on any previous damage to the body or underbody (e.g. stone impact, scratches, dents, and damage caused by accidents or environmental factors) being correctly repaired in accordance with current MINI guidelines. The painted surfaces of the car are covered by a three-year warranty. This excludes any damage to painted surfaces caused by improper treatment or unforeseen environmental factors.

RECYCLING.

At every stage, from design to disassembly, recycling is central to the MINI philosophy. For example, all the materials used in each vehicle's manufacture are selected because they can be used in the most sustainable and environmentally friendly way possible. That way, every MINI can be efficiently and ecologically recycled when its driving days are finally done. We've been working on this approach since 1994 at the BMW Group Recycling and Disassembly Centre in Munich, the only facility of its kind. Your MINI dealer will be pleased to advise you on the disposal of your old vehicle, or you can visit www.MINI.co.uk/recycling

WE'VE THOUGHT OF EVERYTHING. HAVE YOU?

Why wait to act on your inspiration? Speak to your local MINI dealer today. To find out where this is, visit our website:
