Product Information

TERCEL - All new in 1983 the 1984 Tercel model line is expanded with the addition of a front-wheel drive Wagon. With the proven drive-train and suspension used in 1983, Tercel continues as an economical and dependable fun-to-drive vehicle available in either two or four-wheel drive.

Tercel Model Line-Up

1984:	Transmission:
3-Dr. Liftback	4SM
3-Dr. Dlx Liftback	5SM, 3SA
3-Dr. SR5 Liftback	5SM
5-Dr. Dlx Liftback	3SA, 5SM
5-Dr. Dlx Wagon	3SA, 5SM
5-Dr. 4x4 Dlx Wagon	3SA*, 6SM
5-Dr. 4x4 SR5 Wagon	6SM

Total Model: 7 (1983:6)

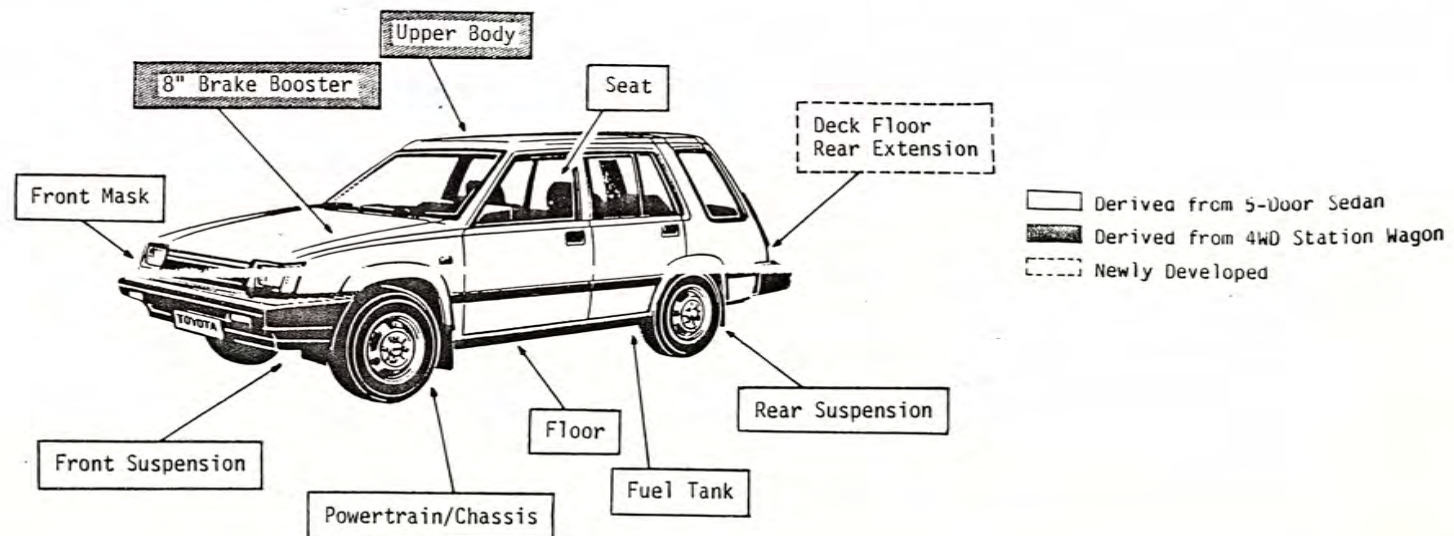

* Available February, 1984

Positioning - The Tercel image of providing a full line-up of low price fully equipped family vehicles is augmented with the addition of the front-wheel drive Wagon. Tercel provides full value with its combination of low price, high mileage, large interior and standard equipment.

MAJOR ADDITIONS/CHANGES

Exterior:

- New for 1984 is the front-wheel drive Station Wagon. It provides the passenger and cargo space of the 4x4 Wagon at a lower price. The Tercel Wagon replaces the Corolla Wagon, which has been discontinued for 1984.

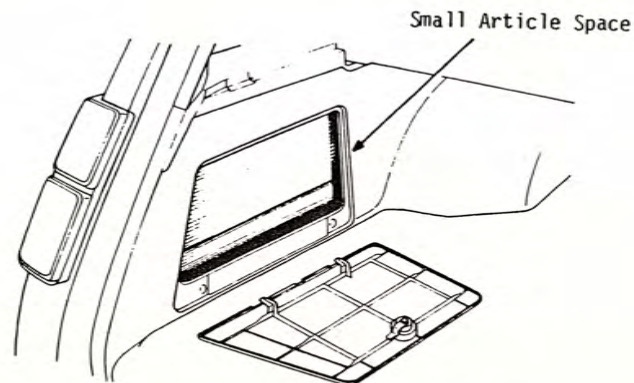

MAJOR ADDITIONS/CHANGES (Continued)

Exterior: (Continued)

- Major appearance changes of the front-wheel drive Wagon compared to the 4WD Wagon are:
 - The front grille is the same as the 3-door and 5-door models which is unchanged from 1983.
 - The 4WD emblem on the rear has been replaced by a Toyota Tercel logo.
 - The Toyota tape mark located on the top of the rear hatch has been deleted.
- The color of the 4x4 Tercel alloy wheel has been changed from white to silver.
- Mudguards which were standard on 1983 4WD Deluxe Wagons have been made optional.

Interior:

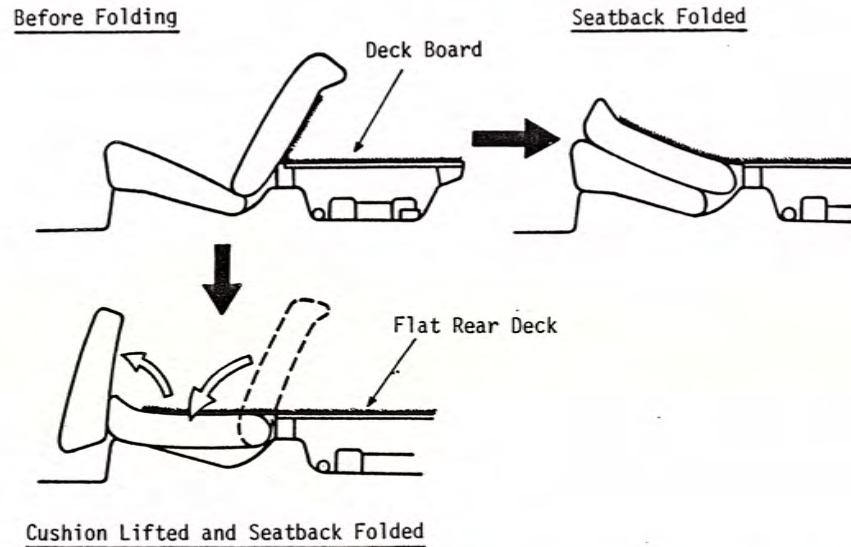

- Interior trim and equipment on the 4x2 Wagon are the same as other Deluxe grade front drive Liftbacks.
- The 4x2 Wagon model receives a small article storage space in the left rear quarter panel area. This area is used for jack and tool storage on the 4x4 Wagon model.

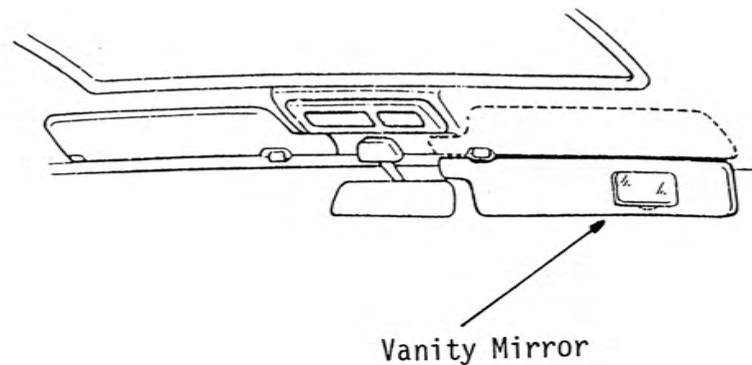

MAJOR ADDITIONS/CHANGES (Continued)

Interior: (Continued)

- Due to a redesigned board and adoption of the 5-door Liftback type split rear seat, the rear seat back folds flat on the front-wheel drive Wagon.

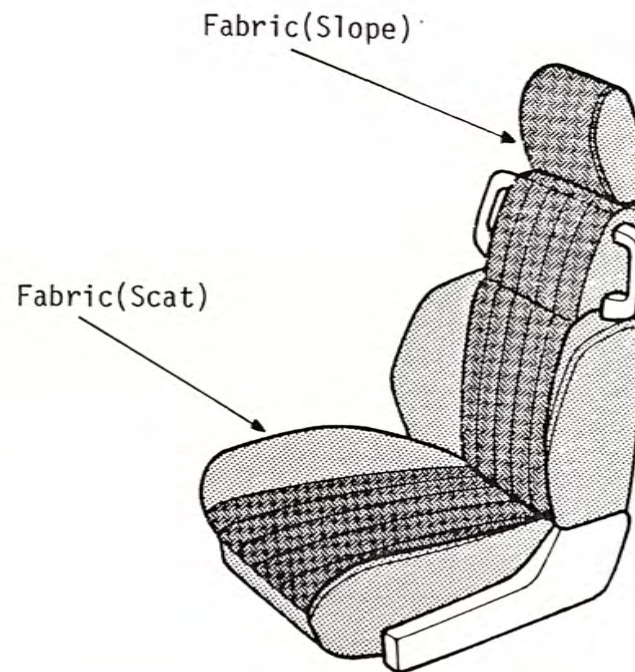

- The cargo deck cover which was standard on 1983 4WD Deluxe Wagons have been made optional for 1984.
- A vanity mirror is now provided on the passenger side sunvisor on all Deluxe and SR5 models.

MAJOR ADDITIONS/CHANGES (Continued)

Interior: (Continued)

- The 3-door SR5 Liftback models are equipped with the sport seat previously used in the 4WD SR5 Wagon only.

MAJOR ADDITIONS/CHANGES (Continued)

Interior: (Continued)

- New seat trim is used in all 1984 models except the 4x4 SR5 Wagon.
- The carpeted floor mat and deck mat has been changed from a plush pile type to a loop pile type.

Mechanical:

- The emission control systems and carburetor specifications have been modified to reduce emissions.
- High altitude option has been incorporated into the basic 49-state emission specifications.
- The wiper linked windshield washer, previously part of the all-weather guard package, has been discontinued.
- To reduce noise, a new sheared type of rear engine mount is being used on automatic transmission models. This mount is currently installed on models with manual transmissions.
- The engine cooling fan motor has been modified to reduce its power consumption.

Options:

- All-weather guard.
- Air conditioning (exc. 4SM).
- Tire package (4x4 Dlx only, includes M/S tires and white steel wheels).
- AM/FM/MPX radio (N/A on 3-door Std, std on SR5 models).
- AM/FM/MPX cassette radio (N/A on 3-door Std).
- Power steering (N/A on 3-door Std).
- Sunroof (N/A on 3-door Std).
- Rear wiper/washer (N/A on 3-door Std).
- Aluminum wheels (SR5 only).
- Two-tone color (SR5 4x4 only).
- Rear defogger (3-door Std grade only, std on all others).
- Fabric interior (N/A 3-door Std and 4x4 Dlx, std on SR5, opt all others).
- Cargo deck cover (N/A 3-door Std, std on SR5 and 5-door Deluxe Liftback, opt all others).
- Mudguards (4x4 Dlx only, std 4x4 SR5).
