WAGON

MITSUBISHI

## Technology for people.

Welcome to contemporary Mitsubishi. Man and sophisticated machine in total harmony to enrich the human spirit.

Joy. Pride. Excitement. Confidence. At Mitsubishi, we believe a superbly crafted vehicle should evoke those very human emotions as it delights your senses. And we marshal all our diverse skills in that service.

Mitsubishi Motors of Japan has been advancing automotive science since 1917, building more than

70 years of innovative technology into the design of every Mitsubishi—and now ranking among the world's ten largest automotive companies.

Drawing on the disciplines of more than 100 companies wearing the 3-diamond trademark, Mitsubishi has also built a reputation for quality, reliability, and performance. It's this combination of wide-ranging skills that makes Mitsubishi, Suddenly, The Obvious Choice.™

## 1989 Wagon. It's practically family.

Smart. Versatile. Comfortable. And incredibly spacious. Mitsubishi's Wagon is a transportation wonder, accommodating a carpool of passengers or a load of cargo with equal ease. In fact, no other Japanese passenger van matches the Wagon for total cargo room\* or payload.

The Wagon's streamlined, clean exterior graces the road. All aboard ride tall and handsome, high above the traffic in quiet comfort.

Do you have more family than

the average automobile can handle? The Wagon welcomes seven adults or enough kids for most of a little league team.

Does the frequent transportation of large inanimate objects necessitate more space than a trunk? The Wagon obliges.

Looking to get away from it all yet carry all the comforts of home with you? Look no further.

1989 Wagon: The practically perfect addition to anyone's family.

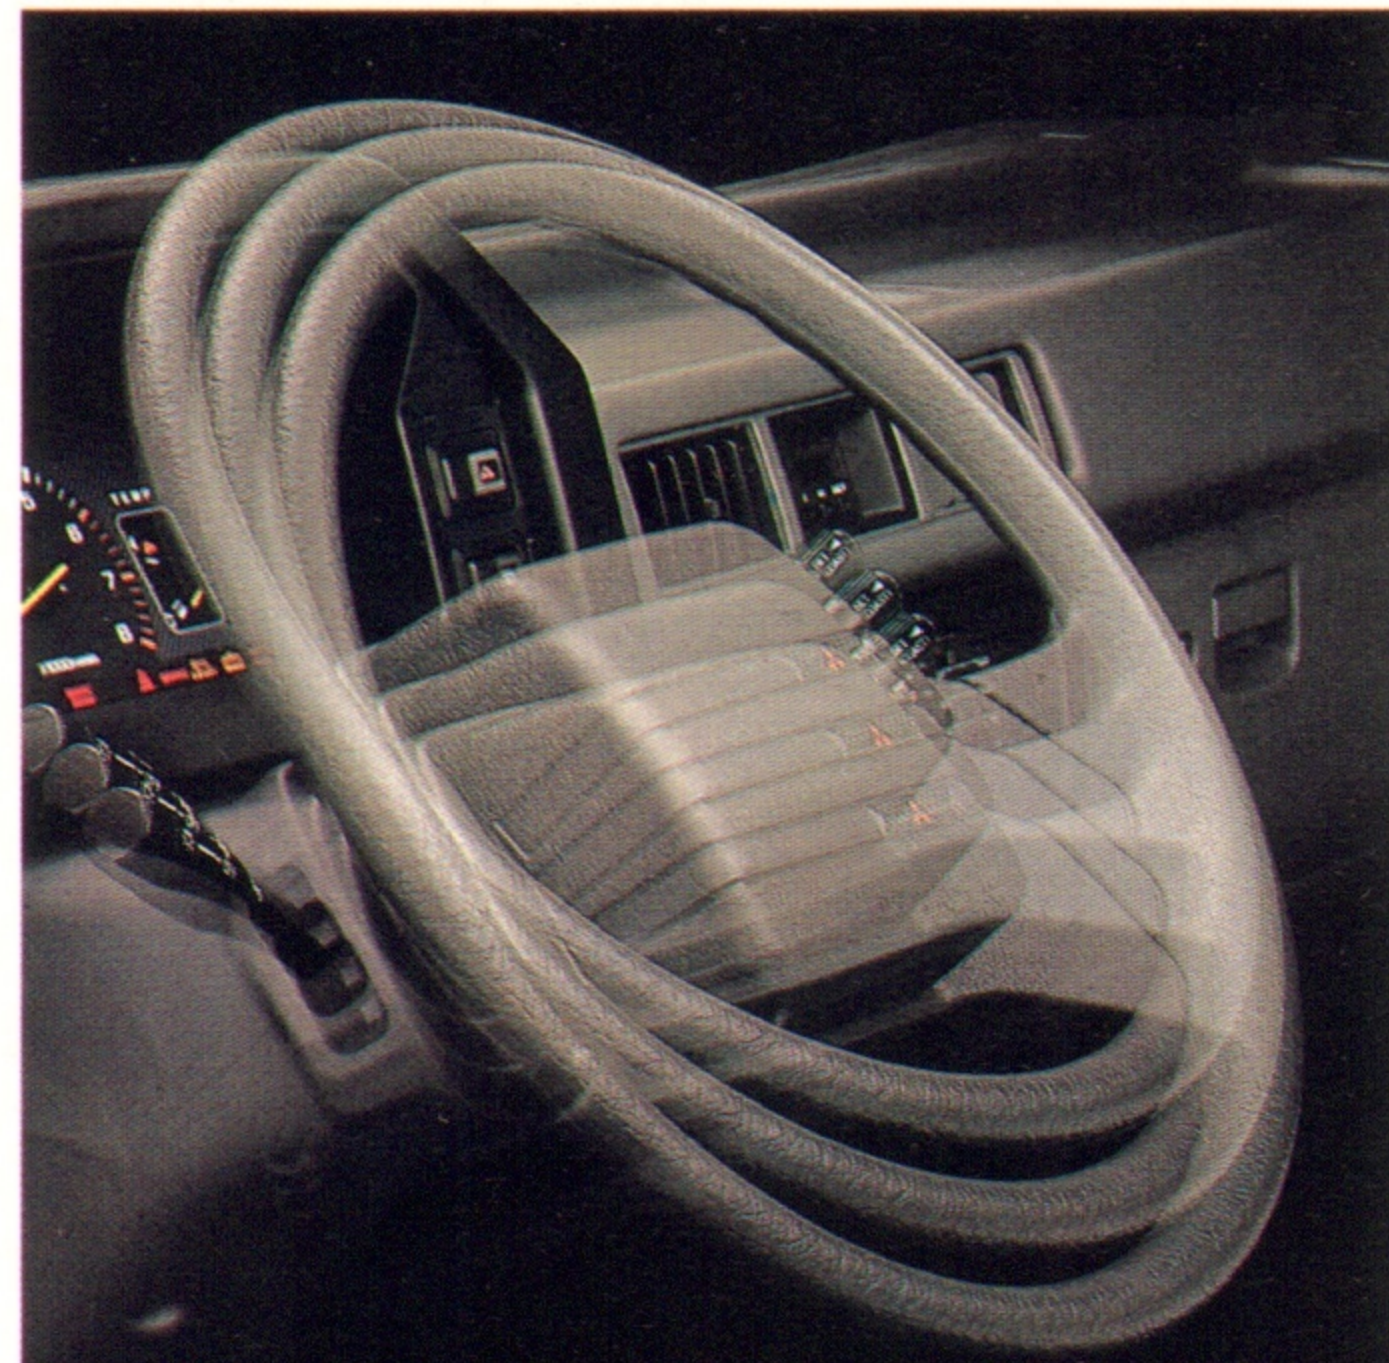

\*Based on EPA Cargo Volume Index.

## Completely furnished living room.

Settle into the driver's large bucket seat. Adjust the lumbar support and seat back for a relaxing ride. Tilt the steering wheel to suit your driving comfort zone. You're at the helm of a versatile, comfortable people-mover.

Large gauges and a bank of warning lights keep you fully informed. Control stalks on either side of the wheel operate headlamps, variable intermittent wiper/washer and turn signals.

Inches away, buttons, switches and knobs for the dual bi-level heating/ventilation system, available air conditioning and audio system await your pleasure.

Three rows of cushioned velour seats welcome your passengers. Investigate the multiple seat positions. Center seat captain's chairs swivel 360 degrees, recline fully and slide back and forth.

The rear bench seat accommo-

dates as well. It folds forward, reclines, or can be removed to add more cargo space. Just trip the quick-release levers, remove the rear seat and you've got space to carry almost 1600 pounds of payload.\*

Choose complete convenience with the available LS package, including power windows, power mirrors, power-assist steering, digital clock and full-function cruise control.

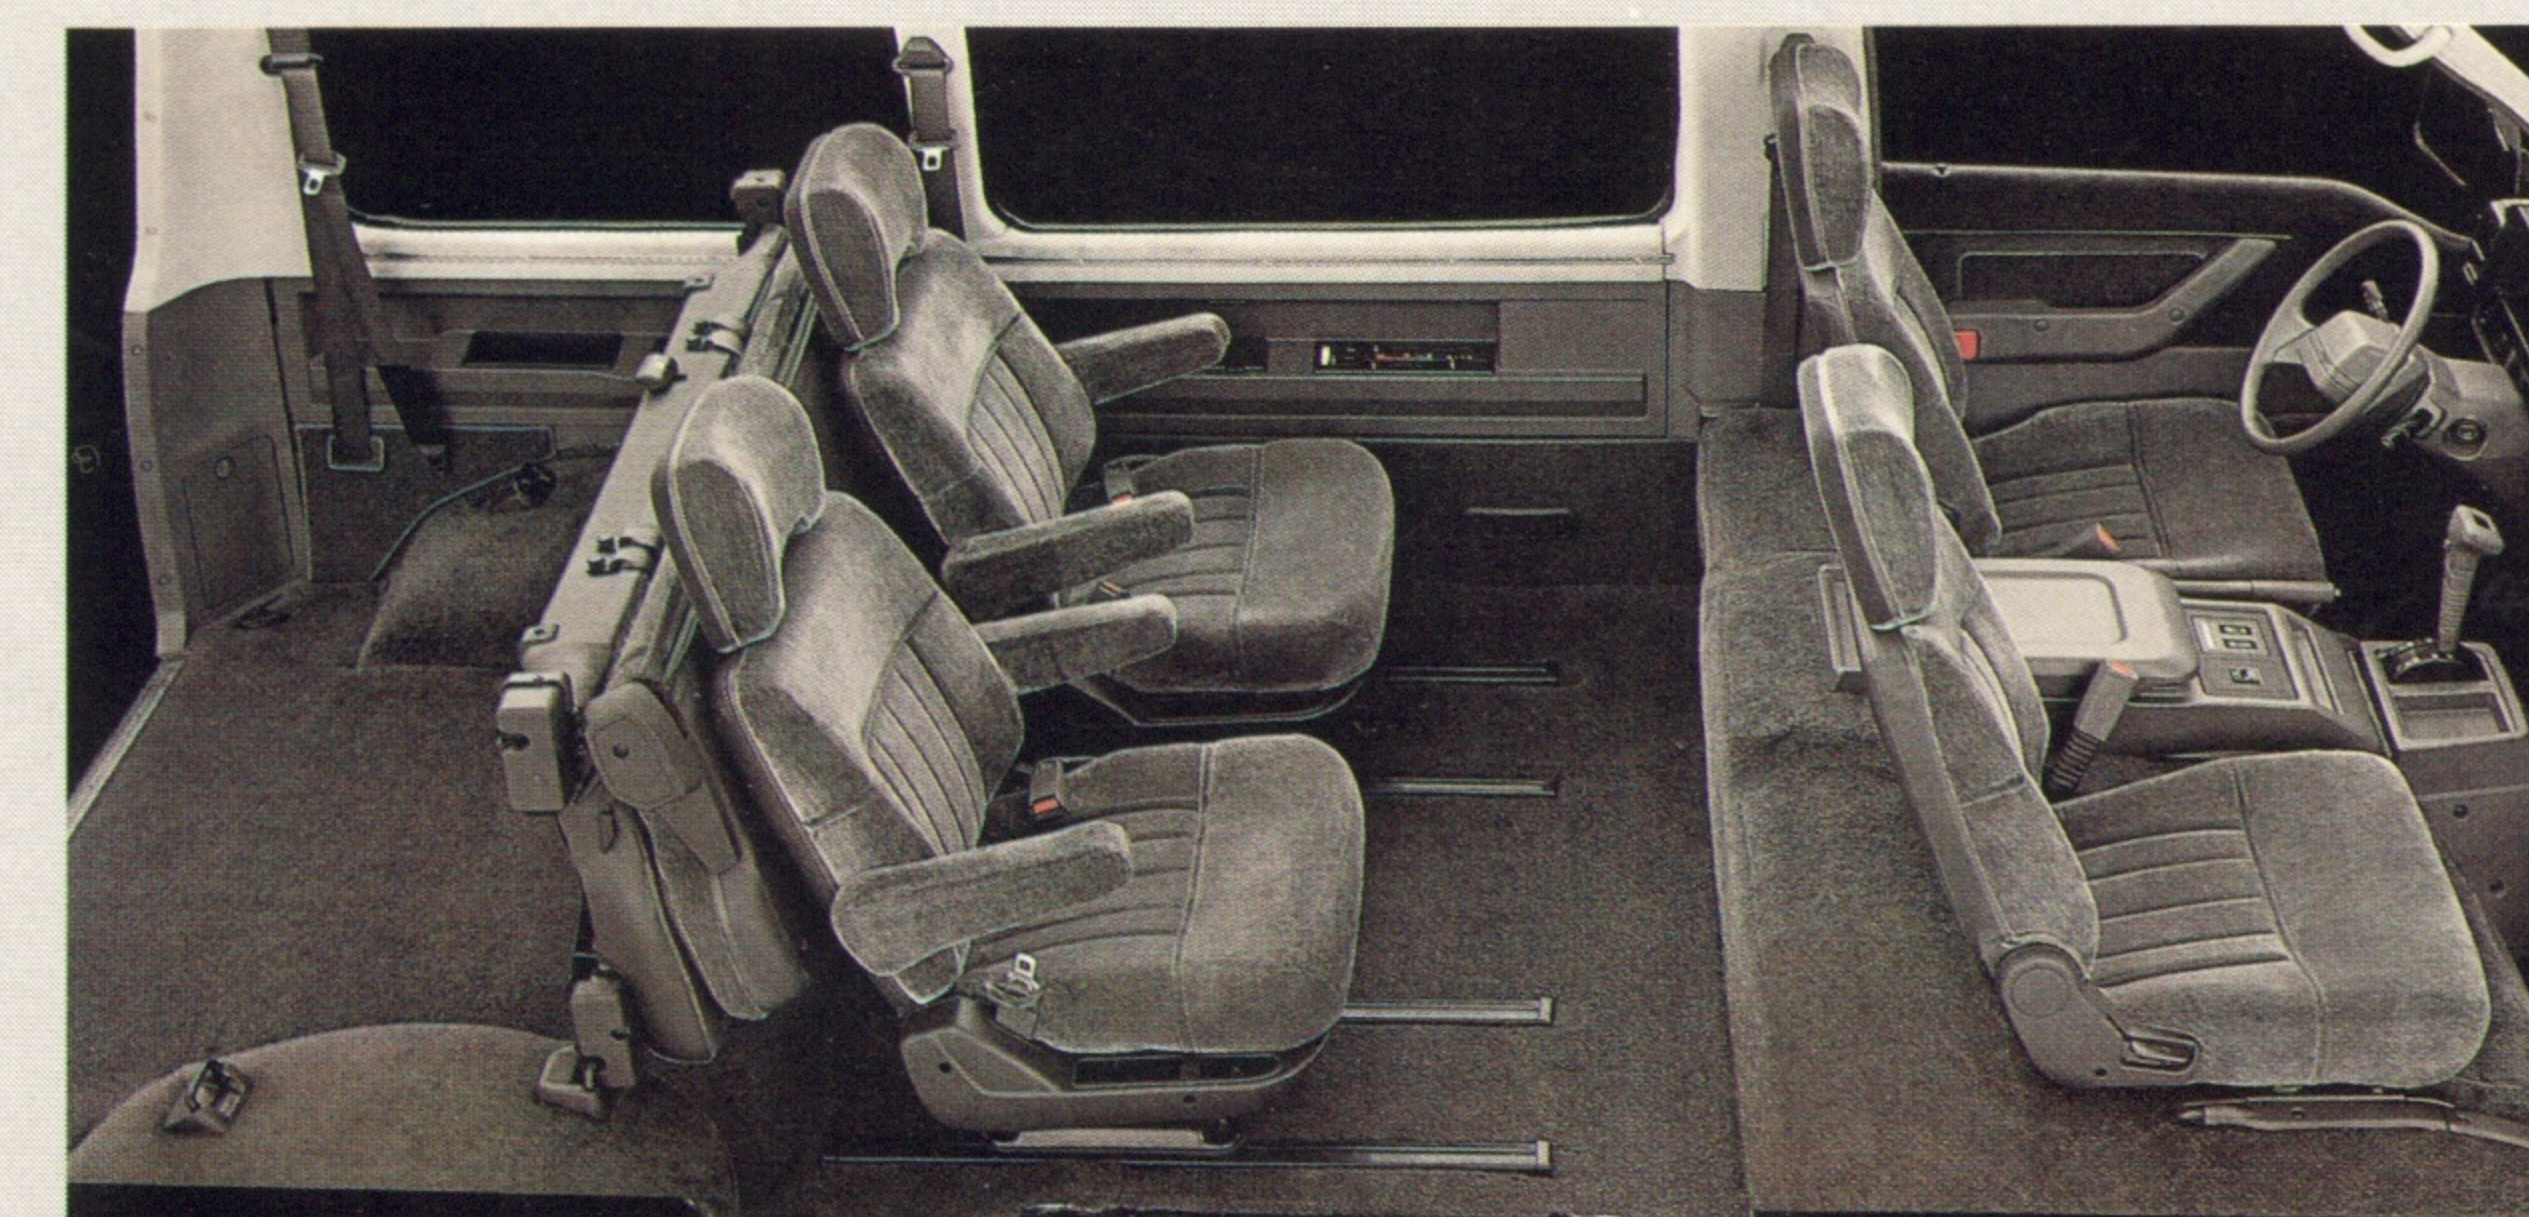

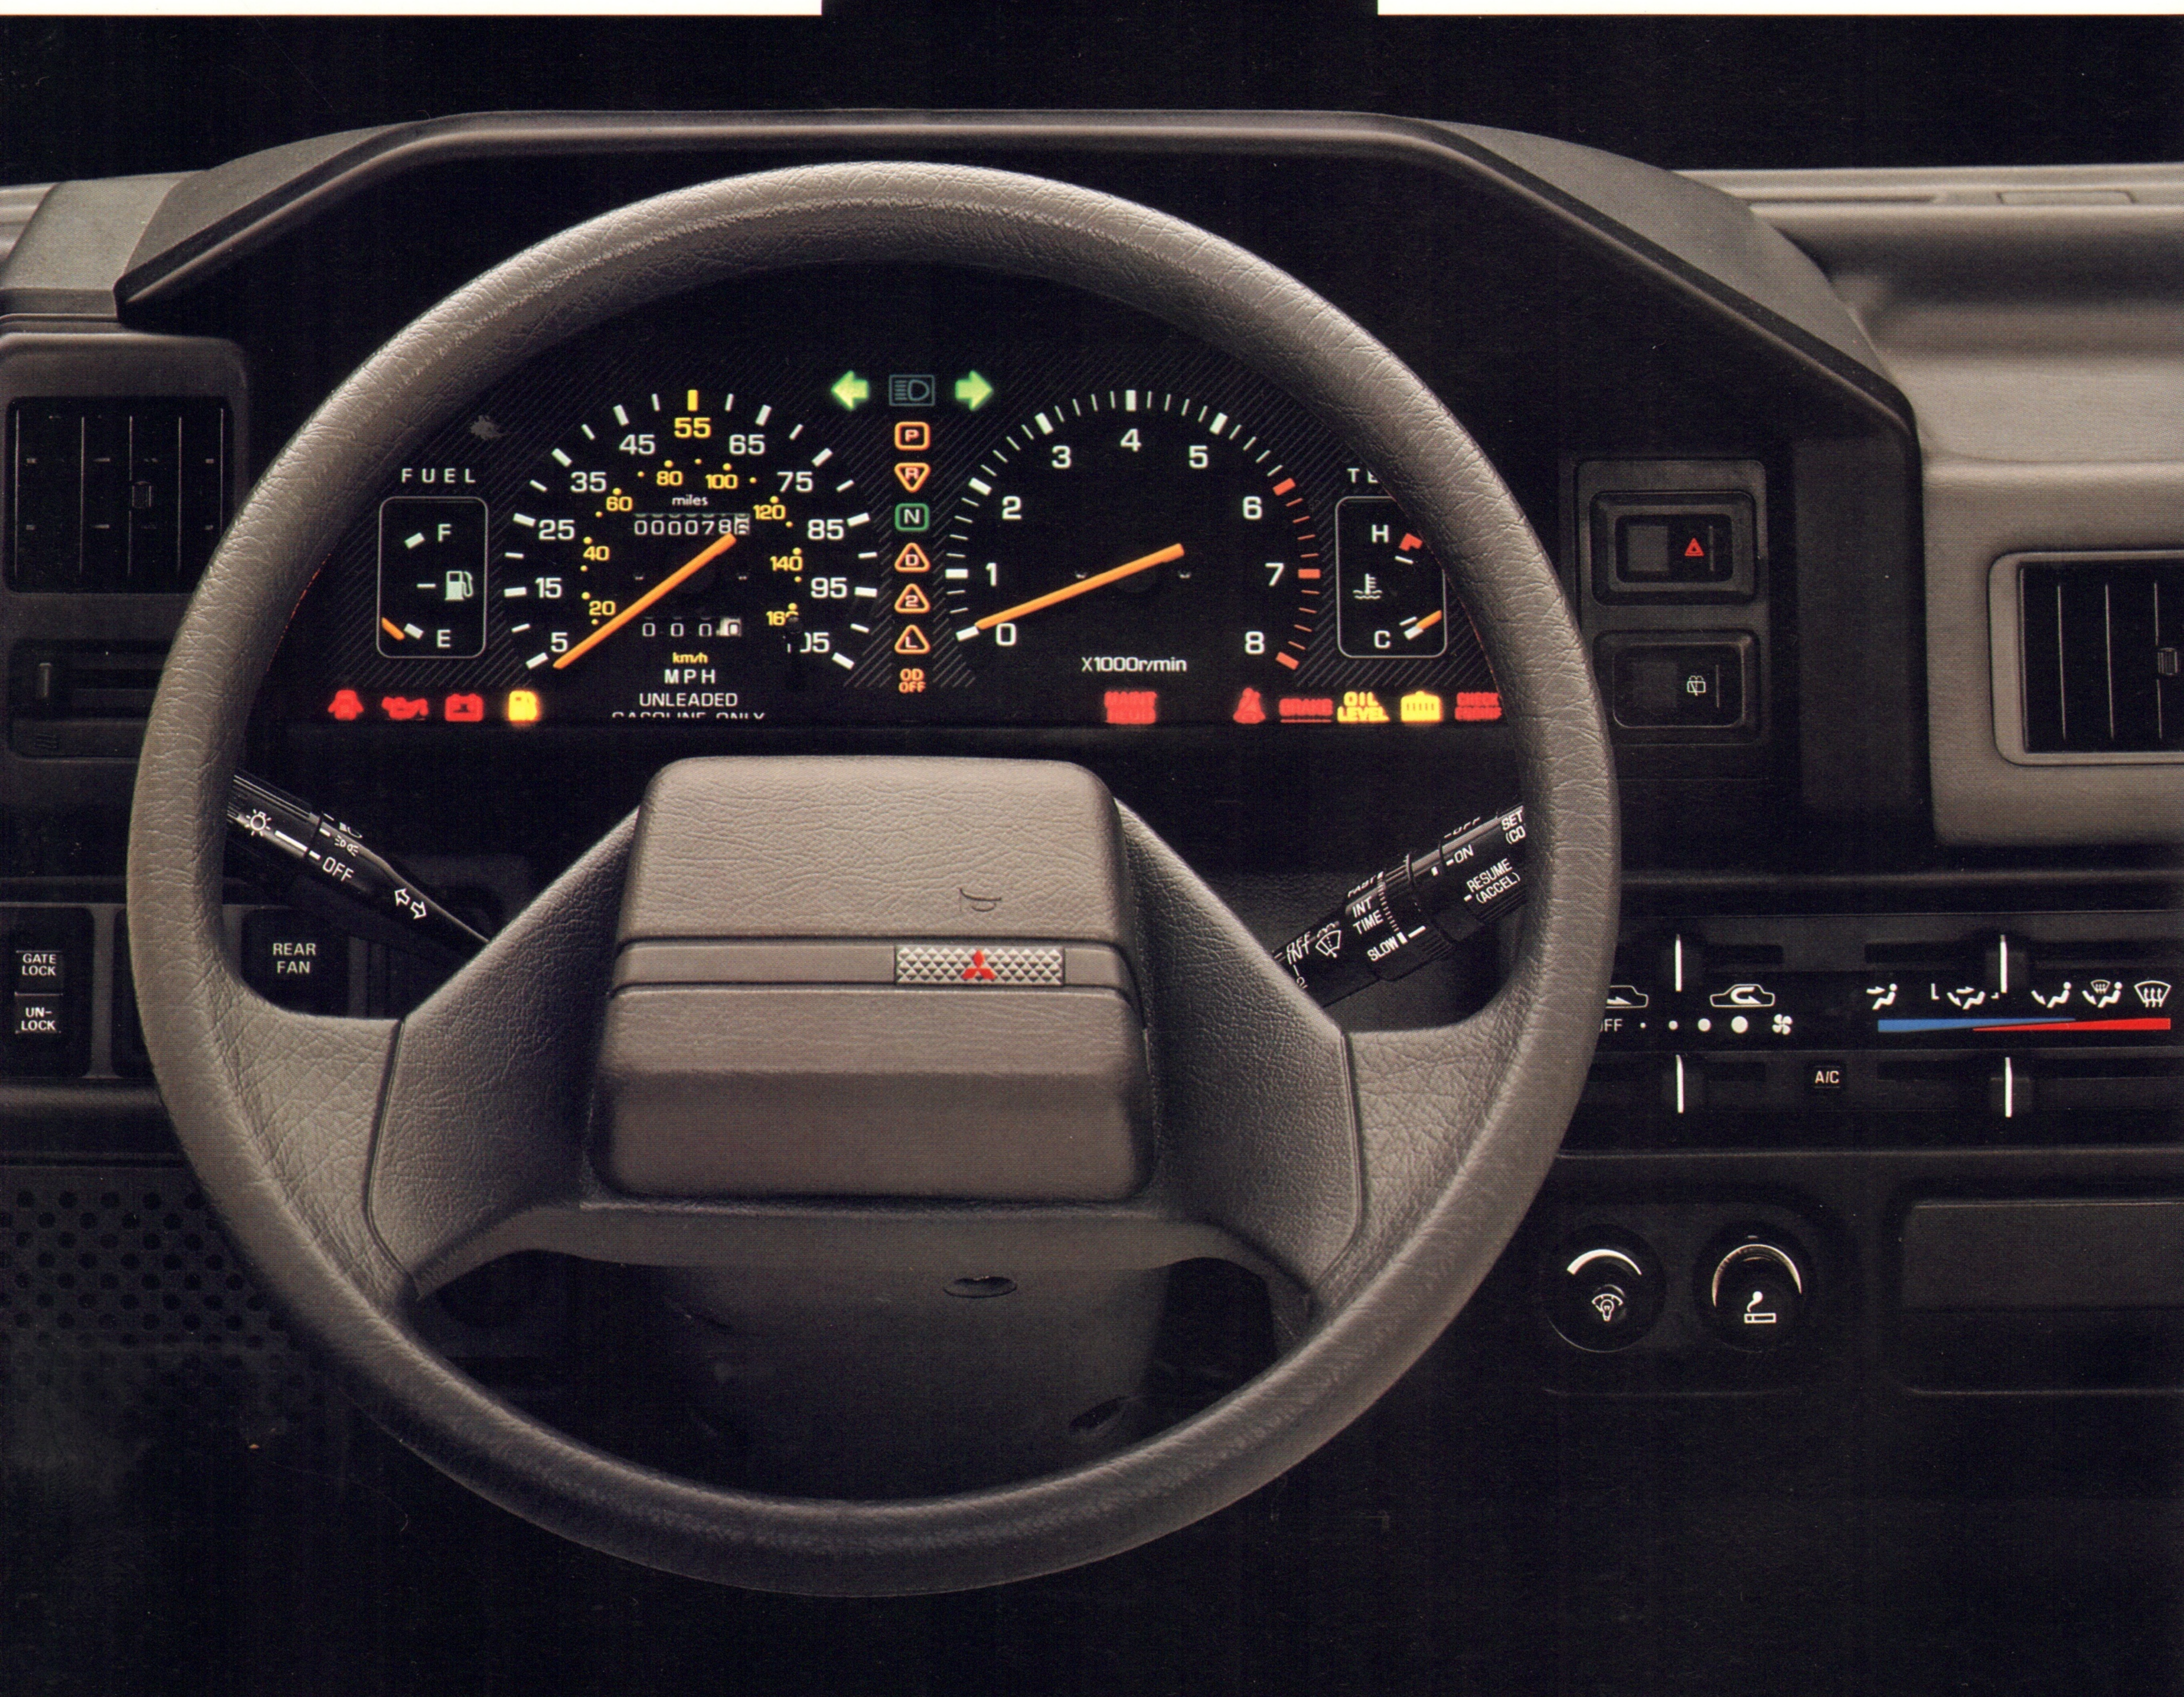

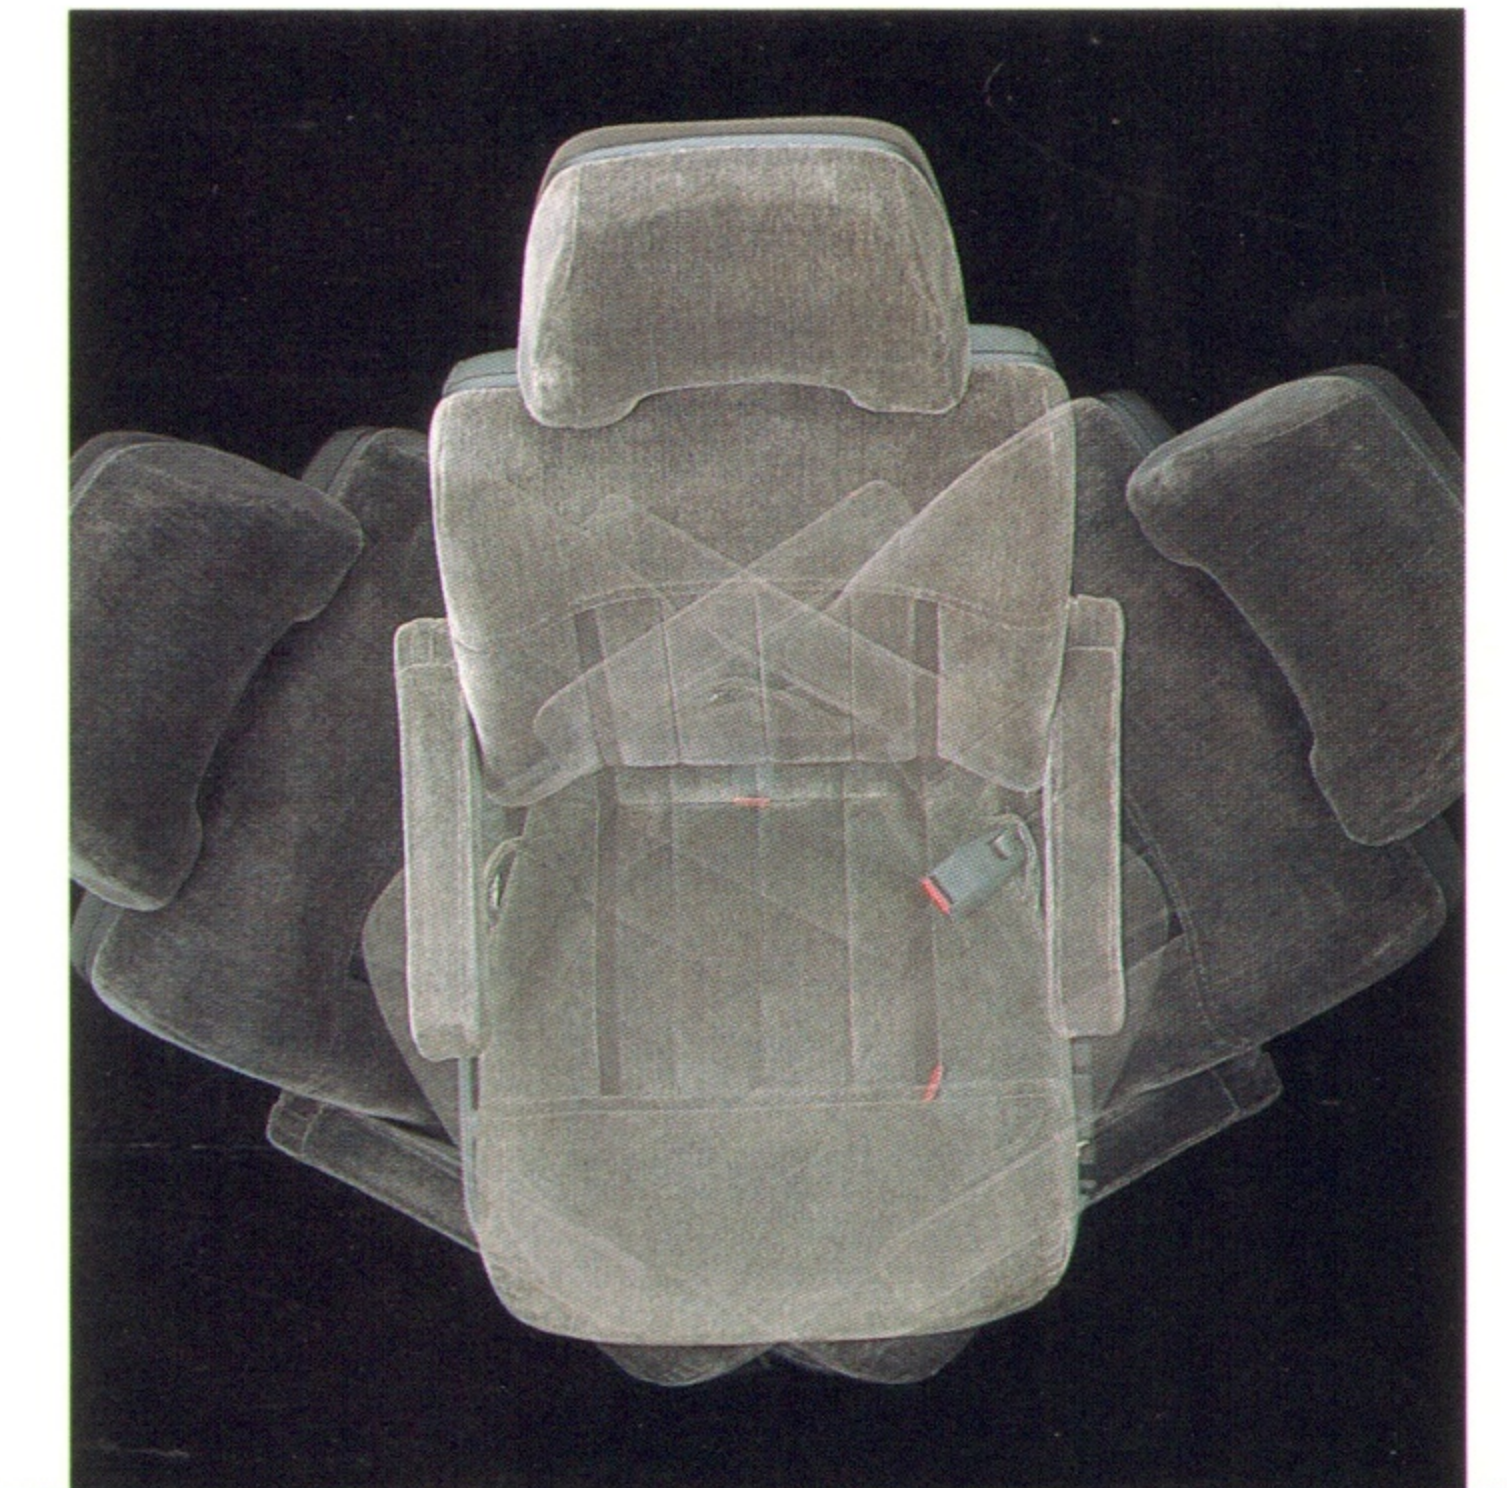

The electronically tuned AM/FM

stereo cassette pours forth rich sound from four speakers with the assistance of an amplified subwoofer.

Wraparound body side molding and bronze-tinted glass add attractive and functional touches.

1989 Wagon: generous space, amazingly versatile seating and a wagonload of comforts and conveniences. For people who want to live as well on the road as they do at home.

\*Includes driver.

Note: Do not use seats in reclined position while vehicle is in operation.

## Space technology at its finest.

Compared to conventional station wagons, sitting in the Mitsubishi Wagon is a new and pleasurable experience.

Front-seat passengers step in; rear-seaters walk in, through a wide-open sliding door (with child-safety lock). All outboard seats feature 3-point seatbelts.

And everyone sits up chair-high, bolstered by shaped cushions and headrests. Rest assured; power door

locks are standard.

Once aboard, look around. You're surrounded by spaciousness. Scenery pours in through sliding picture windows. An optional power sunroof with shade lets in the sky—and ventilation. This living room on wheels refreshes as you drive.

Now, switch on the ignition and set the Mitsubishi Wagon in motion. The electronic multipoint fuel-injected 2.4-liter engine pulls away willingly.

It's mated to a standard 4-speed overdrive automatic transmission that takes the tedium out of shifting.

The independent front suspension helps stabilize the Wagon for a more comfortable ride.

The Wagon is designed to make your life easier, so Mitsubishi adds automatic lash adjusters at each valve to eliminate routine clearance adjustments some other engines require.

A bank of warning lights inform as to low oil pressure, low oil level, low fuel, low coolant fluid, brake system pressure and fluid level, and battery charge.

The maintenance-free battery gives you one less thing to do, and spark plugs designed to serve for up to 60,000 miles help reduce tune-up costs.

Mitsubishi Wagon. Sit back and enjoy the performance.

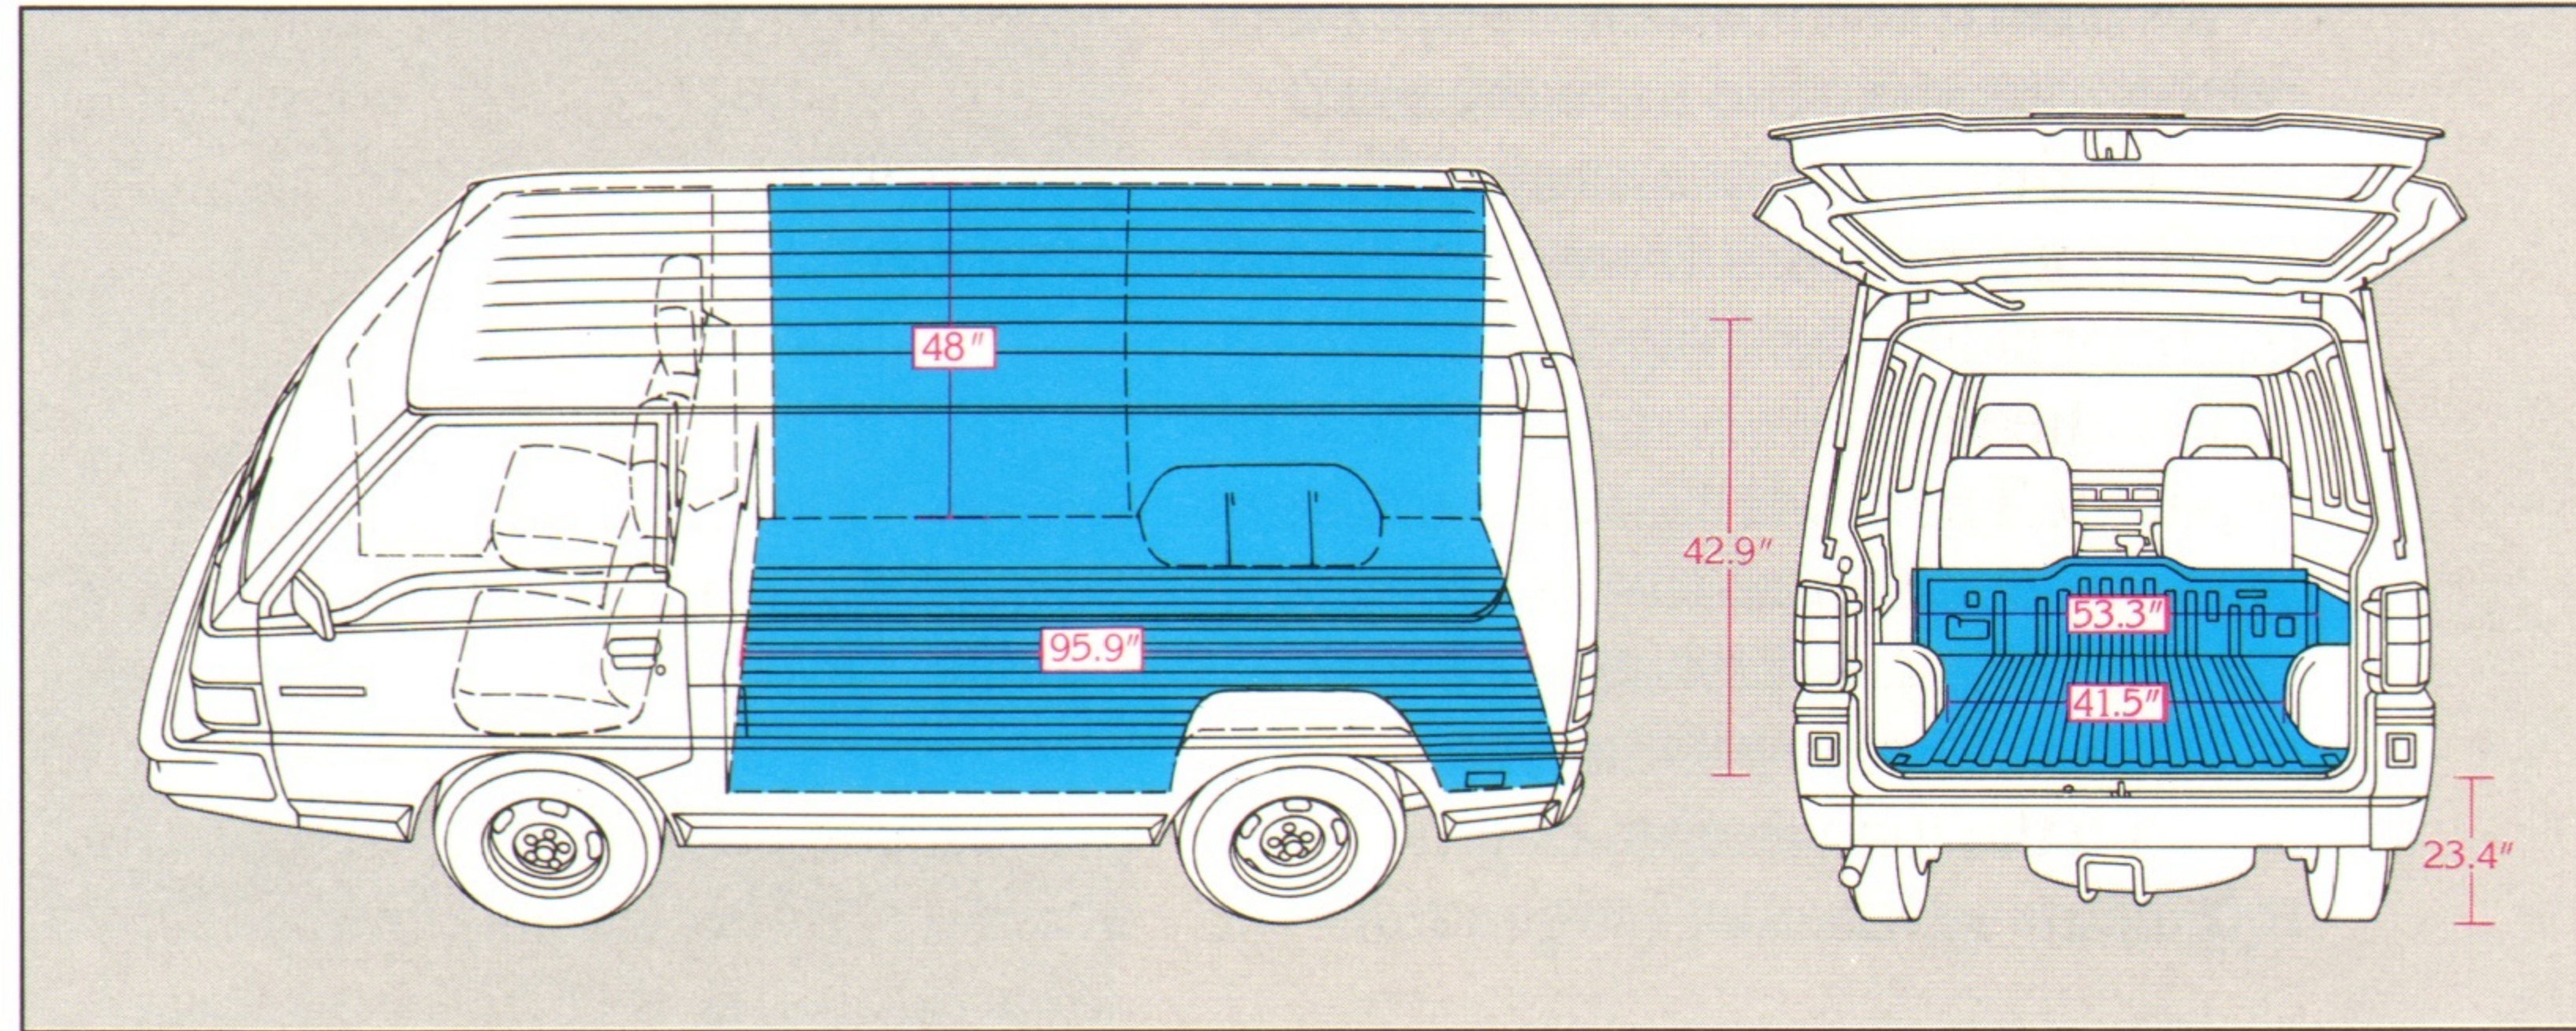

## 1989 Van. A pleasure to do business.

The artful, spacious design of the business end of Van makes your work easier; the thoughtful design of its cabin makes each trip a pleasure.

Need to haul nearly a ton? Mitsubishi's Van can do: payload is 1,951 pounds.\*

The cavernous cargo bay accommodates over 160 cubic feet of just about anything you care to haul. The low lift height from the ground (23.4 inches) takes the struggle out of loading.

\*Includes driver.

Swing the canopy tailgate up and out of your way to ease in pipe and lumber through the rear. Slide the side door a roomy 33 inches wide open for side loading.

Go ahead, load the Van to capacity. There's plenty of solid muscle beneath the flush skin.

A rugged 2.4-liter, electronically fuel-injected engine has the stamina for both the long and short haul.

Patented Dual Engine Stabilizers™ effectively neutralize engine vibra-

tions; you ride smoothly and quietly.

Power-assist brakes (vented front discs, self-adjusting rear drums) stop the action.

Mitsubishi Van gives you easy handling, not manhandling. Rack-and-pinion steering with available variable-boost power assist adds to your sense of control.

The torsion-bar independent front suspension with stabilizer bar helps you and your cargo stay on an even, comfortable keel.

Stainless-steel exhaust system, maintenance-free battery and 60,000-mile spark plugs help keep maintenance costs under control. All fluid reservoirs and dip sticks are easy to reach.

Mitsubishi Van: A workmate that performs like nobody's business.

## Pleasurable perk.

Enter the cabin of the Mitsubishi Van and discover why traveling to and from a job can be a pleasure, not a chore. The interior is as comfortable as the cargo area is tough.

Plush velour reclining bucket seats firmly support you and your passenger. Beneath your feet, thick cut-pile carpeting. The padded, soft-feel steering wheel tilts to suit you and anyone else who drives your Van.

Below your right hand, a

generous center console stores bills, receipt pads, coins and other necessities you want close by.

Full instrumentation keeps you informed of routine engine functions. Controls for the dual, bi-level heating/ventilation system lie within fingertip range. Increase warm-weather comfort with the available air-conditioning system.

The Mitsubishi Van, so well-appointed and well built, it makes doing business a real pleasure.

## Craftsmanship in every detail.

Every Mitsubishi vehicle is a blend of cutting-edge engineering and timeless dedication to detail. Each rigid, high-tensile-strength-steel unibody frame is welded with the precision only today's lasers and computerized robots can produce.

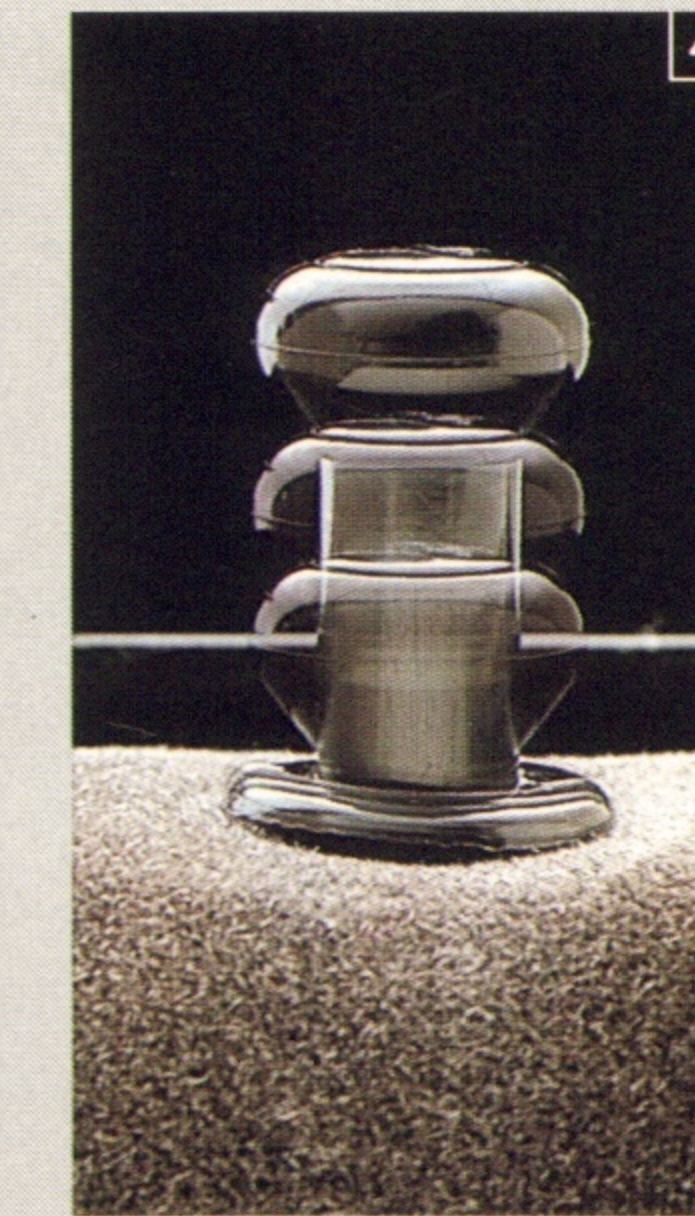

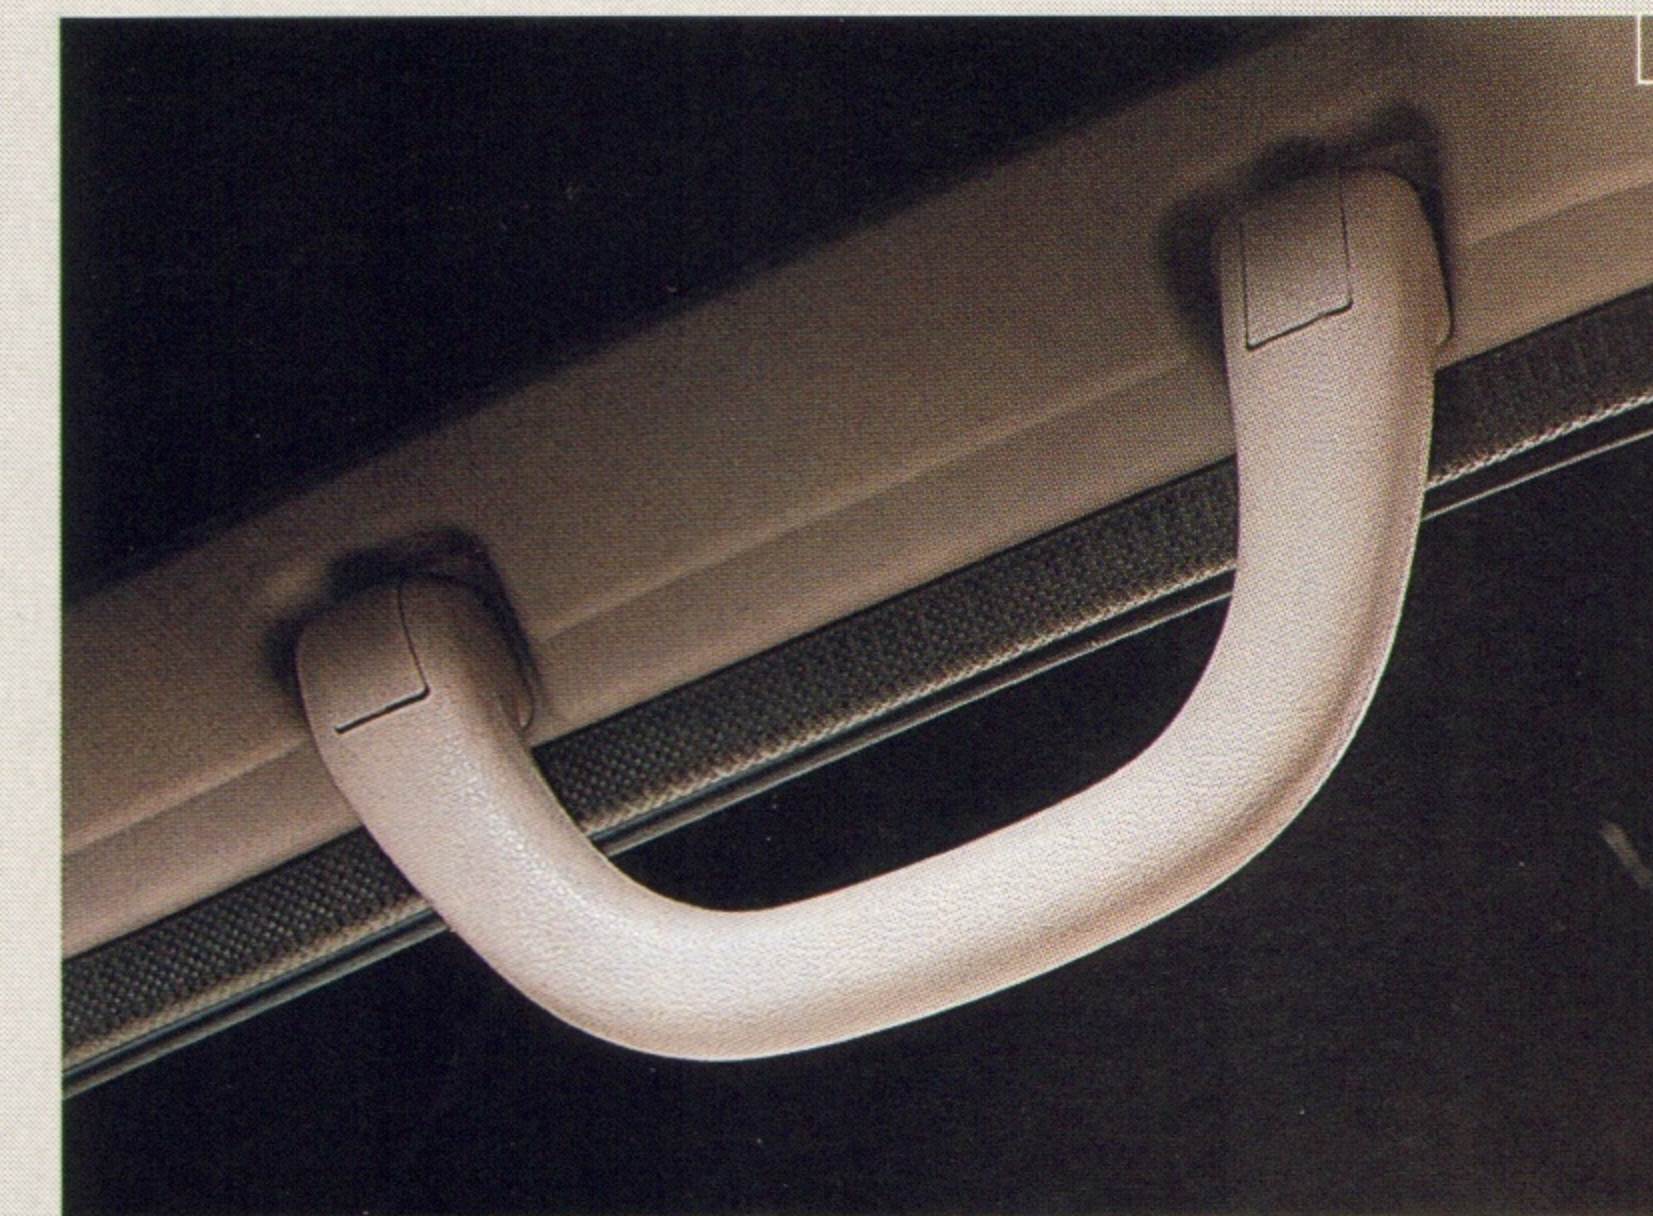

And then the trained skills of dedicated production-line technicians take over. They check the quality of materials and the accuracy of tools. They test parts. Inspect subassem-

blies. Each man with the power—the *duty*—to stop the line if anything doesn't measure up to Mitsubishi's standards.

If a Mitsubishi doesn't pass the tests, it doesn't pass through the factory doors. All this care produces vehicles of proven reliability; cars and trucks that confidently carry the longest warranties in Mitsubishi history. No wonder Mitsubishi is, Suddenly, The Obvious Choice.™

## Van Features.

- 1 Overhead assist grips.
- 2 A rear-hatch pull-down handle is especially convenient when you're loaded down with packages.
- 3 Dual side-view mirrors.
- 4 One touch power door lock securely locks cabin and side doors.
- 5 Front mudguards.
- 6 Rear window wiper/washer and defroster.
- 7 The remote fuel-filler door release is conveniently located beside the driver's seat.

## 3/36 WARRANTY

Mitsubishi's confidence in the quality and craftsmanship used to build their 1989 vehicles is exemplified by the longest warranties in Mitsubishi history.

□ 3-year/36,000-mile basic new vehicle limited warranty that provides extensive protection for your

new car or truck.

□ 3-year/50,000-mile powertrain limited warranty (includes engine, transmission and differential).

□ 5-year/unlimited mileage anti-corrosion perforation limited warranty. For complete details on these warranties, see your Mitsubishi Motors Dealer.

**Diamond Care,<sup>SM</sup>** Mitsubishi's comprehensive new-vehicle delivery program, is designed to ensure that your new Mitsubishi vehicle is thoroughly prepared, inspected and its features explained before you drive off.

We even make sure that the gas tank is full before you leave. And Diamond Care does not end when you leave the dealership. After your first 1,000 miles, you are invited back to have any service need caused by normal vehicle use taken care of absolutely free.

## Wagon features.

① **Front and rear climate controls** allow passengers in the front and back to regulate their own separate heating/ventilation control panels.

② **A large center console** is a handy place to store small items you want to keep at hand. Open the lid and discover a built-in beverage holder.

③ **Dual power remote-control mirrors** (LS only) improve rear-view vision.

④ **The remote-control tailgate switch** locks and unlocks the rear tailgate from the driver's seat.

⑤ **The Wagon's rear step-up bumper** lets you enter and exit with grace, and eases loading and unloading of cargo.

⑥ **Completely flexible passenger seating** is typified by the second row captain's chairs. They move forward and back, swivel 360 degrees and fully recline.\*

⑦ **The rear-seat armrest** pulls down to offer a convenient resting place for elbows, small items or beverages.

⑧ **Rear tie-down hooks** let you secure luggage, or other cargo, easily and conveniently.

\*Do not use seats in reclined position while vehicle is in operation.

## Wagon \ Van Options and Accessories.

① **Available air-conditioning systems** for Wagon (dual) and Van (single) keep the atmosphere comfortably cool on warm days.

② **Tune in to your favorite style of music.** Choose the electronically tuned AM/FM stereo radio with cassette, four speakers and sub-woofer system for Wagon (standard with the LS package), or an electronically tuned AM/FM stereo radio with cassette and two speakers for Van.

③ **A power sliding sunroof** with integral sunshade lets you open the Wagon up to the fresh air.

④ **Full-feature cruise control** keeps you traveling at your chosen pace in the Wagon. (Standard on LS.)

⑤ **A digital quartz clock** is a timely addition to either the Wagon or Van. (Standard on Wagon LS.)

⑥ **Power windows** are an added convenience on the Wagon. One-touch Auto-down feature lowers the driver's

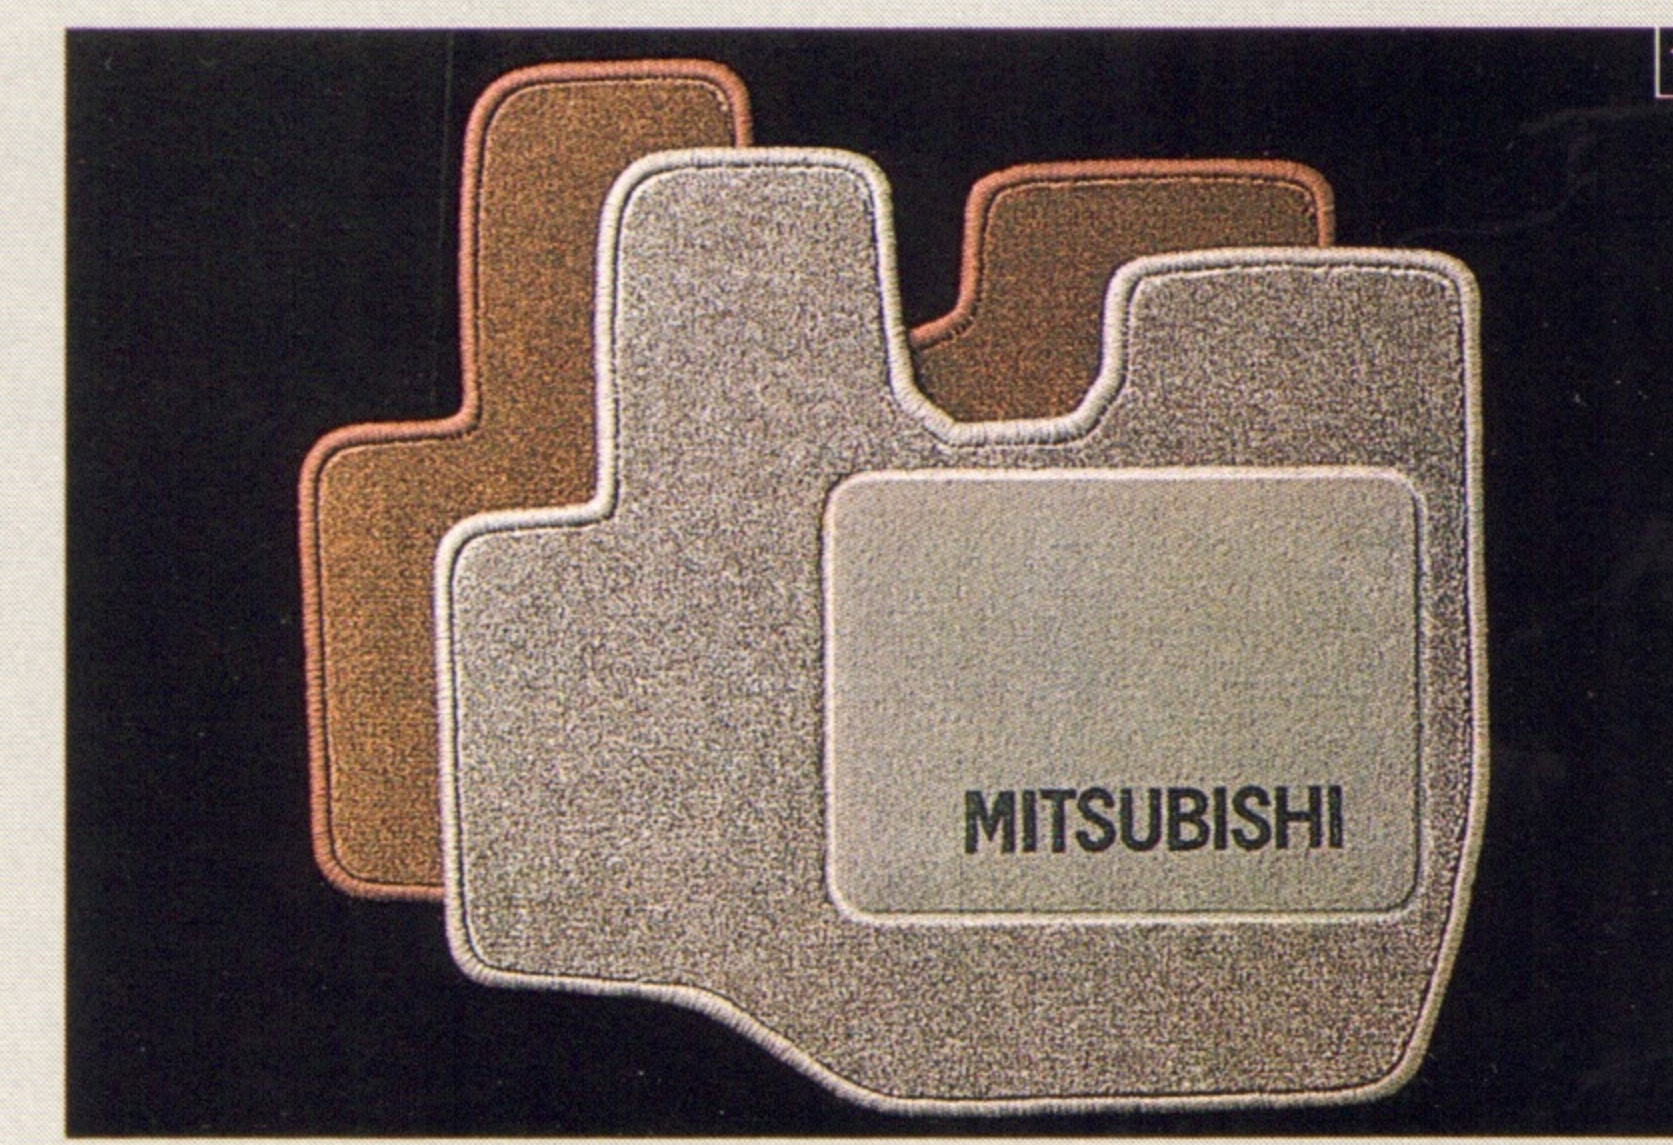

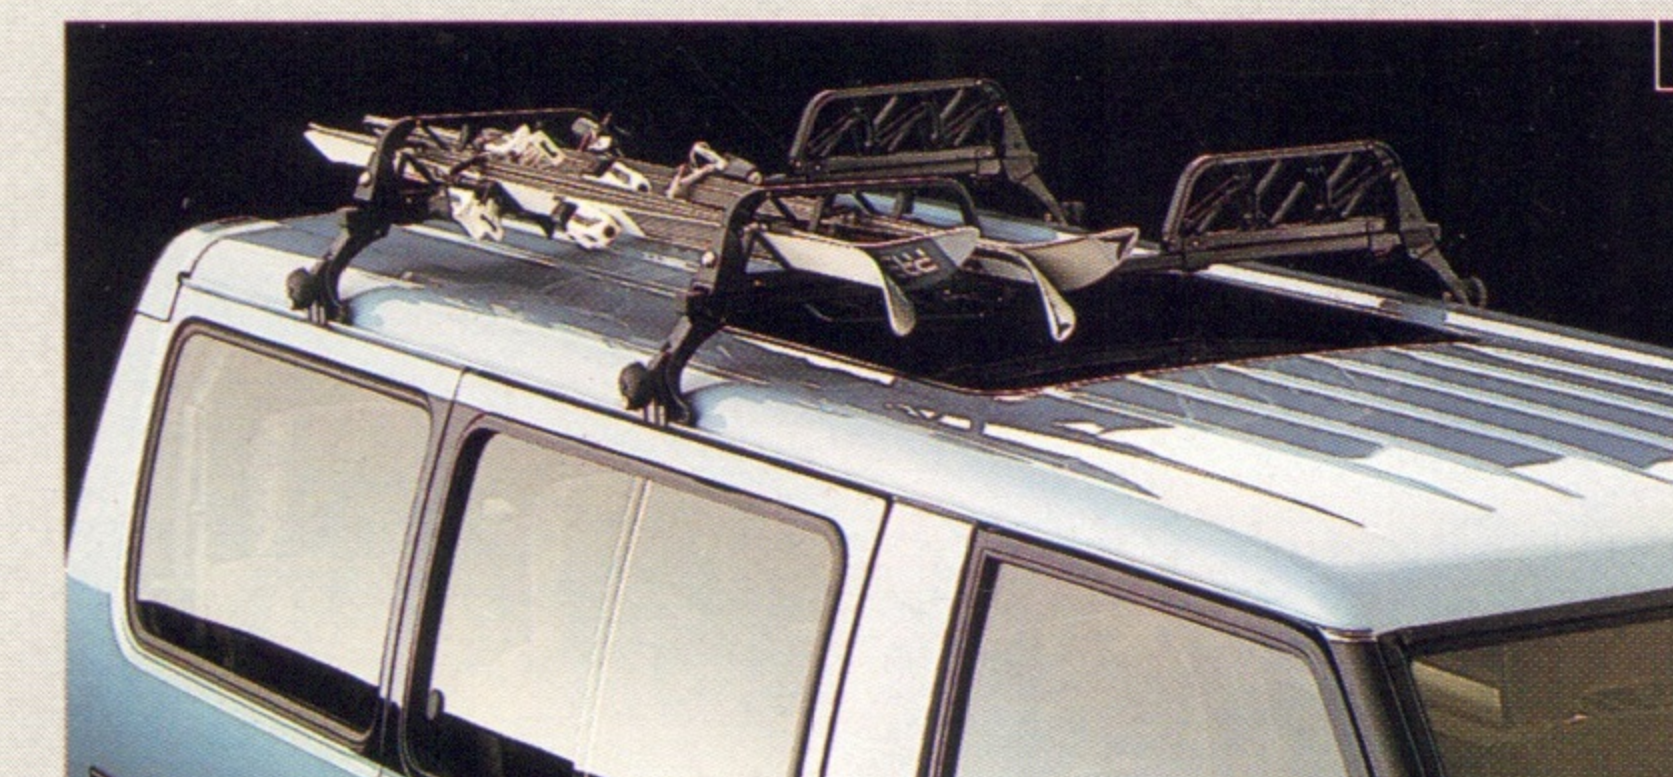

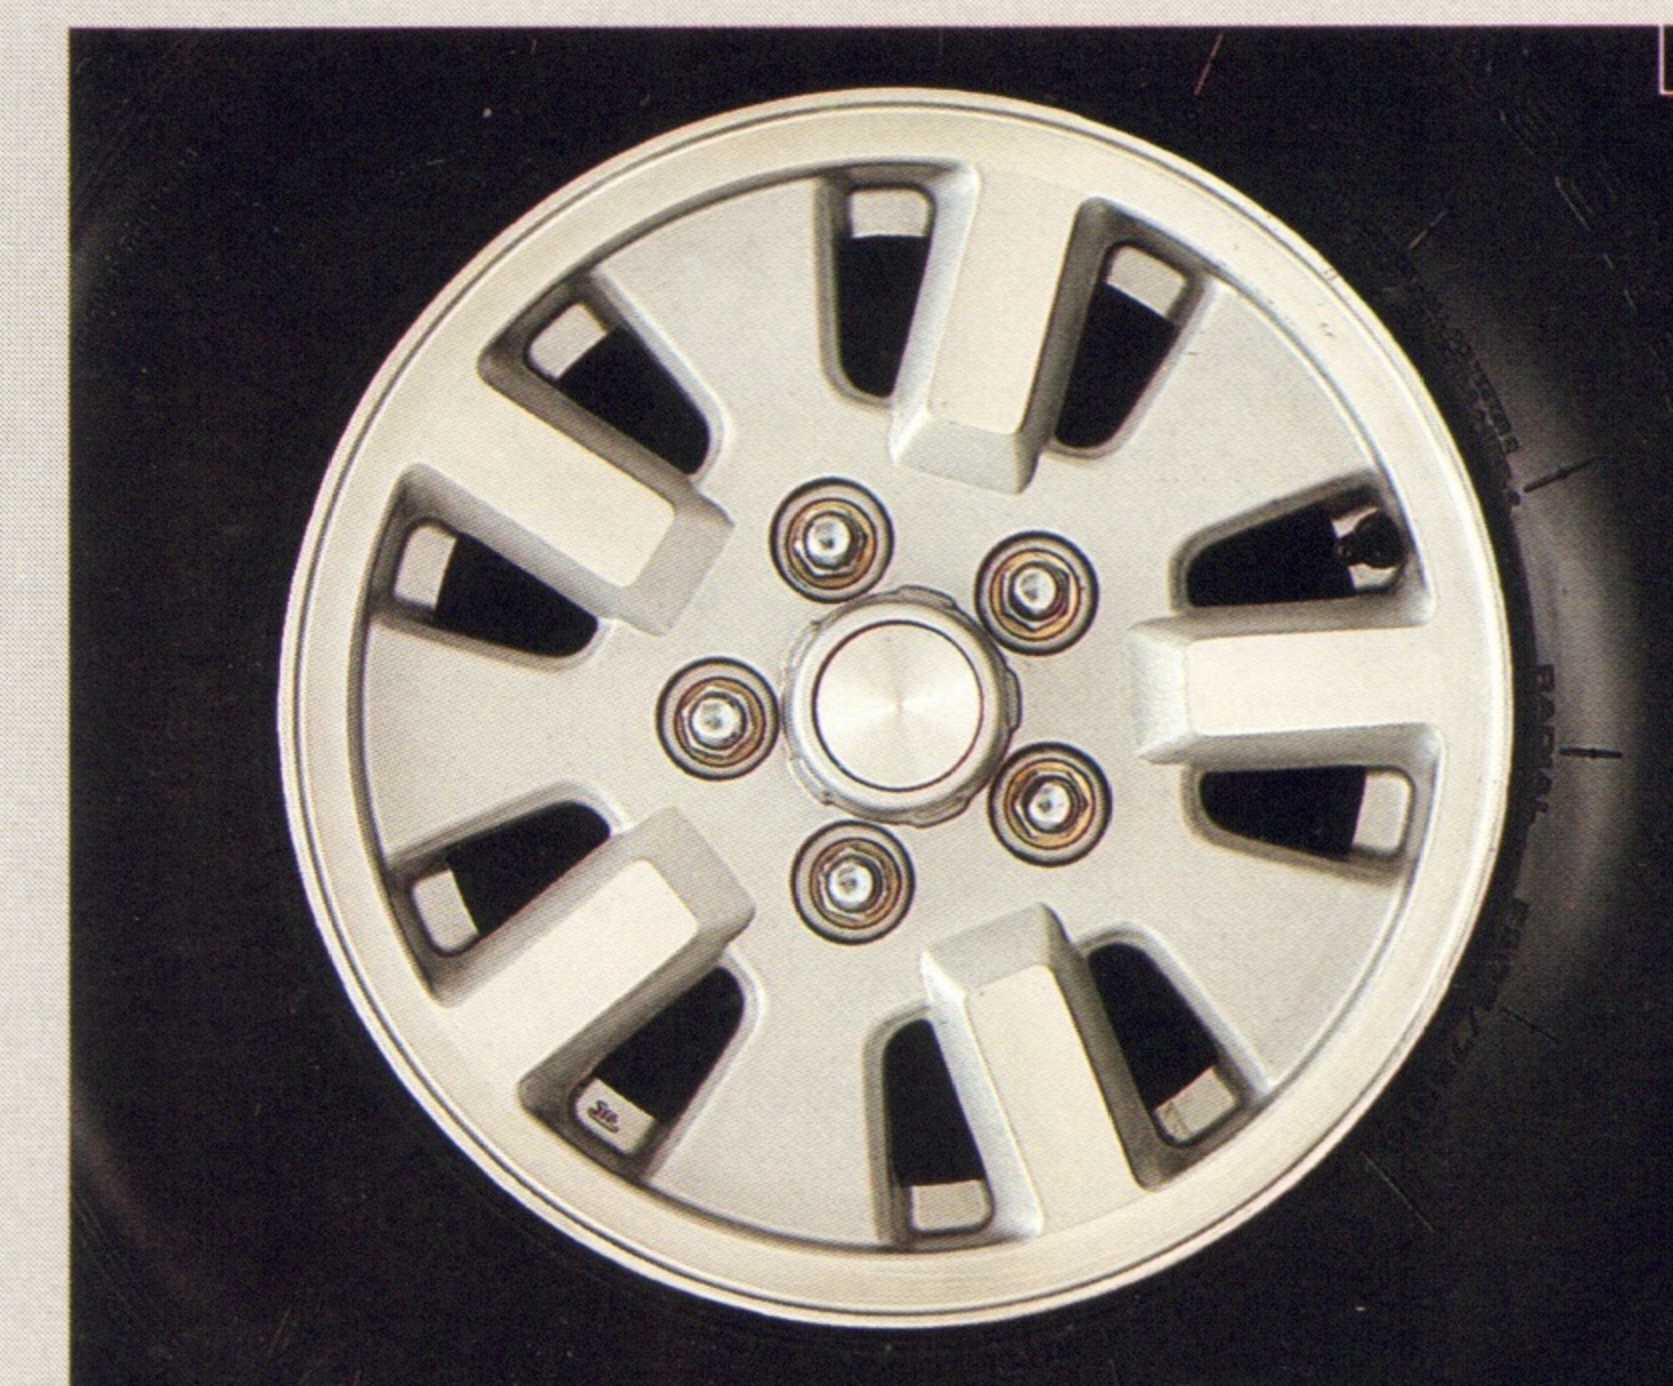

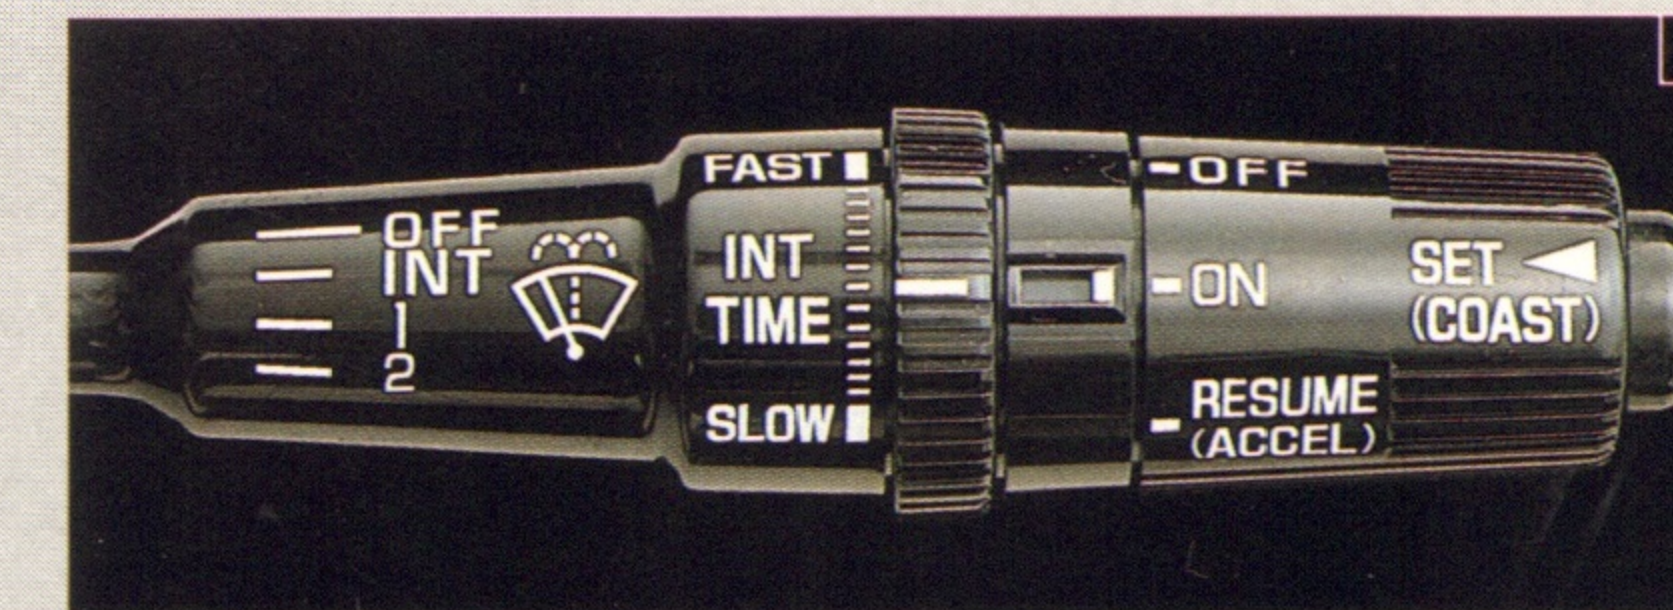

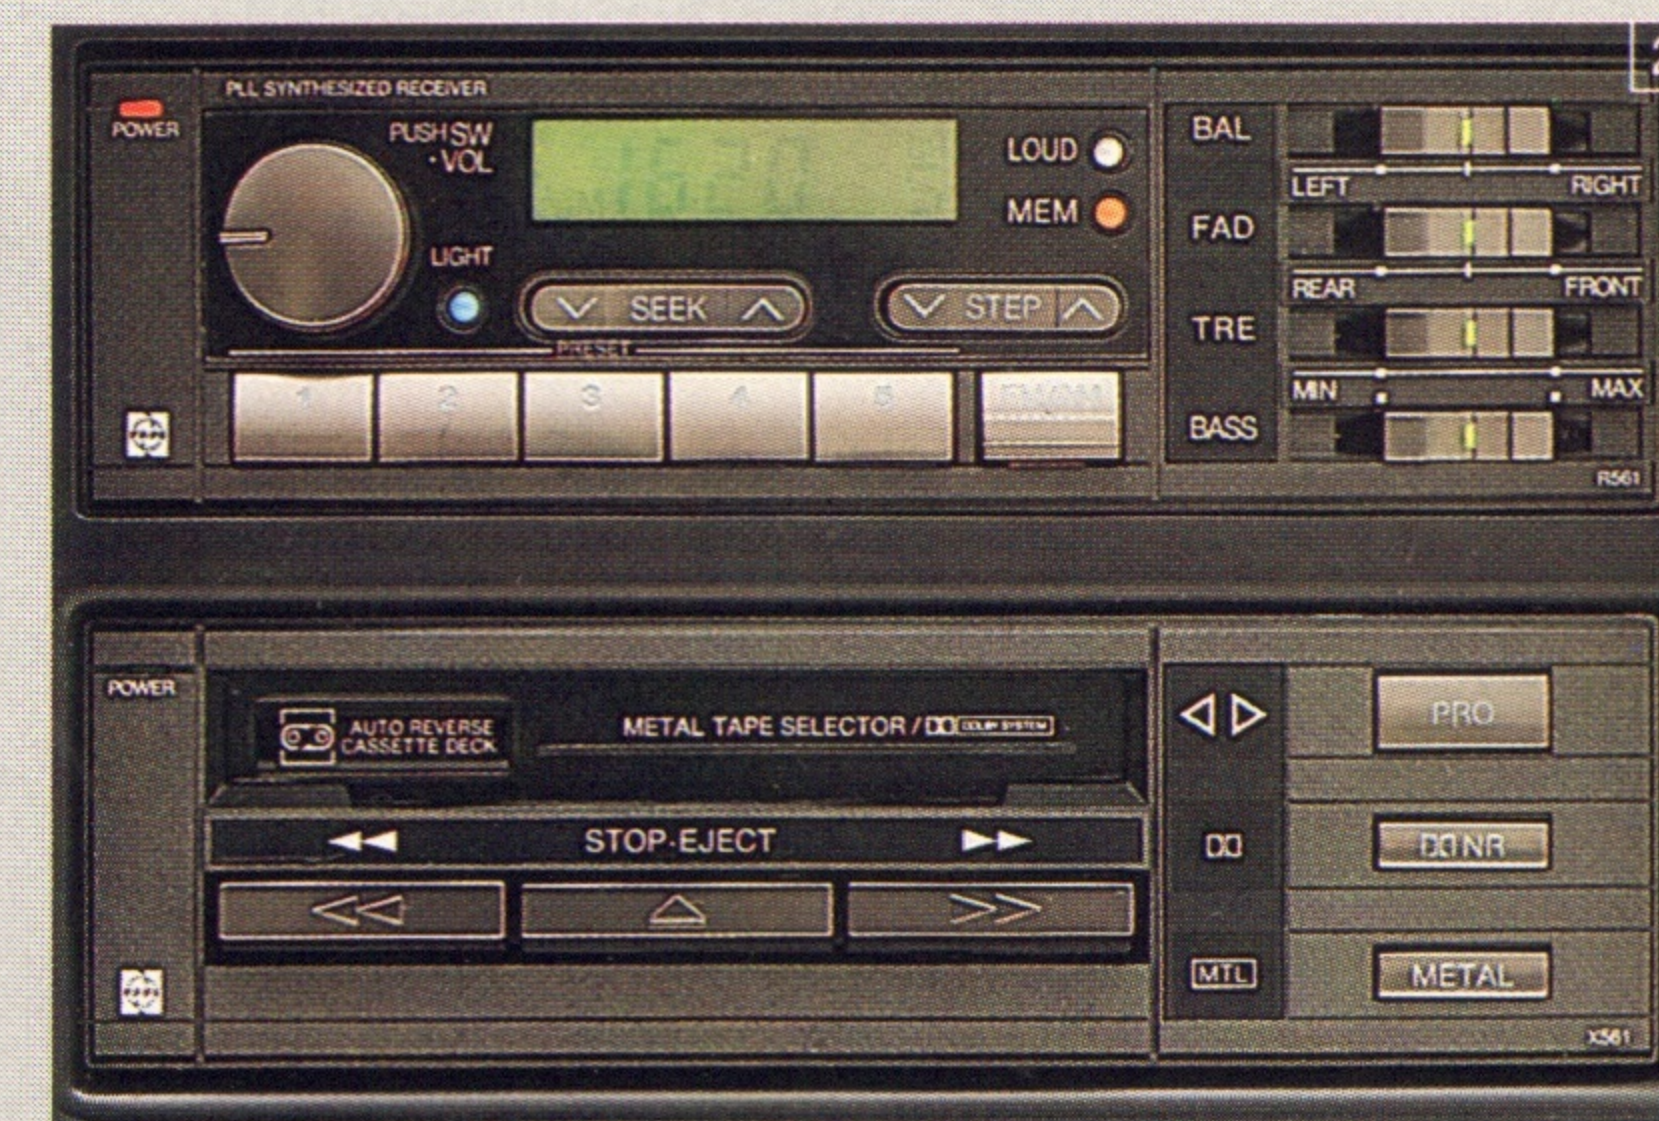

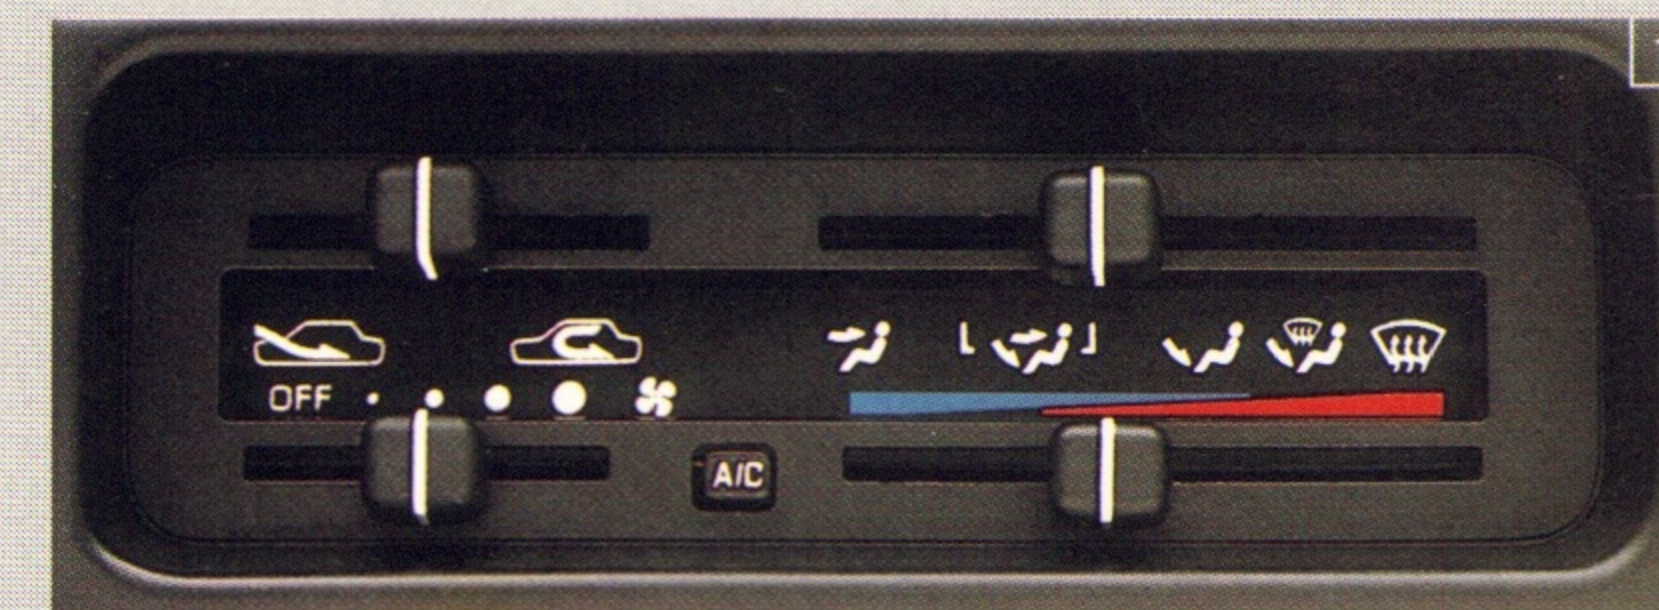

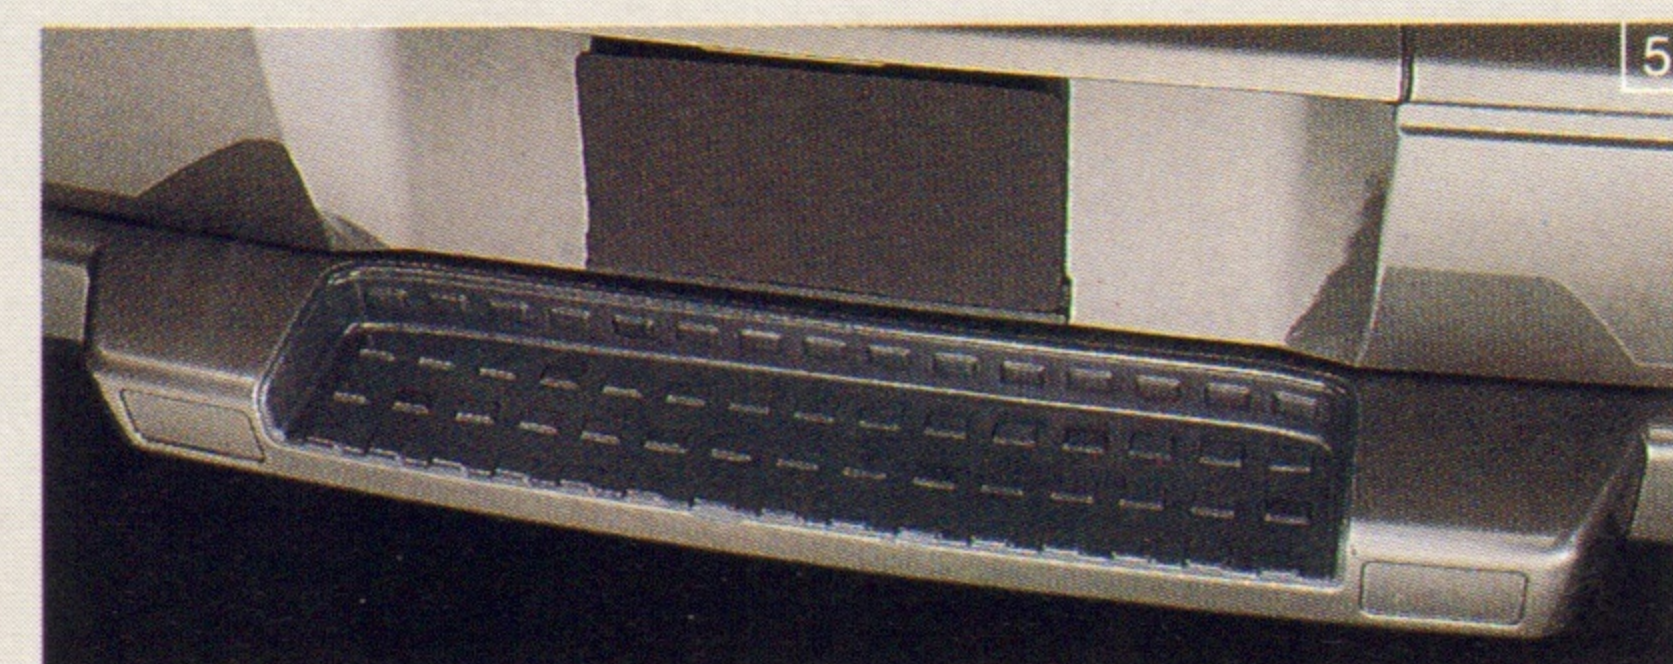

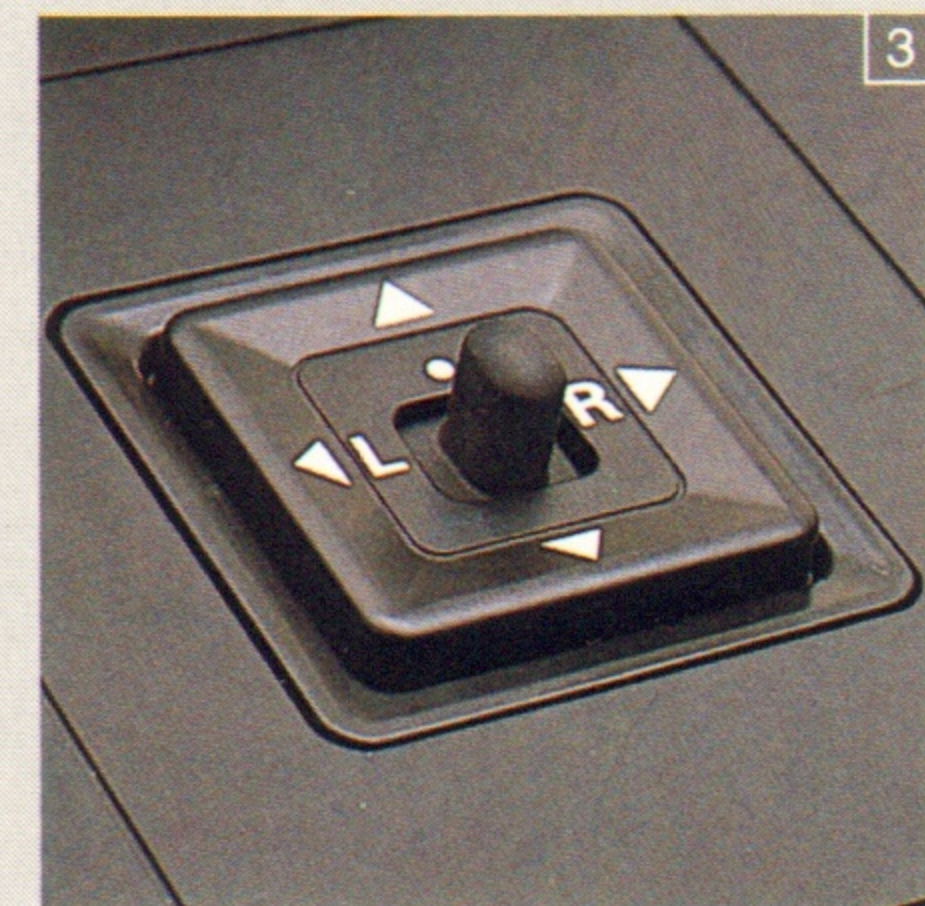

window without continuous pressure on the control. (Wagon LS only.)

⑦ **Aluminum alloy wheels** add a bright accent to the Wagon.

⑧ **The Wagon's roof-rack system** easily adapts for luggage, wind surfer or ⑨ other sporting equipment such as skis.

⑩ **Remote-controlled security system.** (Dealer accessory.)

⑪ **Color-keyed floor mats.** (Dealer accessory.)

## Specifications.
