CLASSICS

HITS **TOYOTA**

Like all truly great classical hits there is a timeless elegance about these graceful automobiles. Cressida is crafted in the great tradition of the classic touring saloon, with elegant appointments, silent responsive power, and a price tag half that of equivalent European machines. The power, which has to be experienced to be appreciated, comes from a superb three litre, 24 valve, six cylinder engine.

Inside, Cressida is unashamedly plush. The cockpit has a very custom-made feel about it, enhanced by the perfectly proportioned fittings and the almost total lack of engine wind and road noise.

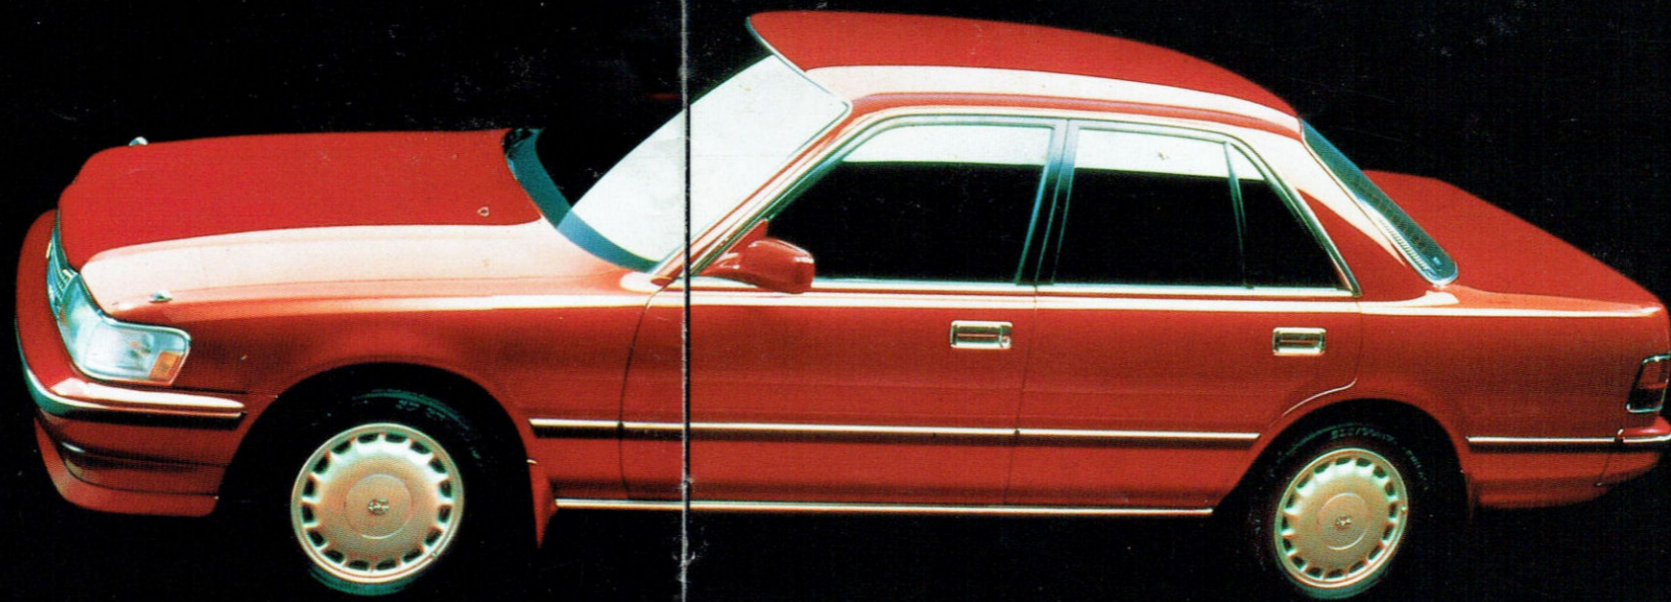

A learned Motoring Writer once called Toyota Camry V6 a "Wolf in Sheep's clothing". At first glance it's a sleek family touring machine. The interior is packed with creature comforts, creating a somewhat self-indulgent ambience. Beneath the bonnet lurks a 24 valve, 2.5 litre Quad Cam V6 engine, that offers seemingly unlimited reserves of power and torque.

Leading motoring authorities have hailed the Quad Cam V6 engine as one of the best in the world.

For those who seek something other than a wolf, check out the Camry Ultima, CsX, Cs, Executive and SE.

Like Cressida, a test drive is yours for the asking.

These three sports super-cars are guaranteed show stoppers where ever they appear.

Toyota Supra is one of the world's most exhilarating and technically advanced Grand Touring cars. The top of the range has a 3 litre, 24 valve, turbo-charged power plant, with air-cooled intercooler. A 24 valve 3000Si engine, without Turbo-charger is also available. The whole Supra driving experience is one of luxury and unlimited power.

Toyota's MR2 is the ultimate Hi-Tech Hi-Style pocket rocket, designed to get two people from A to B as quickly and stylishly as is possible. Its midships 16 valve engine is acclaimed as one of the world's most advanced. It truly drives like nothing else on the road.

The Toyota Celica is smooth, swift, sporty and very, very smart. The top of the range Celica SX liftback is powered by a state of the art 2 litre Twin Cam engine with 4 valves per cylinder and electronic fuel injection. The handling is beautifully controlled thanks to fully independent suspension, gas shock absorbers and 4 wheel disc brakes.

See your Toyota dealer for a test play of these Red Hot Hits.

HITS TOYOTA

WORLD WIDE HITS

With over fourteen million sales in 130 countries around the world, Toyota Corolla has proved itself The World's Most Wanted Car. Corolla represents the new age in automotive thinking.

Slippery aerodynamic body shapes, the product of thousands of

hours of wind tunnel testing, and Computer Generated Lines. A choice of four of the most advanced Twin Cam, Multi-Valve engines ever developed, and that's saying something considering Toyota's acknowledged world leadership in Multi-Valve technology.

The elegant new Toyota Seca, with its eye-catching style, and head snapping performance.

The Corolla sedan with combination of sleek looks and all-round safety.

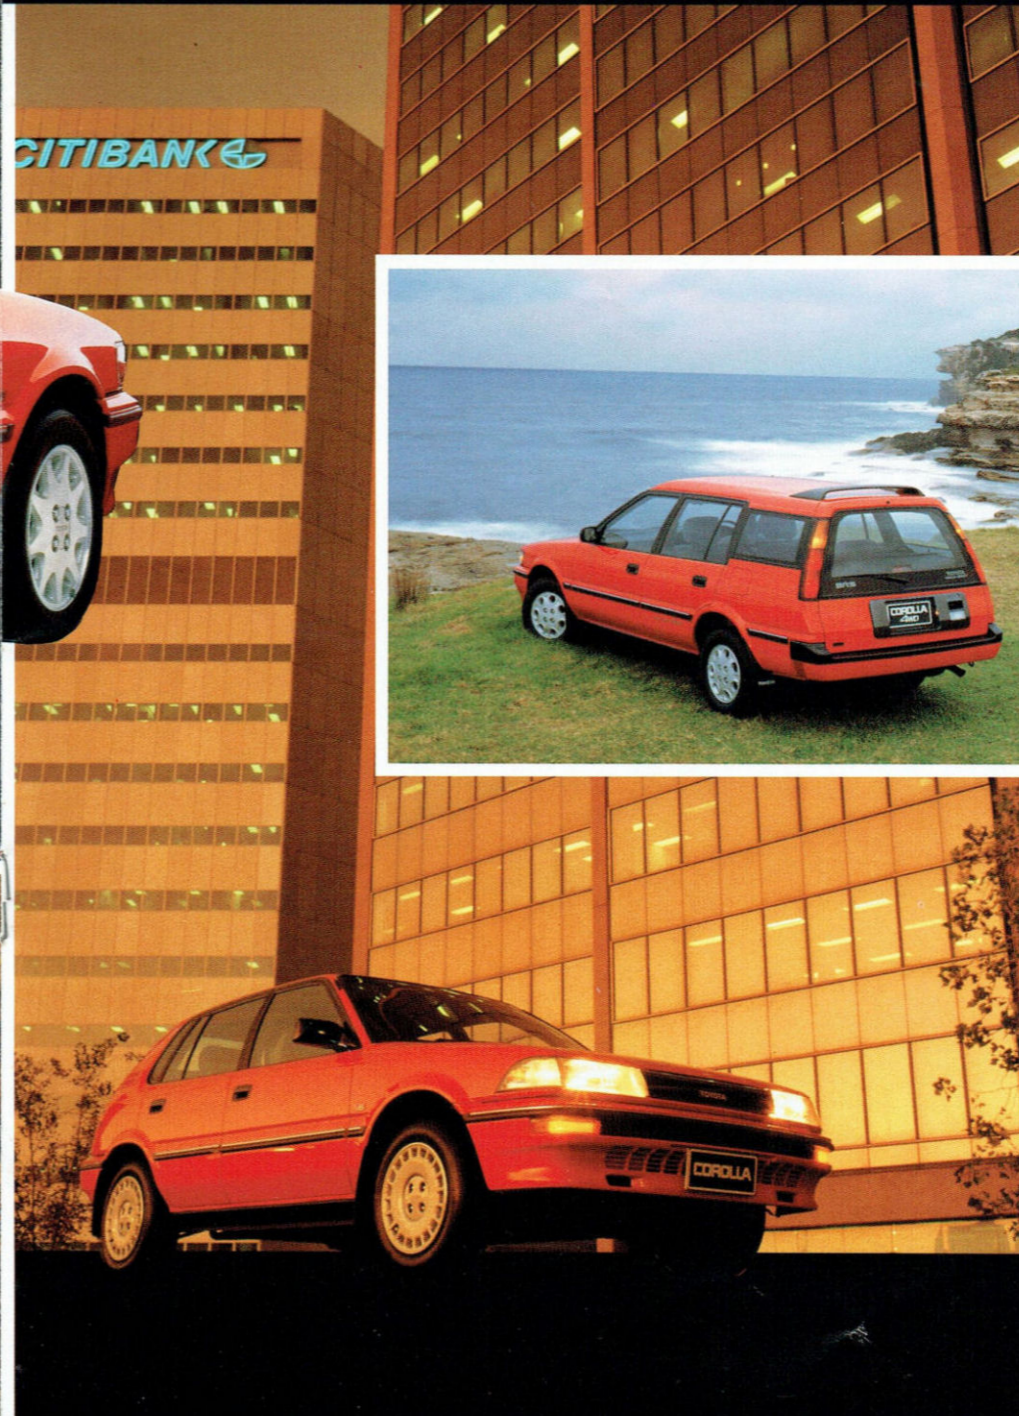

The 4WD Corolla Wagon when you need that all wheel driveability.

The Hot Corolla Hatch, with its Twin-Cam Multi-Valve technology.

There are 38 different combinations available. You could say Corolla has something for everyone.

Make your choice at your Toyota Dealer.

Oh

TOYOTA

WORLD

With over fourteen years of experience in 130 countries around the world, the Toyota Corolla is the World's Most Reliable Car. It's a proven motivator for success.

Country & Western

Oh
What
Feelings!
TOYOTA

Australia's longest running Country & Western hits have become part of Australian folklore.

Toyota Landcruiser's reputation is legendary. Since its introduction on the Snowy Mountains Hydro-Electric Scheme, the name Landcruiser has come to stand for toughness, reliability and unchallenged off-road performance. From the

deserts of the outback, to the stony hill country, to the wetlands, to the endless sandy beaches. If your life depends on your ability to get there . . . and back, you'll choose a Landcruiser.

Now Landcruiser's new combination of softer springs and double acting gas pressurised shock absorbers has produced a more

supple progressive suspension with longer wheel travel and increased stability.

Test Drive the new Landcruiser Wagon GXL, the best value 4WD on the Australian market, loaded with extras like front bucket seats, electric windows, wider rims and tyres, flares, and many other factory-fitted options.

Toyota Hilux has always been called unbreakable, and for good reason. Now the new Hilux, styled using Computer Aided Design is actually stronger, as well as being more stylish. Off Road the 4x4's, On Road the 4x2's, however hard you use it the Hilux just keeps rolling.

Toyota 4Runner is the off-road sports car. A high-tech masterpiece

of a four wheel drive, that's equally at home cruising the city or bashing the bush. It's really 4 vehicles in one. A smart safe city transport. A tough dependable off roader, a rugged workhorse with over 2 cubic metres of load space, and, with its canopy off, a wind-in-your-hair sports car.

Test them today.

SPACE - THEMES

These popular Toyota Space Vehicles for the family and small businessman have proven themselves in every capacity.

Toyota's Frontal Collision Protection System based on a double Y frame chassis and impact absorbing front bumper, made Liteace and Tarago the only vehicles of their type to pass the 1985 Federal Government conducted Barrier Crash Test.

The Liteace wagons with their economical 1.8 litre petrol engines fit up to eight adults in comfort. The rear seats fold aside for extra load space, or all seats fold flat to make a huge full length bed. There's a choice of sporty 5 speed manual, or 4 speed automatic

transmissions.

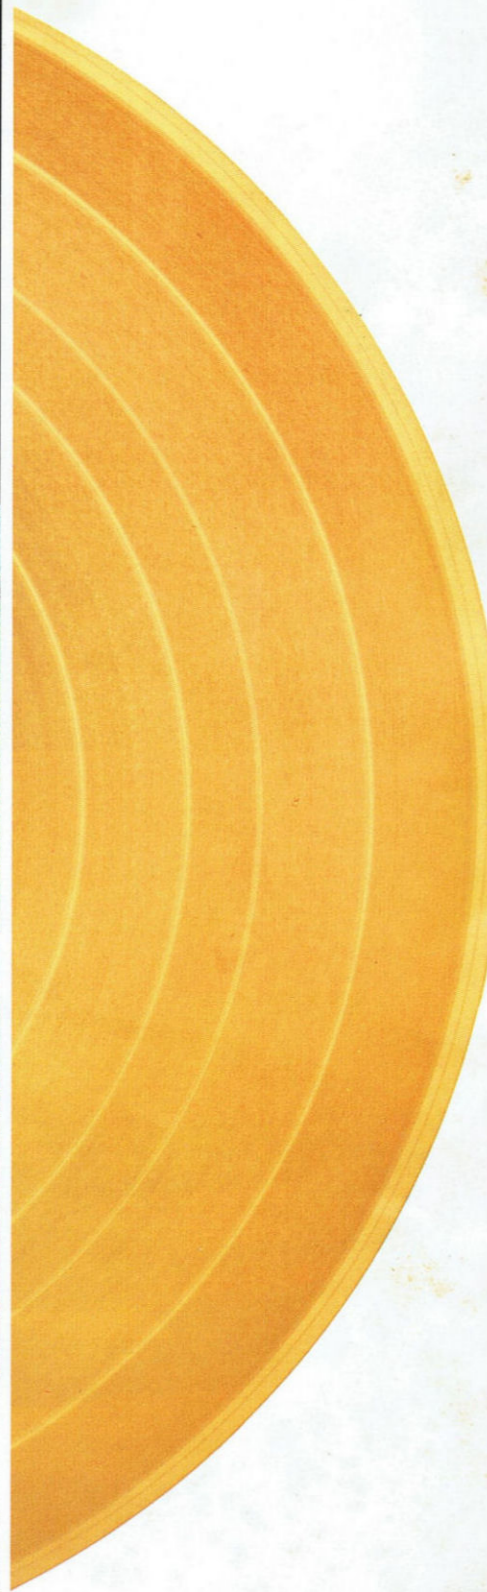

Tarago is a stylish spacious wagon that comes in a whole range of options from sheer luxury to absolute luxury. There's a powerful 2.0 litre, or Super Responsive 2.2 litre fuel injected model. There's the Xtra Trak all wheel drive option and a choice of 5 speed manual or 4 speed overdrive automatic transmissions.

The Toyota Hiace is Australia's most popular One Tonne Van. Standard or long wheelbase, petrol or diesel, Vanwagon or Commuter Bus, the range is fantastic.

Toyota Dyna is Australia's most popular and versatile range of trucks in the 2-4 tonne category.

See them at your Toyota Dealer.

ROCKING AUSTRALIA

Everything about new Toyota Lexcen is big. The car is named as a tribute to Australia's most loved and successful sporting designer. The legendary Ben Lexcen.

The V6 engine is big. A 3.8 litre multi-point fuel-injected power plant that actually produces more power than some old fashioned carburettor V8's. Inside and out the car is big. It's long and wide on a

long wheelbase. This means more room inside for the driver and passengers. More hip room, more leg room, more head room, more shoulder room. Lexcen is a very comfortable car.

The interior is luxurious with every appointment up to the standard that Toyota owners have come to expect. The boot can only be described as capacious. It's long,

wide and deep enough to cope easily with a full load of passengers luggage.

Lexcen's on road performance will surprise you. The combination of Radial tuned suspension, direct acting front stabiliser bar and four wheel disc brakes makes driving what it's supposed to be . . . a pleasure.
