

JEEP COMMANDER 2006  
ACCESSORIES

GENUINE JEEP ACCESSORIES **Jeep**

Overseas model shown.

## HAVE ACCESSORIES, WILL TRAVEL

### The Genuine Difference:

Because they're Genuine Jeep Accessories, our Racks and Carriers undergo vigorous testing to ensure exceptional durability and stability. Tests simulating a vehicle crash also help ensure that our racks and carriers will provide you and your cargo with a secure, vibration-free fit — day in and day out.

### OFF-ROAD PACKAGE:

- Rock Rails
- Sport-Utility Bars
- Roof Top Cargo Basket
- Roof Basket Cargo Net
- Navus Dash-Mounted Navigation System

For those who like adventure on a grand scale, Genuine Jeep Accessories fit your philosophy to a tee. With the **Off-Road Package**, you can carry the gear you'll need, so you can live as large as the trails you take. And because you like to rough it, this package also provides your vehicle with protection from its enemies — ranging from wayward tree branches to speeding shopping trolleys.

**Rock Rails** are constructed of heavy-gauge steel that's been designed and tested to help absorb impacts from rocks, providing your Commander with lower bodyside panel protection when you're off-roading. Rock Rails are available in a Black powder-coat finish.

**Sport-Utility Bars** not only add a big, beefy presence to the top of your Commander, they're also extremely functional. Bars attach to the production roof rack side rails and accommodate the Genuine Sports and Cargo Carriers. T-slots allow for quick and convenient carrier installation.

**Roof Top Cargo Basket**\*\* gives you plenty of additional cargo space. Basket attaches to either the **Sport-Utility Bars** (sold separately) or the Production Roof Rack Cross Rails (T-slot adapter sold separately), and features a built-in front air deflector with Jeep logo. **Roof Basket Cargo Net** (sold separately) attaches tightly to the Roof Top Cargo Basket to securely hold your cargo.

\*Cargo is for illustrative purposes only and is not included with the listed accessory. \*\*Properly secure all cargo.

**NAVUS™ DASH-MOUNTED NAVIGATION SYSTEM** is an advanced, yet affordable way to add Global Positioning System (GPS) technology to your vehicle. The Navus full-colour LCD display features touch-screen controls, full-map view with turn-by-turn directional prompts, trip information (including time, compass, vehicle speed and travel log), automatic re-routing, voice instructions and much more. Also included is a 256 MB Compact Flash Memory Card loaded with detailed residential street-level maps and points of interest for all of Australia.

RUGGED GOOD LOOKS ...  
ON AND OFF-ROAD

Genuine Jeep Accessories are constructed of the highest-quality materials — materials tested and proven to help them stand the test of time, meet a more demanding quality standard and deliver optimum performance. For example, our exterior metal accessories undergo the same ElectroCoat paint process as your vehicle for additional protection against rust, wear and corrosion.

Even though your Commander isn't afraid to get down and dirty, you still have a refined side that deserves expression. The **Chrome Accent Package** adds distinctive touches that not only protect, but also enhance an already commanding vehicle. Now you'll look good whether you're on the road or off — and that's a very tough act to follow.

**Chrome Tubular Side Steps** feature 4-inch oval chromed aluminium, with textured stepping surfaces that match rear bumper tread pattern. Step pads feature Jeep logo and mount securely with corrosion-resistant, ElectroCoated steel mounting brackets. No drilling required. (Also available in Black.)

**CHROME ACCENT PACKAGE:**

- Chrome Tubular Side Steps
- Chrome Fuel Filler Door
- Door Entry Guards, Front and Rear

**Chrome Fuel Filler Door** features a special bolt pattern that complements the fender flare patterns on Commander Limited, as well as the shift knob and steering wheel trim levels. Replaces existing fuel filler door.

**Door Entry Guards** protect interior door sills from scratches while adding a nice touch of style. Brushed stainless steel plates feature embossed Commander name on Front Guards. Set of four.

ORGANISE. INDIVIDUALISE. ACCESSORISE.

**Chrome Grille** piles on the good looks, adding extra chrome to your Commander. Grille will not adversely affect engine airflow or impede the opening and closing of the bonnet.

**Moulded Running Boards** can take the pounding you dish out. Skid-resistant diamond-plate step surfaces match the design of the rear bumper scuff plate and help ensure easier entry and exit from first, second, and third row seating. Available in Black.

**Fog Lights\*** help undercut inclement weather and minimise glare. Lights are integrated into the fascia openings and feature production lights and switch.

**Roof Box Cargo Carrier** keeps cargo dry and secure. Tough, locking thermoplastic carrier features quarter-turn installation and gas-cylinder opening system. Attaches to **Sport-Utility Bars** (sold separately) and features the Jeep logo. Available in two sizes.

**Water Sports Carrier<sup>®</sup>** transports kayaks, sailboards or surfboards with flat or curved hulls. Latching, push-button nylon strap attachment holds watercraft securely in place. Attaches to **Sport-Utility Bars** (sold separately).

**Roof-Mount Ski and Snowboard Carrier<sup>®</sup>** helps you get to the slopes in style. The **Six-Pair Ski and Snowboard Carrier** holds up to six pairs of skis or four snowboards, or a combination of the two. Carrier features silver anodised aluminium construction and corrosion-resistant lock covers. Attaches to **Sport-Utility Bars** (sold separately).

**Moulded Cargo Tray<sup>™</sup>** fits in the rear cargo area when third-row seats are in the down position to help protect carpeting. Skid-resistant, thermoplastic tray is available in matching interior colours. Tray features the Jeep logo.

**Folding Cargo Mat<sup>™</sup>** protects your Commander against wear, soil and stains. Durable one-piece design covers entire cargo area when second and third row seats are down. When only the third row is down, mat covers cargo area and protects the back of the second row seats.

**Skid Plates** for the front suspension, transfer case and fuel tank offer heavy-duty protection for these underbody components when covering rough terrain.

**Premium Floor Mats** feature plush nylon carpet. Rubber-nibbed backing with driver's side positive retention helps keep mats in place. Sold in sets of four for front and second rows. One piece third row mats sold separately. Colour matched to vehicle with the Jeep logo.

**Slush Mats** are constructed of heavy vinyl and feature deep grooves to help prevent water, snow and mud from spilling onto the floor. Rubber-nibbed backing with driver's side positive retention helps keep mats in place. Mats are colour matched to vehicle interior and feature the Jeep logo. Sold in sets of four for front and second rows. One piece for the third row sold separately.

**UCONNECT™ HANDS-FREE COMMUNICATION** is an exclusive, voice-activated, hands-free, in-vehicle communication system that utilises a small control pad, microphone and speaker. It helps to encourage safe vehicle operation. UConnect allows you to dial a mobile phone through simple voice commands. In addition, UConnect mutes your radio before receiving or sending a call, allows you to store up to 32 names (four numbers per name) in the system's address book, and is flexible enough for an entire family (up to five phones can be linked to the system). UConnect includes Bluetooth® technology that enables a mobile phone to connect to your vehicle without wires or a docking station. This leading-edge technology will allow you to store a mobile phone anywhere within the vehicle. UConnect is simple to use — you need a Bluetooth Hands-Free Profile mobile phone from a mobile carrier.<sup>1</sup>

Hands-Free Profile mobile phone from a mobile carrier.<sup>1</sup>

**Heavy-Duty Rubber Splash Guards** help protect your Commander's body panels and help deflect gravel, salt and other road debris. Feature the Jeep logo on both front and rear guards. Sold in pairs.

**Moulded Splash Guards** provide excellent protection for the rear fascia and accent the vehicle's styling. Available in front and rear pairs in paintable Black. Rear Guards feature the Jeep logo.

**REAR BACK-UP CAMERA<sup>5</sup>** literally gives you eyes in the back of your head when reversing into a parking space. Putting your vehicle in reverse activates the small, wide-angle camera located in the rear license plate brow. The camera shows a view of what's behind you on the 3½-inch diagonal LCD screen. The screen's adjustable on-screen markers provide points of reference to help you determine an object's distance from

your vehicle as you're reversing toward it. And because the system is seamlessly wired into your vehicle's electrical system, it automatically shuts down three seconds after your vehicle is taken out of reverse.

**Tow Bar<sup>†</sup>** comes as a complete towing solution. Tow bar is rated to a maximum towing capacity of 3,500kgs. Kit includes tow bar, tongue, tow ball and wiring harness.

**17-inch Chrome-Clad Wheels** are machined to match your vehicle's hubs to run true and balance easily for a smooth ride. They also undergo stringent testing to prove their durability and ensure a long-lasting sparkle.

- \* Check state and local regulations for restrictions on installation and use.
- <sup>#</sup> Cargo and sporting equipment is for illustrative purposes only and is not included with the listed accessory.
- <sup>†</sup> Properly secure all cargo.
- <sup>1</sup> You can retain your current mobile carrier and mobile phone number (and one bill) as long as your mobile phone employs Bluetooth Hands-Free Profile version 1.0 or higher.
- <sup>5</sup> Rear Back-up is an aid only, always check entire surroundings before reversing.
- <sup>†</sup> Check Owner's Manual for load capacity and heavy-duty equipment required. Do not exceed rated tow capacity of vehicle as equipped. Towing may require some items not supplied by Jeep.

## THE GENUINE DIFFERENCE

A passion for uncompromising performance and quality is the essence of the Genuine Difference, and it's forged into every part and accessory we make. Every Genuine Jeep Accessory is original equipment, which means that the Jeep Accessories in this catalogue are designed by Jeep engineers — the people who know your Commander better than anyone else.

**Our product is a result of uncompromising standards.** You'll recognise the difference in the tighter tolerances required of original equipment accessories. You'll see it in our materials, which provide a superior finish and an exact vehicle colour match, as well as in the integrated fit that comes from utilising the same computer modelling technology that was used to design your vehicle.

**Our process is an adherence to stricter testing.** You'll appreciate the difference in our rigorous evaluations, from demanding salt bath corrosion tests and impact performance tests to harsh on and off-road durability testing. And you'll discover that Genuine Jeep Accessories are designed so they will not adversely affect your vehicle's original performance specifications, such as engine cooling and proper air bag deployment — a common problem with many aftermarket accessories.

**Our promise is demonstrated in our superior warranty coverage.** When installed on a Jeep Commander that's within the New Vehicle Limited Warranty period, Genuine Jeep Accessories are covered by the unexpired balance of the 3-year/100,000 kilometre New Vehicle Limited Warranty, or a 12-month/20,000 kilometre Basic Limited Warranty, whichever applies to you. And these warranties are serviced by every Jeep dealership in Australia. That's a promise aftermarket brands simply can't make.

Whether you're looking to enhance your Jeep Commander with premium protection, convenience, style or entertainment, choose the Genuine Difference. Just like our accessories, it's a statement — and a standard of excellence — you'll benefit from for years to come.

Important Customer Information: The information contained in this brochure was correct at the time of printing, April 2006. However, DaimlerChrysler Australia/Pacific Pty. Ltd.
