

BREAK  THROUGH™

Cadillac Seville SLS shown in Blue Chip with optional equipment.

SEVILLE

Simple, bold strokes state the theme: Cadillac® Seville® is about power and technology. The careful balance of strength with grace. What's more, the Northstar® engine control system actually integrates the functions of the vehicle's ABS, all-speed Traction Control, active suspension, advanced stability enhancement system and speed-sensitive steering. This array of advanced driving technology provides impressive control, ride and handling, leaving you free to focus on sheer exhilaration. Amid fine leather and selected woods, Seville creates a pulse-quickening driving experience.
