

TRANSIT CAB CHASSIS

Feel the difference

Solid foundation

Everyone wants their business to go places. Making sure it does can have a lot to do with the vehicle you choose.

Transit LWB Crew Cab Chassis shown in Moonlight Silver with aftermarket tray and LWB Single Cab Chassis shown in Frozen White with aftermarket tray.

The Ford Transit line-up makes choosing the right van, cab chassis or bus for your business simple. The Transit range definitely means business with bold exterior styling, diesel power, advanced safety and superior comfort. Left to right: Transit Cab Chassis shown with aftermarket tray, Transit Bus, and Transit Van LWB shown with high roof and optional full partition.

That's why the Ford Transit Cab Chassis is the best candidate for the job. It's engineered from the ground up to get the job done. You can choose from a Single or Crew Cab, each available with a 4,490kg Gross Vehicle Mass extended frame for longer and heavier loads. So no matter how big or small the job is, there's a Transit that'll suit your needs right down to the ground. And with Ford's respected light commercial heritage, you can be sure your Transit will be reliable, hungry for work and able to handle the rigours of daily labour.

The 2.4 litre Duratorq turbo diesel engine on rear-wheel-drive models features advanced high pressure common rail technology to boost performance and efficiency.

Dynamic Stability Control (DSC) helps avoid understeering and oversteering and keeps your vehicle travelling in the intended direction to avoid a potential accident.

Improved working conditions

Spend the best part of your day on the road and not surprisingly, comfort becomes a priority.

The power to deliver.

Running a business can be non-stop day in and day out. That's why you need a vehicle that can keep pace with your demands. The Transit Cab Chassis has all the power you need thanks to its 2.4L 103kW high pressure common rail Duratorq turbo diesel engine. Matched with a 6-speed manual transmission and offering a tireless 375Nm of torque at 2000rpm, this engine is super responsive. What's more, it can keep a lid on your running costs thanks to its excellent fuel economy. Plus, Transit's intelligent Green Shift Indicator highlights the optimum point at which to make an upward gear change, which helps to avoid unnecessary high engine speed, therefore cut fuel costs and reduce CO₂ emissions. And with rear-wheel-drive muscle working for you, you're able to effortlessly handle bigger payloads and tow up to 3,000kg.* When it comes to getting the toughest job done right, the Transit won't let you down.

Safety and security.

In business, there's nothing more precious than you and your cargo. So when it comes to safety, Transit delivers big time. The solid body structure offers end-to-end strength and surrounds you with a protective shell. Inside, a driver's airbag and the ABS with Electronic Brakeforce Distribution are standard across the range. Plus, for added protection the optional Professional Pack includes front passenger airbag, cruise control, and Dynamic Stability Control (DSC) with Traction Control* and Hill Launch Assist. Driver and passenger are further protected by optional front side airbags† that provide increased protection from side impacts in an accident. In terms of vehicle and cargo security, an alarm, engine immobiliser, power door deadlocks and unique security coded keys are standard on every Van and Cab Chassis model. You can see why Transit is a safe bet for you and your business.

The feature-packed interior makes time at the wheel more comfortable. Optional Professional Pack interior shown.

One of the two lidded storage compartments on the dashboard is fitted with a 12-volt power socket so you can discreetly charge a mobile phone away from prying eyes.

The remote central locking key fob incorporates an innovative self charging feature, so it's always ready to use.

Clever ideas include rails in the larger than normal glovebox so you can hang A4 files and storage for two 2-litre bottles.

That's where Transit's car-like interior is making a strong case for better working conditions. Start with the 6-way adjustable driver's seat providing crucial lumbar support. Then add standard features like air-conditioning, CD player with auxiliary audio input for an iPod or MP3 player, remote audio controls mounted on steering column, power front windows and power side mirrors plus optional cruise control with leather wrapped steering wheel* and journeys are bound to be more relaxing. Overall, the cabin has a real feeling of spaciousness and is open to light. It's designed specifically to help you better manage your day with attention to detail, like a tray on the dashboard that provides a useful workspace, a handy carpark pass holder and two 2-litre bottle holders. Combine all this with a more than ample number of storage compartments and it's easy to see why Transit provides the ultimate in functionality and comfort.

*On extended frame models only. †DSC with Traction Control standard on extended frame models. ‡Front side airbags must be specified with optional Professional Pack and single passenger seat. *Only available in optional Professional Pack.

Making your ownership experience even more rewarding.

A great vehicle is just the beginning.

After you've bought your Transit, we support you with a wide range of services that aim to make you one of the most satisfied vehicle owners in Australia. Speak to your Ford Dealer today about how to make the most out of your vehicle ownership experience.

Vancare Roadside Assistance.*

Our commitment to your complete satisfaction plays a major role in everything we do. That is why we provide Ford Vancare Roadside Assistance for all Ford Transit Vans, Cab Chassis and Buses. Wherever and whenever you need emergency roadside assistance, help is available 24 hours a day, 365 days a year. If your vehicle breaks down and cannot be repaired, we will organise to transport your vehicle to the nearest Ford Dealer or approved service centre for repair. Ford Vancare Roadside Assistance is valid for 1 year from the vehicle's first registration.

3 year/100,000km new car warranty.*

For three years or 100,000km, whichever comes first, your Ford is covered against any defects in factory materials or workmanship. This also applies to Genuine Ford Accessories you may have had fitted before you took delivery.

5 year warranty against perforation corrosion.*

It's reassuring to know that the original body of your gleaming new Ford is guaranteed against perforation corrosion for the first five years of its life. If perforation corrosion occurs, we'll fix it for free.

myFord Warranties & Insurance.

When you first turn the key of your brand new Transit you want to do so without a care in the world. Our range of myFord products gives you that extra peace of mind. For more information about myFord Warranties, Insurance and Roadside Assistance visit your participating Ford Dealer for further details on the plans that best suit your needs. Terms, conditions and eligibility criteria apply.
