SUBARU DNA™

ALL 4 THE PERFORMANCE. THE SAFETY. THE RETAINED VALUE

Our DNA is what makes every Subaru a Subaru. It's our constant focus on Performance, Safety and protecting the Retained Value of your Subaru that makes Subaru distinct from any other car brand. Our DNA delivers you, the Driver, the confidence to exploit your Freedom everyday.

POISED PERFORMANCE

Subaru has long been highly regarded for its performance technologies. From the rally circuit to the highway, Subaru's engineering and driving characteristics are focused on delivering a driving experience unlike any other, handling all road and weather conditions with ease, control and comfort.

→ SYMMETRICAL ALL-WHEEL DRIVE

Delivers outstanding grip, balance and control in a variety of road conditions when combined with Subaru's horizontally-opposed Boxer engine technology and a symmetrical drivetrain.

→ HORIZONTALLY-OPPOSED BOXER ENGINE

Ensures smooth power delivery, with less vibration and its low centre of gravity gives optimum balance and control to you, the Driver.

SUPERIOR SAFETY

Impressive safety credentials have earned Subaru the maximum five-star ANCAP occupant safety rating, plus freedom from worry for you, thanks to Subaru's -

→ VEHICLE DYNAMICS CONTROL SYSTEM

→ RING-SHAPED PASSENGER SAFETY CELL

→ DUAL FRONT, DUAL FRONT SIDE, CURTAIN AND DRIVER'S KNEE AIRBAGS

→ ABS, EBD AND 4-WHEEL DISC BRAKES

RETAINED VALUE

Freedom comes from knowing that you've made a great investment. Every Subaru comes into the world as the best car it can be, and then we help you to keep it that way. We promise to protect your freedom by looking after the performance, safety and the retained value of your vehicle. With our dedicated Subaru Service Centres and microscopic **DataDotDNA®** theft protection, your car is in good hands for many years to come.

ALL OF THIS ADDS UP TO A GREATER EXPERIENCE FOR YOU –
THE LIBERTY DRIVER. SUBARU. ALL 4 THE DRIVER.™

THE OPEN ROAD NEVER CLOSES

REMEMBER WHEN THE OPEN ROAD WAS FILLED WITH
ENDLESS POSSIBILITIES? WHEN OBLIGATIONS AND
COMMITMENTS WERE YET TO ENTER YOUR WORLD. A
TIME WHEN FREEDOM MEANT A FULL TANK OF PETROL
AND A FEW CLOTHES THROWN INTO A BAG. REMEMBER
WHEN DRIVING WAS EXCITING? SIT INSIDE THE LIBERTY
AND LET THAT FEELING COME FLOODING BACK.

MODEL SHOWN: Liberty 2.5X

Contemporary style and quality design come together in the Liberty sedan. Its bold appearance is enhanced by flared wheel arches, sporty side spoilers, eye-catching alloy wheels, sporty tail pipe cover and a deeply sculpted bonnet. While the rear doors with privacy glass let you make your escape incognito.

Luxurious to ride in and exhilarating to drive, the Liberty delivers a performance that boasts all the hallmarks of superior Subaru engineering. And because everyone has a different perception of the perfect drive, we designed not one – but four different sedans to choose from. The very rewarding Liberty 2.5i range, the exciting Liberty 2.5X, the turbocharged Liberty 2.5 GT Premium and the luxurious Liberty 3.6X.

- PADDLE GEAR SHIFT ON STEERING COLUMN (CVT AND AUTOMATIC MODELS).
- SUBARU INTELLIGENT DRIVE (SI-DRIVE) LETS YOU CHOOSE YOUR DRIVING MODE - LIBERTY 2.5 GT PREMIUM AND LIBERTY 3.6X.

MODEL SHOWN: Liberty 2.5i Premium

To drive Liberty is to rediscover the joy of driving and understand why the open road never closes. The confidence comes from Subaru's superior driving technologies, which deliver a balanced drive and solid footing in a range of conditions.

- The Liberty 2.5i, Liberty 2.5i Premium and Liberty 2.5X models feature Lineartronic™ Continuously Variable Transmission (CVT) which delivers seamless gear changes and an instant response, via a transmission lever or steering wheel mounted paddle gear shifters. CVT is also designed to provide enhanced fuel economy and reduce emissions.
- Liberty 2.5 GT Premium features a six-speed manual transmission that is smooth and sharp for the ultimate sporty drive.
- Liberty 2.5 GT Premium and Liberty 3.6X models feature a five-speed automatic transmission that can be driven in full automatic mode or manual mode. They also feature Subaru Intelligent Drive (SI-DRIVE) – which regulates key engine functions to offer three distinctive driving modes in the one car. Intelligent (I) mode for everyday, Sport (S) mode for enhanced acceleration and all-round sporty performance and Sport Sharp (S#) mode for a thrilling drive.

MODEL SHOWN: Liberty 2.5 GT Premium

- Compact horizontally-opposed Boxer engine.
- Liberty 2.5i, Liberty 2.5i Premium and Liberty 2.5X with four-cylinder DOHC petrol engine with Active Valve Control System.
- Liberty 2.5 GT Premium turbocharged four-cylinder DOHC petrol engine with Dual Active Valve Control System.
- Liberty 3.6X (sedan only) six-cylinder DOHC petrol engine with Dual Active Valve Control System.
- Electronic Throttle Control (ETC).

Consistent across the Liberty range is the famous Subaru Boxer engine that has been designed to sit lower and flatter in the engine bay than traditional engines. Due to this unique positioning it delivers less noise and vibration to the cabin, while the lowered centre of gravity improves stability, cornering and traction with the road. Coupled with the Liberty's symmetrical drivetrain, this configuration delivers superior handling confidence, better balance, smoothness and ultimately, outstanding driver enjoyment.

The intelligent drive systems incorporated into the Liberty include ETC which seamlessly translates commands from the driver's right foot to automatically select the optimum throttle position for an effortless performance. The ETC system also considers the environment, optimising exhaust gas emissions and fuel economy.

Each engine in the Liberty range has also been finely tuned to deliver optimum fuel economy, power and torque.

CONFIDENCE UNDER ALL CONDITIONS

The sign of a true performer, is good balance. And when it comes to driving a Subaru, superior balance equals superior vehicle control. That's why Subaru has built its reputation on its Symmetrical All-Wheel Drive (SAWD) system and a symmetrical drivetrain that delivers an innate sense of balance from the ground up.

SAWD delivers engine power to all four wheels simultaneously. Having power distributed across all four wheels, rather than two on conventional vehicles, gives you twice the grip capacity. So under acceleration there's more grip for cornering and more capacity to keep on track through the corners. Ultimately, having the driving force spread across all four wheels means greater control and confidence.

The traction and control delivered by SAWD is further enhanced by the Liberty's suspension. The wide track rigid front suspension produces more responsive steering and cornering, while the double wishbone rear suspension ensures a smooth, controlled ride with outstanding handling, comfort and quietness.

For you, the driver, it all adds up to an agile and responsive vehicle with optimum balance, control and confidence in a variety of driving conditions.

TECHNOLOGIES AT SUBARU.COM.AU

CRUNCH TIME

Because you never know what's around the corner, Subaru have made safety an integral part of every vehicle. By incorporating the very latest safety technology, every vehicle in the Subaru range proudly carries the maximum five-star ANCAP* crashworthiness rating for occupant safety. The ring-shaped passenger cell is made from high-tensile strength steel, which directs impact energy around the passenger compartment, not through it.

Thanks to Subaru's electronic driver assist system, called Vehicle Dynamics Control (VDC), a range of stability and braking technologies step in to maintain safety in extreme situations. By automatically acting on information transmitted from a sophisticated array of sensors, the factors influencing the Liberty's stability are constantly monitored to help the driver stay in control.

Subaru Vehicle Dynamics Control incorporates:

- Electronic Stability Control (ESC).
- Traction Control System (TCS).
- TCS Limited Slip Device (LSD).
- Anti-lock Braking System (ABS).
- Electronic Brakeforce Distribution (EBD).
- Brake Assist.

Active safety features on the Liberty are complemented by an optimum blend of passive safety, designed to enhance driver and passenger protection:

- The Boxer engine sits low in the engine bay to help protect occupants by sliding below the cabin - not into it - in the event of a severe frontal collision.
- Ring-shaped passenger safety cell combines rigid reinforced sections with crumple zones designed to absorb impact energy and reduce injury.
- Seven SRS airbags - dual front, dual front side, curtain and driver's knee airbags.
- Front seatbelts feature pretensioners and load limiters.
- Automatic Emergency Locking Retractors on all rear seatbelts.
- Height adjustable headrests throughout the cabin.
- Rear view reverse camera.

EYE SPY

*YOU CATCH A FLEETING VISION IN YOUR MIND'S EYE.
IS IT INTUITION? A PREMONITION? OR IS IT
SUBARU EYESIGHT™ - DRIVER ASSIST TECHNOLOGY
DESIGNED TO ACT LIKE A SECOND PAIR OF EYES.*

EYESIGHT™ - DRIVER ASSISTANCE VISION

AVAILABLE ON LIBERTY 2.5i PREMIUM, LIBERTY 2.5X, LIBERTY 2.5 GT PREMIUM (AUTO) AND LIBERTY 3.6X ONLY.

Subaru's renowned technologies now include a new 'driver assist system' called EyeSight™. EyeSight™ is a second pair of eyes that monitors the road ahead and recognises potentially dangerous driving situations. Using three-dimensional images captured by cameras mounted at the top of the front windscreen, EyeSight™ provides audible and visual warnings to prompt the driver to take action. Apart from these built-in driver alert functions, EyeSight™ will also apply automatic braking intervention, when necessary, to help avoid or reduce the severity of a detected frontal collision.

EyeSight™ driver assist features include:

- Pre-Collision Braking provides automatic braking to help avoid or reduce the severity of detected frontal accident impacts. Should the driver be distracted, or just not register the risk of a collision, braking will be automatically applied when a potential frontal collision is recognised by EyeSight™.
- Pre-Collision Brake Assist recognises a potential frontal impact, alerts the driver and assists the driver by applying full braking force in a detected emergency-braking situation.
- Pre-Collision Throttle Management reduces available acceleration in situations where the system detects objects in front of the vehicle which the vehicle is likely to impact. The engine output is restricted to reduce the possible impact force and frontal impact damage, and to help prevent injury should the driver mistakenly accelerate when an object directly in front of the car is recognised by EyeSight™.
- Adaptive Cruise Control maintains the speed set by the driver, but also regulates the vehicle's speed in order to maintain a set distance from the car in front. The driver can select from three different distances, based on time and speed, and then the EyeSight™ system will automatically use braking and monitoring technologies to regulate the vehicle's speed in line with the traffic flow.
- Lane Sway and Departure Warning monitors the vehicle's position within the road lane markings and sounds a warning to the driver when it recognises the potential for the vehicle to unintentionally move out of its lane, or when swaying within the lane, is recognised by EyeSight™.
- Lead Vehicle Start Alert prompts the driver that the vehicle in front is moving away, after being stopped. This effectively alerts the driver, if their vehicle does not start moving, that the traffic ahead is moving again.

EyeSight™ works with Subaru's acclaimed collision avoidance and collision protection technologies, working together to provide improved protection for you and your family.

While EyeSight™ can assist drivers in avoiding or reducing the severity of a detected frontal collision, there is naturally no substitute for driver vigilance, awareness and responsibility. EyeSight™ will see and recognise most objects within its field of vision, however its accuracy may be affected by external conditions and it should not be relied on to detect every potential road traffic hazard.

TO SEE HOW EYESIGHT™ WORKS, VISIT SUBARU.COM.AU TO WATCH THE VIDEO DEMONSTRATIONS. OR FOR ALL THE FINE DETAIL, PLEASE REFER TO THE OWNER'S MANUAL.

SUBARU GENUINE SERVICE

Entrust your Subaru only to those who know it best. They are the Subaru technicians who are passionate about maintaining your freedom and who train year after year until they know your vehicle inside out. Using specialist diagnostic equipment and Subaru Genuine Parts, they are committed to keeping your Subaru **performing** at its best. Delivering freedom from worry, while ensuring the **safety** of your family and the long-term **retained value** of your vehicle.

SUBARU NEW CAR WARRANTY - THREE YEARS / UNLIMITED KILOMETRES

Whether you're off the beaten track or cruising the open highway, you can rest assured knowing that your new Subaru is covered by a three year unlimited kilometre manufacturer's national warranty. That's three full years of worry free driving! For full details and our latest new car warranty information, visit subaru.com.au/service/warranty

But why stop there, when you're sure to have your Subaru for much longer? Protect your investment by purchasing an additional two year Subaru Assured New Vehicle Warranty. Ask your Subaru Retailer for more information.

SUBARU ASSURED USED VEHICLES

Owning a Subaru that has already traversed highways and byways is like travelling with an old friend. Every Subaru Assured Used Vehicle has passed a 116-point quality inspection and comes with a one year unlimited kilometre Subaru Assured Warranty - to complement the balance of a new vehicle warranty or the statutory warranty that remains - from participating Subaru Assured Retailers.

SUBARU PREFERRED COLLISION REPAIRER NETWORK

When you take the road less travelled, you're going to get wet and you're going to get dirty. But should you put a dent in your freedom, there is a dedicated Subaru Preferred Collision Repairer helpline available on 1800 737 179, 24-hours a day, seven days a week. Plus the national network of appointed Subaru Preferred Collision Repairers, can return your Subaru to its former glory.

DATADOT^{DNA}

Every Subaru is fitted with advanced engine immobilisers and DATADOT^{DNA} technology. Approximately 7,000 microscopic dots are laser-etched with your vehicle's unique Vehicle Identification Number - making your Subaru a much less attractive target for potential thieves. In fact, provided you meet certain terms and conditions (such as a requirement that the vehicle is properly registered and comprehensively insured at the time of theft) DATADOT^{DNA} will even pay your insurance excess (up to a maximum of \$800 incl GST) should your new Subaru be stolen in the first year of ownership and the vehicle is not recovered despite the presence of DATADOT^{DNA} and warning labels¹.

1. Claims must be received from the vehicle's registered owner within 45 days of the theft accompanied by a police report in relation to the theft and proof that the insurer has fully paid out the claim.

SUBARU FINANCE

Relax with Subaru Finance and enjoy your freedom faster with our range of personalised and affordable financial solutions to approved customers. Our finance specialists will help you find a finance package that is tailored to your individual needs - quickly and conveniently. So let Subaru Finance do the work for you, it's what we do best.

SUBARU INSURANCE

Freedom is limitless. So why keep your car in the garage? Explore your freedom, but also protect it. There is a range of Subaru Insurance options that offer features and benefits to complement your Subaru, including:
→ Subaru Comprehensive Motor Vehicle Insurance
→ Subaru Motor Equity Insurance
→ Subaru Loan Protection Insurance
