

2015 RAM PICKUPS

RAM 1500 | RAM HEAVY DUTY 2500/3500

STRENGTH.

The 2015 family of Ram pickups benchmark their classes, with phenomenal strength for towing and hauling, exceptional fuel-efficient performance, impressive comfort — all backed by stunning powertrain choices and interiors that separate Ram from the rest.

Technically, Ram stands apart. Credit available powerhouses like the 3.0-liter EcoDiesel V6 for Ram 1500 and the formidable 6.4-liter HEMI® V8 for Ram Heavy Duty. Add groundbreaking standard suspensions, and then factor in the available suspensions — Active-Level™ Four-Corner Air Suspension System for Ram 1500 and Auto-Level™ Rear Air Suspension System for the Heavy Duty models. Both improve control and handling when trailering, and add invaluable peace of mind.

Ram delivers comfort, connectivity and a wealth of best-in-class attributes that let you do work and life with confidence. This is the year of Ram. Get more at RAMTRUCKS.COM

¹¹The Advanced Front Air Bags in this vehicle are certified to the new U.S. federal regulations for advanced air bags. Children 12 years old and younger should always ride buckled up in a rear seat. Infants in rear-facing child restraints should never ride in the front seat of a vehicle with a passenger front air bag. All occupants should always wear their lap and shoulder belts properly. ¹²No system, no matter how sophisticated, can repeal the laws of physics or overcome careless driving actions. Performance is limited by available traction, which snow, ice and other conditions can affect. When the ESC warning lamp flashes, the driver needs to use less throttle and adapt speed and driving behavior to prevailing road conditions. Always drive carefully, consistent with conditions. Always wear your seat belt. ¹³Always look before proceeding; electronic drive aid is not a substitute for conscientious driving. Always be aware of your surroundings. ¹⁴Transferable.
