HONDA
The Power of Dreams

Honda Australia Pty. Ltd. ACN 004 759 611 ABN 66 004 759 611
95 Sharps Road, Tullamarine, Victoria, 3043. Freecall 1800 804 954. honda.com.au/cars

The specifications and major features listed herein are accurate as at the date of printing (November 2010/11 YM). However, Honda Australia Pty. Ltd. reserve the right to change or modify specifications and major features at any time without prior notice. Due to ordering, shipping and freight factors, some colour and model availabilities may vary from time to time. Check with your Honda Dealer for current information on availability. Only Genuine Honda Accessories are made to fit Honda vehicles. The fuel consumption figures quoted in this brochure are based on ADR81/02 test results. You may experience different results depending on driving conditions and the condition of the vehicle. Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the vehicle's owners manual. Please refer to Honda's warranty documentation for exclusions and conditions. Honda Australia Pty. Ltd. recommends careful examination of all official Honda warranty documentation before purchasing. This brochure is printed on 90% recycled paper, 80% post consumer fibre and 20% totally chlorine-free pulp. It is FSC certified mixed source paper which ensures that all virgin pulp is derived from well managed forests and is manufactured by an ISO 14001 certified mill. VTI-L shown on cover. HON8600

A unique combination makes a surprising hybrid

Low emissions

By adjusting power between the electric motor and i-VTEC engine, recharging the battery with regenerated brake energy and turning off the engine when it's idle, the Insight produces even less emissions.

Practicality

Its fold-down rear seats offer up to 584 litres of boot space, so you can pack in a lot of fun. But good times are better shared with friends, so it also comfortably seats five.

Performance

Honda's clever Integrated Motor Assist system (IMA) combines an economical 1.3 litre i-VTEC engine with an electric motor to deliver levels of torque and acceleration you'd normally expect from a larger engine.

Fun to drive

Our unique Eco Assist technology turns good driving into a great game by rewarding you as you become more efficient behind the wheel.

Safety

The Insight was designed with so many safety features, systems and structures that it achieved a 5-star ANCAP safety rating. So you can breathe easy.

Economical

The Insight's ingenious IMA system synchronises the unseen 'goings on' under the hood for maximum efficiency. And the result? It uses 37% less fuel than the average small car!¹

¹Based on the average fuel consumption of all new vehicles in the small car segment. Source: JATO Dynamics, VFACTS: August 2010. VTi model shown.

VTi-L model shown.

A playful hybrid? Now there's a real breath of fresh air

These days, our fragile planet could really use a little help. So there's only one thing to do. Get playful!

The new Honda Insight is a hybrid that's more fun than you'd ever imagine possible. For starters, the Insight's exterior is sleek and stylish with long, free-flowing lines and eye-catching touches like projector beam headlights.

Then there's the drive itself. Zippy, nimble and responsive, it's a performance that will make you forget you're driving a hybrid at all.

Until you look at the dash. It features a display that coaches you to drive more efficiently and scores you on how well you do.

And let's face it, there's nothing more fun than having a little extra spending money, which is where the Insight really shines because it uses 37% less fuel than the average small car*!

The Insight also has all the practicality and flexibility of a hatchback that comfortably seats five.

But that's just a small sample of the Insight's many charms. So read on and get set to smile a whole lot more.

*Based on the average fuel consumption of all new vehicles in the small car segment. Source: JATO Dynamics, VFACTS: August 2010.

Brains and good looks, too!

Who said you can't look good while you're doing good?

Certainly not Honda.

Seriously sleek, the Insight is equally at home on a chic shopping strip as it would be parked outside an organic whole food store.

Strong and lean with a wide track, it has a low, sporty stance.

But as pleasing as the Insight's exterior is, there are always brains behind the beauty.

For example, thanks to its aerodynamic lines, the Insight slips easily through the air, helping with fuel efficiency.

A distinctive front grille stylishly infuses into the headlight clusters and at the same time maximises airflow.

And the split-level rear window brings a sporty edge and also enhances rear visibility.

So thanks to the Insight's combination of smarts and style, you enjoy the best of both worlds.

A beautiful environment

Everything about the Insight's interior has been meticulously designed to create a fun, effortless driving environment.

Plush, comfortable seats put you in a sporty driving position offering excellent visibility.

Sitting perfectly in your line of vision, the Dual Zone dashboard splits information with the speedometer on

top and the Multi-information display below.

On the steering wheel, volume, cruise control and Multi-information display controls are all within easy reach.

Your passengers will be perfectly comfortable, too, because the Insight easily seats five people and features climate control air conditioning.

And the VTi-L also has the added extravagance of a DVD player[†]

So the inside of an Insight is an especially pleasant place to be.

[†]The DVD player is integrated into the satellite navigation system. It will only operate while the vehicle is stationary.

1. Lots of space, to boot

Thanks to some particularly clever thinking, the Insight has loads of room for all your gear as well as your pampered passengers.

That's because the Insight's battery pack is hidden beneath the cargo space, leaving a very impressive 408 litres of room above its practical flat-floor.

And if you fold down the 60/40 split rear seats, suddenly that becomes 584 litres of space.

There's even a concealed compartment beneath the floor for stowing valuable items.

So there's certainly no need to cramp your lifestyle.

2. Reversing camera

The Insight VTI-L is equipped with this nifty camera that helps you keep a lookout for people and objects behind the car, whilst the VTI is equipped with rear park assist as standard.

3. Climate control

Solve your climate issues in a jiffy with this automatic climate control air conditioning system.

4. Audio and cruise controls

Steering wheel-mounted audio and cruise controls put enjoyable driving, quite literally, at your fingertips. (Audio controls shown).

5. Multi-information display

With this futuristic screen you can access instant and average fuel economy, seat belt status, outside temperature and your refuelling distance.

6. Satellite navigation

Whether you're on your home turf or in a strange city, you'll always feel like a local in the VTI-L with satellite navigation. It also features SUNA Live Traffic Updates* to inform you of delays or accidents and suggest alternative routes.

7. USB connectivity

The audio system includes a USB port so whether you have an iPod*, iPhone* or MP3 player, you can enjoy your personalised music wherever you go.

Image 1-6: VTI-L model shown. Image 7: VTI model shown. iPod not included. *iPod® and iPhone® are trademarks of Apple Inc. iPod is integrated through audio display for iPod Nano and iPods from 5th Generation onwards. Older iPod models will only operate through the audio system and firmware updates may be required for audio display compatibility. Please refer to your iPod User Guide for information on iPod firmware updates. *SUNA is a registered trademark of Intelematics Pty. Ltd. Coverage includes Melbourne, Sydney, Brisbane, Gold Coast, Adelaide, Perth and Canberra metropolitan areas. Refer to www.sunatrafic.com.au for full details.

Get better at doing good

What if learning to drive more efficiently was actually fun?

That was the intriguing thought that led Honda's engineers to develop the Insight's Ecological Drive Assist System (Eco Assist, for short).

On every journey, your task becomes to help flowers grow in the Multi-information display by accelerating and braking smoothly and, therefore, using less fuel and creating fewer emissions.

The better you drive, the more your flowers grow and multiply.

At the end of each journey, you're given an ECO score which is then added to your lifetime score.

But don't worry, you'll get a helping hand.

As part of the Eco Assist system, the Insight's speedometer responds to your driving style, glowing green when you're driving smoothly and glowing blue if you're not.

Simple.

There's also an ECON button.

Once pressed, it not only harmonises the engine and transmission for maximum efficiency, it also monitors and adjusts the air conditioning, extends idle-stop time and increases regenerative charging when you brake.

So being good instantly gets a whole lot easier.

IMA: A simply smarter hybrid system

At the heart of the Insight lies Integrated Motor Assist (IMA). Small, light and inexpensive to make, it's Honda's uniquely simple hybrid technology and conserves fuel and energy through four fundamental actions.

Firstly, an electric motor and battery pack assist the Insight's 1.3 litre i-VTEC petrol engine during acceleration.

Then the electric motor takes over at low-speed cruising to rest the engine's cylinders.

Next, energy dispelled by braking recharges the battery pack, so it never needs recharging from an external power supply.

Finally, in optimum conditions, the engine automatically turns itself off whenever the car is idle.

Together, these add up to reduced fuel consumption and improved economy and performance.

The Insight also features a Continuously Variable Transmission (CVT) that flows seamlessly between an infinite number of effective gear ratios and works in tandem with Grade Logic Control to create not only an incredibly smooth drive but fewer emissions and better fuel economy, too.

And what does all this mean?

Put simply, amazing efficiency, but the more numerically minded will be delighted to hear that the Insight uses just 4.6 litres of fuel per 100 kilometres!

But it's more than just eco-friendly. It's driver friendly, too.

IMA gets the most out of every moment to deliver the performance of a larger engine with the economy of a smaller one.

And for more responsive acceleration and greater power, it also provides maximum torque below 3,500 rpm because that's where most everyday driving is done.

And when you put it all together, driving the Insight isn't just a breeze, it's a breath of fresh air.

Different ways to use energy for different situations

Here's how the IMA system shares the workload between the Insight's petrol engine and electric motor to deliver maximum efficiency at every stage of your journey.

Standing Start

The electric motor delivers maximum torque from zero rpm to assist the engine for strong acceleration and reduced fuel consumption.

■ Electric Motor / Battery
■ Petrol Engine

Low Speed Cruising

While cruising at a consistent low speed, the Insight's cylinders close, combustion halts and the electric motor takes over.

Gentle Acceleration/High Speed Cruising

Petrol engine efficiency is relatively high during gentle acceleration and high speed cruising. So the electric motor deactivates to save energy and the engine powers the vehicle alone.

Rapid Acceleration

When the petrol engine is in 'high speed valve timing mode' the electric motor assists to produce high output and powerful acceleration while limiting fuel consumption.

Deceleration

When the car slows, travels downhill or brakes, combustion stops in all four of the Insight's cylinders and the battery charges. The recovered energy is stored until electric motor assistance is required.

Stationary (idle-stop)

In optimum conditions the engine automatically enters 'idle stop mode' to cut fuel consumption and exhaust emissions to zero. An indicator light lets you know that the Insight is running on battery power and despite the engine being off, it's still all systems go. When the brake is released, the petrol engine comes to life, with the assistance of the electric motor.

*The fuel consumption figures quoted in this brochure are based on ADR81/02 combined test results. You may experience different results depending on driving conditions and the condition of the vehicle.

VTi-L model shown.

The Insight looks after you, too

While the Insight is certainly good at conserving fuel, it's even better at preserving you.

Because it's filled with Honda's brilliant safety features.

For instance, there's Electronic Brake-force Distribution (EBD), which works alongside the Insight's Anti-lock Braking System (ABS) to help braking stability and performance and prevent rear-end steering in an emergency.

Vehicle Stability Assist (VSA) with Traction Control automatically combines braking and controlling the engine's

power to regain traction if it detects any wheel-slip.

If you are involved in a crash, the Insight is ready for action with front, side and curtain airbags.

And as part of Honda's G-CON body technology, the Advanced Compatibility Engineering (ACE) body structure is ready for real world challenges. It will absorb the force of a collision and disperse it across the frame and away from you and your passengers.

But that's not all. It also helps minimise the effects of a mismatch if you collide with a different sized vehicle.

All of which has earned the Insight a 5-star ANCAP safety rating - the highest rating possible.

So you can rest easy and enjoy the drive.

Insight VTi

The Insight VTi comes standard with:

POWERTRAIN

- Inline 4 cylinder SOHC 1.3 litre i-VTEC and Integrated Motor Assist (IMA)
- Cruise control
- 'CVT' automatic transmission with Grade Logic Control
- Electronic Power Steering (EPS)
- Steering wheel-mounted paddle shift controls

EXTERIOR

- 15" alloy wheels
- Body coloured bumpers and door handles
- Body coloured power door mirrors
- Halogen headlights
- Rear park assist*

INTERIOR

- AM/FM radio, single CD with MP3 compatibility
- Bluetooth® phone system°
- Cargo blind
- Climate control air conditioning
- Cloth trim
- Eco Assist and ECON button
- Multi-information display
- Passenger seat back pocket
- Tilt and telescopic steering
- USB connectivity
- 60/40 fold down rear seats

SAFETY

- ACE body structure
- Anti-lock Braking System (ABS) with Electronic Brake-force Distribution (EBD)
- Dual front, side and full length curtain SRS airbags
- Front active headrests
- Honda G-Con technology
- Keyless entry and immobiliser
- Security alarm
- Vehicle Stability Assist (VSA) with Traction Control

Insight VTi-L

Features over and above the VTi*:

- 16" alloy wheels
- Auto on/off headlights
- Driver and front passenger seat back pocket
- Door mirror with side indicators
- Front fog lights
- Leather-wrapped steering wheel
- Rain sensing automatic front wipers
- Satellite navigation system with SUNA Live Traffic Updates* integrated Bluetooth® phone system, reversing camera and DVD player‡

Accessories

Tailor the Insight to suit your life and style with these Genuine Honda Accessories that enhance and preserve its inviting design. To find out more about the Insight's accessories simply contact your local dealer or visit www.insight.honda.com.au/accessories

Other accessories include:

- Bonnet protector
- Headlight protectors
- Door visors
- Bootlip protector
- Wheel lock nuts
- Decal set
- Organiser box
- Touch up paint

Rear park assist

Reverse parking becomes a breeze thanks to these sensors that let out a timely beep if you get a little too close to objects (For VTi-L model only).

Luggage area protector tray

Highly practical and highly protective, this sturdy luggage tray will help keep your Insight's boot looking like new.

Roof rack set*

With its versatile roof rack set, you're ready to carry a bike, snowboard or skis safely and conveniently (50kg weight capacity).

Fog light set

As well as looking great, fog lights will improve visibility and safety, especially when the weather takes a turn for the worse (For VTi model only).

Insight VTi model shown fitted with 15" alloy wheels, fog light set and roof rack with 5-row ski and snowboard attachment (skies not included).

Deluxe tailored mat set

Show off and protect your interior with this stylish tailor-made 4-piece mat set.

Door sill garnish set

Small touches can make a big difference, as is the case with these door accents which will enhance and protect your Insight's interior.

Mud guard set

Colour coded mud guards complement the Insight's aerodynamic design and help protect its pristine paintwork from damage. (Front and rear set sold separately).

Alloy wheels

Designed to work perfectly with the Insight's sleek body lines, these sporty alloys really set your Insight apart and are available in 15" for VTi (main picture) and 16" for VTi-L (shown below).

See your Honda Dealer for advice regarding Honda Genuine Accessories. Pictured accessories are all sold separately. All Honda Genuine Accessories installed at the time of retail sale of a new motor vehicle are covered by Honda's 3 Year/100,000km Warranty. If installed after retail sale, they are covered for the remainder of the warranty or a minimum of 12 months - whichever is greater - provided that the accessory is fitted only to the vehicle for which it was intended by Honda Motor Co. *Roof rack set shown with optional bike attachment (sold separately). In the interest of aerodynamics, Honda recommends roof rack set be removed when not in use.

You're never alone in an Insight

Buy an Insight and you'll be amazed at how well you'll be looked after.

The care starts with a three-year/100,000 km warranty, six-year rust perforation warranty and eight-year/unlimited kilometre warranty on the IMA battery.⁵

And for a small extra investment, you can enjoy a huge amount of peace of mind with the Honda Assured Extended Warranty which includes a two year/40,000km warranty and Premium Roadside Assist.*

You'll also have access to HondaONE, our exclusive website that gives you up-to-date service history, vehicle records, maintenance tips and service reminders.

Speaking of servicing, unlike some hybrids, your Insight is fine to be serviced at any Honda dealership.

And by using your Honda dealer, you'll also be sure they'll protect your investment by using Genuine Honda Parts.

So with all these benefits, your Insight will be as pleasurable to own as it is to drive.

Insurance

If you're wanting cover every bit as reliable as your Insight, you really need Honda Motor Vehicle Insurance.

You'll enjoy a range of benefits, including:

- 3 year new replacement if your Honda is a total loss
- Genuine Honda approved parts for the first 5 years
- Lifetime guarantee on authorised repairs.

Approved applicants only. Normal underwriting and excess payment rules apply.⁶

Finance

Whether you're buying a Honda for yourself or a business, Honda Financial Services⁷ has a wide range of flexible finance and leasing options.

So see your Honda Dealer to find a financial solution that suits you as perfectly as your Insight does.

Honda Approved Used Hybrids

Buying a used Honda hybrid from a from a Honda Dealership means you can buy with confidence. Every certified used Honda hybrid receives a two-year warranty extension and roadside assistance. Not to mention Honda Service Subsidy coupons (valued at \$100 per scheduled service for a two year period):⁸ For more information contact your participating Honda Approved Used Car Dealership.

What's next?

As an Insight owner, you're part of a brand that's always doing something new. Because if there's one thing Honda prides itself on, it's always asking, "What's next?"

It was this inventive spirit that led to developing the Insight's brilliantly playful Eco Assist system.

It also produced the new CR-Z, the world's first sports hybrid.

And that's not our first 'world first' either.

There's the FCX Clarity, which is powered by a hydrogen cell and whose only emission is water vapour.

Or the unique C.I.G.S solar cells that produce twice as much energy than they take to make.

Then of course there's ASIMO, the world's most advanced humanoid robot and the incredibly fuel-efficient HondaJet.

And now there's a glimpse of the future with the altogether different U3-X, a personal mobility device that takes you in any direction by simply shifting your weight.

All of these things, which were once dreams, are now realities thanks to Honda.

So what's next?

⁵Honda warranties apply where due care is exercised by the owner and the vehicle is maintained in accordance with the vehicle's owners manual. Please refer to Honda's warranty documentation for exclusions and conditions. * Conditions apply. Refer to Honda Assured Extended Warranty Contract Book for further details. ⁶Honda motor vehicle insurance is issued by GIO General Limited ABN 22 002 861 583 (GIO). Conditions and exclusions apply. Please read the Product Disclosure Statement before making any decision regarding this product and whether it is appropriate to meet your needs. To obtain a copy, please contact Honda on 1300 780 964. Honda dealers are either authorised representatives or insurance distributors of GIO. ⁷Honda Financial Services is a registered business name of Macquarie Leasing Pty Limited ABN 38 002 674 982 (ML) who is the financier of these products. ML is not an authorised deposit-taking institution for the purposes of the Banking Act 1959 (Cth), and ML's obligations do not represent deposits or other liabilities of Macquarie Bank Limited ABN 46 008 583 542. Macquarie Bank Limited does not guarantee or otherwise provide assurance in respect of the obligations of ML. ⁸Offer valid at participating Honda Approved Used Car dealerships only. Used Honda hybrid vehicle must have passed a 100 point inspection check, be less than 5 years old and under 125,000kms.
