Sustainable production.

The Rastatt factory, where the new EQA is built, reduced its CO₂ output by 58% from 2011–2019 and all our Mercedes-Benz factories around the world plan to be CO₂ neutral by 2022.

Sustainable materials.

To ensure the responsible mining of cobalt, lithium and other battery raw materials, Mercedes-Benz has already made the IRMA Standard for Responsible Mining a contractual component for all future vehicle projects.

Sustainable mobility.

Locally emission-free driving pleasure, virtually silent with full access to inner city zones. All our vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

Mercedes me Charge - Green charging

To promote the use of electricity from renewable energies, Mercedes-Benz uses guarantees of origin to 'green' the charging process, whose quality is defined by an eco power label.

This ensures that an equivalent amount of electricity from renewable resources is fed into the grid to compensate for the charging of your EQA.

All new EQAs have three years of Mercedes me Charge as standard and the Green Charging guarantee is included with this.

Mercedes-Benz User Experience (MBUX)

Transforming the in-car user experience, thanks to MBUX: Controlled via voice, touch or optional gesture input, the innovative infotainment system can over time even predict personal habits thanks to artificial intelligence.

Multi-gesture touchpad control

MBUX multimedia system with DAB digital radio

Voice control

- Activated by the keywords “Hey Mercedes”, the new intelligent voice control LINGUATRONIC¹ lets you control many of the infotainment functions, including destination input, phone calls or music selection
- MBUX is able to understand different accents and will adjust to you over time
- MBUX even understands indirect commands. Feeling chilly? Just say “I feel cold” and MBUX will adjust the temperature for you

Personalisation

- Turn the new EQ into your very own Mercedes-Benz by personalising driving modes, radio stations, ambient lighting and much more
- Your personal settings can be saved in up to seven different profiles, making your driving experience the best one possible
- Thanks to artificial intelligence, MBUX is able to learn and adapt over time. It will be able to predict your personal habits, such as navigation for frequently-driven routes, or the radio station you like to listen to on your way home from work

Touch inputs

- Beside voice control you can operate MBUX via touchscreen, the touchpad on the centre console, as well as touch control buttons on the steering wheel
- The touchpad recognises your handwriting should you wish to enter addresses or phone numbers silently

Maintenance and service

- Wondering when the next service is due? Or how much further you can drive until you need to stop at a charging station? Just ask your MBUX – it will tell you the answer

¹LINGUATRONIC off-board functions are currently only available for three years

Mercedes me connect

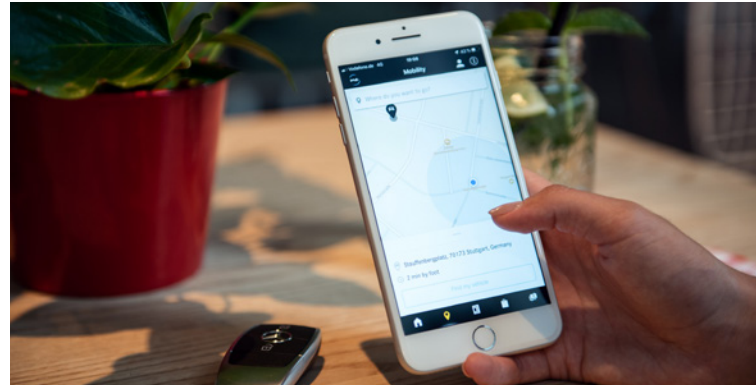

Stay connected any time, anywhere.

Mercedes me

Mercedes me is a range of innovative online services designed to enhance your Mercedes-Benz experience. Accessible via mobile, tablet or PC, Mercedes me lets you enjoy the highest standards of care and support, in a way that integrates seamlessly with your busy lifestyle.

Safety and Service – Mercedes me connect helps to keep you and your car safe

Check your car's washer fluid level, tyre pressure and battery level from your phone so you'll be ready for every journey.

Infotainment – Online and Entertainment services from Mercedes me connect

Love music? Get a 3-month free subscription to Tidal when you connect your car.

Live Traffic Information, Parked Vehicle Locator and much more with Mercedes me connect

Forgot where you've parked? Parked Vehicle Locator¹ will show you exactly where your car is as long as you're in a 1-mile radius of where you parked. Real-time traffic data and dynamic route with shorter journey times.

For more information speak to your local Retailer or visit the Mercedes me connect store at shop.mercedes-benz.com/en-gb/connect

Comfort – connect to your car anytime, anywhere

Forgot to lock your car? With Remote Car Lock² you will receive a notification on your smartphone to let you know. With one tap, you can lock and unlock your vehicle so you never have to worry.

Mercedes-EQ specific services

Check your charging status on the go and programme your pre-entry climate control and charging settings remotely. The Mercedes-EQ specific navigation considers electrical range, topography and charging stations.

¹Available on all models with the Vehicle Monitoring package. This option may vary between standard and additional cost dependent on the model

²Part of the Vehicle Status package. This option may vary between standard and additional cost dependent on the model Images shown are for illustration purposes only

Mercedes-EQ

Benefits of driving Mercedes-EQ

MERCEDES-EQ

Mercedes-EQ couple the locally emission free, refined drive and effortless powertrain of an electric vehicle with the luxury, elegance and high-quality craftsmanship of a Mercedes-Benz.

[Click here for more information](#)

Lower running costs

We've partnered with Go Ultra Low, a joint Government and car industry campaign, to give you unbiased advice on making the switch to an electric car. Use Go Ultra Low's cost saving calculator to see how much you can save. Click **here** to discover more.

Performance

Instant torque provides effortless driving pleasure.

No road fund licence

Mercedes-EQ vehicles have no local emissions - this means you pay no road tax.

Cleaner vehicle discount

Mercedes-EQ battery electric vehicles are congestion charge and ultra low emission zone charge exempt in London.

Business benefits

With 100% first-year capital allowances¹ and 2% BIK tax, electric cars offer significant benefits to businesses and employees.

Refinement

Acoustically optimised and a near-silent powertrain means that driving Mercedes-EQ provides a sensory experience of luxurious refinement. All our vehicles come as standard with an external acoustic warning to alert pedestrians or cyclists at speeds under 19 mph.

¹100% first-year capital allowances only apply to vehicles less than 50 g CO₂/km

EQA

MERCEDES-EQ

The EQA is the first all-electric member of the compact car family from Mercedes-Benz. Offering locally emission-free, efficient driving combining driving pleasure and performance with dynamic design.

EQA 250

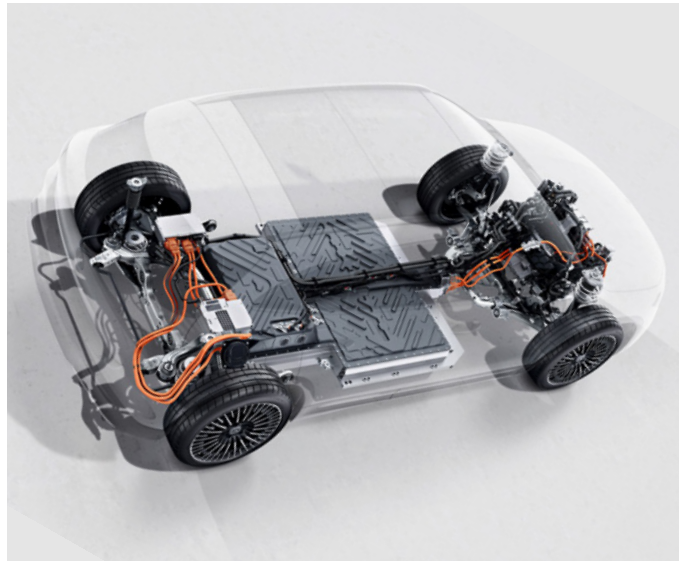

Battery electric vehicle, 190 hp/140 kW
Electric range 252–264 miles – WLTP

EQA 300 4MATIC

Battery electric vehicle, 228 hp/168 kW
Electric range 258–267 miles – WLTP

EQA 350 4MATIC

Battery electric vehicle, 292 hp/215 kW
Electric range 258–267 miles – WLTP

Standard equipment

Acoustic ambient protection – the tone pitch changes depending on the driving conditions. You can therefore also differentiate whether you are braking or accelerating. Above 19 mph, the system is deactivated since wind and tyre noise tend to dominate at higher speeds

Charging cable – Mode 3 cable (5 metres), enables you to charge the vehicle battery via the wallbox or at public charging stations at up to 11kW

Charging socket

Charging system – AC charging system rated at 11kW; DC rated at 100kW

Pre-entry climate control

Radar-based recuperation

Suspension – comfort suspension as standard

Technical details

Electric range ¹	252–267 miles
Charging time:	
AC outlet (230 V/13 A) 10–100% ^{2,3}	30 hrs
Wallbox (400 V/16 A) 10–100% ²	5 hrs 45 min
Public rapid charging (100 kW) 10–80% ⁴	32 min
Range power consumption, combined ^{3,4}	186–177 Wh/km
Battery type (capacity)	lithium-ion (66.5 kWh)
Capacity on-board charger	11 kW AC 100 DC

Attention

Please be aware that external factors such as weather, gradient and ambient temperature amongst others can significantly impact range.

Please also note that internal factors such as driving style and climate control settings etc. can also significantly impact range.

Using the pre-entry climate control when plugged into a charge point will ensure the perfect ambience and ensure that your car is just how you like it, as well as making sure that your battery isn't used unnecessarily to heat/cool the vehicle (maximising range).

¹Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ²Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–100% charge using a wallbox (three-phase) or standard socket (single-phase) ³If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord) ⁴Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10–80% charge using public rapid charging at 100kW

Mercedes me Charge One registration, one contract, one billing.

Mercedes *me*

Mercedes me Charge provides access to a multitude of public charging stations located in shopping centers, hotels or at motorway services. A smartphone app as well as the vehicle's navigation system show the precise location, current availability and price at the selected charging station.

Tens of thousands charging stations in the UK

Growing network of charging providers includes bp pulse the largest charging network in the UK. Customers also get six months free bp pulse+ membership which reduces the electricity price when charging.

Access to fast-charging stations

Enables customers to get access to charging stations of different providers with:

- Mercedes me app
- RFID card
- Mercedes-EQ Vehicle Head unit

Green charging

All charging using Mercedes me Charge, will be retrospectively 'greened' by Mercedes-Benz. Please click [here](#) for more info.

Transparent and easy billing

One invoice charging processes for payment.

Easy access

Charging stations are displayed in Mercedes me app and in MBUX multimedia system.

No fees

Mercedes me Charge is standard for three years with discounted IONITY rapid-charging for one year.

Home charging Simple, convenient, fast charging.

Mercedes-Benz plug-in vehicle customers with off-street parking can benefit from the convenience and speed of charging at home by installing a home charger. The 7 kW home chargers deliver a full charge overnight in around 11 hours¹ – that’s up to three times faster than using a 13 A three-pin domestic plug.²

Home charger 7 kW: **£875*** incl. VAT & standard installation

Key benefits of the 7 kW home charger:

Robust and weatherproof, for indoor or outdoor use, and comes with a three year warranty. Keep track of your charging using your chosen providers’ app – available on both the App Store and the Google Play Store.

OZEV Grant:

You may be entitled to claim for an OZEV grant towards the cost of your home charger.³ To find out whether you are entitled please contact your chosen charging partner.

Questions? Please contact your local Retailer to submit an enquiry to your chosen charging partner on your behalf. To find your local Retailer, please click the button at the top right hand corner.

Warning! If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord.

Some of the model features, optional extras and colours shown may not be available, or may only be available in a different specification, or at a different price.

*Price excludes £350 OZEV EVHS Grant. Price correct at time of publication, subject to change

¹Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase)

²Based on 7kW power output

³The home charger £350 Grant (including VAT) is only available to customers who meet the criteria of the Office for Zero Emission Vehicles (OZEV). For full details and eligibility criteria for the OZEV EVHS Grant, see <https://www.gov.uk/government/publications/electric-vehicle-homecharge-scheme-guidance-for-customers-version-21>.

Trailer coupling with ESP® trailer stabilisation

Trailer coupling with ESP trailer stabilisation¹ (code 550)

Available on all models

Total incl. VAT £750.00

Expand your transport options: with this practical equipment you can hitch up both trailers or caravans and also mount cycle racks. The trailer coupling is ready for use in no time at all – and can be folded in again behind the rear bumper just as quickly when it is no longer needed.

Operating safety is the top priority: to fold out the trailer coupling, you must first unlock it via the control button in the boot. As soon as the button light goes out, the trailer coupling is correctly engaged and is therefore ready for use.

Even when driving you can benefit from a comprehensive safety concept: the ESP® trailer stabilisation is able to intervene automatically in critical situations when driving with a trailer. The associated sensor system detects the trailer independently as soon as the electric plug is connected to your vehicle.

The ESP® stabilisation functions are automatically active from a speed of 40 mph. When undesired oscillating motions are detected, the Trailer Stability Assist actively dampens these with the aid of alternate brake actuation of each individual wheel. In most cases this is already sufficient to reduce dangerous oscillations. If necessary, the system additionally reduces the speed: for this, the engine torque is reduced and the vehicle is braked via all four wheels.

¹Please be aware fitment of this option will impact expected range

Standard equipment

● Standard – Not available

Battery and Charging

	AMG Line Sport	AMG Line	AMG Line Premium
11kW AC on-board charger	●	●	●
66.5 kWh battery	●	●	●
100 kW DC on-board charger	●	●	●
CCS-2 connector (Combined Charging System, compatible with AC and DC)	●	●	●
Charging cable – Mode 3 cable (5 metres), enables you to charge the vehicle battery via the wallbox or at public charging stations at up to 11kW	●	●	●
IONITY – one year, Rapid charging with IONITY	●	●	●
Mercedes me Charge – three year subscription – fully integrated access to a host of public charging stations. A single contract covers all billing. One-time registration and activation as part of Mercedes me connect. Use via app, MBUX multimedia system or RFID card	●	●	●

Steering and Suspension

	AMG Line Sport	AMG Line	AMG Line Premium
Comfort suspension	●	●	●
Cruise control	●	●	●
DYNAMIC SELECT – three different drive programs: ECO, COMFORT and SPORT. Five recuperation levels: D Auto (ECO Assist, standard setting); D + (coasting); D - (low recuperation); D - (medium recuperation); D - - (high recuperation)	●	●	●

Exterior

	AMG Line Sport	AMG Line	AMG Line Premium
Adaptive Highbeam Assist	●	●	●
AMG Line bodystyling	–	●	●

	AMG Line Sport	AMG Line	AMG Line Premium
EASY-PACK tailgate	●	●	●
Electrically operated panoramic glass sunroof	–	–	●
Heat-insulating dark-tinted glass	●	●	●
LED high-performance headlamps	●	●	●
Mirror package – automatically-dimming interior and exterior driver's mirrors; heated electrically-folding exterior mirrors	●	●	●
Parking package with reversing camera	●	●	●
Polished aluminium roof rails	●	●	●
Progressive bodystyling	●	–	–
Surround lighting with projection of brand logo	●	●	●
Windscreen wipers with rain sensor	●	●	●

Wheels

	AMG Line Sport	AMG Line	AMG Line Premium
18" alloy wheels – 5-spoke design, aerodynamically optimised, painted black with a high-sheen finish, 235/55 R18 tyres on 7.5J × 18 ET53.5 wheels (code R31)	●	–	–
18" AMG alloy wheels – 5-spoke design, aerodynamically optimised, painted high-gloss black with a high-sheen finish, 235/55 R18 tyres on 7.5J × 18 ET53.5 wheels (code RQQ)	–	●	–
19" AMG alloy wheels – 5-twin spoke design, aerodynamically optimised, painted high-gloss black with a high-sheen finish, 235/50 R19 tyres on 7.5J × 19 ET53.5 wheels (code RTF)	–	–	●
Summer tyres	●	●	●

Standard equipment

● Standard – Not available

Interior

	AMG Line Sport	AMG Line	AMG Line Premium
Ambient lighting – 64 colours, Colour changing based on temperature setting. Dynamic mode: atmospheric colour changes thanks to slow, stepless transition between different colours. When plugging in the charging cable, each state of charge is visualised for approx. 30 seconds, similar to the LED in the charging socket: establishing connection (pulsating yellow), ready to charge (continuous yellow), battery is being charged (pulsating green), battery full (continuous green)	●	●	●
Auto-dimming interior mirror	●	●	●
Door sills	●	–	–
Door sills – illuminated with 'EQA' lettering	–	●	●
Double cupholder	●	●	●
Floor mats – AMG	–	●	●

Genuine accessories

We've developed a range of accessories you can add to help personalise and enhance your EQA.

DUO plus child seat, with ISOFIX

Safe and secure: children between the ages of 9 months and 4 years (weight 9 to 18 kg) will enjoy travelling in the 'DUO plus' child seat from Mercedes-Benz. The seat offers optimum protection in the event of an accident. A quick change of position: sitting, reclining and sleeping positions are adjustable with one simple manoeuvre. (A0009704302)

KIDFIX XP child seat, with ISOFIX

Support and safety for older children too: The KIDFIX XP child seat is suitable for children between the ages of 3.5 to 12 years (body weight of 15–36 kg). It is securely attached to the vehicle using ISOFIX. The front-facing seat can also be secured in place using the 3-point seat belt. (A0009704902)

Coolbox

Be it cool drinks, a picnic or baby food: the thermoelectric refrigerator box cools upon request and is the perfect companion on any day out. Thanks to its extra thick insulation it can cool up to 5°C, but a max. of 20°C under the outside temperature. It fits perfectly into every Mercedes-Benz vehicle and holds 13 litres. (A0008205409)

Floor mats trays, dynamic squares, front, 2 piece

Made from robust, washable TPE material for heavy use. Completely covers the footwell. The higher edges and the surface design keep dirt and water at bay. Branded with the distinctive Mercedes star logo. (A24368086009051)

Door handle recesses, large, 2-piece

High-shine door handle recesses in chrome design. Protect the recess behind the door handle from scratches and offer a high-quality, individual look. (A2057604000)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information

Images shown are for illustration purposes only

Boot tub, shallow

For everyday transport choose the easy-care boot tub. The shape of the tub, with its slightly raised edge, is optimally tailored to the load area. Structured surface prevents the load from sliding around. (A2438140000)

Stowage crate

The robust plastic stowage box creates order in the boot. The box can be divided into two sections using the enclosed rigid dividing element and be combined with the Mercedes-Benz boot tub thanks to the ribbed structure at the bottom. Capacity: 51 litres. (A0008140400)

All the above accessories are subject to availability and compatibility. Please ask your Mercedes-Benz Retailer for more information. Images shown are for illustration purposes only.

¹Figures according to Regulation (EC) No. 595/2009 in the currently applicable version ²Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-100% charge using a wallbox (three-phase) or standard socket (single-phase) ³If you are planning to charge your Mercedes-Benz plug-in electric vehicle using a 3-pin domestic plug socket you must get a qualified electrician to inspect and sign off the socket to confirm it is safe and suitable to charge your vehicle. Do not use an electric vehicle 3-pin charge cable with an extension cord) ⁴Figures shown are for comparability purposes; only compare with other cars tested to the same technical procedures. Figures may not reflect real life driving results, which will depend upon a number of factors including the starting charge of the battery, factory-fitted options, accessories fitted (post registration), variations in weather, driving styles and vehicle load. Further information about the test used to establish range, power consumption and CO₂ figures can be found at <http://www.mercedes-benz.co.uk/WLTP> ⁵Specified voltage and current values refer to network infrastructure and can be limited by the vehicle. Times are from 10-80% charge using public rapid charging at 100 kW

¹Applies to all Mercedes-Benz diesel models which do not comply with RDE (Real Driving Emissions) Step 2 Certified (Euro 6d)

²Premium rate only applicable to vehicles where the list price is over £40,000 including any factory-fitted options, standard UK delivery charge and VAT

Services and insurance

Mercedes-Benz ServiceCare

We believe that servicing costs should be as flexible and affordable as possible for your EQA, which is why we offer ServiceCare, an easy way to budget for all your servicing costs. It spreads your bills into manageable payments based on whether you have a new or used Mercedes-Benz.

With ServiceCare we guarantee the price of parts and labour for up to four services and safeguard against any further inflation.

You can choose either to add your servicing costs into your monthly spend or pay the full amount in a one-off payment, giving you peace of mind that they are taken care of for the period of the plan.

[Click here for more information](#)

Warranty and breakdown cover

Every Mercedes-Benz comes with a three-year unlimited mileage warranty against manufacturing or material defects¹ and up to 30 years warranty against perforation due to corrosion from the inside out.² What's more, it's also covered by Mercedes-Benz Roadside Assistance – a unique package comprising up to 30 years pan-European breakdown assistance.²

Battery Warranty

The battery comes with an eight-year 100,000-mile warranty.

Motor Insurance

We know that once you have chosen your Mercedes-Benz you can't wait to drive it – that's why we created First Cover³. It gives you 7 days' free comprehensive Motor Insurance when you buy a new or used vehicle from a Mercedes-Benz Retailer. We will also send you a quote for annual cover, so you can enjoy the same peace of mind all year round.

[Apply for First Cover](#)

¹Applies to vehicles sold by Mercedes-Benz in the UK to its franchised Retailers

²Subject to full Terms and Conditions, dependent on date of registration, available upon request

³Terms and Conditions apply. We are an independent intermediary dealing with selected insurers in respect of annual insurance

Effective from December 2021 Production. Information correct at time of publication 01.04.2022.

Prices and specifications are subject to change without prior notice.
